A Message from the President
For over six decades Everett Community College has played an important part in the success story of our community. From adult learning and relevant professional and technical programs, to readying students to transfer to 4-year colleges and universities, the College is the academic, technical and cultural center of learning for our region.

With the help of dedicated employees committed to serving students, we are moving forward with plans to strengthen our educational programs, improve student success and retention, continue our building projects, and further other important initiatives.

In January 2007 the College opened the doors on a new science and arts facility—Whitehorse Hall—the first of several buildings to be completed over the next two decades as part of the College’s comprehensive master plan.

During the 2006 and 2007 legislative sessions, the Washington State Legislature adopted recommendations to increase access to baccalaureate degrees in our region, and provided the College with funding to strengthen the University Center, create new partnerships with universities, and build a new Undergraduate Education Center on campus. During the summer of 2007, the College will break ground on Gray Wolf Hall, which will house undergraduate math, English, social sciences, distance and four-year education programs. The first floor will become the new home for the University Center. The building will add up to 80,000 square feet in building area to the College by Winter Quarter 2009.

The college continues to work closely with business and industry to prepare a trained work force in support of the region’s strong economic future. The college has introduced an advanced manufacturing program with new degrees and certificates that will prepare students for roles in the business and industrial work force, including new programs in manufacturing operations and composites. Also, an expanded Paine Field Technical Center will provide training for the aerospace, manufacturing, construction, transportation and marine industries that could produce up to 400 highly skilled workers each year. The School of Business Design is entering its third year with refined and enhanced programs for business entrepreneurs, and the College is working with the Tulalip Tribes to develop the Tulalip Tribal Management degree program for the Tribes’ growing resort complex, which is projected to create another 400 jobs for skilled people inside and outside the Tribes.

The campus is actively engaged in this complex and exciting process with many talented students, faculty and staff participating in dialogues about our plans to meet the higher education needs of our community.

I invite you to become part of Everett Community College and its bright future. Today it is a welcoming and accessible place for all who choose to come here. By joining our community of learners, you are becoming a part of our continuing success story.

I look forward to seeing you,

Dr. David Beyer

About Everett Community College

Founded in 1941, Everett Community College has grown from modest beginnings in a converted elementary school to become a regional state-supported center for education, serving university-bound students as well as a growing workforce seeking new skills for challenging careers. The College moved its main campus to its present site in 1958, on 22 well-tended acres overlooking Legion Memorial Golf Course in North Everett.

The college also operates the Aviation Maintenance Technical School at Paine Field, the Applied Technology Training Center in south Everett, and a School of Cosmetology in Marysville. College classes are also taught at the University Center of North Puget Sound in downtown Everett, in Monroe at Monroe High and Junior High Schools, and through an expanding distance-learning network. The college’s Fitness and Sports Center is located three blocks south of the main campus.

In 2001, a 25-year Facilities Master Plan was developed by the college to meet the region’s higher education needs. This plan provides space for new programs, and supports Snohomish County’s plans for the future by expanding educational opportunities, a key county goal for education, workforce, and economic development. The first major project completed within this plan was Whitehorse Hall. Opened in January 2007, this unique facility brings the College’s visual arts, journalism and physical sciences together into a well-designed, technologically-advanced 80,000 square-foot building. Construction has begun on Gray Wolf Hall, a center for transfer and university programs, scheduled to open in January 2009. Everett Community College is one of 34 community and technical colleges governed by the Washington State Board of Community and Technical Colleges. The college is administered by a five-member board of trustees appointed by the Governor of the State of Washington.

EvCC’s faculty and staff build partnerships with business and industry, local communities and other educational institutions to ensure that learning at EvCC is dynamic and relevant. The College is accredited by the Northwest Commission on Colleges and Universities and offers Associate’s degrees in Arts and Sciences, Business, General Studies, Science, Fine Arts, and Technical Arts. Certificates of Completion are awarded in more than 20 technical and career fields. Students can also access Adult Education, English as a Second Language, and General Education Diploma programs.

Everett Community College partners with a number of colleges and universities to offer Bachelor’s and Master’s degrees for regional residents through the University Center of North Puget Sound. Western Washington University’s Everett Education Center is located east of the main campus at the Broadway Center.

EvCC students have gone on to serve their communities in the United States Congress, the Washington State Legislature, and local government; they build businesses and support enterprises that fuel the region’s— and the nation’s— economy, and distinguish themselves in the world of art, literature and music.
University Transfer Programs

Students planning to transfer to another college or university after attending Everett Community College have many options and enjoy the benefits of a long tradition of successful transfer relations between EvCC and universities in Washington state. The College participates in a wide variety of transfer agreements with most colleges and universities in Washington and several in Oregon. The following degree programs are supported by those transfer agreements:

- **The Associate of Arts and Sciences - Option II** satisfies the lower division general education requirements of most universities in Washington and several in Oregon, and students enter with junior standing. Students who identify their university major can usually complete most prerequisites or lower division requirements for that major at EvCC within the guidelines of the Option II direct transfer degree. In fact, for a number of majors it is critically important to complete the lower division preparatory requirements at EvCC.

- **The Associate in Business - Direct Transfer degree** provides students who intend to major in business administration or accounting a smooth transfer to several designated universities in Washington.

- **Alternatively, transfer students in other selected majors may find that our Associate in Arts and Sciences - Option I, and Associate in Applied Science - Transfer offer additional options for tailoring their EvCC coursework for successful transfer.**

Because EvCC’s tuition is much lower than tuition at the university level, students may find that they can complete the first two years of their college education at a reasonable cost and use the savings to continue their education at the university. Not only are the financial savings significant, but studies have indicated that transfer students to universities from Everett Community College demonstrate strong academic achievement at the university level.

Professional and Technical Programs

Everett Community College offers a variety of professional-technical programs in high demand occupations. Short-term training, certificates and a variety of specific Associate in Technical Arts (ATA) degrees provide many options for students seeking to sharpen skills and enter or advance within their careers. In order to prepare students for employment, all professional-technical areas of study provide courses with content and skills specific to that occupation. In addition, our programs provide students with computational, human relations and communication skills as they relate to the workplace. The College relies upon advisory committees, made up of representatives from management and labor in the various occupational fields, to help develop and maintain cutting edge courses by incorporating current skills standards and competencies necessary for successful employment. They also provide a liaison with business and industry in researching employment and training needs.

Rapidly advancing technologies create the possibility that workers will retrain several times during their lifetime. The College collaborates with DSHS, Employment Security, DVR, the Workforce Development Council and many community-based organizations in providing training, retraining, and job skill upgrades. The College works with labor to provide several areas of specific training for apprentices.

Although the primary goal of professional-technical education is to prepare students for immediate employment, students may be able to transfer some of their professional-technical coursework to a university for further education toward a bachelor’s degree. For example, City University and The Evergreen State College accept most of our ATA degrees in transfer. Also, the Associate in Applied Science - Transfer enables students in designated technical programs to transfer their credits to a university with a similar program. Additionally, many professional-technical courses are articulated with K-12 programs through the Tech Prep Career Pathways. Students should check with a program advisor for credit eligibility requirements.

Curriculum guides in all professional/technical areas are available to assist students in planning programs. Refer to the Courses section of this Catalog for information about programs in your interest area or call Enrollment Services for additional information.

Adult Education/High School Completion

Everett Community College offers courses for adults who wish to improve their basic skills or English communication skills. Classes are offered in the day and evening, both on- and off-campus. The Basic Skills program provides instruction in reading, writing, and math at several levels. GED Test Preparation classes are also taught as part of the Basic Skills Program. Orientation and registration information is available through the Adult Education Office, 425-388-9291.

English as a Second Language classes are provided to non-English speakers. Specialized ESL classes are available for recently arrived refugees. All ESL classes focus on speaking, listening, reading, and writing skills. Persons interested in the English as a Second Language program should call Refugee and Immigrant Services Northwest, 425-388-9307.

The High School Completion program provides high school level classes to adults and out-of-school youth who need additional credits to finish their high school diploma. Advising appointments are available by calling 425-388-9291. Students need to provide an official copy of their previous high school transcript for use during the advising process.

Continuing Education

A variety of credit and non-credit workshops, special classes, and seminars has been developed to meet the training needs and personal enrichment interests within the community. These courses are especially designed to assist in furthering personal interests, upgrading technical skills, advancing career goals, or accommodating individual needs for continuing education. The department also offers customized contract training for area business and industry, and is responsible for the College in the High School program. Call 425-267-0150 for the latest offerings.

Senior Opportunities

Everett Community College offers a variety of educational and personal enrichment opportunities for mature adults in a selection of credit and non-credit classes. The quarterly class schedule of Continuing Education courses features a number of reasonably priced offerings in computer skills, fitness, writing, world languages, arts and crafts, dance, travel and much more. Many regular college credit classes are available to seniors for audit (non-credit) enrollment on a “space-available basis” for reduced tuition. See the College’s quarterly class schedule for information about utilizing the Senior Citizen tuition reduction program, or contact Enrollment Services.
Everett Community College offers distance learning courses as an alternative to traditional college courses. These courses work well for students who need flexibility in their schedule or who are looking for a more independent approach to their educational program. Although presented in a different way, these classes are fully accredited, and equivalent to on-campus classes in terms of credit earned and acceptability for transfer. Students should have strong organizational, reading, and writing skills to do well in these classes, as well as easy access to the Internet.

There are four types of distance learning courses available: Online, Correspondence, Correspondence/Online and Telecourses. Online courses require students to connect to a "virtual classroom" through the Internet. Students submit assignments, interact with other students, and communicate with the instructor electronically; online courses are not self-paced. Correspondence courses are based on a written course guide and allow students to work at their own pace. Correspondence/Online courses are very similar to Correspondence courses; however, in these classes, assignments are turned in electronically. Telecourses are a video-taped instructional series that is loaned to the student for the quarter. Some courses may require some on-campus meetings. Check the quarterly class schedule for this information.

It is possible to earn the Associate in Arts and Sciences -- Option II (the direct transfer degree) or the Associate in General Studies degree from a distance. Courses that apply to these degrees are available each quarter. EvCC also offers unique online certificate programs in Medical Transcription and Medical Coding.

For general information about distance learning opportunities, call 425-388-9367, send an email to distance@everettcc.edu or visit our website at www.everettcc.edu/distance. For more information regarding the online Medical Transcription and Medical Coding program, call 1-888-304-3822, or send an email to success@everettcc.edu.

High School Partnerships

Everett Community College participates in a wide variety of relationships with local high schools, and offers several programs aimed at building the achievement of young students. The Enrollment Services Office and Equity and Diversity Office offer programs throughout the year aimed at students in middle school, junior high school and high school that engage students in college and career planning, such as Hi-Q, "I Am Going to College", Students of Color Career Conference, and the IDEAS Summer Science Camp.

Enrollment in college courses is provided through such programs as Running Start, Tech Prep, College in the High School, Youth Re-engagement, and Teens on Campus, all of which help students complete their high school graduation requirements with distinction. Admission processes for these programs are unique and are described in the next section of this Catalog.

International Opportunities

Nippon Business Institute and Japanese Cultural and Resource Center

The Nippon Business Institute (NBI) is an undergraduate international studies program concentrating on the practical and cultural aspects of Japan-U.S. business relationships. The primary mission of the NBI is to help ‘bridge the cultural gap’ that exists between eastern and western cultures. The NBI program provides for the development of awareness, understanding, and skills in critical areas such as culture, history, business practices, and the Japanese language. Students can earn an endorsement in US-Japan Intercultural Fundamentals through a concentrated course of study.

In addition to offering college credit courses in Japanese language, history and culture the NBI also conducts workshops and seminars covering Japanese language, culture, business relations, cooking, calligraphy, flower arrangement, tea ceremony, and art. The NBI provides customized consulting and training services to government agencies and businesses wanting to improve their Japan-U.S. relationships. The NBI also offers cultural immersion programs providing students with valuable hands-on experiences in Japan. Contact the NBI at 425-388-9195, or go to www.everettcc.edu/nbi.

Northwest Language Center

The Northwest Language Center (NLC) is directed by language professionals who have excelled at creating and offering a wide variety of innovative programs that invite foreign language learning and promote intercultural effectiveness and global understanding. Our mission is to help Western Washington communicate with the world.

The NLC offers: international study-abroad and exchange programs with Germany (Stuttgart), Spain and Mexico, customized on-site language instruction to meet the needs of local businesses, government agencies and educational institutions, general conversational workshops in many languages on campus (American Sign Language, Arabic, French, German, Italian, Portuguese, Russian, Spanish and others), specialized terminology seminars (Spanish for nurses, Spanish for police officers, Russian for pharmacists and many more), travel workshops, language tutoring for individuals and groups and children’s classes at local elementary schools. Contact us at 425-388-9499, or go to www.everettcc.edu/nlc.

Study Abroad

Enrichment, growth, and meaningful learning can be experienced in travel and study abroad. Opportunities for study in Germany, Mexico, Costa Rica, Japan, England, Spain, and Italy are available through EvCC offerings, and the Washington State Community College Consortium for Study Abroad. Students may register for EvCC credit, and in most cases use the courses toward degree requirements. Contact Enrollment Services, the Northwest Language Center or the Nippon Business Institute for information and advising.

International Student Programs

Everett Community College enjoys several partnerships with overseas schools and colleges, and has agreements that enable students from those institutions to complete an associate degree at EvCC. Any student age 18 or older who has successfully completed his or her secondary school program in another country, and wishes to enroll at EvCC, is encouraged to apply for admission. EvCC offers an intensive English Language program for international students, as well as specialized advising services, orientation, homestay referrals, international student club, and university transfer assistance. See “International Student Admission” in the Enrollment Services section for more information.

The Arts at EvCC

The creative, performing and visual arts programs at EvCC offer an integrated approach to learning and applying communications and media emphasizing graphic, photographic, studio and written arts, music, and theatre. Students collaborate in production-oriented programs with substantial guidance by a diverse and professionally active faculty. The program results in development and production of a portfolio of work suitable to demonstrate the student’s knowledge and applied skills. The Associate in Fine Arts (AFA) is awarded for completion of course work in a variety of arts areas, including Graphic Design/ Digital Illustration, Photography, Studio Arts, and Written Arts.

For more information about these programs, visit the arts website at www.everettcc.edu/ arts or call 425-388-9501 or email arts@evcc.edu.

Learning Communities

Looking for a personalized educational experience? An experience where you can connect the dots between your interests, your skills, and a variety of courses? Learning Communities offer a unique chance to achieve several goals at once in a supportive learning environment.

Learning Communities are usually created through co-registration (block scheduling) that links two or more existing courses. Students take the courses together and have an opportunity for deeper understanding and integration of the subjects and materials being studied. The communities are usually structured around a theme, allowing students to think critically and to look at issues from multiple perspectives. The learning community format provides a greater interaction between students and between students and teachers, and supports students by creating social networks.

At EvCC, learning communities are usually made up of a group of students who share two to three classes in common. The communities vary by the type of classes that are linked together, and by the degree to which course materials overlap between classes. For example, some learning communities are organized around an academic major or program at the college such as the Ocean Research College Academy (ORCA). Other learning
communities are organized around a specific interest, such as nonviolence, the stress of social problems, or cultural awareness. Still other learning communities link a skill-focused course (e.g., College Writing) with a content-focused class (e.g., Geology).

Some of the advantages of taking a learning community are:
- Since more than one course is shared with the same classmates, the result is a friendly, supportive learning environment in which friendships are easily made.
- Learning Communities increase opportunities to learn more effectively. Assignments are coordinated between the courses, which helps students to manage their time and earn better grades.
- Instructors often focus on a central theme or question. This helps make class discussions and assignments more interesting and stimulating.
- Students learn how to build connections between ideas and disciplines. This not only supports the linked courses, but benefits future study, work, and life situations also.
- Options to learn about and gain skills for the work world are offered through the Service Learning component of some learning communities.

When you are discussing your educational plan with an advisor and selecting courses for the upcoming term, ask about Learning Communities. For descriptions of Learning Communities offered each quarter, go to www.everettcc.edu/lc.

Ocean Research College Academy
The Ocean Research College Academy (ORCA) is a unique opportunity for high school students in the state of Washington. Using the framework of Running Start and the resources of Everett Community College, ORCA offers students a full-time college experience that satisfies the degree requirements for an Associate’s degree and most requirements for a student’s high school diploma. For students still enrolled in high school and admitted to the Running Start program, tuition is free. (See “Running Start” in the Enrollment Services section of the catalog.) At ORCA, instruction is varied, learner centered and fully integrated. ORCA students integrate science, math, English and history coursework while participating in authentic scientific research. As a Learning Community (described above) students enjoy close working relationships with a team of instructors, and a supportive learning environment. ORCA gives students the opportunity to satisfy General Education requirements in social sciences, humanities and natural sciences, which are transferable to most four-year universities. Contact Ardi Kveven at 425-267-0156 or at akveven@everettcc.edu. Visit the ORCA website at www.everettcc.edu/orca.

The School of Business Design
The School of Business Design (SBD) at Everett Community College (EvCC) uses entrepreneurship education to develop the skills that create leaders who are capable of anticipating, initiating, and managing change. Students can earn an Entrepreneurship degree or Small Business certificates or participate in workshops, conferences, seminars, and personal coaching that allows for the customization of an individual’s passion and business idea. Graduates gain the knowledge and experience to start their own venture, or become valued employees.

The SBD supports students at all levels of their personal and business development. It is a place where innovation, design and entrepreneurship meet. It’s where we create new ways to solve old problems, using unique ways for our students to achieve success: hands-on, interdisciplinary, integrated, collaborative, convenient and relevant.

For more information, please contact us at 425-388-9584 or visit us on the web at www.everettcc.edu/sbd.

Students in Service (SIS)
One of the elements of the national Americorps program, SIS provides EvCC students an opportunity to engage in volunteer service with a community non-profit organization. Students may earn tuition funds for their volunteer hours as well as benefit from a powerful learning experience while building a better community. Contact the Student Financial Aid Office at 425-388-9280.

Outlying Centers
In addition to a wide variety of offerings on the north Everett main campus, several programs are offered in locations around Snohomish County. EvCC offers a Cosmetology program in Marysville, an Aviation program at Paine Field, job skills courses at Sno-Isle Vocational Center, technical training at the Applied Technology Training Center near Boeing, and basic skills and college courses in Monroe and at the University Center at Everett Station. Coursework is offered cooperatively at the Tulalip Education Center and at "Tulalip South Lot". The quarterly class schedule lists all courses and their locations.

Western Washington University Extended Education and Summer Programs - Everett Education Center
Western Washington University’s Everett Education Center is a vital, multipurpose facility providing bachelor and master degree programs, certificate programs and distance learning courses. Students interested in preparing for these programs will find appropriate courses through EvCC’s regular offerings. EvCC’s Associate in Arts and Sciences — Direct Transfer Degree/Option II is required for entrance to WWU’s Bachelor of Arts teacher certification and human services programs. The following programs are available through WWU’s Everett Education Center:
- Bachelor of Arts (BA) in Human Services
- Bachelor of Arts (BA) in Education and Elementary Teacher Certification
- Post-baccalaureate Elementary Teacher Certification
- Distance learning courses

Call 425-339-3808 for more information.

University Center of North Puget Sound
Everett Community College provides leadership in collaborating with other regional colleges and universities to build baccalaureate and graduate degree options for residents of the area. Advanced classes and programs are offered on the EvCC main campus and at the downtown Everett Station. Some degree programs are also available in Mont Vernon through Skagit Valley College. Distance modes are also utilized for some courses. The goal of the University Center is to provide opportunity for EvCC graduates and other regional residents to continue their education without facing the barriers of distance and the costs of moving. Full information is available at www.uceverett.org or phone 425-252-9505.

In addition to the programs described above offered by Western Washington University, the University Center offers:
- Central Washington University: Bachelor of Applied Science in Information Technology and Administrative Management.
- Eastern Washington University: Bachelor of Arts in Interdisciplinary Studies. Option: Minor in Business Administration. (Pending approval.)
- Washington State University, Distance Degree Programs (DDP) Online Bachelor of Arts degrees in:
  - Social Sciences
  - Humanities
  - Criminal Justice

Business Administration:
- Management and Operations Major with an Emphasis in Organization Management
- Management Information Systems (MIS) Major
- Human Development
- Education (teaching certificate)—Requires Site-based Participation: Collaborative Teacher Education Program

- Central Washington University: M.S. Engineering Technology.
- Washington State University: M.S. Engineering Management.
- University of Washington, Seattle: M.S. Nursing.
- Western Washington University: Certificate, School Superintendent.
Applications from new students are accepted any time, though we encourage you to complete the EvCC Application for Admission or the State of Washington Community College Admission form. Send the application to Everett Community College.

Applications can also be completed online at www.everettcc.edu. Click on “Application for Admission” or go directly to www.everettcc.edu/admissions.

Eligibility to Attend
To attend Everett Community College through regular admission a student must be a high school graduate, hold a GED, or be at least 18 years of age. Special admission requirements for International Students and persons still in high school or under the age of 18 are described below.

- Persons who wish to attend EvCC while still in high school may be considered for enrollment under the “Teens-in-College” programs: Running Start, Tech Prep, College in the High School, Youth Re-engagement, and Teens on Campus. Please see those sections below for more information about those options. All options require some advance planning and application.

- Students age 16 and over who meet the provisions of “Title III- Adult Education Program” may enroll in certain adult basic education classes for the purposes of improving basic skills or completing their high school diploma or GED or participating in English as a Second Language classes.

- A student must be competent to benefit from the curricular offerings of the College, and by his or her presence or conduct not create a disruptive atmosphere within the College inconsistent with the purpose of the institution.

Applying for Admission
New Students: Applications from new students are accepted any time, though we recommend early application at least three or four months in advance in order to take advantage of early orientation, advising, and registration. New students who apply for one quarter and then change plans to attend a different quarter should contact the Enrollment Services Office immediately to request that their application be updated.

Students Returning after an Absence: Students who maintain continuous enrollment do not need to re-apply for admission each term; instead they receive early appointments to register for each upcoming term. Students who have been absent more than two quarters and wish to return may either register during Open Registration, or may submit an “Adjustment to Status” form requesting an early registration appointment for an upcoming term.

Admission to the College does not guarantee admission to a particular program or course. Students should consult the catalog or curriculum guide for specific admission requirements for major fields or programs of study. Curriculum guides are available from Enrollment Services or on the web at www.everettcc.edu/c.guides.

Admission Procedures
Freshmen and Transfers: Complete the EvCC Application for Admission or the State of Washington Community College Admission form. Send the application to Everett Community College.

Applications can also be completed online at www.everettcc.edu. Click on “Application for Admission,” then click on “Application for Admission.” Or, go directly to www.everettcc.edu/admissions.

Request that official transcripts from high schools and other colleges attended be mailed to the Enrollment Services Office at Everett Community College. It is your responsibility to contact other institutions and request that transcripts be forwarded to the Enrollment Services Office. (It is also a good idea to request an additional unofficial copy for your personal records.) Your transcripts are used for advising purposes.

If you have college credits that you would like applied toward your EvCC degree program, we will evaluate your transcripts upon your written request. A Credit Evaluation Request form is available at www.everettcc.edu/studentforms. See also the section below on “Transfer Credit Policies.”

EvCC does not count previous grades or credits in determining registration priority. Admissible students are sent information about entry skills assessment, orientation, advising, and registration, see below.

Entry Skills Assessment
New students who wish to register for eight or more credits, or who are planning to enroll in math and English courses, must complete our entry skills assessment. For regular admission purposes, acceptance into Everett Community College is not based upon the results of entry skills assessments. Instead, these tests are required prior to registering for classes in order to assist students and their advisors in planning their educational programs. Entry skills assessment is part of the orientation, advising, and registration process for newly admitted students to help them select courses at an appropriate level. It is available at regularly scheduled times through the Testing Center, which are posted at www.everettcc.edu/testing, or call 425-388-9208.

There is a $25 fee for the skills assessment. The fee must be paid in advance at the Cashier’s Office and the receipt must be presented before entering the testing room. The receipt is non-refundable and non-replaceable if lost. Note: this fee may increase during 2007-08.

Students may request a partial or full waiver of the skills assessment if they have completed more than 45 college-level credits, and/or intermediate algebra or college algebra, and/or English composition courses at another college, and/or ASSET, COMPASS and AACCPLACER scores from another college. To be considered for such a waiver, the student must present college transcripts or score results to the Enrollment Services Office with a written request for a test waiver at least two weeks prior to registration. Aestado test waiver request form is available at www.everettcc.edu/studentforms.

Students who are enrolling in the following courses are not required to take the entry skills assessment: Nursing Assistant, Machining, EMT, Welding, Family Life, Fire Science 100, Medical Transcription, and Medical Coding.

Waiver of the skills assessment does not imply waiver of any course prerequisites. All students must meet prerequisites which may be stated in terms of minimum scores on the skills assessment and/or completion of specific courses.

Entry skills assessment results are valid for a period of three years. Test retakes are subject to limitations; students must seek approval from the Testing Center and pay a fee.

Orientation and Advising
As part of the entry and registration process, orientation and advising are available to newly-admitted students. Student Services staff present a detailed orientation session with overview of College services, procedures and policies on a regularly scheduled basis prior to each term.

Advisors aid students in planning their class schedules and identifying goals and success strategies. Degree-seeking students are expected to meet with their faculty advisors at least once each quarter. Contact the Enrollment Services Office or the Counseling, Advising and Career Center for information about advising appointments and/or specific faculty advisor referrals.

Skills assessment, orientation, advising and registration may all be scheduled on one day for student convenience. In each letter of admission to new students, the SOAR schedule is listed. We strongly encourage new students to participate in the SOAR activities, since it enables them to link all of their new student entry processes together.
International Students

Everett Community College welcomes qualified international students. Our International Student Services Coordinator will answer questions about the application process and provide advising services during enrollment.

Applications for admission from international students should be on file at the College at least 10 weeks before the start of the term. To complete the application process, please follow the steps below:

1) Submit an international student application available from the Enrollment Services Office, and a $40 check or money order in U.S. funds. The application form is also available online. Go to www.everettcc.edu and click on “International Students” on the left-side menu.

2) Submit official transcript(s) of courses and grades from secondary school (high school) and from college or university, if attended. To be considered for admission, the transcript must show courses and grades that indicate an ability to pursue college-level coursework. Normally, a minimum C average (or equivalent) meets our criteria.

3) Submit financial documentation demonstrating an ability to pay for the full costs of education and accommodation in the U.S. while a student. Our tuition is lower than the tuition of most universities. After two quarters of attendance, students may apply for a scholarship, the International Student Community Service Award.

4) Submit TOEFL results, if taken. EvCC does not require the TOEFL, but if already taken it is helpful in determining your language level. EvCC requires all students to take an EvCC on-campus placement test at the time of arrival. This test helps an advisor and student select the correct level of courses for the student. Students with low English skills will be placed in intensive English classes during their first term(s).

5) Students who are admitted will be asked at the time of their arrival to submit a copy of their personal health and accident insurance policy. Insurance is required in order to register for classes. (Students who plan to drive a car in the U.S. must also carry an additional auto insurance policy.)

EvCC on-campus placement test at the time of arrival. This test helps an advisor and student select the correct level of courses for the student. Students with low English skills will be placed in intensive English classes during their first term(s).

Youth Re-engagement

The Youth Re-Engagement Program was created to provide educational opportunities with a strong connection to career development and professional technical job training for youth, age 16-21, who have dropped out of high school. Admission to the Youth Re-Engagement program requires that prospective students:

- do not have a high school diploma
- are between the ages of 16-21 (must be under 21 to enroll in the program)
- have been out of school at least 60 days
- are a Washington State resident
- have a reading level of at least 8th grade or higher on a standardized test that EvCC administers

For more information or to sign-up for an information meeting, contact Patricia Sahlke, Coordinator, 425-259-8738.

Teens on Campus

During Fall, Winter and Spring quarters, students who are under the age of 18, and who have not completed high school or a GED, and who are not in the Running Start or College in the High School programs, may enroll upon approval from the Director of the High School Completion program for special admission. Special admission criteria include a review of high school courses and grades, test scores and other supporting documents that indicate preparation and readiness for college-level coursework. Application for special admission must be submitted at least two weeks prior to the quarter. Contact the High School Completion program to schedule on interview; call 425-388-9291.

Teens on Campus — Summer

Summer quarter offers many opportunities for students under the age of 18 who have not yet earned their high school diploma or GED. Enrollment in classes for either personal interest or to meet high school requirements is allowed following placement testing and an interview. In addition, students enrolled through the Teens on Campus — Summer program attend free special workshops on such topics as College Success Tips, Career Planning, and College Decision-making. Go to www.everettcc.edu/summersmart.

Teens-In-College Programs

EvCC has a variety of options for young students currently in high school, or in some cases no longer in high school, to participate in college courses. In some cases these opportunities are within the regular high school environment, and in other cases are on the EvCC campus or at an outlying center.

Running Start

Running Start is a partnership between the College and the public high schools. The program provides high school juniors and seniors the opportunity to take college-level courses on a tuition-free basis at the College or at our Monroe Center.
Everett Community College recognizes academic credits earned at other regionally accredited post-secondary institutions that are essentially equivalent in academic level and nature of work offered at the College. Other sources of education, such as nationally accredited institutions, training programs, or tests, may be considered on a case-by-case basis, as described in one of the seven options below.

Enrolled students who want to use credit previously earned at another college or university toward an EvCC certificate or degree should first obtain the guide titled “College Credit Options,” (www.everettcc.edu/transfercredit) then complete and submit a “Transfer Credit Evaluation Request” form (www.everettcc.edu/studentforms) and submit transcripts. Evaluation of transfer credit may take 3-6 weeks, so early action is recommended. Contact Enrollment Services for more information.

The College subscribes to the statewide Policy on Inter-College Transfer and Articulation among Washington Public Colleges and Universities endorsed by the public colleges and universities of Washington and the State Board for Community and Technical Colleges and adopted by the Higher Education Coordinating Board. This policy deals with the rights and responsibilities of students and the review and appeal process in transfer credit disputes. For more detailed information, contact Enrollment Services.

Washington community and technical colleges (CTCs) offer reciprocity to students transferring within the CTC system who are pursuing the Direct Transfer Agreement (DTA) degree or the Associate in Science - Transfer (AS-T) degree. Students who completed an individual course that met distribution degree requirements or fulfilled entire areas of their degree requirements at one college will be considered to have met those same requirements if they plan to complete the same degree when they transfer to another community or technical college in Washington. These degree requirements include Communication Skills, Quantitative Skills, or one or more Distribution Area requirements. Students must initiate the review process and must be prepared to provide necessary documentation. For complete information, students should contact Enrollment Services. The policies and procedures can be found on our website (www.everettcc.edu/transfercredit) or in the Enrollment Services Office.

1. General Transfer Credit Practices
   - An official credit evaluation is completed based on official transcripts and records; an official transcript is one that is produced and sealed by the originating institution and delivered or mailed unopened to the Enrollment Services Office.
   - Because completion of at least 30 EvCC credits are required for eligibility for an associate degree, normally a maximum of 60 quarter credits may be applied as transfer credit toward a degree. A maximum of one-third of the credits required for a certificate may be applied as transfer credit.
   - Only those credits that meet certificate or degree requirements may be applied.
   - Semester credits earned at another college or university are converted to quarter credits on a basis of 1.5 quarter credits for each semester credit. For example, 3 semester credits equal 4.5 quarter credits.
   - Everett Community College does not grant credit for religion or theology courses that are sectarian in nature.
   - Credit for life or work experience, or advanced standing, given by another institution is not transferable.
   - Transfer credit will not be awarded for duplicate coursework.
   - For some programs, some credits may be non-applicable due to their age.
   - Only lower-division (freshman and sophomore) coursework (or equivalent) will be considered.

2. Credit from Regionally-Accredited Colleges and Universities
   - Credit from regionally-accredited colleges and universities may be applied toward any of our certificates and degrees, meeting either requirements or electives, at the discretion of the credential evaluator and/or program advisor.

3. International Colleges and Universities
   - Credit from non-U.S. colleges and universities, recognized within their educational systems, may be applied toward any of our certificates and degrees, meeting either requirements or electives, at the discretion of the credential evaluator and/or program advisor. Typically, students must provide their official credentials and an evaluation of those credentials by an evaluation agency. The Enrollment Services Office can provide names and addresses for those agencies.

4. AP and CLEP Tests and the International Baccalaureate
   - EvCC’s faculty have reviewed the AP, CLEP and International Baccalaureate (IB) programs and established the minimum score that must be earned in order to earn credit. The list of acceptable AP, CLEP and IB exams is listed in Table One on page 14. A maximum of 60 AP, CLEP and IB credits may be applied toward several of our degrees, meeting either requirements or electives, at the discretion of the credential evaluator and/or program advisor. In the case of the associate degrees designated as university transfer degrees, CLEP credit may be limited to the “B” list electives.

5. Military Training
   - EvCC follows recommendations made by the American Council on Education when evaluating military training and education records. Please submit the appropriate record for evaluation. Each branch of the military has a different service center holding your training and education records. Upon written request by you, they will send a copy to us. The Enrollment Services Office has a list of the locations where you may write for a copy of your record. Active Duty and Reserve Sailors and Marines, and Sailors and Marines who separated or retired during or after the 1980’s, may request their SMART record by going to www.navycollege.navy.mil, or find the form available through EvCC’s Enrollment Services Office, or go to the Navy College Center at Naval Station Everett, 2000 W Marine View Drive, Everett.
   - A maximum of 60 credits for military training and education may be applied toward EvCC’s Associate in Technical Arts, Associate in Fine Arts and Associate in Arts and Science Option I as meeting requirements. A maximum of 45 ungraded credits may be applied toward the Associate in General Studies. Military credit is, with the exception of limited Physical Education credit, applicable only to the “B” list electives for the associate degrees designated as university transfer degrees.

Service Members Opportunity Colleges (SOC)
   - Everett Community College is an institutional member of Service Members Opportunity Colleges (SOC), a group of more than 400 colleges and universities providing postsecondary education to members of the military throughout the world.
   - As a member of SOC, Everett is committed to easing the transfer of relevant course credits, providing flexible academic residency requirements, and crediting learning from appropriate military training and experiences. The American Association of State Colleges and Universities and the American Association of Community Colleges sponsor SOC.

6. Nationally-Accredited Post-secondary Institutions
   - Transcripts from schools which are not regionally accredited, but are accredited by national agencies such as the Accrediting Commission on Independent Colleges and Schools, the Accrediting Commission on Trade and Technical Schools, Distance Education and Training Council and the Accrediting Association of Bible Colleges, may be reviewed and considered for credit. In such cases, please supply a copy of the catalog or course descriptions as well as an official transcript. Generally, courses which are similar to those offered at EvCC may be considered.
   - A maximum of 60 credits for courses completed at nationally-accredited post-secondary schools may be applied toward EvCC’s Associate in Technical Arts, Associate in General Studies, Associate in Fine Arts and Associate in Arts and Science Option I degrees as either requirements or electives. Credit is applicable only to the “B” list electives for the associate degrees designated as university transfer degrees. Some other colleges and universities may not accept these credits.

7. Certificates and Training Programs Conducted Within Business, Industry, or Agency Environments
   - Educational and training experiences that occur through company training programs or through professional institutes may be reviewed for credit. Types of training can
vary widely, for example: management, police, fire, manufacturing, apprenticeships, education paraprofessional, and aviation. To have your training reviewed, you must submit official and/or original records, as well as supporting documentation that includes the following: content, level, time period, hours, location, method of instruction, instructors, method of evaluation, and achievement. Since training programs do not generally yield a transcript that contains all of this material, it is your responsibility to gather as much information as possible and submit it. In some cases, certificates (such as APICS, WA State Criminal Justice Commission, and A&P) may be submitted. EvCC’s evaluation process relies on information that substantiates that the training or certificate is comparable to college-level programs; faculty evaluate the documentation to determine the comparability. The non-refundable fee for the evaluation of these documents is $30 per request, and the process demands thorough documentation from the student.

A maximum of 60 credits for training and certificate programs may be applied toward EvCC’s Associate in Technical Arts, Associate in Fine Arts and Associate in Arts and Science — Option I degrees as meeting either requirements or electives. A maximum of 45 ungraded credits may be applied toward the Associate in General Studies. Credit is applicable only to the “B” list electives for the associate degrees designated as university transfer degrees. Some other colleges and universities may not accept these credits.

8. Portfolio Evaluation of Prior Learning (PEP)

Through the Portfolio Evaluation Program (PEP), you may be able to receive college credit for knowledge you have gained outside the classroom. If your previous experiences as an employee, business owner, skilled volunteer or hobbyist is comparable or equivalent to credit courses or programs offered at Everett Community College, then the PEP program may be for you. Typically, this program is appropriate for persons who have acquired knowledge and skills in ways that are not documented by any of the other methods described above. An extensive review process is required, including a written portfolio in which you describe what you have learned, how you have learned it, and how it relates to the type of learning that occurs in EvCC courses and programs.

To start the PEP process, contact the PEP Coordinator in Enrollment Services (425-388-9008) and request a PEP guide. Fees are charged for participation in this program.

A maximum of 45 credits for prior learning may be applied toward EvCC’s Associate in Technical Arts, Associate in General Studies, Associate in Fine Arts, and Associate in Arts and Science — Option I degrees as either requirements or electives. Credit is applicable only to the “B” list electives (a maximum of 15 credits) for the associate degrees designated as university transfer degrees. Some other colleges and universities may not accept these credits.

NOTE: In some cases, students who have significant learning from training programs or life experience may find it more expedient to consider course challenges. Consult our Credit Evaluators in Enrollment Services.

Transfer Credit Evaluation

The Enrollment Services Office provides written transcript evaluations for enrolled students who wish to apply credits earned at another college toward a certificate or degree. Official transcripts must be on file in the Enrollment Services Office before the evaluation request is processed; course descriptions may be required. A Credit Evaluation Request form is available at www.everettcc.edu/studentforms and must be submitted to the Enrollment Services Office. Students should allow three to six weeks for processing. However, during Spring Quarter evaluations may take substantially longer to process. Transcripts submitted to the College may not be released to either the student or another entity.

A student becomes officially enrolled in a class by registering for it. The registration process includes selection of classes, submission of a completed Class Registration Form or completion of our web registration process, and payment or billing of tuition and fees. All previous fines and debts to the College must be paid before a new registration may be accepted. Detailed registration procedures are described in the quarterly class schedule.

Registration times for newly admitted and currently enrolled students are assigned prior to each registration period; the assigned times are based on cumulative credit hours earned at Everett Community College. New student registration appointments are assigned in the order in which applications are received for that quarter.

Students who have not attended EvCC within the past two quarters may register during open registration or may gain priority registration by submitting an “Adjustment to Status” form a sufficient amount of time in advance.

For some classes, the permission of the instructor is required before registering. Beginning the second week of class, instructor permission is required for new registration in all classes.

Students receiving services through the Center for Disability Services (CDS) utilizing accommodations such as books on tape, note-takers, sign language interpreters, or other advance accommodations, may register early through priority registration. Students must contact the Center for Disability Services (425-388-9272) at least 6 weeks prior to the beginning of the quarter in which enrollment is desired. Students who are unable to meet the 6 week deadline may enroll in the same manner as other students; however, necessary aids may not be available.

Waiting Lists

When a class reaches its enrollment capacity, a waiting list may be established. As spaces become available in the class, the student may be moved from the waiting list into the class; payment is due promptly if this results in an additional tuition charge. Students who do not move from the waiting list into the class prior to the start of class must attend the first class meeting in order to receive consideration for moving from the waiting list into the class.

Full-time Status

For financial aid recipients, veterans, insurance, and all other enrollment verification purposes, full-time status is defined as enrollment in a minimum of twelve quarter-hour credits in a given term. Part-time status is enrollment in eleven credits or less per term. Half-time status is enrollment is six to eleven credits. Note: For Summer quarters only, the Veterans’ Office establishes the minimum credits needed for full-time status for veterans.

First Week Enrollment and Withdrawal Policy

During the first week of the quarter, it is important that students attend all classes for which they are registered. In those courses that have an established waiting list, a student who does not attend by the beginning of the second class meeting in the quarter, and who has not made prior arrangements with the course instructor, may be dropped from the course immediately at the beginning of the second class meeting at the discretion of the instructor. If a student does not notify the instructor or the division office of his/her absence, that student may be withdrawn from class. The College does not always, however, withdraw the student for non-attendance. A student who is not withdrawn by the College or does not officially withdraw himself/herself may be issued a failing grade by the course instructor, based on non-attendance. Note: Students withdrawn by the College during the first week under this policy will receive a refund of tuition and fees, if due. Students who are not withdrawn by the instructor, or who do not withdraw themselves, are not eligible for a refund. See the tuition and refund policy in the next section. Students are responsible for ascertaining their class registration status.

Changes of Schedule (Add/Drop)

Schedule changes can be made by completing an Add/Drop form, available at the Enrollment Services Office. Before the end of the fifth day of the term, adds and drops for most classes also may be accomplished through our Web registration system. Otherwise, all withdrawals must be done in person. When a student withdraws from a class, the date the Enrollment Services Office receives the completed Add/Drop form or the date of the electronic transaction is the official date of the withdrawal. All transactions must be completed by 4:30 pm on the deadline date. Students are advised to consult the calendar and course description in the quarterly class schedule for the last day to add or drop a class during the quarter. Most classes fall under the regular schedule of deadlines, but some self-support classes and some classes with unusual start and end times may have different deadlines. The College’s refund policy applies only to students who withdraw officially. (See Tuition and Fees Refund Policy in this section.)

Simply failing to attend a class does not constitute a drop or withdrawal. Students who wish to avoid a failing grade, or who wish to qualify for a refund, must submit Change of Schedule (Add/Drop) transactions by the stated deadline.

Students with questions about the procedure of dropping a class should contact the Enrollment Services Office in person or by phone and speak directly with a registration staff person in order to clarify their status and drop deadlines.

TUITION, FEES AND RESIDENCY

Estimated Quarterly Tuition and Fees – 2007-08

All rates are subject to change; current rates are posted in the quarterly class schedule. Current rates may also be found on our website at www.everetttcc.edu/tuition. Tuition and fees are paid at the time of registration or by the deadline stated for that registration period. Students who are receiving financial aid from the College, or who have a third party paying their tuition and fees, must contact the Cashier directly to assure the accuracy of their student account.

*Students who are not eligible for resident tuition, but who are permanent residents or citizens of the US may be eligible for the Non-Resident Tuition Reduction rate. See “Residency” below. Tuition for enrollment in Adult Basic Education (ABE) and English as a Second Language (ESL) is $25 per quarter.

Special Fees

Most students in college-credit courses will be charged an additional “technology fee” of $3.50 per credit, up to a maximum of $35 per quarter. Some courses also have special fees for equipment, lab, services, etc.; these fees are listed on the quarterly class schedule with the course. The College may charge fees for services such as parking or insurance, etc. Some courses, for which the College does not receive state-financial support, charge a class fee which is added to the total amount of tuition and fees due, regardless of the tuition charged for other courses.

Tuition Reduction Programs

State employees and designated educators in the K-12 system may register on a reduced tuition basis beginning the sixth day of the quarter. Registration prior to the sixth day of the quarter disqualifies a person from this special tuition reduction. Payment is required for lab fees, special fees, books and other supplies. (Free registration is not allowed for Writing Lab, Community Service, Continuing Education, self-support classes, special projects, and other courses for which the College has special expenses.)
EvCC also offers reduced tuition for seniors (age 60+) who wish to audit classes (for no credit) and for other persons in special categories such as veterans, dependents of veterans, refugees and students in our high school completion program. The Enrollment Services Office can provide more detailed information on tuition reduction programs.

Residency
For tuition purposes, students eligible for resident tuition rates are defined as follows:

- Financially independent students who have been domiciled in the State of Washington for at least the past twelve months, and who are not in the state primarily for educational purposes, and who are not claimed as a dependent for tax purposes by a parent or guardian outside of Washington, or receiving funds from another agency which requires residence in another state.
- Dependents of parents or legal guardians who are domiciled residents of the State of Washington.
- Active military personnel stationed in Washington State and their spouses and dependents. Active duty military personnel will be asked to submit qualifying identification in order to qualify for the special resident rate.
- Active members of the Washington National Guard and their spouses or dependents who live in Washington. Active duty military personnel will be asked to submit qualifying identification in order to qualify for the special resident rate.
- Members of selected regional tribes.
- Persons who resided in Washington State for three full years immediately prior to receiving a high school diploma and completed the full senior year at a Washington high school or who completed the equivalent of a high school diploma and resided in Washington State for the three years immediately before receiving the equivalent of the diploma, and continuously resided in Washington since earning the high school diploma or its equivalent. Contact Linda Baca in Enrollment Services to determine eligibility for this resident tuition status.
- All other students are considered to be non-residents for tuition-paying purposes. However, US citizens and permanent residents who have not yet gained residency in Washington State may be eligible for a partial tuition reduction. Contact Enrollment Services for more information.

Any current non-resident student who wishes to be reclassified as a resident student must complete a Residency Questionnaire for determination of eligibility. Applications for reclassification in the current quarter must be submitted to the Enrollment Services Office before the 30th calendar day of the quarter.

If the College discovers an error in the student’s residency status during the quarter, the Manager of Records and Registration will determine whether or not additional tuition and fees are due.

Tuition Payment
By registering, students assume responsibility for payment. Non-attendance does not constitute a reason to avoid payment. Registrants must pay their tuition and fees by the stated deadline as announced in the class schedule. The College reserves the right to bill the student for unpaid tuition and fees incurred by registration and/or to cancel registration of unpaid students. Returned checks, cancelled credit cards, employer refusal to pay, ineligibility for financial aid and other reasons for non-payment may result in a direct bill to the student and/or referral to a collection agency. Registration in Continuing Education and other self-support programs requires immediate payment. Students who intend to have their tuition paid through financial aid or other third party, such as an employer, must arrange for the timely completion of those processes to meet the payment deadline. When in doubt about payment status, contact the Cashier’s Office at 425-388-9224.

Tuition may be paid in person at the Cashier’s Office, or mailed to the Cashier’s Office. Credit card payment can also be made over the web. Go to www.everettcc.edu/creditcardpay, read the policy, and click on the credit card icon.

EvCC offers a tuition payment plan, the “20-40” plan, which enables students to pay half their tuition and fees by the established deadline, and the remainder in two payments on the 20th and 40th calendar days of the quarter. Contact Enrollment Services for more information.

Tuition and Fees Refund Policy
Tuition and fees refer to full general tuition, operating fees, service and activities fees, technology fees, class fees and lab fees. Some fees are not refundable.

A refund of tuition and fees is made only when a student officially withdraws from a class or from the College, and is based upon the refund policy. Date and time of receipt of the Add/Drop form in the Enrollment Services Office or of an electronic transaction using our Web registration system establishes the rate at which refunds will be made.

The refund schedule varies depending on the type of class. Refund dates are published in each quarterly class schedule. Refunds can take up to five weeks to process. Refunds for under $10 will only be processed with a written request from the student.

State Supported Classes that begin during the first week of the term
100% refund deadline is 4:30 pm on the 5th class day of the term. For example, if Fall Quarter begins on Monday, then the deadline for 100% refund is Friday. (Classes that begin on Saturday of the first week of the term are given until Monday at 6:30 pm.)

50% refund deadline is 4:30 pm on the 20th calendar day of the term, or the closest working day to the 20th calendar day. For example, if Fall Quarter begins on Monday, September 24 then the deadline for 50% refund is 4:30 pm on Friday, October 12.

To receive a full or partial refund after paying, or to avoid being billed for the full or partial amount of tuition, you must submit an official withdrawal by these dates.

State Supported Classes that begin before or after the first week of the term
Deadlines are pro-rated, depending on the length of the course. Please call 425-388-9208 to determine the pro-rated deadline. In general, it is wise to withdraw before the first day if your plans have changed.

Self-support classes
Self-support classes are usually distinguished by a comprehensive class fee that is different from state regulated tuition. For some self-support classes, cancellations need to be made at least 4 working days prior to the first class in order to receive a refund. For some classes, the specific refund deadline is listed in the printed class schedule.

Refund Process
Students should allow 30 days for a refund to be processed. For students receiving federal financial aid, the tuition refund will be calculated in accordance with state and/or federal law. These formulas are published in the Financial Aid Office’s policies/procedures manual. Affected students will be notified of the calculation used at the time a tuition refund is applied to their accounts.

Petitions for exceptions to the refund policy must be submitted to the Enrollment Services Office prior to the end of the quarter in which tuition and fees were paid.

Fines and Debts
The College may block registration and/or withhold other services until all outstanding fines and debts to the College are resolved. College transcripts will not be issued for students who have a debt to the College.

STUDENT RECORDS

Student Identification Numbers
EvCC assigns an EvCC nine-digit number as the primary student identification number (SID). To comply with the Tax Payer Relief Act of 1997, EvCC must also obtain your correct social security number (SSN) to file returns with the Internal Revenue Service (IRS) and to furnish an annual statement to you that contains information about tuition and fees that may qualify for Hope Scholarship or Lifetime Learning tax credit. The Privacy Act of 1974, section 6109 of the Internal Revenue Code, requires that you give your correct SSN to agencies, which must file information returns to the IRS. For more information, please refer to Internal Revenue Code Section 6050S. EvCC also uses your SSN to support verification of your enrollment, degree(s) and transcripts. administer financial aid, collect
The right to inspect and review the student's education records within 45 days of the request for access. These rights include:

Confidentiality of Student Records

There is no charge for transcripts unless a request exceeds ten transcripts in one day. Access to register, add, or drop usually ends the fifth day of the quarter.

Transcripts

An official transcript is a copy of the student's academic record bearing the College seal, the signature of the Vice President for Enrollment Management, and mailed directly to the receiving party from Everett Community College. Upon request a sealed copy of an official transcript may be given to the student.

Transcripts are withheld if all obligations to the College, financial or otherwise, are not fulfilled. To request a transcript by mail, include the name under which you attended, birthdate, student ID, the approximate dates you attended Everett Community College, the address where you want the transcript sent, your current phone number and your signature. Such written requests may be made in-person, by mail, or by fax. The fax number is 425-388-9173.

An unofficial transcript is an unsigned and unsealed copy of the student’s record and is used primarily for advising purposes. Unofficial transcripts may be obtained at the Enrollment Services Office. Students may see their unofficial transcript on the Web, and closed in the late evening and early morning hours. Access to register, add, or drop usually ends the fifth day of the quarter.

Confidentiality of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1) The right to inspect and review the student’s education records within 45 days of the request for access. Students should submit to the Enrollment Services Office written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2) The right to request the amendment of the student’s education records that the student believes inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. Students should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing. Please note: separate policies apply for requests for a grade change.

3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, collection agent, or verification agency); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities. Upon request, the College may disclose education records without consent to officials of another school in which a student seeks or intends to enroll, and to military recruitment services pursuant to the Solomon Amendment. The College is also required to provide information to the Federal Government regarding students who may be eligible for the Hope Scholarship and Lifetime Learning tax credit programs. The College does not disclose education records to family members without student written consent.

4) The right to file a complaint with the U.S. Department of Education concerning alleged failures of this College to comply with the requirements of FERPA.

Emergency Messages

The college will attempt to deliver a message to a student during a class in case of a medical emergency. Given the size of the College, limited staff, and the nature of student schedules, requests for the College to deliver other messages to students cannot be accommodated. Requests to deliver an emergency message to a student should be made to the Enrollment Services Office, 425-388-9207, during the day and the Security Office, 425-388-9112, during the evening hours.

Student Identification Card

A student ID card is available at no cost for registered students at the "Paperclip" student service center, located on the main floor of the Parks Student Union.
The Student Services Division of the College is committed to enabling students to succeed. Specifically, services are focused toward the following outcomes:

- Successfully navigate the college environment and gain knowledge of transferable processes and systems.
- Demonstrate awareness of traditional and non-traditional career choices and life options in achieving educational, personal and career goals.
- Demonstrate respect and value ideas, thoughts, beliefs, backgrounds, lifestyles and abilities different from their own.
- Exhibit active and responsible participation in their own educational experience and accept responsibility for their own actions and beliefs.
- Demonstrate skills in critical thinking, problem solving and decision making.
- Demonstrate interpersonal relationship skills and display personal growth and development.
- Demonstrate skills in leadership and civic responsibility.

**ADVISING**

Your success — and the efficient use of your time and money — is highly related to how well you use the advising resources of the College.

A wide array of academic, career advising, and planning services are available to all students. Advisors are available in the Enrollment Services Office and in the Counseling, Advising and Career Center. All faculty serve as program advisors. Information sessions and workshops offered throughout the year can help students learn about program requirements and options; dates and times are listed in the quarterly Class Schedule.

“Curriculum Guides” are printed for each of the College’s programs and help students chart their progress. A special feature of EvCC, the “Lucy Booth,” takes advising services out into the hallways of campus buildings to assist students with their questions between class sessions. Students who wish to have a specific faculty advisor assigned to them may make their request to the Enrollment Services Office. Students may also direct their advising questions to an on-line advisor at admissions@everettcc.edu. A complete listing of advising services is available in the quarterly class schedule.

The College provides an array of advising opportunities and students are expected to avail themselves of an advisor and to use printed resources. Contact Enrollment Services at 425-388-9222 or admissions@everettcc.edu for assistance in resolving advising questions. When sending e-mail, use “Need Advising Help” in the subject line.

**COUNSELING, ADVISING AND CAREER CENTER**

Professional counselors in the Counseling, Advising and Career Center help students develop the skills necessary for success in college - exploring career choices, coping with emotional stress, educational planning, and learning new skills through Human Development classes.

Counselors are available for morning and evening drop-in counseling; appointments are available for issues needing more time. Call 425-388-9263 for specific drop-in hours.

**Advising**

Counselors advise first-quarter students, undecided students, and transfer students planning to major in Human Services or Social Work. Counselors also provide general transfer advising and informal transcript evaluations for entering and graduating students. If a student has decided on a program of study, the staff will help the student find an appropriate program advisor.

**Career Counseling**

Individual and group counseling sessions, as well as Human Development courses and workshops, are available to help students clarify goals, learn the career-planning process, interpret career assessment results, and learn career research skills and decision-making skills.

**Educational Counseling**

We provide individual and group counseling, as well as Human Development courses and workshops, related to learning styles, study skills, math anxiety, orientation to college, goal setting, time-management and test anxiety.

**Personal Counseling**

We offer short-term counseling to individuals, as well as group counseling and workshops related to personal development issues such as stress management, assertiveness training, self-esteem, leadership and effective interpersonal communication skills. We also offer Human Development courses related to these topics.

**Crisis Counseling**

Individual short-term counseling is available for students suffering from acute emotional stress.

**Assessment**

Individual and group assessment enables students to become aware of their career interests, learning style and personality type.
You must have a valid social security number.

You must have a high school diploma or its equivalent or be able to demonstrate, through official testing, an ability to benefit.

You must have a valid social security number.

You must enroll in a program of study that leads to a degree or certificate that is at least six months (24 credits) or more in length.

You must maintain satisfactory academic progress.

You must be registered with Selective Service, if required.

Application Process

The primary document used to determine eligibility for financial aid is the "Free Application for Federal Student Aid” (FAFSA). Applicants provide detailed information about their financial situation and the data is analyzed by the U.S. Department of Education using a standardized formula called "Federal Methodology." This formula assesses each applicant’s ability to contribute toward his or her education, and the EvCC Financial Aid Office uses this information to determine the applicant’s financial need. We use the following formula to determine eligibility: Cost of Attendance - Expected Family Contribution (EFC) - Other Sources = Financial Need.

Because funding is limited, applications are reviewed on a first come, first served basis. Processing an application and receiving an offer of aid can take approximately 6 to 8 weeks, so it is important to apply well in advance of the anticipated start date. To be considered for maximum funding, application should be made by March for the following academic year, which starts in September. (Applications are reviewed every quarter on a funds-available basis.)

Applications for financial aid and assistance in completing the process are available in the Financial Aid Office, or you may apply on-line at http://www.fafsa.ed.gov. EvCC’s Federal School Code is 003776.

Types of Assistance Available

The College participates in the following federal and state financial aid programs: Federal Pell Grant, Federal Supplemental Education Opportunity Grant, Federal Work Study, Federal Family Educational Loans, State Need Grant, State Work Study, EvCC Grant, EvCC Child Care Grant, and Tuition Waiver. Note: Tuition waivers do not pay for lab fees, technology fees, parking fees, or class fees charged for self-support classes. Financial aid programs can be divided into three broad categories: grants, work, and loans. Grants require no repayment. Work study is part-time employment on/off campus with an hourly pay rate. Loans are repaid, with interest, usually after a student ceases to be enrolled at least half time (6 credits). Aid recipients usually receive a combination of aid types. Typical aid packages consist of 50% grant and 50% self-help (work and loans). Aid awarded focuses on direct educational expenses: tuition, books, supplies, and transportation. Indirect costs such as room/board and childcare are also considered.

Academic Progress

Financial aid recipients are expected to maintain satisfactory academic progress. Grades are monitored on a quarterly basis, and the student must complete a minimum number of credits with a 2.0 grade point average. All previously attempted college credits are also evaluated, regardless of whether the student received financial aid. Financial aid recipients are expected to complete the program requirements within the number of credits and quarters specified in the curriculum guide. A maximum of two programs of study (degree or certificate) may be pursued. However, only one AS/AAS/ATA/AFA/AGS/AB degree may be funded. Students who have earned a bachelor’s degree are ineligible for federal grants and must appeal in writing to determine aid eligibility. Please contact the Financial Aid Office for a copy of EvCC’s complete financial aid satisfactory academic progress policy.

Return of Title IV Funds

Financial aid recipients who drop out of school or complete “0” credits and have a last date of attendance prior to completing 60% of the quarter may be required to repay all or a portion of federal aid received. Please contact the Financial Aid Office for a copy of EvCC’s return of Title IV funds policy.

Scholarships

A variety of scholarships are made possible by the College, through community organizations, and by donations from individuals. Eligibility requirements vary. Some are based on financial need, some on academic merit, and others may depend on your program of study. The EvCC Scholarship Brochure and applications are available every March for the following academic year. Information about regional and national scholarships is posted in the financial aid office throughout the year as they become available. Information on internet-based scholarship search programs and applications for scholarships are available in the Financial Aid Office.

The Financial Aid Office is located in the Parks Student Union, phone 425-388-9280. The website is www.everettcc.edu/finaid.

VETERANS’ ASSISTANCE

The Veterans Office serves as a liaison between EvCC and the U.S. Department of Veterans Affairs. A representative is available to assist veterans and activate all veterans’ educational benefits. A determination of eligibility by the VA and receipt of first month’s benefits can take 4 to 6 weeks, so you should apply well in advance of your anticipated start date if you are planning to use your benefits to pay for initial costs (e.g. tuition and books). In order to maintain benefits, veteran students must keep the veterans’ advisor apprised of enrollment plans each quarter and are required to follow VA regulations pertaining to standards of conduct and academic progress.

Information packets, applications, and assistance for all veterans’ programs are available from the EvCC Veterans’ Advisor. The Veterans’ Advisor is located in the Financial Aid Office in the Parks Student Union, phone 425-388-9277.
The EvCC Student Employment Referral Center (SERC) offers free assistance in job search and referral to current and former students, alumni and the community. The SERC maintains and seeks new employer, agency, and organization contacts on a daily basis in order to bring new and diverse employment opportunities to our campus. Some SERC services are available online at the college web-site www.evcc.edu/studentemployment. Here you will be directed to the SERC registration form, job order form for employers, hours of operation, weekly hot jobs, calendar of events, and other valuable resources. The Interface software program allows the students to access jobs from their homes, and employers to conveniently list their new jobs online from their offices 24 hours a day, 7 days a week using the new EvCC Web-based Job Referral System. To receive a referral for posted positions a person must register with the SERC. Simply stop by the office, fill out the form (or bring the downloaded copy), receive a handbook and calendar of events and search the job postings. Job openings are received daily at the office from both the public and private sector and for local, state, and national companies. These jobs are posted on clipboards and in our customized job database. The SERC lists hundreds of jobs that can be accessed through our job referral bulletin board and clipboards in the Parks Student Union on the second and third floors.

Weekly “Hot Jobs” flyers highlight current jobs posted in the SERC, dates and times of job-related workshops on campus, and useful tips about job search, employment trends, etc.

**Internships**

The SERC acts as a clearinghouse for internships for students whether they are required, optional, or exploratory for a certificate or degree. For more information, contact the SERC office.

**Quarterly Workshops**

The SERC recruits employers, faculty, and staff to conduct workshops on campus. Resume and Internship Orientations are available throughout the quarter. Other workshops are scheduled according to need and may include: How to Navigate a Job Fair, Internet Job Search, and Learning and Earning without a Four-Year Degree.

**Job Fairs**

Job Fairs (co-sponsored by EvCC and six community businesses and agencies) are offered three times a year (January, April, and September) and attract all types of industry. Visit the Job Fair web site at www.snoocojobfair.com for more information. The job fairs provide information on what types of skills are needed for career planning and job search as well as employment opportunities. Additional employment events are scheduled each quarter. Including employers on campus from 9 am – 12 pm on Thursdays, specialized job fairs for medical, small business and apprenticeships, and job recruiters.

**TRIO-SSSP Services**

Advising — Choosing classes, programs or degrees matching your interests and skills; meeting requirements for and maintaining financial aid; eligibility for scholarship opportunities, and program, graduation or college transfer requirements.

Counselling — Managing time and competing priorities, coping with family demands, working through personal crises or anything interfering with your success as a student. TRIO-SSSP counselors also help students explore and choose career options.

Free Tutoring — One-on-one tutoring in most college classes, provided by professional and trained peer tutors knowledgeable in course content and familiar with strategies to learn it well.

Study-skills Information — TRIO-SSSP offers handouts or instruction on development of key college success skills. Popular topics include taking lecture notes, effective study strategies, overcoming test or math anxiety, writing a research paper, time management and much more.

Computer Resources — Our program students have access to a quiet study area featuring three computers, each with Internet access. Short-term access to a laptop is available for actively participating program students in their second full quarter with TRIO-SSSP.

Transfer to Four-Year Colleges and Universities — TRIO-SSSP helps students plan their community college transfer degrees including general admission requirements set by four-year colleges and universities, and specific requirements for programs, departments, and colleges within these institutions. Experiential, hands-on learning about upper-division options is provided to TRIO-SSSP students by way of campus visits to colleges and universities in Western Washington.

TRIO-Student Support Services Program is located on the Third Floor of Parks Student Union, down the hall from The Diversity & Equity Center and in very close proximity to other key student services and resources. Contact 425-388-9275 for information, or stop by our reception desk to make an appointment.

**DIVERSITY AND EQUITY CENTER**

The Diversity and Equity Center combines the programs and services of the Multicultural Student Success Center and Women’s Programs and Services to provide outreach, retention and academic support programs for ethnic minority and re-entry women students. The Center also serves as a campus resource center on diversity and coordinates institutional diversity initiatives. The mission of the Diversity and Equity Center is to Advocate for the academic success of our students; Educate our campus and community about diversity; and Celebrate our differences.

**Student Retention and Support Services**

- Information, entry advising and assistance for new, re-entry and prospective students
- Academic and transfer advising
- Personal and career counseling
- Crisis intervention
- Outreach activities and program orientations.
- STAR (STudent Achievement and Retention) Program
- Mentor Program
- Mid-Quarter Academic Assessments
- University transfer information and visits
- Student Emergency Funds & Student Emergency Book Loan Funds
- Lesbian, Gay, Bisexual, Transgender, Questioning and Allied (LGBTQA) programs and services
- Safe Zone program
- Success workshops
- Learning and Study Skills (LASSI) Inventory & Assessment
- Workshops and conferences
- Community collaboration
- Student leadership development
- Student ethnic clubs and women’s clubs
- Support groups
- Referrals to resources on and off-campus
Computers available for homework and research

Faculty/Staff Support and Resources
Class presentations, information and resources on topics related to diversity, gender and equity
Collaboration with Instruction to provide faculty resources and training to enhance diversity in instruction, curriculum and pedagogy
Funding for trainings, programs, and activities aimed at improving the academic success of students of color and/or supporting campus diversity goals
Lectures and events
Workshops and conferences

STAR Program
The Student Achievement and Retention (STAR) Program is designed to increase retention and academic achievement. Some of the support services offered include:
Orientations
Success workshops
Mid-quarter academic assessments
University transfer information and visits
Computers for homework and research
End-of-the-year program
Referrals and resources to on and off campus agencies

Mentor Program
The Mentor Program is designed to connect students with EvCC faculty or staff members. Mentors serve as positive role models and provide academic, cultural and personal support to help Everett Community College students transition into and adjust to the community college. Students are matched with a mentor (faculty/staff) and are encouraged to meet regularly and attend cultural programs and events on campus.

Student Leadership Development
Women’s, ethnic, and gay/lesbian student clubs are invited and encouraged to meet in the Diversity and Equity Center. The following clubs are active at EvCC:
APSU: Asian/Pacific Islanders Student Union
BSU: Black Student Union
MECHA: Movimiento Estudiantil Chicano de Aztlán
First Nations Club
EMPOWER: Political Organization For Women’s Rights
S.P.L.I.C.E.: Single Parents, Low Income for College Education
Triangle Alliance (LGBT club)
Iwi Pono Student Society (Hawaiian Club)
The Diversity Center is located on the third floor of the Parks Student Union. 425-388-9306.

CENTERS FOR DISABILITY SERVICES
The Center for Disability Services (CDS) office assists students with documented disabilities to establish and receive academic accommodations while attending Everett Community College. Services available through the Center include campus advocacy, testing accommodations (including additional time or scribes), note-takers (copy of notes from another student in class), Sign Language interpreters, books in alternative formats, equipment loan, information and referral.
Prospective students are invited to contact the Center for Disability Services office prior to the beginning of the quarter to find out about the documentation requirements and to arrange for an intake interview with the Director. Students who require accommodations such as books in alternative format, or Sign Language interpreters need to contact the Center at least six weeks prior to enrollment to arrange for such accommodations.
Please contact the Center for Disability Services office if you have any questions. They are located in Parks on the main floor right across from the bookstore or may be reached at 425-388-9272 voice, or 425-388-9438 TTY. You may also email cds@everettcc.edu.

LIBRARY-MEDIA AND LEARNING SERVICES
Library-Media Center
The Library-Media Center provides information and services to support student research and learning. The materials collection includes 46,000 books, more than 300 current periodicals and newspapers, and over 6,000 videocassettes, compact discs, audioscassettes, and multimedia programs. Computer workstations provide access to the Internet, electronic databases and other research material such as periodical indexes, newspapers, encyclopedias, language programs, and much more. Participation in a regional interlibrary loan network further expands resources for students.
Faculty librarians assist students by helping them to locate information, complete class assignments, and to develop research skills. In addition to individual assistance from the reference desk, librarians teach instructional sessions, non-credit workshops, and credit courses.
There are individual study carrels, casual lounge areas, and media listening/viewing stations throughout the Library-Media Center. Students may reserve study rooms for group projects and discussion. Wireless Internet connectivity is now available in the Library and laptop computers may be checked out for in-library use. Photocopiers, microform reader/printers, and adaptive equipment for students with disabilities are available for use. The Library-Media Center duplicates language audocassettes and compact discs for students in specific courses and supports distance learning with such services as telecourse DVD or tape rental.
Call 425-388-9353 for library hours and to renew materials. Call 425-388-9354 for reference assistance or email library@everettcc.edu. Check our website at www.everettcc.edu/library to connect to the library catalog, use remotely-accessible databases, and for other information about library services and resources.

Rainier Learning Center
The Rainier Learning Center (RLC) is designed to help students succeed in college. The RLC offers an Academic Readiness Center, Computer Readiness Services, Math Support Services, a Tutoring Center and a Writing Center. Through tutoring, individual and small group learning, students can get support in reading, learning, math, writing, computers and other subjects. It is the place to go when students experience difficulty with class assignments or when they need to learn study skills or basic computer literacy skills. At any time during the quarter, students can drop in, make appointments, or be referred by an instructor or advisor.
New students whose placement test results indicate a need to start in below 100 level reading, writing or math are particularly welcomed in the Rainier Learning Center. (Students who need to take basic math courses should also review the courses offered in the Math Learning Center, described above.) Friendly and supportive staff provide advising, special workshops, classes, and tutoring - all with the purpose of helping students reach their higher education goals. Peer tutors help throughout the Center. Students come into the center during any of the open hours, including evening hours, to receive services or make appointments. The Rainier Learning Center is located on first floor of Rainier Hall.
Academic Readiness
Academic support is available in the Academic Readiness Center. Students can take the initiative to get the results they want in reading and learning. Strategies for attaining success in the academic areas are offered as free workshops and college credit courses. Computer Readiness Services are offered to help students become computer literate, conduct research on the Internet and improve basic computer skills.

Math Support
Students can obtain math support at all levels and participate in Individualized Instruction and study groups. Problem solving, preparing for tests and analyzing results are covered. The goal is to improve course outcomes and eliminate math as a barrier to college success.

Writing
The Writing Center provides support for student writers on all types of writing projects in any subject. Students also use the Writing Center for personal writing, application essays, resumes and cover letters. Writing Center instructors and peer tutors do not proofread papers, but they work collaboratively with writers offering feedback and providing ideas and methods for editing and polishing their work. In order to use the Writing Center on a regular basis, students enroll for 1-5 credits of English 90. Most students enroll for 2 credits giving them 20 hours of Writing Center time over the quarter. Computers are available for word processing; also there is instructional software for composing, editing, grammar, and punctuation basics. Additional resources are provided for students to use such as: dictionaries, grammar handbooks, textbooks, handouts, and exercises. Our goal is to provide writers with transferable skills that will help them on future writing projects.

Math Learning Center
The Math Learning Center, located in Baker Hall, offers courses in Basic Math with Applications, Elementary Algebra, Plane Geometry, and Trigonometry. Utilizing self-paced instruction, a computer lab, and personalized assistance, staff and faculty assist students in improving their essential skills in math.

STUDENT ACTIVITIES
Mission
The Student Activities Office serves the Associated Students and the campus community by providing programs and services that support educational, cultural, leadership, recreational, social and personal growth. Student development is the major focus of Student Activities as student leadership, education and advocacy creates a positive learning experience that will open new horizons, present culturally diverse ideas and provide social opportunities for students supporting their total educational development at the College.

Student Government
Students are encouraged to become involved in the governance and leadership activities of the College and the Associated Students. The student government organization provides students with a mechanism to become involved with, and have a voice in, student and college affairs.

The Northlight Gallery provides exhibitions of local, regional, or national artists working in all mediums of creative expression. Films, performances, lectures, and receptions for the exhibiting artists are held when appropriate. Student and faculty art shows are also part of the exhibitions. For more information, email arts@everettcc.edu or call 425-388-9036.

**Early Learning Center**
The Early Learning Center provides on-campus, licensed and NAEYC accredited childcare in an environment that is nurturing, safe, and designed to encourage the important developmental growth and learning of children 12 months to 5 years old. Families have opportunities to participate in the care and education of their child by volunteering in the classroom and participating in parent education classes. Visit the Early Learning Center located on the northeast corner of the campus at 820 Waverly Avenue. For further information, contact the Center at 425-388-9121.

**Bookstore**
Owned and operated by the College, the main Bookstore is located in the Parks Student Union; the Arts and Science Annex is located in Whitehorse Hall. The Bookstore is a non-profit service organization that provides an outlet for all required books and supplies. Complete art, office, and school supplies sections are available. The book department provides recommended readings as well as books for enjoyment and special interests. The store also carries greeting cards, gifts, snacks, backpacks, clothing, phone cards, and bus passes. The Bookstore accepts checks, Visa, MasterCard, and debit cards with Visa or MasterCard logos.

The Bookstore’s refund policy is the same as the College’s tuition refund policy; the 100% refund policy extends to the 5th day of each term; the 50% refund policy ends on the same day as the College’s 50% refund deadline. Full value textbook Exchanges are offered until the 15th day of the term. Bookstore hours are 8am to 7pm Monday and Tuesday, 8am to 5pm Wednesday and Thursday, and 8am to 3pm Friday. Hours are expanded during the first week of each quarter.

Buyback is offered during the final exam period each quarter. Buyback hours are: 8am to 7pm Monday and Tuesday, 8am to 5pm Wednesday and Thursday, and 8am to 3pm Friday. Phone: 425-388-9413. Website: www.evccbookstore.com

**Food Services**
Food service is available at The Cascade Range Café in the Parks Student Union from 7am to 3pm Monday-Thursday and 7am to 1:30pm Friday during the quarter, with reduced hours in Summer Quarter. Breakfast and lunch entrees are featured daily. Espresso stands are also in operation during most of the hours classes are held. They are located in the Parks Student Union and on the first floor of Whitehorse Hall. No alcoholic beverages are served on campus.

**Campus Safety, Security, Parking and Traffic**
The Campus Safety, Security and Traffic Department monitors the campus for safety and security and regulates parking and traffic on campus, issues parking permits and assists with battery failure and locked cars.

In an emergency contact the on-duty campus security officer by calling extension 9911 (on campus), 425-388-9911 (from off campus and cell phones), or call Everett Police Emergency at 9-1-1 (campus phone).

Parking on the EvCC campus is by permit only, days and evenings, Monday–Friday for Fall/Winter/Spring and Summer Quarters. Staff and student parking permits are available for purchase from the Cashier’s Office. One-day visitor permits are available at no charge from the Security Office.

The Campus Safety, Security, Parking and Traffic Office is located in the Parks Student Union, Room 224 — main floor. The office phone numbers are extensions 9912 and 9914 (from campus), 425-388-9912 or 425-388-9914 (from cell phones). Security Office hours are 7:30am — 7pm, Monday — Thursday, and 7:30am — 4:30pm on Friday. Summer and quarterly break hours are 7:30am — 4:30pm, Monday — Friday.

**Co-Curricular and College-Related Programs**

**The Clipper**
This student-produced, award-winning newspaper, which is published every other week, contains news about the College and campus events and activities. Journalism students and others who are interested participate in writing, editing, and publishing the newspaper. Credit may be earned by enrolling in Journalism 170. For further information, contact the Clipper advisor, Andrea Otañez, at 425-388-9419. Visit the website at www.everettcc.edu/clipper, or email clipper@everettcc.edu.

**Vibrations**
Vibrations is a student-produced creative arts magazine, published annually. All students are invited to participate by submitting manuscripts, photographs, and artwork. Credit may be earned by enrolling in Graphic Arts 251 and 252. For more information, contact the Vibrations advisor, Greg Kammer, at 425-388-9439 or email Vibrations@everettcc.edu.

**Northlight Gallery**
The Northlight Gallery provides exhibitions of local, regional, or national artists working...
The explosion of information on the Web and the pressure to succeed in a short amount of time have made plagiarism a problem in our society. Let us help you stay away from that trap. Talk to your instructors about how to avoid plagiarism.

**Notice to Students**

The provisions of this publication are not to be construed as a contract between the student and Everett Community College. The College reserves the right to change any provision, fee, rule, requirement, policy, deadline, or procedure whenever necessary. Changes are effective upon the date specified and may apply not only to prospective students, but also to those who are currently enrolled. Changes are posted in the Enrollment Services area and, when possible, listed in the class schedule booklet and on the web. The College reserves the right to withdraw or change courses at any time.

Falsification of information on any admission, financial aid, or other materials submitted to the College may result in denial of admission or immediate dismissal from the College. Students are expected to be familiar with all College policies and rules and will be held responsible for observing such provisions.

**Student Right to Know Disclosure**

Federal “Student Right to Know” (SRTK) legislation requires colleges to disclose information about student completion, graduation and transfer rates over a three year period. The rates for students who were considered new, full-time, and certificate- or degree-seeking, and who entered in Fall 2001, are outlined below. The status of these students was measured as of August 31, 2004.

<table>
<thead>
<tr>
<th>Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>561</td>
<td>Number in initial cohort group of students, Fall 2001</td>
</tr>
<tr>
<td>161</td>
<td>28.7%</td>
</tr>
<tr>
<td>55</td>
<td>(10%)</td>
</tr>
<tr>
<td>50</td>
<td>(10%)</td>
</tr>
</tbody>
</table>

It is important to understand the background of this information. As a community college, EvCC enrolls large numbers of students who may be part-time, or not seeking a certificate or degree, or who have transferred from another college, or who enroll at times other than Fall Quarter. Therefore, the initial cohort described above seems small and non-representative when compared to a typical enrollment of about 9500 students in a typical Fall Quarter. Furthermore, the calculation of completion and graduation rates does not consider the high numbers of students who take longer than three years to reach their goal due to part-time enrollment, or who temporarily stop-out in order to meet employment or family needs, or who are only taking a few courses to improve job skills. Calculation of transfer rates is limited to most Washington schools and to some Oregon schools. Transfers to colleges other than those are not reflected. Thus, the statistics above should be evaluated only as a snapshot of what happens to a limited category of students, based on limited data.

The Right to Know Campus Safety Report is published annually by October 1. The information is provided in compliance with requirements set forth under the Student Right to Know Campus Security Act of 1990 (Title II - Public Law 101-542 Nov. 1990). Upon request, this information will be provided to any applicant for enrollment or employment. Copies are available in the Security Office, the Enrollment Services Office, Student Activities Office, and from the Vice President of Student Services.

**State Support of Higher Education Students**

The State of Washington contributes to the cost of students through support of basic instructional cost and state-supported financial aid. For the academic year 2006-07, the instructional cost per full-time student was $6192. A Washington resident, when he/she pays tuition, funds about 42% of the instructional cost. The state supports the remaining instructional cost. Students at community colleges also receive state supported financial aid including that provided from each college’s financial aid fund (3 ½% of tuition). The total state financial aid support per full-time equivalent student amounts to $638 for the year.

---

**ALL COLLEGE POLICIES**

**Equal Opportunity and Harassment Policies**

Everett Community College does not discriminate on the basis of race, religion, creed, color, national origin, age, sex, sexual orientation, marital status, the presence of any physical, sensory or mental disability, or status as a disabled or Vietnam era veteran in its program and activities, or employment.

The Vice President of Student Services has been designated to handle inquiries regarding student-related non-discrimination policies and can be reached at 2000 Tower Street, Everett, WA 98201, or by phone at (425)388-9589.

The Vice President of Human Resources has been designated to handle employment-related inquiries regarding the non-discrimination policies and can be reached at 2000 Tower Street, Everett, WA 98201, or by phone at (425)388-9232.

**Drug-Free Campus Policy**

In an effort to provide a safe and healthy educational/work environment, all students/employees must report to class/work in a condition fit to perform their learning/duties, unimpaired due to the use of alcohol or drugs. The unlawful use, possession, delivery, dispensation, distribution, manufacture, or sale of drugs on College property, in state vehicles, or on official business is prohibited. Any employee or student found in violation of this policy will be subject to formal disciplinary action, which could include completion of an appropriate rehabilitation program up to and/or including dismissal/expulsion.

**Tobacco Use Policy**

As tobacco use presents a clear and present life-threatening danger to users and also threatens those in proximity to the users, the College has determined that it has a duty to provide a healthy environment for students, employees and the public and a duty to encourage and assist current tobacco users to cease the use of tobacco products. The use of tobacco in any form is not allowed in any College building, enclosure, or state-owned vehicle. Tobacco products are not sold or distributed on campus grounds. The use of tobacco products is restricted to specifically designated smoking areas across campus. Walking around campus while smoking is prohibited.

**Pets on Campus**

The safety and security of students, employees, visitors and the general public are a prime concern and responsibility of the college. Based on reasons of health, sanitation and safety, no person shall be permitted to bring into or leave any dog, cat or any other animal or pet in any college building, nor is it permitted to leave any such pet or animal unattended on any college controlled property. This policy does not apply to guide dogs or other trained service animals, as defined by law and consistent with the Americans with Disabilities Act, providing assistance to persons with disabilities requiring these services. This policy does not apply to animals brought to campus for a specific course assignment, K-9 officers and animals maintained by the college for educational purposes.

**Prohibition on Plagiarism**

Success as a student and learner requires academic honesty. A chief aspect of academic honesty is the avoidance of plagiarism. Plagiarism, as defined by Brenda Spatt (1983), is “the unacknowledged use of another person’s work, in the form of original ideas, strategies, and research as well as another person’s writing, in the form of sentences, phrases and innovative terminology.” Students suspected of plagiarism are subject to the College’s Student Code of Conduct and disciplinary processes.

How can you avoid plagiarism? When writing a paper, use your own words. When using another person’s words, use quotation marks and give credit to the original source. If you are using another person’s ideas, give that person credit. Do not use pre-written papers available from the Web or other term paper services. Plagiarism affects everyone. If another student is doing it, it undermines your own work and the value of your degree. If you are doing it, you are not doing the hard work from which you learn the best. The explosion of information on the Web and the pressure to succeed in a short amount of
GALERER

Academic Calendar
The academic year at Everett Community College is divided into three quarters of approximately 11 weeks each and a summer session of eight weeks. Key dates for each term are listed in the front of the Catalog. Important dates for each quarter (such as registration dates, refund deadlines, etc.) are printed in the quarterly class schedule and at www.everettcc.edu; click on Calendar.

Attendance
Attendance policies vary from course to course. Students are responsible for meeting the stated requirements of the courses in which they are enrolled. Attendance during the first several sessions of the class is necessary in order to avoid administrative withdrawal for non-attendance. See the First Week Enrollment and Withdrawal Policy on page 15.

Prerequisites and Corequisites
A prerequisite is a course which must be taken before a student is allowed to enroll in another course, or the achievement of a minimum skills assessment score that indicates readiness for the course material. For example: Math 65 is a prerequisite for Math 140, listed as PR in quarterly class schedule. A corequisite (CR) is a course that must be taken at the same time as another course. Students must abide by the course requirements for prerequisites and corequisites. Faculty may administratively withdraw students who do not meet the prerequisites and corequisites.

Course Numbering
Everett Community College offers courses that serve a variety of populations with different purposes. Course numbers (such as Math 27 or ENGL 101) may indicate the level of the course.

001-099: Pre-college level skills development or enhancement courses; designed to help
students prepare for success in college-level work where it is expected that their academic skills in general (or specifically) are not at the college level and/or the course material is aimed at below college-level skills.

100-199: Introductory courses intended primarily for first-year college students with no significant deficiencies in their academic background.

200-299: Intended primarily for students who have successfully completed one year of college-level work.

(Approved, Instructional Council, March 2, 2006)

Final Examinations
Most courses require a final examination. The College publishes an official final examination schedule each quarter. Students must take final examinations at the regularly scheduled time unless other arrangements are made with the instructor.

Waiver of Regulations
A petition for waiver of a specific academic regulation should be initiated in the Enrollment Services Office.

CREDIT SYSTEM

Credits measure the amount of academic work required for the class. In general, a class that meets one hour per week and requires about two hours of outside assignments per week for one quarter will earn one credit. That is, one credit represents about three hours of effort per week. Laboratory and certain other courses vary from this pattern. The quarter hours of credit for each course are shown after the course title in the Course Descriptions section of this catalog.

Students earn credit only for those courses in which they are officially registered for credit. In certain instances, credit cannot be earned in two courses of similar content. See individual course descriptions.

Student Credit Load and Limitations
The total number of credits taken in any given quarter will vary depending on each student’s goal. Students should note the following limitations:

- International students or students receiving financial aid, veterans’ benefits, or other agency funding will usually have a minimum number of credit hours required per quarter. It is the student’s responsibility to check with the appropriate advisor and know these requirements. Normally, twelve credits meet the requirement for full-time status. (During summer quarter, a minimum of eight credits is considered full time for students receiving veterans’ benefits.)

- Students wishing to take more than 20 credit hours per quarter need permission from the Vice President for Enrollment Management or a designated representative at the time of registration, except when a single course or a prescribed program requires more than 20 credit hours in a given quarter.

The College reserves the right to deny registration by a single student in two sections of the same course in order to maximize the availability of seats for all prospective and current students.

Auditing a Course
A student who desires to attend classes but does not wish to receive grades or credits may enroll as an auditor. Full tuition and fees are charged. Students who wish to change from audit to credit (or credit to audit) during a quarter must receive permission from the course instructor. Certain courses may not be available for audit. See individual course descriptions.

If a student who is enrolled for audit does not attend regularly and fails to withdraw officially, the instructor may issue a grade of V (unofficial withdrawal). Running Start students may audit a course only if they pay the tuition themselves, since school districts do not reimburse for non-credit enrollment.

Repeating a Course for Additional Credit
Some courses can be repeated for additional credit up to the maximum specified. A separate grade is issued for each completion. See individual course descriptions or your advisor for such courses.

Repeating a Course to Change a Grade
Courses may be repeated to improve the grade earned, but credit is applied only once. In no circumstance will any course be repeated more than twice in order to improve a grade; (this is defined as two repeats in addition to the original enrollment). Permission may be required to repeat a course, and/or requirements specific to an individual program of study may affect eligibility to repeat a course.

To repeat a course for the purpose of improving a grade, the student must register for the course, complete a course repeat card at the time of registration or no later than the last day of the term, and pay all necessary fees. Each grade received will appear on the student’s permanent record, but only the last grade awarded is used in computing the grade point average by Everett Community College.

Other colleges and universities may not accept a grade earned in a repeated course. If accepted, the grade may be treated differently in the calculation of grade point average.

Credit by Examination (Course Challenge)
A student who is currently enrolled at Everett Community College may apply for credit by examination (course challenge). Course challenge examinations are sufficiently comprehensive to determine that the student has the same knowledge and skills as those students who enroll in and successfully complete the course. A student should have previous training, private study, work experience, or other bona fide qualifications indicating the student has knowledge or abilities equivalent to course completers. During the quarter credit by examination is requested, a student must be regularly enrolled at the College for credit course work other than the course to be challenged.

To start the process for a course challenge, a student should contact the instructor of the course to discuss the student’s background and readiness to challenge the course successfully. This should be done prior to the beginning of the quarter. If the discussion is positive, written approval must be gained from the instructor and Division Dean on the ‘Application for Course Challenge’ form, available in Enrollment Services or a division office. Students must meet all eligibility criteria and pay the established non-refundable fee at the Cashier’s Office prior to submitting the form to the Enrollment Services Office. The form must be submitted to Enrollment Services before the tenth calendar day of the quarter. Students must complete the requirements of the course challenge, which may be written, oral or skills tests, by the fiftieth (50th) day of the quarter, unless a brief extension is approved prior to that date by the Instructor.

In some cases, a student may be registered for a course that he or she decides to challenge instead. In that case, the student has paid regular tuition and fees for the course, which may be refunded only if the student withdraws by the published refund deadlines; the student must also withdraw in order to avoid earning a grade. The student must make a decision early in order to challenge a course. Please consult with the Enrollment Services Office about the process. Dual registration in the course and completion of a challenge for the same course results in cancellation of the credit and grade for the challenge, and the transcript will reflect only the registered course and the grade for that course.

Activity courses or courses taken previously at regionally accredited institutions may not be challenged.

Courses previously taken for audit at Everett Community College may not be challenged. An individual course may be challenged only once.

Traditional letter grades (A through E) will be issued on completion of the examination. Plus or minus grades may be utilized at instructor discretion in accordance with College procedures. Students not taking the examination will be issued an E or a V at the instructor’s discretion.
Everett Community College uses a letter symbol grading system to assess academic achievement. For traditional grades (A through E) the grade point values are:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Point Value</th>
<th>Grade</th>
<th>Point Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
<td>E</td>
<td>0.0</td>
</tr>
</tbody>
</table>

**Interpretation of Grade Symbols**

**A (4.0) High Degree of Excellence of Achievement**

In relation to the standards set for the class, the student has done an exceptionally high level of work.

**B (3.0) Better than Average Achievement**

In relation to the standards set for the class, the student has significantly exceeded the average.

**C (2.0) Average Achievement**

In relation to the standards set for the class, the student accomplished an average level of work and met more than the minimum requirements.

**D (1.0) Low Standard of Achievement**

In relation to the standards set for the class, the student did not do average work and met only the minimum requirements.

**E (0.0) Failure to Complete Minimum Requirements**

In relation to the standards set for the class, the student failed to achieve the minimum requirements.

**+ and - Symbols**

The symbols + and - may be used with traditional letter grades A through D to differentiate levels of achievement within a grade range. The + is not used with the letter grade A or E.

**Non-Traditional Grades**

The following non-traditional grades are also used when appropriate:

- **N Audit**
- **S Satisfactory**
- **Y In-Progress**
- **U Unsatisfactory**
- **I Incomplete**
- **V Instructor Withdrawal**
- **W Withdrawal**
- **V1 Administrative Withdrawal**

Non-traditional grades (N, Y, W, S, U, V, and V1) have no grade point value and, except for the S grade, no credit is awarded. Courses in which these grades are received are excluded from the grade point average calculation by Everett Community College.

Students receiving financial assistance should inquire at the Financial Aid Office regarding the effect of receiving a non-traditional grade on eligibility for assistance.

Grades of I, S, U, V, W, and Y may be evaluated differently by other colleges and universities.

**N Audit**

Means class attendance and participation without evaluation. Courses taken on this basis carry no credit and do not count toward graduation.

**Y In-Progress**

Indicates a course has not yet officially ended, and the student is still actively involved in finishing the required work. This grade is used in courses that have an official ending date scheduled after the end of the regular quarter. The course requirements must be completed within one year of the date the Y is given; otherwise, it will revert to an E grade. An instructor may specify a completion date earlier than one year in the course syllabus.

**Final Grade Reports**

Final grades are available shortly after the end of each quarter. Students may see their grades by viewing their Unofficial Transcript on the Web. Go to www.everettcc.edu/kiosk and click the “Enter Student Kiosk” gray bar, then click the “Unofficial Transcript” in the menu on the left side of the screen. You must know your Student Identification (SID) number and your Personal Identification Number (PIN). For more information about the Student Kiosk, see “Student Records” in the Enrollment Services section of this Catalog.

**Grade Errors and Changes**

The deadline for requesting and submitting a grade change is the end of the quarter following the quarter in which the grade was given. In the case of a conversion of an I or a Y to a final grade given by the instructor, the deadline is the end of the quarter following the quarter in which that final grade was given. In the case of Spring class grades, the deadline is the end of the following Fall Quarter. In most circumstances, the student should direct his or her initial concern about a grade to the instructor. Questions also may be directed to the Dean for the instructor’s division.

**Grade Point Average (GPA)**

A grade point average (GPA) is a measure of the student’s overall academic performance. It is based upon those courses in which the student has received letter grades A through E.
Graduation with Honors

Students who have met specific degree requirements will be graduated with honors if their EvCC cumulative grade point average is:

- 4.00: Highest Honors
- 3.60 to 3.99: High Honors
- 3.20 to 3.59: Honors

Satisfactory Academic Progress

Students must receive a minimum quarterly grade point average of 2.0 to maintain satisfactory academic progress. Students must also satisfy any additional grade point requirements specified in the curriculum guide for the degree being sought.

Low Scholarship and Academic Probation

Students who fall below minimum scholarship standards will be notified by a letter sent to their last known address. Students whose quarterly grade point average falls below 2.0 in traditionally graded courses will be sent a First Warning and placed on low scholarship status. Those who continue on low scholarship for a second consecutive quarter will be sent a Second Warning and placed on academic probation; continuation to the next term is subject to Counselor approval. A third consecutive quarter on low scholarship will result in a Third Warning; future registration will be cancelled if Counselor approval to continue enrollment has not been received. A fourth consecutive quarter with a grade point average below 2.0 results in academic dismissal from Everett Community College. Re-admission is subject to approval by the Re-admission Committee, following an absence of at least four quarters.

Students are expected to make satisfactory progress toward completion of their educational program. An excessive number of I, V, W, and U grades received in courses attempted will be cause for review of the student’s academic record and may result in academic probation or dismissal.

Students dismissed for low scholarship may petition the Vice President for Student Services in writing for re-admission to the College. Specific guidelines for the low scholarship, warning and dismissal process are available from Enrollment Services.

Various resources of the College such as counseling and tutoring services are available to assist students in meeting the scholarship requirements.

**GRADUATION REQUIREMENTS FOR ALL CERTIFICATES AND DEGREES**

A Certificate is awarded for successful completion of a core of technical credits designed to prepare a student for immediate employment. An Associate Degree represents the equivalent of two years of full-time study in a university transfer program or specialized technical field.

EvCC places a value on study in subjects that broaden a learner’s perspectives and competencies. Therefore, some certificates and each degree requires students to take general education courses in communication, computation, human relations and other fields.

Students have the responsibility of verifying specific graduation requirements with their faculty advisors. Specific program requirements are stipulated in the curriculum guides available from Enrollment Services.

Philosophy Statement on General Education

“At Everett Community College we believe that all people have both a right and a responsibility to find out who they are, what they can become and how they relate to others. We further believe that societies, and communities within them, can neither sustain themselves, nor flourish without people who understand themselves and the world in which they live. General Education is the life-long process through which people accumulate the knowledge, skills and understanding necessary to function more completely in complex and diverse societies. As an institution of learning, we acknowledge that we contribute to this process, and we commit ourselves to providing an environment within which people will have the opportunity to further their growth as individuals and members of society.”

EvCC General Education Task Force, 1998
Requirements for All Certificates and Degrees

EvCC is committed to identifying and facilitating appropriate learning outcomes for students who enroll in certificate and degree programs. During their programs of study toward completion of any College degree or certificate (45 credits or more), students will:

1. Engage and take responsibility as active learners;
2. Think critically;
3. Communicate effectively;
4. Participate in diverse environments;
5. Utilize information literacy skills;
6. Demonstrate computer and technical proficiency.

The College provides assistance in determining completion of the required curricula for graduation through curriculum guides, advisors and counselors. However, the final responsibility for meeting all academic and graduation requirements rests with the individual student. All certificate and degree-seeking students must have an advisor. The Enrollment Services office may assign an advisor.

The requirements for all degrees are as follows:

- For any associate degree, a minimum of 90 credits is required, of which at least 45 must be traditionally graded courses which are calculated in the GPA. Where applicable, a maximum of three physical education activity credits may be included (in the A-List Electives only) in the total. At least 30 credits must be earned at EvCC in order to be eligible for graduation.

- For any associate degree, all students must complete a Diversity Course. Such courses are designated with a “D” at the end of the course number, such as ANTHR 202D. The diversity course may also be used to meet degree requirements, such as Social Science or Humanities, depending on the course selected.

- For a certificate, the minimum number of credits varies by program. At least one third of the minimum credits required for the certificate must be earned at EvCC.

Students must satisfy all specific requirements for the certificate or degree sought, including:

1) Students who apply for a certificate or degree while currently attending, or within twelve months of their last attendance, must satisfy the requirements in effect at the time of the award of the certificate or degree, or published in a catalog or curriculum guide in effect at any time during their most recent continuous attendance at EvCC. (Continuous attendance is defined as completing at least one term within consecutive twelve-month periods.) Students needing longer than five years to complete a given program may be subject to updated graduation requirements.

2) Students who apply for a certificate or degree after an absence of more than twelve months are subject to the requirements in effect:
   a) at the time of their last attendance if, in fact, they fully met the requirements at that time. The certificate or degree is posted with the date of their last term at EvCC. Or,
   b) at the time they submit the application for the certificate or degree if they are using transfer credit from a more recently attended institution toward the EvCC certificate or degree. The certificate or degree will be posted with the date of the term in which the application was submitted.

3) Earn an EvCC cumulative grade-point average of at least 2.0. (Transfer to four-year public and private colleges and universities is competitive. Many four-year institutions require a 2.75 or higher grade point average for admission.)

4) Fulfill all obligations to the College, financial or otherwise.

5) File an application for graduation with the Enrollment Services Office. This should be done during the quarter before intended graduation. See the Academic Calendar in the front of the Catalog. Students who plan to participate in the June commencement ceremony and have their name printed in the commencement program must file an application for a diploma by the deadline published in the class schedule and in the front of this Catalog. The deadline is typically about 18-20 weeks prior to graduation; applications received after that deadline will still receive consideration but may be delayed until the on-time applications are completed. The diploma application must be signed by an advisor, and must be filed in the Enrollment Services Office.

Certificates

Certificates of Completion are awarded in many technical and career fields and are designed to prepare graduates for employment. Generally, certificate programs are about a year in length. In many cases, the courses completed for a certificate will also lead to an associate degree if the student completes additional requirements.

Specific requirements for each certificate are outlined in the College’s curriculum guides, available from advisors, the Counseling, Advising and Career Center and the Enrollment Services Office. Currently, certificates are awarded in:

- Administrative Support
- Advanced Manufacturing Technology
- Aviation Maintenance Technology
- Bookkeeping
- Business Administration
- Casino Gaming Systems Technician
- Computer Support Technician
- Cosmetology
- Database Management
- Digital Illustration
- Early Childhood Education
- Entrepreneurship
- Fire Science
- Geographic Information Systems
- Graphic Design
- Healthcare Risk Management
- Legal Office Assistant
- Medical Administrative Support
- Medical Assistant
- Medical Billing Specialist
- Medical Coding
- Medical Receptionist
- Medical Spanish Interpreter
- Medical Transcription
- Metal Fabrication
- Microsoft Office Specialist
- Multimedia: Web Design
- Nursing (Practical/LPN)
- Office Support
- Tribal Enterprise Management
- Virtual Assistant
- Web Design
- Welding
- Word Processing

The College reserves the right to add, change or terminate certificate programs.

Associate Degrees

EvCC offers associate degrees in both university transfer and technical and career areas. Preparation for a major at a university can be accomplished through careful selection of courses that meet the requirements of our degrees. Information about preparing for majors in a wide variety of areas is available in our curriculum guides. See also the information on transferring at the end of this section.

The Associate in Arts and Sciences (AAS) — Option II is awarded for completion of a program of study designed primarily for transfer to a four-year college or university. The AAS - Option II degree meets statewide general transfer guidelines, often referred to as the “direct transfer” degree, or “DTA”.

The AAS - Option I degree is awarded for pre-approved programs leading to professional careers or selected university majors, for example, Nursing, Pharmacy, Flight Technology, and Physical Therapist Assistant.

The Associate of Science (AS) degree is designed for students majoring in sciences, computer science and engineering who wish to transfer to a Washington college or university.

The Associate in Business (AB-DTA) degree is structured to enable a student to prepare for a university major in business administration or accounting.

The Associate in General Studies (AGS) is awarded for completion of a program of study in general education.

The Associate in Fine Arts (AFA) is awarded for completion of course work through the Institute for Media and Creative Arts. Areas of emphasis are Graphic Design/Digital Illustration, Photography, Studio Arts, and Written Arts.
The Associate in Technical Arts (ATA) is awarded for completion of a program of study in technical education. Degrees are awarded in these fields:

- Accounting
- Advanced Manufacturing Technology
- Aviation Maintenance Technology
- Business Administration
- Business Technology
- Computer Information Technology
- Corrections
- Cosmetology
- Early Childhood Education
- Education Paraprofessional
- Entrepreneurship
- Fire Science
- Law Enforcement
- Medical Assistant
- Multimedia
- Welding/Fabrication

The Associate in Applied Science - Transfer (AAS-T) is designed in coordination with a university and enables students to use a designated technical program toward a specific university major, such as computer information systems. The College reserves the right to add, change or terminate degree programs. Current requirements for the degrees follow, and are subject to change.

ASSOCIATE IN ARTS & SCIENCES (AAS)

Requirements for AAS Degree - Option II (DTA)
Everett Community College has agreements with most four-year colleges and universities in the state for direct transfer of its students under guidelines developed by the Inter-College Relations Commission of the Washington Council on High School-College Relations. Under these agreements Everett Community College’s Associate in Arts and Sciences degree, when earned under Option II, may be used to satisfy the lower division general education requirements of the four-year colleges and universities. A comparable agreement has also been negotiated with several universities in Oregon.

Those schools with which the College has agreements are: Argosy University, Bastyr University, Central Washington University, City University, Cornish College of Arts, Eastern Oregon University, Eastern Washington University, The Evergreen State College, Gonzaga University, Heritage College, Northwest College, Oregon State University, Pacific Lutheran University, St. Martin’s College, Seattle Pacific University, Seattle University, University of Maryland-University College; University of Oregon, University of Washington, Washington State University, Western Washington University, and Whitworth College.

The University of Phoenix, Henry Cogswell College, Fort Hays State University, Capella University, and Portland State University also accept the option II degree, based on varying criteria.

Students who earn the AAS-Option II Direct Transfer degree normally will transfer with junior standing and will have completed the lower division general education requirements of the four-year colleges and universities. For exceptions, see the AAS- Option II Direct Transfer curriculum guide.

Students should carefully consult EvCC’s curriculum guides, an EvCC advisor, and a representative of their intended university to assure that they are selecting courses that not only apply to any of EvCC’s transfer associate degrees, but also prepare them for their major. Washington universities may weigh a student’s admissibility depending on whether or not the student completed appropriate pre-requisites for their university major. Students are advised not to take courses on a Pass/Fail basis if they intend those courses to count toward their major.

Students who transfer without the degree will have their courses evaluated for satisfaction of general education distribution and elective requirements on a course-by-course basis according to the policy of the four-year college or university. Recognition of non-traditionally graded courses, CLEP credits, and equivalency credits varies by each four-year college and university.

Students must satisfy all requirements described above in “Graduation Requirements for All Certificates and Degrees.” Direct Transfer degrees require successful completion of at least 90 applicable credits with a cumulative GPA of at least 2.0, following the requirements below.

- Students who have earned credits in a course designated with a strike through below may use the credits even though the course is no longer offered.
- No more than 10 credits in any one discipline may be applied to the distribution areas.

1. PROFICIENCY in Intermediate Algebra

This is a graduation proficiency requirement for which no credit may be applied to this degree. It may be satisfied by completion of high school mathematics through second year algebra, or completion of an intermediate algebra course (Math D65), or course challenge demonstrating mastery of intermediate algebra skills, or completion of one of the following: Math 140 (with a grade of C or higher), 142, 147, 152, 153, 154, 252, 260, 261, or equivalent.

2. COMPLETION of a Diversity Course (5 credits)

Diversity courses focus on perspectives related to diversity in our society. Courses are listed in the Class Schedule with a D at the end of the course number, for example, ANTHR 2020. They are typically found in the categories below of Communications, Humanities, Social Sciences and Transfer Electives. A “D” course may count toward one of the requirements listed below, as well as meet the Diversity Course requirement. In each quarterly class schedule, courses that meet this requirement will be listed. Please consult with an advisor.

3. BASIC SKILLS DISTRIBUTION (15 credits minimum)

A. Basic Communication Skills (10 credits minimum)
At least 6 credits from the following:
- English 101 or 101D (required)
- English 102, 102D, 103, 201, 211 (select one)
Remaining credits, if any, to total 10, from:
  - Engineering: 130, 231
  - English: 202
  - Computer Information Systems: 203
  - Speech: 101, 103

B. Basic Quantitative Skills (5 credits minimum)
- Business: 201
- Engineering: 141, 142, 143, or Math 171
- Math: 137, 140, 142, 147, 152, 153, 154, 174, 252, 260, 261, 281
- Philosophy: 120

4. HUMANITIES DISTRIBUTION

15 credits minimum from at least 3 disciplines; no more than 5 credits from foreign/world language, and no more than 5 credits from Performance Skills (HP) may be used.

Humanities unrestricted list

Art: 120, 121, 123, 124D, 129, 220, 221, 222, 224
American Sign Language: 101, 102, 103, 201, 202, 203
Chicano Studies: 105D
Chinese: 101, 102, 103
Film: 100
5. SOCIAL SCIENCES DISTRIBUTION
(15 credits minimum from at least 3 disciplines)

Humanities 184

Journalism: 101, 102, 103, 104, 105, 110

Media: 100

Photography: 110, 111, 112, 113, 121, 122, 123, 135, 151, 210, 211, 212, 221, 222, 223, 257, 295

Note: University of Washington foreign language exception: First year foreign/world language (101, 102, 103) may not be allowed for distribution credit if used to satisfy the UW foreign language proficiency requirement.
8. APPLIED ELECTIVES - List B (15 credits maximum)

Any course numbered 100 or above and not listed under Distribution or Transfer Electives (List A), except English 140, Math 140, General Business 121 thru 128, CSA 100, CSA 101.

ASSOCIATE OF SCIENCE (AS)

Students who are pursuing a natural, physical or computer science major may find the Associate of Science a good vehicle for transfer to most of Washington's universities. Students intending to major in Biology, Chemistry, Earth Science, Environmental/Resource Sciences and Geology (Geoscience) follow Track I. Track II is designed for students majoring in Atmospheric Sciences, Computer Science, Engineering and Physics.

Students earning this degree will normally transfer with junior standing and about half of the lower division general education requirements of the baccalaureate colleges and universities. Remaining general education courses may be taken after transfer and prior to completion of a baccalaureate degree. This degree enables students to concentrate on fulfilling pre-major coursework in their intended field of study. Curriculum guides and advising sheets for each of these Tracks are available from Enrollment Services.

In addition to the specific requirements for the AS degree, students must complete at least 90 applicable credits with a cumulative GPA of at least 2.0., and must also satisfy the Diversity course requirement as described in “Graduation Requirements for All Certificates and Degrees.”

It is essential to work with an advisor for the AS degree.

ASSOCIATE IN BUSINESS - DTA

Students interested in attending one of Washington’s universities, majoring in business administration, accounting, economics, management, and other areas related to business, may consider completing the Associate in Business -- Direct Transfer Agreement degree. This degree follows a pattern very similar to that of the AAS — Option II, but specifies courses that meet pre-requisites for business majors. To complete this degree, students must:

- Successfully complete a minimum of 90 applicable quarter hours as listed in the Associate in Business Curriculum Guide
- Earn a minimum cumulative GPA of 2.0
- Complete the pre-requisites for the major with a grade of at least C
- Satisfy all requirements described earlier in “Graduation Requirements for All Certificates and Degrees.”

ASSOCIATE IN ARTS AND SCIENCES - OPTION I

This option is designed for pre-approved degree programs that lead to professional careers or university majors where the extensive requirements for the degree exclude the normal array of general education coursework. The following qualify as approved programs:

- Courses outlined in an Everett Community College curriculum guide leading to an Arts and Sciences degree - Option I. The specialty area will be indicated on the student’s diploma and transcript, i.e., Nursing, Physical Therapist Assistant, or Pharmacy. Or
- Courses conforming to the transfer guides of a four-year college or university. The burden of proof of the transferability of such a program rests with the student, and must be approved by a faculty advisor and Dean. The specialty area will be indicated on the student’s diploma and transcript.

The following are requirements for the AAS-Option I:

- The student must successfully complete a minimum of 90 quarter hours of courses numbered 100 and above in an approved program, with a cumulative GPA of at least 2.0.
- Satisfy all requirements described earlier in “Graduation Requirements for All Certificates and Degrees.”

ASSOCIATE IN APPLIED SCIENCE - TRANSFER

This degree enables graduates of a specific technical program to transfer to a designated college or university. Students complete several general education courses and a large number of technical courses. Upon transfer, students will complete the remainder of the university’s general education requirements as well as more advanced courses related to their professional technical career preparation. To earn this degree:

- The student must successfully complete a minimum of 90 quarter hours of courses numbered 100 and above in an approved program, with a cumulative GPA of at least 2.0.
- Satisfy all requirements described earlier in “Graduation Requirements for All Certificates and Degrees.”

ASSOCIATE IN TECHNICAL ARTS (ATA)

The degree of Associate in Technical Arts (ATA) is awarded for completion of a program of study in technical education, the purpose of which is to prepare students for related employment with skills that meet the needs of the business community. To earn this degree the student must successfully complete a minimum of 90 credits, with a cumulative GPA of at least 2.0, which must include:

1) All courses required for satisfaction of the specific technical program requirements as outlined in the appropriate curriculum guide.

2) The following general education requirements:

   a) English/Writing Skills
      Minimum of 5 credits selected from English 098 or 101
   b) Mathematics/Quantitative Skills
      Minimum of 5 credits. Select a course from the AAS -Option II quantitative skills list, or
      Complete the course(s) identified as the quantitative skills course(s) in the ATA curriculum guide for the appropriate degree.
   c) Computer Proficiency
      Complete the course(s) identified as the computer proficiency course(s) in the ATA curriculum guide for the appropriate degree, or
      Complete one of the following courses:
      Computer Information Systems: 100, 104,108, 124
      Computer Programming: 110
      Engineering: 141 or Math 177
      Engineering: 142, 200
      Business Technology: 100, 101, 130, 140, 217, 219 or establish acceptable evidence of computer proficiency from a program advisor.
d) Humanities Elective
Minimum of 5 credits. Select from AAS - Option II humanities list

e) Social Sciences Elective
Minimum of 5 credits. Select from AAS - Option II social science list
Note: Business 101 may be taken as a Social Science by non-business degree students only

f) Natural Sciences Elective
Minimum of 5 credits. Select from AAS - Option II Natural Sciences list

3) Degree candidates must also satisfy an interpersonal communications/human relations course requirement. This requirement may be satisfied by completing Speech 100, Business 154, 155, or 200, or as a part of the content of one or more of the required technical courses for the specific degree program. Students should consult a program advisor regarding other courses satisfying this requirement.

4) Appropriate safety, industrial safety, and environmental awareness instruction will be included in the specific technical program requirements.

5) Satisfy all requirements described earlier in “Requirements for All Degrees.”

ASSOCIATE IN FINE ARTS (AFA)

Requirements for Associate in Fine Arts (AFA)
The Associate in Fine Arts is designed for students completing work through the Institute for Media and Creative Arts. Students select an emphasis area and successfully complete a minimum of 90 applicable credits with a cumulative GPA of 2.0, including the following requirements:

1) Basic Skills Distribution (15 credits minimum)
Communication Skills (At least 10 credits from the following:)
- English 101 (required)
- Speech 100, 101
- English 102, 103, 201W, 202
- CIS 203
Quantitative Skills (5 credits minimum)
- CP 105, 110,
- Engineering 141, 142, 143
- Math 120*, 137, 140, 142, 147, 152, 153, 271
- Philosophy 120
* Note: This math course is not intended for transfer.

2) Emphasis Skills (40-45 credits) (see emphasis area planning guide)
- Graphic Arts/Digital Illustration
- Photography
- Studio Arts
- Written Arts
- Independent Study (5 credits)
- Portfolio Presentation 295
- Final Project 299

3) Humanities Distribution (5 credits)
To be selected from the Humanities Distribution in the Associate in Arts and Sciences - Option II.

4) Social Sciences Distribution (5 credits)
To be selected from the Social Sciences Distribution in the Associate in Arts and Sciences - Option II.

5) Natural Sciences Distribution (5 credits)
To be selected from the Natural Sciences Distribution in the Associate in Arts and Sciences - Option II.

6) Interdisciplinary Skills (15 credits)
Choose at least one course from each of three disciplines outside your emphasis area.

- Film
- Graphic Arts
- Journalism
- Multimedia
- Music
- Photography
- Studio Art
- Theatre
- Writing/English

7) Satisfy all requirements described earlier in “Graduation Requirements for All Certificates and Degrees.”

ASSOCIATE IN GENERAL STUDIES (AGS)

Requirements for AGS Degree
The degree in Associate in General Studies is designed for students who wish to complete a degree in general studies. To earn this degree:

1) The student must successfully complete a minimum of 90 credits with a cumulative GPA of at least 2.0. At least 45 credits must be in traditionally graded courses numbered 100 or above.

2) Courses selected to satisfy the humanities, social science, and science/math requirements must be from at least three different disciplines.

3) At least 25 of the credits must satisfy the following basic skills and general education requirements:
   a) Communications
      5 credits minimum
      (English 098 or 101 or Speech 100 or 101).
   b) Quantitative Skills
      5 credits, to be selected from any EvCC math course numbered 17 or above. High school equivalent courses may not be substituted.
   c) Humanities
      5 credits minimum from the published AAS - Option II guide.
   d) Social Sciences
      5 credits minimum from the published AAS - Option II guide.
   e) Natural Sciences
      5 credits minimum from the published AAS - Option II guide.

4) Satisfy all requirements described earlier in “Graduation Requirements for All Certificates and Degrees.”

LEARNING OUTCOMES
Over the past several years, faculty, students, staff and administrators have come together in a number of meetings and retreats to discuss our values, our goals and our desired educational outcomes for students. These conversations and commitments are a work in progress. Listed below are the Learning Outcomes we have identified for all certificates and degrees at EvCC. In addition to these core outcomes, program specific outcomes are identified for each of our degrees and certificates of 45 credits or more. These are available in the office of the Vice President of Instruction, in instructional division offices,
Core Learning Outcomes for Certificates and Degrees

1. Engage and take responsibility as active learners
   Students will be involved in the learning process as they gain deeper levels of understanding of the subject matter. They will design, complete and analyze projects while developing group interaction and leadership skills.

2. Think critically
   Students will develop and practice analytical skills, problem-solving skills and quantitative reasoning skills. Using creativity and self-reflection, they will be able to engage in inquiry that produces well-reasoned, meaningful conclusions.

3. Communicate effectively
   Students will develop the organizational and research skills necessary to write and speak effectively. The students will demonstrate awareness of different audiences, styles, and approaches to oral and written communication.

4. Participate in diverse environments
   Students will gain the awareness of and sensitivity to diversity, including one’s own place as a global citizen. Students retain knowledge and understanding of the multiple expressions of diversity, and the skills to recognize, analyze and evaluate diverse issues and perspectives.

5. Utilize information literacy skills
   Students will develop and employ skills to recognize when information is needed and to locate, evaluate, effectively use and communicate information in its various forms.

6. Operate computers and technology proficiency
   Students will use computers and technology as appropriate in their course of study.

TRANSFER

Transferability of Courses

As an accredited institution, college-level credits from Everett Community College may be evaluated for transfer credit by other colleges and universities. The transfer institution determines the transferability of courses toward baccalaureate degrees. Courses are evaluated by the transfer institution on a course-by-course basis as equivalent to required or elective courses. The Associate of Arts and Sciences degree - Option II, the Associate of Science, and the Associate in Business-DTA operate under special transfer agreements with other Washington colleges and universities and with some Oregon colleges and universities, usually enabling the student to transfer a full two-years of credit to the transfer institution.

Everett Community College curriculum guides assist students in the selection of appropriate courses for various programs, but it is the responsibility of each student to determine that the courses chosen meet the requirements of the selected transfer institution. The transferability of non-traditional credits such as military and CLEP should be confirmed with the institution to which the student intends to transfer. Courses numbered below 100 are not transferable.

Students should maintain a 2.0 (C) or higher grade in each course applied toward communication, quantitative skills, humanities, social sciences, and natural sciences distribution areas, as well as in all courses applicable to their intended majors. Some upper-division schools will not accept courses with grades lower than a 2.0. Most universities will require a cumulative GPA well above 2.0.

Entrance Requirements for Transfer

A transferring student will be expected to meet the entrance requirements of the two-year or four-year college or university at the time of transfer. An institution to which an official transcript has been sent may re-compute the grade point average of the entering student in accordance with its own requirements and policies; this may happen frequently when non-traditional grades (S,U,I,W,Y , and V) are on the transcript.

General Steps in Transferring

Students who plan to transfer to a four-year college or university from Everett Community College should complete the following steps:

- Obtain an Everett Community College curriculum guide for the chosen program from the Enrollment Services Office. Confer with your faculty advisor each quarter. You may find that you need to explore some areas before deciding on a major.
- Obtain a current copy of the catalog of the college to which you want to transfer and study the requirements. Copies of most college catalogs are available in the Library-Media Center and the Career Center. Many colleges have placed their catalogs on the web.
- Identify a university major no later than the beginning of your second year, and focus on the university requirements for that major with your advisor. Some universities give admission preference to applicants who have completed courses that prepare them to start their “major.” In some cases, priority for admission is given to qualified students who have completed their associate degree with courses preparatory for a specific major.
- Confer with an admissions officer at the transfer college to obtain application forms and arrange to see an advisor.
- Check periodically before transferring to be sure that all requirements are being met and all necessary steps are taken in compliance with specified deadlines.
- Watch for notices of four-year college and university representatives on campus.

DUAL ADMISSION PROGRAMS

“Dual Admission” programs enable EvCC students to make early application to a partner four-year university and gain a conditional admission while still enrolled at EvCC. The early connection sets the stage for advising and course selection that assures that the student is taking the right transfer courses.

“Dual Enrollment” programs go a step further by allowing a student to take classes both at the community college and the university.

EvCC has a dual admission agreement with the Evergreen State College and a dual admission/dual enrollment agreement with the University of Washington-Bothell. Contact Enrollment Services for information, 425-388-9219.
Detailed curriculum guides for each of the accounting and bookkeeping programs can be obtained from the Enrollment Services Office or on the college website. A complete list of accounting course descriptions follows.

Faculty Advisors:
P. Coughlin  425-388-9250  pcoughlin@everettcc.edu
W. Reed  425-388-9249  breed@everettcc.edu

ACCNT 110  Small Business Accounting  5
Theory and practice of double-entry bookkeeping for small unincorporated businesses. Includes use of journals and ledgers, preparation of basic payroll records, worksheets, financial statements, bank statement reconciliations, and adjusting and closing entries. Emphasizes development of basic bookkeeping knowledge and skills. Not intended for transfer.
Prerequisites: MATH 014 or BUS 130 with grade of C- or higher.

ACCNT 112  Business Taxation  5
Fundamentals of federal income taxes for sole proprietorship form of business. Includes an overview of federal law governing payroll taxes. Presents the basic framework of federal income tax filing requirements, the determination of and adjustments to gross income, personal and business deductions and business income. Covers preparation of a basic federal income tax return using income tax software. Not intended for transfer.
Prerequisites: ACCNT 110 or ACCNT 200 with a grade of C or higher. MATH 014 or BUS 130 with a grade of C- or higher.

ACCNT 200  Principles of Accounting I  5
(TE) Introductory transfer-level accounting course. Required for all business
administration transfer students. Includes introduction to the financial accounting process, principles, concepts, and issues that govern the preparation and interpretation of financial statements; theory of double-entry bookkeeping, accounting procedures for service and merchandising firms; and the accounting treatment for cash, receivables, and inventory.

Prerequisites: Recommended sophomore standing or completion of ACCNT 110 or instructor’s permission.

**ACCNT 201**
Principles of Accounting II 5
(TE) Continuation of ACCNT 200. Focus on issues and choices involved in asset valuation, income determination, and financial statement preparation. Topics covered include treatment of long-term assets, current and long-term liabilities, short- and long-term investments, and transactions affecting stockholder equity. Also covers preparation of cash flow statements and calculation, as well as interpretation of financial performance ratios and comparative and common-size financial statements.

Prerequisites: C or higher grade in ACCNT 200 or instructor’s permission.

**ACCNT 202**
Managerial Accounting 5
(TE) Use of accounting as a tool to assist management in planning, analyzing, controlling, and decision making. Includes budgeting, cost behavior, cost-volume-profit analysis, standard cost systems, cost variance analysis, and capital project analysis using cash flow diagrams and present value techniques. Emphasizes accounting methods helpful in commonly encountered business decision problems.

Prerequisites: Grade of C or higher in ACCNT 201 or instructor’s permission.

**ACCNT 203**
Governmental Accounting 5
Introduction to the accounting and financial reporting practices of state and local governmental entities. This course may be taken to satisfy a program requirement for an Associate degree, and may also be taken by individuals working for governmental entities who wish to understand more about the accounting for their organizations and by potential CPA-exam candidates seeking additional accounting credits.

Prerequisites: ACCNT 110 or ACCNT 200 with a grade of C or higher.

**ACCNT 215**
Computer Accounting 5
Introduction to computerized bookkeeping and accounting. The standard accounting cycle with supporting schedules and worksheets will be completed using various computer programs. Integrated General Ledger software, spreadsheets, etc. Not intended for transfer.

Prerequisites: ACCNT 110 or ACCNT 200 and CIS 120 or BT 140 or instructor’s permission.

**Basic Skills**

Basic Skills classes are available for students who want to improve their basic reading, writing, and math skills. Classes are offered at several skill levels and include GED Test preparation classes. Students with very low reading skills are referred to the Snohomish County Literacy Coalition, a community-based organization which is located on the Everett Community College campus. Books are provided in class, but students are strongly encouraged to purchase books if possible.

**ABE 013**
ABE Level 1 Math 3-4
Adult Basic Education math competencies designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.

Prerequisites: Competency assessment and placement by the Adult Education Department.

**ABE 023**
ABE Level 2 Math 3-4
Adult Basic Education math competencies designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.

Prerequisites: Competency assessment and placement by the Adult Education Department.

**ABE 033**
ABE Level 3 Math 3-4
Adult Basic Education math competencies designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.

Prerequisites: Competency assessment and placement by the Adult Education Department.

**ABE 043**
ABE Level 4 Math 3-4
Adult Basic Education math competencies designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.

Prerequisites: Competency assessment and placement by the Adult Education Department.

**GED 053**
GED Level 5 Math 3-4
This class helps students prepare for the General Educational Development (GED) test that is given at the College. Students learn basic math skills. Practice tests are offered. May be repeated two times for credit.

Prerequisites: Completion of ABE 043 competencies or competency assessment and placement by the Adult Education Department.

**GED 063**
GED Level 6 Math 3-4
This class helps students prepare for the General Educational Development (GED) Test that is given at the College. Students learn basic math skills. Practice tests are offered. May be repeated two times for credit.

Prerequisites: Completion of GED 053 competencies or competency assessment and placement by the Adult Education Department.
Department.

Prerequisites: Competency assessment and placement at level 4 by the Adult Education Department.

**ABE 021**  
**ABE Level 2 Communication Skills**  
3-8  
Reading and writing skills designed to increase communication skills, family literacy and employability. Students work individually and in small groups. Low tuition. May be repeated two times for credit.  
Prerequisites: Competency assessment and placement at level 2 by the Adult Education Department.

**ABE 031**  
**ABE Level 3 Communication Skills**  
3-8  
Continuation of ABE 021. Reading and writing skills designed to increase family literacy and employability. Students work individually and in small groups. Low tuition. May be repeated two times for credit.  
Prerequisites: Competency assessment and placement at level 3 by the Adult Education Department.

**ABE 041**  
**ABE Level 4 Communication Skills**  
3-8  
Continuation of ABE 031. Reading and writing skills designed to increase family literacy and employability. Students work individually and in small groups. Low tuition. May be repeated two times for credit.  
Prerequisites: Competency assessment and placement at level 4 by the Adult Education Department.

**GED 051**  
**GED Level 5 Communication Skills**  
3-8  
This class helps students prepare for the General Education Development (GED) test. Students learn reading for information skills, improve grammar, punctuation and writing skills. Practice tests are offered. May be repeated two times for credit.  
Prerequisites: Completion of ABE competencies or competency assessment and placement by the Adult Education Department.

**GED 061**  
**GED Level 6 Communication Skills**  
3-8  
This class helps students prepare for the General Education Development (GED) test. Students learn reading for information skills, improve grammar, punctuation and writing skills. Practice tests are offered. May be repeated two times for credit.  
Prerequisites: Completion of ABE competencies or competency assessment and placement by the Adult Education Department.

**ESL 010**  
**ESL Level 1**  
4-12  
Continuation of ESL 010. English as a Second Language skills designed to prepare the student for family literacy and employment. Low tuition. May be repeated two times for credit.  
Prerequisites: Competency assessment and placement by the Adult Education Department.

**ESL 020**  
**ESL Level 2**  
4-12  
Continuation of ESL 020. English as a Second Language skills designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.  
Prerequisites: Completion of ESL 010 or competency assessment and placement by the Adult Education Department.

**ESL 030**  
**ESL Level 3**  
4-12  
Continuation of ESL 020. English as a Second Language skills designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.  
Prerequisites: Completion of ESL 020 or competency assessment and placement by the Adult Education Department.

**ESL 040**  
**ESL Level 4**  
4-12  
Continuation of ESL 030. English as a Second Language skills designed to prepare the student for family literacy and employability. Low tuition. May be repeated two times for credit.  
Prerequisites: Completion of ESL 030 or competency assessment and placement by the Adult Education Department.
Transitional English as a Second Language

This program provides a bridge for limited English proficient students to move from lower proficiency levels into college-level classes, particularly college writing classes. Except for IELP 070, the Transitional ESL Program combines international students and resident students in a two-level course structure that builds the reading, writing, speaking and listening skills needed to do well in college-level classes. International students must apply through the International Student Office to enroll in IELP classes. Resident students apply through the Adult Education Department. All students must take a placement test and meet with an advisor.

IELP 070
English for Success

This course is designed to introduce and strengthen basic English and enhance the communication skills of new international students. In addition, it introduces international students to American culture through field trips to places of interest, guest speakers and activities that promote interaction with their new community. May be repeated one time for credit.

Prerequisites: Passing a writing and reading test given by the ESL/IELP faculty.

IELP 081
English Conversation I

This course is designed to provide preparation to make students comfortable speaking and listening in a variety of situations with an emphasis on vocabulary, idiomatic expressions, and pronunciation development. May be repeated two times for credit.

Prerequisites: CASAS level 4 or 5. Completion of ESL level 3.

IELP 082
English Conversation II

This course is designed to provide additional preparation to make students comfortable speaking and listening in a variety of situations with an emphasis on vocabulary, idiomatic expressions, and pronunciation. May be repeated two times for credit.

Prerequisites: Pass an oral interview. Successful completion of ESL 081.

IELP 093
Academic Reading II

This course is designed to enhance academic reading skills for non-native speakers of English. Emphasis is on identifying main ideas and supporting sentences, author’s tone, goals and audience. In addition, it introduces the students to metaphorical language, builds vocabulary and idioms. It also develops reading efficiency through speed, comprehension and scanning for critical information. May be repeated one time for credit.

Prerequisites: Successful completion of IELP 080, ESL 080 or passing a reading test given by the ESL/IELP faculty.
Ilep 093 Academic Reading II
This course is designed to enhance academic reading skills for non-native speakers of English. Emphasis is on identifying main ideas and supporting sentences, author’s tone, goals and audience. In addition, it introduces the students to metaphorical language, builds vocabulary and idioms. It also develops reading efficiency through speed, comprehension and scanning for critical information. May be repeated one time for credit.
Prerequisites: Successful completion of Ilep 080, Esl 080 or passing a reading test given by the ESL/IELP faculty.

Esp 097 Academic Reading and Writing I
Academic reading and writing for non-native speakers with emphasis on paragraph development, sentence structure, grammar and punctuation, writing process, summarizing reading materials, scanning for information, and vocabulary development. May be repeated one time for credit.
Prerequisites: Compass score 23-58. ASSET score 23-31. Writing sample. Lower COMPASS/ASSET scores may be accepted with higher writing skills. Successful completion of Ilep 070 or passing a reading and writing test given by the Ilep faculty.

Esp 098 Academic Reading and Writing II
Academic reading and writing for non-native speakers to prepare students for college writing. Course covers the writing process and different styles of essay writing. In addition, it develops reading skills such as scanning for critical information, identifying main ideas, and supporting details. May be repeated one time for credit.
Prerequisites: Compass score 59-81 and ASSET score 39-45. Successful completion of Esp 097.

Ilep 098 Academic Reading and Writing II
Academic reading and writing for non-native speakers to prepare students for college writing. Course covers the writing process and different styles of essay writing. In addition, it develops reading skills such as scanning for critical information, identifying main ideas, and supporting details. May be repeated one time for credit.
Prerequisites: Compass score 59-81 and ASSET score 39-45. Successful completion of Ilep 097.

Esp 099 College Success
Designed to teach academic skills for non-native speakers of English. Emphasis is on time management, grading systems, study skills and campus resources. In addition, it introduces students to different types of exams and test taking skills. It also instructs students with regard to their rights, responsibilities and academic integrity. Furthermore, it helps the students decide on an academic option for transferring to a four-year college.
Prerequisites: Successful completion of Ilep 080, Esl 080 or passing a reading test given by ESL/IELP faculty.

Ilep 099 College Success
Designed to teach academic skills for non-native speakers of English. Emphasis is on time management, grading systems, study skills and campus resources. In addition, it introduces students to different types of exams and test taking skills. It also instructs students with regard to their rights, responsibilities and academic integrity. Furthermore, it helps the students decide on an academic option for transferring to a four-year college.
Prerequisites: Successful completion of Ilep 080, Esl 080 or passing a writing test given by ESL/IELP faculty.

High School Completion
The high school completion program provides a second chance for adults and out-of-school youth sixteen and older to complete the high school credits needed for graduation. Students can fulfill graduation requirements through specific high school classes or by enrolling in college-level classes. Faculty advisors review previous high school transcripts and recommend needed classes. Adult High School Diploma students who are at least 19 years old and Washington State residents may qualify for substantially reduced tuition. Students under the age of eighteen must have permission from their local high school to attend. Program services are available on-campus and at off-campus locations in Snohomish County.
A variety of high school level courses are available depending upon student need. Though offered within the College’s regular quarter system, these courses are formulated to be equivalent to the typical semester system of high schools. These courses are generally clustered in the following areas:

Art
Hsc 065 High School Art
Introduction to fine arts at the high school level. Students engage in a variety of exploratory art activities with different media.

Communication
Hsc 021, 022, 023 High School Completion English 1, 2, 3
First, second, and third semester classes give students individual attention in basic grammar, punctuation, paragraph construction, development of literary response techniques and interpretation of American literature through reading, writing and seminars. Requirements may include oral presentations. Third semester class also requires organization of grammar and composition skills into comprehensive written communication assignments.

Hsc 024 High School Completion English 4
This is a research and communication course. It is designed to help students develop the culminating project required for high school completion students who were scheduled to graduate from high school after June 2001. May be repeated three times for credit.

Hsc 025 High School Completion English: Creative Writing
Offers students the opportunity to improve their writing, with an emphasis on creative pieces. Students will develop the ability to use the complete writing process: brainstorming, outlining, drafting, revising, editing, and informal publishing. The instructor will work with individual students to help them discover their unique voice and “writer’s eye.” The various types of writing include personal narratives, poetry, magazine articles, character sketches, short stories, etc.

General Science
Hsc 060, 061, 062 High School General Science 1, 2, 3
First, second, and third semester classes introduce students to basic terminology and themes in the natural and physical sciences. Students develop understanding of science
through an analysis of scientific methods and critical thinking. The use of technology is woven through all three semesters. Integrated activities and completion of a science project are required for each term.

**History**

HSC 031, 033  
**High School Completion American History 1, 2**  
5 each  
In first and second semester classes students analyze important themes in American social and political history from Revolutionary America to the present. The class includes the development of literacy, response techniques and interpretation of materials with an emphasis on cause and effect.

HSC 034  
**High School Washington State History**  
5  
Attention is given to regional dimension of American history in Washington State and the Pacific Northwest and the Washington State constitution. Requirements include a variety of assignments specific to Washington State history and the Washington State Constitution.

HSC 040  
**High School American Government**  
5  
Emphasis of this class is on the critical role of American citizenship through discussion of the Constitution and the Bill of Rights. Includes current issues such as book censorship and civil disobedience. Requirements may include an individual research project.

**Mathematics**

HSC 012  
**High School Arithmetical Review and Problem Solving**  
5  
Review of basic concepts and applications of whole and decimal numbers in daily life. Emphasis is on building skills and problem solving. May be repeated one time for credit.  
Prerequisites: Instructor’s permission.

HSC 014  
**High School Mathematics for Life and the Workplace**  
5  
A review of basic concepts in mathematics with applications in everyday life and the workplace. Prime factorization and operations on rational numbers, and applications using ratios, proportions and percents are included. An excess of five credits may not be earned in both HSC 014 and MATH 014. HSC 014 is competency based.  
Prerequisites: Ability to perform whole number arithmetic.

HSC 017  
**High School Preparation for Algebra**  
5  
This class includes fractions, decimals, percents, order of operations, scientific notation, formulas, signed numbers, exponents, radicals, geometric figures, and applications.  
Prerequisites: MATH 014 or strong working knowledge of arithmetic.

**Social Science**

HSC 050, 051  
**High School Contemporary Problems 1, 2**  
5 each  
First and second semester classes that analyze contemporary problems in a global community. Includes the development of literary response techniques and interpretation through reading, writing, and integrated activities. Requirements may include oral presentations and/or a term project.

**Advanced Manufacturing Technology**

See Engineering Technology and Manufacturing Technology Management

The Advanced Manufacturing Technology program offers a two-year Associate in Technical Arts (ATA) degree or a shorter term certificate to students seeking entry into or career advancement in the advanced manufacturing sector of the job market. It is designed to prepare students for careers in areas such as computer controlled machining, welding and fabrication, production planning and control, project management, supply chain logistics, composites design/repair, CAD-based design technology, or a position coordinating all these activities. Students already working in manufacturing could select certain electives and a study path in consultation with their employers to better prepare them for lead and supervisory positions. This program also provides a flexible framework for the incorporation of credit from prior learning in industry or government. An early conference with one of the designated advisors is strongly suggested for success.

Faculty Advisor:  
R. Osnes 425-388-9383 rosnes@everettcc.edu

**American Sign Language**

See World Languages

**Anthropology**

Anthropologists study humanity, and this requires taking what is called a ‘holistic’ approach. The breadth of educational experiences available in anthropology includes four sub-disciplines: archaeology, biological anthropology (physical), cultural anthropology (ethnology), and linguistics. Courses in anthropology are offered in both the social sciences and in the natural sciences.

Faculty Advisor:  
C. Clarke 425-388-9382 cclarke@everettcc.edu

**ANTHR 101**  
**Our Place in Nature:**  
Survey of Archaeology and Biological Anthropology  
5  
(NS) General study of the field of archaeology, which studies human cultures through an examination of material remains and the field of biological anthropology which looks at humans’ place in the natural world.  
Prerequisites: Completion of ENGL 098 with a grade of C or higher, or eligibility for ENGL 101.

**ANTHR 102D**  
**Cultures in Context: Survey of Cultural Anthropology and Linguistic Anthropology**  
5  
(SS, D) General study of the field of cultural anthropology, which studies humanity from a cross-cultural perspective and the field of linguistic anthropology which examines human verbal and non-verbal communication.  
Prerequisites: Completion of ENGL 098 with a grade of C or higher, or eligibility for ENGL 101.

**ANTHR 182**  
**Service Learning**  
1-2  
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.  
Prerequisites: Instructor’s permission.
ANTHR 201
Introduction to Biological Anthropology 5
(NS-L) Study of primate and hominid, including human evolution based upon evidence
from genetics, comparative morphology, the fossil record and primate behavior.
Prerequisites: ENGL 098 with a grade of C or higher or eligibility for ENGL 101 and MATH
028 with a grade of C or higher.

ANTHR 202D
Principles of Sociocultural Anthropology 5
(SS, D) Introduction to the study of culture and society; cross-cultural perspective is
employed to gain better understanding of family life, kinship, economic, political, and
religious systems in various non-Western societies and in American culture and society.
Includes training in fundamentals of social and cultural anthropology.
Prerequisites: Completion of ENGL 101 with a grade of C or higher or instructor’s
permission.

ANTHR 205
Principles of Archaeology 5
(SS) Archaeology explores and examines the prehistoric record. Methods used to locate,
sample and evacuate sites, techniques for dating archaeological materials, aspects of the
analysis of archaeological remains, problems encountered using examples drawn from
archaeological investigations around the world. Controversial cultural issues are explored.
The value of the archaeological record and the importance of heritage conservation are
discussed.
Prerequisites: Completion of ENGL 101 with a grade of C or higher or instructor’s
permission.

ANTHR 210D
Contemporary American Indian Culture 5
(SS, D) Contemporary issues of importance to Native communities including cultural
identity, portrayals of Indians in the media, the importance of language, education,
economic and political rights, artistic and religious expressions, and culture change.
Prerequisites: Completion of ENGL 101 with a grade of C or higher or instructor’s
permission.

ANTHR 211D
Indian Cultures of the Northwest Coast 5
(SS, D) Overview of traditional native societies of the Northwest Coast from southern
Alaska to northern California; significant features such as art, totemic crests, rank,
religious beliefs, the potlatch, fishing and foraging are illustrated by comparisons and
by selected ethno-graphic sketches; the contemporary situation in context of continuity
with the past.
Prerequisites: Completion of ENGL 101 with a grade of C or higher or instructor’s
permission.

ANTHR 221D
Anthropology of Religion 5
(SS, D) Comparative social anthropological study of religious systems; inquiry into various
aspects of comparative tribal and world religions such as symbolism, rituals, doctrines,
myths, religious specialists, personal, ecological, and social meaning of belief systems as
these create religious worlds that are the context in which people live their lives.

ANTHR 222D
Human Diversity 5
(SS, D) Explores how racial categories and the social consequences of research into human
differences have resulted in the controversies surrounding stem cell research, cloning, and
other topics labeled as neo-eugenics.
Prerequisites: Completion of ENGL 101 with a grade of C or higher or instructor’s
permission.
The Art Program at Everett Community College provides three degree options, each requiring strong foundation courses and skill development in a broad range of media. The Associate in Arts and Sciences - Option II, is a direct transfer degree and students should check the requirements of the intended four-year or other college, as additional requirements beyond the AAS degree (such as portfolio reviews or additional course work) may be needed for program admission. Students interested in a two-year program focused on study and skill development in a specific discipline within the Studio Arts may prefer to select an Associate in Fine Arts (AFA) degree. The AGS (Associate in General Studies) degree is another option for students interested in taking a variety of art courses. All students should work closely with a program advisor to insure that their course of study matches their personal goals.

Note: Studio courses require students to purchase their own materials.

Faculty Advisors:

S. Lepper 425-388-9445 slepper@everettcc.edu

ART 100, 101, 102
Beginning, Intermediate and Advanced Drawing 2 each
(HP) Sequence of drawing courses designed for the non-major. Emphasis is on the development of perception and the graphic skills required for representational drawing. Use of line, shape, value, scale, proportion and linear perspective. Introduction to the elements and principles of art as seen in drawing. Role of drawing in art history and its use in other applications. ART 102 may be repeated two times for credit.
Prerequisites: None for ART 100; ART 100 for ART 101; ART 101 for ART 102.

ART 104, 105, 106
Beginning, Intermediate and Advanced Painting 3 each
(HP) Sequence of painting courses designed for the non-major. Introduction to the materials and techniques of oil painting with emphasis on representation of the visual world through form, shape, color, value, and texture. Introduction to the principles and elements of art as they apply to painting including composition and color theory. Advanced courses include an exploration of expression and style. Investigation of styles, movements and material in painting through history. ART 106 may be repeated two times for credit.
Prerequisites: ART 100 for ART 104; ART 104 for ART 105; ART 105 for ART 106.

ART 107, 108, 109
Beginning, Intermediate and Advanced Ceramics 3 each
(HP) Sequence of courses for the non-major designed to develop the fundamental skills to manipulate the ceramic medium. Introduction to the language of the visual arts as it pertains to ceramics. Advanced courses include wheel throwing and advanced glazing techniques. ART 109 may be repeated two times for credit.
Prerequisites: None for ART 107; ART 107 for ART 108; ART 108 for ART 109.

ART 110
Design I: 2 Dimensional 5
(HP) First in a sequence of courses to develop understanding, recognition and manipulation of the basic principles and elements of design as applied to two-dimensional art. Faculty structured assignments focus on the use of line, shape, color, value, space, pattern, and texture as a point of departure for critical thinking and creative problem solving.

ART 111
Design II: 3 Dimensional 5
(HP) Continued exploration of the basic principles and elements of design as applied to three-dimensional art. Faculty structured assignments focus on the use of line, planes, surface, materiality, shape, volume, and structure with emphasis on craft and presentation. Basic principles and elements used to solve 3-D visual problems in a variety of materials.
Prerequisites: ART 110.

ART 112
Design II: Advanced Design 5
(HP) Advanced course in the principles and elements of design. Emphasis on application of design principles to develop and produce communicative images by working in a series. Instructor guided assignments incorporate principles of color theory and composition in the solution of complex design problems.
Prerequisites: ART 111.

ART 115
Drawing I 5
(HP) Introductory course emphasizing principles and elements of the visual arts as seen in drawing. Development of observational drawing skills in the use of linear perspective, line, shape, value, space, proportion and scale. Primary medium used is charcoal. Faculty guided exercises including the role of drawing as a tool in other visual disciplines, style, history, and vocabulary.

ART 116
Drawing II 5
(HP) Intermediate course emphasizing principles and elements of the visual arts applied to meaning and expression. Use of various media, including charcoal, conte, and pastel. Mastery of skills in representation drawing including composition, subject matter, content. Analysis in writing of the creative process and the use of drawing by major artists.
Prerequisites: ART 115.

ART 117
Drawing III 5
(HP) Advanced course emphasizing manipulation of the principles and elements of the visual arts in representational drawing to form meaning and expression. Introduction of color, materials, and techniques including the issues of contemporary art, criticism, and interpretation. Creation of a body of work, with faculty guidance.
Prerequisites: ART 116.

ART 118
Drawing IV 5
(HP) Continued advanced studies in drawing with emphasis on content and expression. Use of mixed media and color. Faculty in the medium chosen including aspects such as personal imagery, contemporary issues, criticism, and professional development. May be repeated two times for credit.
Prerequisites: ART 117.

ART 121
Understanding Art 5
(HP) Introductory course in viewing and participating with the human created visual world. Exploration of the language, processes and role of art in many media. Development of visual literacy through learning a critical method for understanding, analyzing and interpreting imagery. Brief historical overview and inclusion of the art of many cultures. Regular written assignments, readings, and slide analysis. Gallery and museum visits.

ART 123
Introduction to Studio Art 5
(HP) Introduction to studio work in a wide range of media for the student with little experience in the visual arts. Traditional and contemporary approaches to creating artwork combined with the study of visual language and culture. Course includes all forms of visual expression, the process of creative construction, and the role of visual culture in society and history. Gallery, studio, and museum visits may be included. Course is divided between lecture/discussion sessions and studio practice. May be repeated one time for credit.
ART 124D
Understanding World Art
(H, D) Introduction to artwork from various under-represented world cultures in a wide range of media for the student with little experience in the visual arts. Traditional and contemporary approaches to creating artwork as practiced globally and historically combined with the study of visual language and culture in the medium, theme, subject or culture represented. Course includes all forms of visual expression, the process of artistic creation and thought, and the role of visual culture in society and history. Discussion and studies in forms of representation as examples of culturally based perceptions of time, space, self, identity, community and otherness.

ART 130
Fabrication Skills and Safety
1
Designed to introduce students to the tools used in woodworking and metal fabrication, instruct students in proper use of these tools and safety protocols associated with the tools and a shop in general. This course is a prerequisite for use of tools in the physics/engineering shop and 3-D arts studio. Credit may not be earned in both PHYS 130 and ART 130.

ART 135
Drawing and Painting Workshop
(HP) Topical instruction in a specific media or subject area more intense than the regular curriculum. Topics include portraits, plein air painting, figure painting, encaustic and mixed media. Course may be taught by visiting artists. Use of the elements and principles as seen in this subject or medium. Historic aspects of the specific medium or subject area, vocabulary and content issues around the selected subject.
Prerequisites: ART 100 or ART 115 or instructor’s permission.

ART 182
Service Learning
1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. A maximum of six credits may be earned.
Prerequisites: ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level and instructor’s permission.

ART 200, 201, 202, 203
Painting I, II, III, IV
5 each
(HP) Studio practice of fundamental painting skills through traditional imagery using the media of oil paint. Technical information about the physical properties of paint, mediums, support and tools. Language and understanding of the principles and elements of art as they apply to painting. Manipulation of the media for representation including color theory, form, value, texture, shape and composition. Faculty structured exercises to develop skills, style and expression. Advanced courses include contemporary modes of painting, mixed media techniques, professional development and presentation. ART 203 may be repeated two times for credit.
Prerequisites: ART 115, ART 110 recommended for ART 200; ART 200 for ART 201; ART 201 for ART 202; ART 202 for ART 203.

ART 205, 206, 207, 208
Watercolor I, II, III, IV
5 each
(HP) Studio training in basic transparent watercolor skills necessary for artistic expression. Color theory and its application to pictorial composition. Investigation of materials, tools, techniques. Advanced courses explore personal experimentation and style development through both traditional and contemporary approaches. Professional presentation techniques. ART 208 may be repeated two times for credit.
Prerequisites: ART 115 for ART 205; ART 205 for ART 206; ART 206 for ART 207; ART 207 for ART 208.

ART 210
Studio Workshop
1-5
(HP) Topical instruction in a specific media not part of the regular curriculum including pastel painting, acrylic painting, collage and assemblage, bookmaking and printmaking.

ART 211
Beyond Traditional Media
3
(HP) Studio course investigating contemporary uses of combined media and expanding traditional uses and formats of media. Projects utilizing several studio skills from different disciplines will be pursued. Language, theory and analysis of issues in the interactions of media with personal and professional practice will be studied. Student choice of media to be explored, previous experience in the media of choice required. May be repeated two times for credit.
Prerequisites: ART 116 or ART 101 or ART 271 or PHOTO 122 or instructor’s permission.

ART 212
Introduction to Printmaking
3
(HP) Foundation course in the acquisition of the skills, principles, techniques and methods of basic printmaking techniques including collograph, monotype, relief (both wood and linoleum) and introductory etching. Instruction in the use of the press, chemical and ink technical information, and basic skills in the entire print process. History of printmaking, development of imagery appropriate to the technique, and traditional and innovative applications of printmaking in the art world. Students will create a body of work in each of the techniques through faculty-structured exercises. May be repeated two times for credit.
Prerequisites: ART 115 recommended.

ART 213
Introduction to Etching
3
(HP) Foundation course in the acquisition of the skills, principles, techniques and methods of basic printmaking technique of introductory etching. Instruction in the use of the press, chemical and ink technical information, and basic skills of application of grounds, acid etching, drypoint and aquatint. History of printmaking, development of imagery appropriate to the technique, and traditional and innovative applications of printmaking in the art world. Students will create a body of work in each of the techniques of etching through faculty structured exercises. May be repeated two times for credit.
Prerequisites: ART 212 recommended.

ART 214
Intermediate Printmaking
3
(HP) Intermediate course expanding the skills, principles, techniques and methods of a specific printmaking technique chosen by the student including collograph, monotype, relief (both wood and linoleum), etching, photo-etching, or other print techniques. Students will develop mastery of the use of the press, chemical and ink technical information, and expand skills in the entire print process. Faculty will work with the student to begin to develop imagery and aesthetics appropriate to the print process involved. Critiques by the instructor and research by the student on contemporary and historical print imagery and technique allow the student to expand knowledge of a specific technique. Students will create a body of work in the chosen technique through faculty structured and student chosen exercises. May be repeated two times for credit.
Prerequisites: ART 212 or ART 213 required.

ART 215, 216
Life Drawing I, II
5 each
(HP) Course sequence in the representation of the human figure through drawing from live models. Study of human anatomy as it applies to art, involving the proportions of the figure, use of line and value, negative space, foreshortening and perspective through instructor-guided exercises. Subsequent course includes investigation into various media including color, uses of the elements for expression, mastery of basic skills, and exploration of art as they apply to painting. manipulative properties of paint, mediums, support and tools. Language and understanding of the principles and elements of art as they apply to painting. Manipulation of the media for representation including color theory, form, value, texture, shape and composition. Faculty structured exercises to develop skills, style and expression. Advanced courses include contemporary modes of painting, mixed media techniques, professional development and presentation. ART 203 may be repeated two times for credit.
Prerequisites: ART 116 or ART 101 or ART 271 or PHOTO 122 or instructor’s permission.
of the styles and representation of the figure by artists in historical and contemporary art. Investigation of the role of the figure in art and culture throughout history. ART 216 may be repeated two times for credit.

Prerequisites: ART 110 recommended; ART 115 or instructor’s permission for ART 215; ART 215 for ART 216.

ART 217
Printmaking Lab 1
Required course for students and artists who intend to use the printmaking open studios. Instruction in use of the presses, care of the equipment, function of the room, materials storage, studio and campus policies, safety and security issues.

Prerequisites: ART 213 or instructor’s permission.

ART 220
Western Art History: Ancient to Medieval 5
(H) Survey of art from ancient foundations to the 14th century in Europe. Topics and issues of art history as relevant to the formation of styles, methods of construction, and the role of the artist in early civilization. Includes study of the cultures of Egypt, Ancient Greece, Rome, and Early Christian. Introduction to the analysis of imagery and the methods and practice of art history. Recommend previous enrollment in ART 124D. Sequential order preferred.

Prerequisites: Recommend ART 124D.

ART 221
Western Art History: 15th to 18th Centuries 5
(H) Survey of the dominant styles and movements of art in Europe and America from the 15th to the 18th centuries. Social, religious, political and philosophical changes and their connection with the role and creations of the artist. Includes Renaissance and Baroque periods. Analysis of imagery and practice of historical research. Recommend previous enrollment in ART 124D. Sequential order preferred.

Prerequisites: Recommend ART 124D.

ART 222
Western Art History: 18th to 19th Century 5
(H) Survey of major movements in the art of Europe, America and Russia from the 18th to the early 20th centuries. Traces the development of major changes in artistic expression, theory, meaning and content leading to the development of the Modern movement. Includes Classicism, romanticism, and Impressionism. Analysis of imagery and methods and practice of historical research. Recommend previous enrollment in ART 124D.

Prerequisites: Recommend ART 124D.

ART 224
Contemporary Movements 5
(H) Development and spread of Modernism since the early 20th century and subsequent movements in art to the present day. Includes a survey of modernist theory and criticism, issues of gender and multiculturalism, and their effect on art. Includes such movements as Cubism, Abstract Expressionism, and Post Modernism. Previous enrollment in ART 124D recommended. Sequential order preferred.

Prerequisites: Recommend ART 124D.

ART 250
Art Internship 2.5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.

Prerequisites: Instructor’s permission.

ART 270, 271, 272, 273
Ceramics I, II, III, IV 5 each
(HP) Sequence focusing on the development of the skills needed to manipulate the ceramic medium. The use of various forming methods, technical information, and the language of the ceramic medium. Principles and elements of art as they apply to ceramics. Faculty-structured projects to develop physical skills, style, and an understanding of functional and sculptural aesthetics. Advanced courses in wheel throwing, advanced glazing and firing techniques, and contemporary topics. ART 273 may be repeated two times for credit.

Prerequisites: ART 110 recommended but not required for ART 270; ART 270 for ART 271; ART 271 for ART 272; ART 272 for ART 273.

ART 274
Ceramics Workshop 3
(HP) Ceramics workshop based on a variety of topical techniques and processes. Examples include alternative firing methods and system, glaze chemistry and development, Majolica, low-fired ceramic processes and sculpture. See current schedule for course topic. May be repeated two times for credit.

Prerequisites: ART 107 or ART 270.

ART 275
Ceramic Glaze Chemistry I 3
(TE) Introduction to the materials and methods used in formulating glazes and clay bodies for studio ceramics. Students will learn the specific properties of ceramic materials and use them to create traditional and original ceramic surfaces. Level I will include experimental design and deal primarily with mid-range electric firing.

Prerequisites: ART 270 or ART 109.

ART 276
Ceramic Glaze Chemistry II 3
(TE) Continued study of the materials and methods used in formulating glazes and clay bodies for studio ceramics. Students will learn the specific properties of ceramic materials and use them to create traditional and original ceramic surfaces. Level II will include ceramic history and will introduce high fire reduction firing.

Prerequisites: ART 275.

ART 277
Ceramic Glaze Chemistry III 3
(TE) Continued study of the materials and methods used in formulating glazes and clay bodies for studio ceramics. Students will learn the specific properties of ceramic materials and use them to create traditional and original ceramic surfaces. Level III will include studio economics and will introduce clay body formulation and special effects surfaces. May be repeated two times for credit.

Prerequisites: ART 276 or instructor’s permission.

ART 280
Sculpture: Methods and Materials 5
(HP) Introduces sculptural form and expression in a variety of materials. Fundamental techniques, tools, and processes of assemblage, modeling, casting, and carving. Materials and methods vary according to the specialty of the instructor and may include metal, wood, clay, fiber, or non-traditional materials.

Prerequisites: ART 111 or instructor’s permission.

ART 294
Studio Practice 2
Focuses on developing a body of work with emphasis on personal exploration, contemporary issues, research on materials and techniques, and presentation. Intended for advanced students with substantial coursework in the arts or who are near completion of an AFA degree. May be repeated two times for credit.

Prerequisites: Minimum of 20 credits Studio Art or instructor’s permission.
**ART 295 Portfolio Development** 5

Advanced course designed for students nearing the completion of their Institute work in art. Professional portfolio techniques, including interviewing, resume preparation, portfolio design and development, editing, and self-assessments will be presented and explored. Lectures and presentation lab exercises, guest presentations, and development of personal style.

Prerequisites: Advisor or faculty recommendation required.

---

**ASTRONOMY**

No liberal arts education should be considered complete without studying astronomy. These courses are designed for non-science majors or students with a general interest in the subject. Students wishing to study astronomy at a four-year institution are urged to major in physics at EvCC.

Faculty Advisors:

A. Vanture 425-388-9556 avanture@everettcc.edu
K. Washburn 425-388-9431 kwashburn@everettcc.edu

---

**ASTRO 101 Survey of Astronomy** 5

(NS) General survey of astronomy including the nature of planets, stars, and galaxies. The origin and evolution of the solar system and universe.

Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level.

---

**ASTRO 120 Observational Astronomy** 5

(NS-L) Integrated laboratory/lecture course emphasizing observational techniques, the history and evolution of astronomical concepts, and the origin and composition of the solar system. Lecture, video, and slide demonstrations, plus hands-on laboratory sessions and evening field observing sessions.

Prerequisites: MATH 059 (or equivalent).

---

**ASTRO 121 Evolution of the Universe** 5

(NS-L) Introduction to the current state of research into the structure, origin, and evolution of the universe. Topics include stellar evolution, galactic structure and formation, cosmic distances, black holes, quasars, and cosmological theories. Laboratory projects emphasize photographic and spectrographic analysis of stars and galaxies.

Prerequisites: ENGL 098 with C or higher and MATH 065 or equivalent.

---

**ASTRO 122 Life in the Universe** 5

(NS-L) Investigates the astronomical and biological conditions necessary for the evolution of life in the universe. Topics covered will be basic concepts in astronomy and cosmology, evolution of life on Earth, the conditions necessary for the evolution of life, other locations where life may have evolved in the solar system and the search for intelligent life in the universe.

Prerequisites: ENGL 098 with C or higher (or equivalent) and completion of MATH 028 or MATH 055, or placement by assessment score into MATH 065 or above.

---

**ATMOSPHERIC SCIENCE**

It has been said that “Everyone talks about the weather but nobody does anything about it.” For the individual who takes the weather seriously, atmospheric science offers the opportunity to gather insight into the vagaries of this seemingly mysterious and often difficult to predict natural weather phenomena. These courses are designed for non-science majors completing a natural science lab requirement with a general interest in the weather or aspiring atmospheric scientists.

Detailed curriculum guides are available at the College website and on campus for Atmospheric Science. Students wishing to take a course and/or major in Atmospheric Science are strongly urged to consult with an academic advisor at Everett Community College at their earliest opportunity.

Faculty Advisor:

S. Grupp 425-388-9450 sgrupp@everettcc.edu

---

**ATM S 101 Weather** 5

(NS-L) Earth’s atmosphere, with emphasis on weather observations and forecasting. Use of meteorological instruments and weather maps. Highs, lows, fronts, clouds, storms, jet streams, air pollution, and other features of the atmosphere. The physical processes that govern weather-related phenomena. Regional climate of the world and global climatic prediction and change.

Prerequisites: ENGL 098 or equivalent and MATH 017 or equivalent.

---

**AVIATION MAINTENANCE**

The Aviation Maintenance Technology Program provides students with necessary background knowledge and practical experience to qualify to take the Federal Aviation Administration (FAA) Aircraft Maintenance Technician exam for both airframe and powerplant ratings. The A&P license qualifies graduates for entry-level employment in both airline and general aviation maintenance. The combined sequences of airframe and powerplant technology require eight quarters, two academic years (including two summer quarters) to complete. With Aviation Department approval, students may enter at the beginning of any quarter and proceed through the sequence. Students will need about $800 worth of tools and equipment for the program.

All training for the program is conducted in classrooms and shops at the Everett Community College Aviation Maintenance Technician School at Paine Field. For further information regarding the program, individuals may visit the school at Paine Field or call 425-388-9533 for an appointment.

By taking academic work beyond the aviation maintenance technology training, students may qualify for the degree of Associate in Technical Arts/Aviation, or Associate in Arts and Sciences Option 1 – Aviation Maintenance Management which is transferable and can lead to a bachelor's degree in Flight Technology, Airway Science or Aviation Maintenance. Opportunities for advancement to positions as foremen, supervisors, and inspectors are available to qualified airframe and powerplant maintenance technicians, particularly those who hold an associate degree in addition to their FAA ratings.

Faculty Advisors:

T. Hatton 425-388-9521 thatton@everettcc.edu
W. Loomis 425-388-9519 bloomis@everettcc.edu
P. Murphy 425-388-9534 pmurphy@everettcc.edu
AVA 101
Applied Science for the Aviation Technician 20
Theory and Practice: Basic skills necessary for both airframe and powerplant mechanics including theory of flight, mathematics, physics, materials and processes, ground operations and servicing, and privileges and limitations of technicians as specified in federal air regulations. Final 70 hours are devoted to basic electricity.
Prerequisites: High school graduate or equivalent. Able to read, write, speak and understand English in accordance with FAR 65:71.

AVA 102
Powerplant Technology 20
Theory and Practice: Aircraft engine electrical and ignition systems, maintenance and overhaul of aircraft reciprocating engines. Students inspect, check, service and repair opposed and radial engine installations.
Prerequisites: High school graduate or equivalent. Ability to read, write, speak and understand English in accordance with Federal Air Regulation 65:71.

AVA 103
Powerplant Technology 20
Theory and Practice: Maintenance and overhaul of aircraft turbine engines, fuel metering, exhaust, induction and fuel systems for both reciprocating and turbine engines. Students inspect, check, repair and service the above systems.
Prerequisites: High school graduate or equivalent. Ability to read, write, speak and understand English in accordance with Federal Air Regulation 65:71.

AVA 104
Powerplant Technology 20
Theory and Practice: Engine lubrication, cooling, propellers, fire protection, instruments, and engine inspection. Students inspect, check service, repair and perform powerplant conformity and airworthiness inspections.
Prerequisites: High school graduate or equivalent. Ability to read, write, speak and understand English in accordance with Federal Air Regulation 65:71.

AVA 201
Airframe Technology 20
Theory and Practice: Airframe conformity and airworthiness inspections, troubleshooting, aircraft instruments, communications and navigation, ice and rain control. Airframe review prior to FAA written, oral and practical exams for airframe rating.
Prerequisites: High school graduate or equivalent. Ability to read, write, speak and understand English in accordance with Federal Air Regulation 65:71.

AVA 202
Non-Destructive Testing I 3
Introduction to the basic principles and applications of the non-destructive testing techniques used for testing industrial, including eddy current, penetrant, magnetic particle, ultrasonic and radiography. Course is not part of the FAA-approved curriculum. May be repeated one time for credit.
Prerequisites: Instructor’s permission.

AVA 203
Non-Destructive Testing II 3
Continuation of AVA 221 with in-depth examination of non-destructive testing techniques and their application using laboratory experiments and processes. Course is not part of the FAA-approved curriculum. May be repeated one time for credit.
Prerequisites: AVA 221 or instructor’s permission.

AVA 204
Non-Destructive Testing III 3
Continuation of AVA 222 with in-depth application of the five basic testing methods using laboratory equipment. Course is not part of the FAA-approved curriculum. May be repeated one time for credit.
Prerequisites: AVA 222 or instructor’s permission.

BIOLOGY
The Biology program offers courses to meet the needs of three groups of students: science transfer/pre-medicine students, health occupations transfer students, and students who are not majoring in the sciences, but who need science courses for graduation.

Biology 160 (Cellular Biology) is the entry course for health occupations students including pre-nursing or pre-dental hygiene. Science transfer students begin in Biology 180 and proceed to Biology 200 and then 220, leading to an Associate of Arts and Sciences or an Associate of Science degree. The Biology 180, 200 and 220 series replaces the former Biology 160, 161 and 163 series. Most health occupations students take Biology 235, 237 and 250. Non-majors courses offered by the Biology Department are Biology 102, 107, 130, 135, 147; Botany 113; and Environmental Studies 101, 165.

Detailed curriculum guides are available on the College website and on campus for a dozen different majors relating to the biological sciences. It is strongly suggested that students with a science major meet with a science faculty member prior to the first quarter of registration.

Faculty Advisors:
R. Kratz 425-388-9503 rkratz@everettcc.edu
P. Pape-Lindstrom 425-388-9480 ppape@everettcc.edu
F. Schwartz 425-388-9451 fschwartz@everettcc.edu
E. Stern 425-388-9424 estern@everettcc.edu

BIOL 102
Introductory College Biology 5
(NS-L) General concepts of living organisms, the process of science, and application of biology to human beings and society. For non-science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.
BIOL 105
Disease in Modern Society 5
(NS) General concepts of infectious disease, the process of science, and application of biology to human beings and society. For non-science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

BIOL 106
Controversies in Biology 5
(NS) Explore the science behind and the ethical issues surrounding some of the most controversial issues in modern biology and health care. Provides a framework of perspectives and themes through which the bioethical issues can be explored but also the science underlying those issues. Topics may include: use of placebos in clinical trials, research in third worlds, genetic testing, genetic engineering, DNA fingerprinting in forensics, embryo selection, cloning, active and passive euthanasia, informed consent, stem cell research, allocation of health care spending and organ donation/allocation.
Prerequisites: ENGL 101 with a grade of C or higher.

BIOL 107
Life Science for Everybody 5
(NS-L) Hands-on exploration of how living things interact with each other and their environment to obtain energy and building blocks for growth. For non-science majors. Highly recommended for elementary education majors.
Prerequisites: ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level; MATH 017 with grade of C or higher or skills assessment at MATH 027 or higher level.

BIOL 114
Birds of Western Washington 3
(TE) Identification, anatomy, behavior and ecology of Western Washington birds. Field trips required.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level.

BIOL 130
Marine Biology of the Pacific Northwest 5
(NS-L) Introduction to the identification, interactions, and life histories of marine organisms found in Puget Sound. Field trips required.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

BIOL 135
Introductory Anatomy and Physiology 5
(NS-L) Relationships between anatomy and physiology, interrelationships among the organ systems, and how each body system interacts to maintain a stable internal state (called homeostasis). Familiarity with medical terminology is desired. No prior knowledge of biology or chemistry is required.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level or completion of MATH 120 or BUS 130 with a grade of C or higher; ENGL 098 with grade of C or higher.

BIOL 140
Topics in Genetics & Evolution 2
(NS) Readings and discussion of selected current topics in genetics, biotechnology and/or evolution. Suitable for students with no biology background as well as for science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher.

BIOL 141
Topics in Physiology 2
(NS) Readings and discussion of selected current topics in human physiology, health and disease. Suitable for students with no biology background as well as for science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher.

BIOL 142
Topics in Ecology 2
(NS) Readings and discussion of current topics in ecology. Suitable for students with no biology background as well as for science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with a grade of C or higher.

BIOL 143
Topics in Microbiology and Immunology 2
(NS) Readings and discussion of current topics in microbiology and immunology. Suitable for students with no biology background as well as for science majors.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with a grade of C or higher.

BIOL 147
Human Genetics 5
(NS-L) Introduction to the study of genetics as it relates to humans and human populations. Topics covered include classical genetics, mutations, reproduction and sex determination, DNA structure and function, and genetic engineering. Prerequisites: ENGL 098 with a grade of C or higher, MATH 028 or equivalent with a grade of C or higher.

BIOL 160
Cellular Biology 5
(NS-L) Principles of cellular biology as they apply to organisms.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with a grade of C or higher or skills assessment at ENGL 101 or higher level. One quarter of college CHEM 101 or higher, or one year of high school chemistry within the last five years with a grade of C or higher.

BIOL 161
General Zoology 5
(NS-L) Structure, function, evolution and classification of animals. Laboratory includes animal dissections.
Prerequisites: BIOL 160 and one quarter of college chemistry equivalent to CHEM 140 or higher, both with a grade of C or higher.

BIOL 163
General Botany 5
(NS-L) Structure and function of plants. Includes a survey of the plant kingdom and related organisms.
Prerequisites: BIOL 160 and one quarter of college chemistry equivalent to CHEM 140 or higher, both with a grade of C or higher.

BIOL 180
Evolution, Ecology and Biodiversity 5
(NS-L) Mendelian genetics, evolution, biodiversity of life forms, and ecology. First course of three-quarter series. For students intending to major in the sciences.
Prerequisites: CHEM 140 with grade of C or higher (may be taken concurrently) or equivalent, or instructor’s permission.

BIOL 180PS
Evolution, Ecology and Biodiversity Problem Session 1
Problem session to accompany BIOL 180. In depth analysis of concepts and course content, lab report preparation. Non-transferable.
Corequisites: BIOL 180.
BIOL 190
Natural History Field Studies 1-5
(NS-L) Various field studies. Hours to be arranged. May be repeated one time for credit.
Prerequisites: Instructor’s permission.

BIOL 199
Special Projects – Biology 1-5
Independent study projects on selected topics in the biological sciences. Credit to be arranged with supervising instructor. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

BIOL 200
Cellular and Molecular Biology 5
(NS-L) For students intending to major in the sciences. Metabolism and energetics, structure and function of biomolecules, cell structure and function, current applications of biotechnology and molecular biology. Second course of three-quarter series.
Prerequisites: BIOL 180 with grade of C or higher and CHEM 150 with grade of C or higher, or concurrent enrollment in CHEM 150, or instructor’s permission.

BIOL 200PS
Cellular and Molecular Biology Problem Session 1
Problem session to accompany BIOL 200. In depth analysis of concepts and course content, lab report preparation. Non-transferable.
Corequisites: BIOL 200.

BIOL 220
Animal and Plant Biology 5
(NS-L) For students intending to major in the sciences. Animal development and physiology, plant development and physiology, including photosynthesis. Final course of three-quarter series.
Prerequisites: BIOL 200 with a grade of C or higher and CHEM 150 with grade of C or higher, or concurrent enrollment in CHEM 150, or instructor’s permission.

BIOL 220PS
Animal and Plant Biology Problem Session 1
Problem session to accompany BIOL 220. In depth analysis of concepts and course content. Non-transferable.
Corequisites: BIOL 220.

BIOL 235
Human Anatomy 6
(NS-L) Detailed examination of the structure of the human body using models, charts, computer programs, fresh animal specimen dissection, and dissection of the preserved cat.
For biology and allied health professional majors.
Prerequisites: BIOL 160 with a grade of C or higher. One quarter of college chemistry CHEM 101 or higher, or one year of high school chemistry within the last five years with a grade of C or higher.

BIOL 237
Human Physiology 6.5
(NS-L) Detailed study of the functioning and interrelationships of the organ systems of the human body using diagnostic lab exercises and computer software.
Prerequisites: BIOL 160 with a grade of C or higher. One quarter college chemistry CHEM 101 or higher, or one year of high school chemistry within the last five years with a grade of C or higher. BIOL 235 with grade of C or higher.

BIOL 250
Microbiology 5
(NS-L) Survey of microorganisms and their biological activities, with special emphasis on bacteria.
Prerequisites: One quarter college chemistry (CHEM 098 or above), or one year of high school chemistry within the last five years. BIOL 160 and one of the following, all with a grade of C or higher: BIOL 161, BIOL 163, or BIOL 237.

BOOKKEEPING
See Accounting and Bookkeeping

BOTANY
Students interested in transferring to a four-year program in botany, forestry or agricultural sciences should follow the course of study for Biology majors. Students interested in horticulture or landscaping will usually take a few courses at EvCC and transfer to more directed four-year programs.
Faculty Advisor:
F. Schwartz 425-388-9451 fschwartz@everettcc.edu

BOT 113
Plants of the Pacific Northwest 5
(NS-L) Introduction to classification and identification of ferns, conifers and flowering plants, with an emphasis on flora of the Pacific Northwest. Includes principles of naming and classification, plant reproduction, ecological interaction, and human use of plants.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

BOT 182
Service Learning 1-2
Service learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community.
Prerequisites: Instructor’s permission.

BUSINESS
Business courses for vocational and transfer students are offered through the Business and Applied Technology Division. These courses include management, supervision, marketing, business communications, small business management, business math, statistics, and business law.
Degree and certificate programs include:
Associate in Business degree with preparation for majors in business, intended for transfer to a four-year college or university.
Associate in Technical Arts degree in Business Administration and Entrepreneurship.
Specific curriculum guides for each of these programs are available in the Enrollment Services Office and from program advisors.
Many of the courses offered serve those who are interested in a specific skill development and learning, rather than a degree or certificate program. Check the specific course description and prerequisites for any courses of interest.
Faculty Advisors:
P. Coughlin 425-388-9250 pcoughlin@everettcc.edu
D. Hu 425-388-9364 dhu@everettcc.edu
C. Lewis 425-388-9559 ctlewis@everettcc.edu
L. Munoz 425-388-9175 lmunoz@everettcc.edu
B. Reed 425-388-9249 breed@everettcc.edu
BUS 100
Business Transfer Program Orientation and Planning 1
Planning class for students wishing to complete four-year degree in business or related areas. Planning strategies for AAS degree, selection of universities and transfer requirements, selection of concentrations within those programs as influenced by career exploration, and application/entrance requirements. Guest speakers representing business programs at nearby universities, as available. Developing student success skills. Highly recommended first quarter course for Accounting, Business, Economics or related major.

BUS 101
Introduction to Business 5
(SS) Survey of, and orientation to, the American business system. Overview of business environment, private enterprise system, business organization, management processes, and business operation. Intended as an introductory course for students majoring in any field of study.

BUS 102
Innovation in Design 5
(TE) Explores the role of creativity, teamwork, and communication in promoting innovative design. Develop knowledge and skills in all three areas through a series of hands-on projects and reflective activities. Students will work in teams to complete the projects and present their experiences and results through various communication formats. Credit cannot be earned in both BUS 102 and ENGNR 101.
Prerequisites: ENGL 098 or placement into ENGL 101; or instructor’s permission.

BUS 104
Business English 5
Includes writing, editing, or preparing final copy for distribution, publication, or transcription, and reinforcement of business English skills. Review of abbreviations, capitalization, grammar, numbers, compounds and hyphenations, possessives, punctuation, spelling, and word confusions.
Prerequisites: Reading placement scores indicating college-level skills or completion of RSS 104 with C or higher.

BUS 105
Small Business Essentials 5
Study of small business with an emphasis on using systems thinking to identify and successfully pursue business opportunities. Topics include identifying a viable business opportunity, using business planning tools, preparing a marketing plan, and understanding the functions of management, operations and financial planning. Major business functions and the business lifecycle will be explored.

BUS 110D
Business Communications 5
(D) Study of business communications principles within the global workplace. Includes effectively presenting good, neutral, and bad news; direct and persuasive requests, short reports, and spoken presentations to diverse audiences. Also includes improving listening skills and interpreting nonverbal communication within varying cultures.
Prerequisites: Recommended BUS 104 and placement in ENGL 098.

BUS 130
Business Computations 5
Apply mathematical concepts using numerical data in Excel to complete business applications. Create formulas and use functions of Excel to compute basic math operations, fractions, percent, percent increase/decrease, bank reconciliation, payroll, taxes and insurance, discounts, markup/markdown, interest, mortgages, depreciation, financial statements.
Prerequisites: Strong working knowledge of arithmetic or completion of MATH 014 or equivalent recommended. BT 140 or equivalent recommended.

BUS 140
Introduction to Hotel Management 5
Introduction to management and operations of the hotel industry. General management, room operation, food and beverage operation, marketing, financial control and information management and human resources policy management issues will be examined.
Prerequisites: BUS 101 and BUS 105.

BUS 150
Principles of Marketing 5
(TE) Introductory study of marketing concepts viewed from a managerial approach. Study of fundamental business activities that direct flow of goods and services from producer to consumer. Includes promotion, distribution and pricing.

BUS 154
Fundamentals of Supervision 5
Emphasis on the human factor in business; the job of the supervisor; human relations; art of leadership; how to convert policy into action; job analysis and performance; how and when to discipline; and supervision of different types of workers. Intended for present and future supervisors. Not intended for transfer.

BUS 170
Virtual Assistant Essentials 5
Introduction to the Virtual Assistant profession. Explores skill sets, office setup, technology requirement, niche development, and issues to be considered when starting a virtual assistant business. Develops knowledge and skills through readings, research, and hands-on projects.
Prerequisites: Intermediate computer experience.

BUS 190
Business Seminar 1-5
Seminar will be used to teach various subjects in the areas of management, marketing, and operations. Subjects will be current topics in these fields that are not in the published curriculum. May be repeated three times for credit.

BUS 191
Business Internship 1-5
Provides students with a supervised work environment to apply their management, marketing and operations knowledge in either a for-profit or non-profit organization, to foster professional growth, and to gain self-confidence directly associated with certification and/or the degree focus of the student.
Prerequisites: Instructor’s permission.

BUS 200
Principles of Management 5
(TE) Introduction to basic principles of good business management. Consideration of basic management functions of organizing, planning, directing, staffing, and controlling.

BUS 201
Elements of Statistics 5
(Q, NS) Introductory course. Descriptive methods, probability, sampling distributions, hypothesis testing, confidence intervals, correlation, ANOVA, chi-square tests. For students in any major. Credit may not be earned in both MATH 281 and BUS 201.
Prerequisites: MATH 140 or equivalent.
BUS 205  
**Entrepreneurship I**  
5

The first in a two-course series immersing students in the world of business. Focus on inventing, developing, launching and managing a new business. This hands-on course involves off-campus activities and online interaction. Students will work in teams to set goals for successful implementation of the new venture.

Prerequisites: BUS 105 or instructor’s permission.

BUS 206  
**Entrepreneurship II**  
5

This second of a two-part series will focus on managing, growing and liquidating a business. This hands-on course involves off-campus activities and online interaction. BUS 206 is a continuation of BUS 205.

Prerequisites: BUS 205 or instructor’s permission.

BUS 220  
**Business Law**  
5

(75) Origin, evolution, concepts and functions of law and judicial system. Includes contracts, agency, torts, Uniform Commercial Code, and constitutional law, forms of business organization, consumer legislation and crime. Emphasis is on gaining a practical understanding of rights and obligations arising from entering into contracts. Business students intending to transfer to University of Washington should enroll in Political Science 200. Required law course for business students intending to transfer to Washington State University.

Prerequisites: Sophomore standing or business experience recommended.

BUS 255  
**Business Consulting**  
5

Teams will consult existing small businesses in Snohomish County. Consulting services provided by students includes developing marketing strategies, building company web sites and databases, completing financial analysis, developing human resource management systems, and improving operational infrastructures.

Prerequisites: BUS 101 or BUS 105 and ACCT 200.

BUS 270  
**Virtual Assistant Launch**  
5

Capstone class for Virtual Assistant Certificate. Create and develop your own VA business website. Begin VA operations by launching, managing, and providing services.

Prerequisites: BUS 105, BUS 170; BUS 150 or concurrent enrollment.

---

**BUSINESS TECHNOLOGY**

See also Medical Transcription

Business Technology (BT) is offered through the Business and Applied Technology Division and includes programs leading to one- and two-year certificates and a two-year Associate in Technical Arts (ATA) degree. These programs provide training required for office support, legal office support, legal office assistant, administrative support, word processor, Microsoft Office specialist, medical receptionist, medical transcriptionist, medical administrative assistant, medical billing specialist, and medical coding but are not intended for transfer.

With the help of an advisor, students select courses in business technology, general business and other related areas. At the time of advising, students are placed in skills classes according to their proficiency.

First-year courses emphasize the basic knowledge and skills necessary to prepare students for entry-level office positions. Second-year offerings include advanced courses and an internship to prepare students for higher levels of employment.

Students who plan to major in business education can earn an Associate in Arts and Sciences (AAS) - Option II degree, which will transfer directly to a four-year college or university.

Detailed curriculum guides are available from the Enrollment Services Office, from program advisors, and on the college website.

K. Willestoft 425-388-9242 kwillestoft@everettcc.edu

---

**BT 100**  
**Beginning Keyboarding**  
5

First course in typing sequence which introduces typewriting-by-touch system taught on computers. Development of speed and accuracy. Includes techniques for editing, saving, opening and closing documents, application of skills to personal letters and reports.

**BT 105**  
**Keyboarding - Speed and Accuracy**  
3

Improve typing speed and accuracy through the use of programmed software which diagnoses each student’s keyboarding problems and prescribes appropriate practice material. May be repeated up to six credits.

Prerequisites: BT 100, typewriting-by-touch, or instructor’s permission.

**BT 115**  
**Records Management**  
5

Basic introduction to field of records management. Basic manual systems concepts are discussed, and concepts needed for understanding automated records storage and retrieval methods are introduced. Discussion of microforms is included. Hands-on use of a computerized database for records retention and retrieval.

**BT 130**  
**Editing/Transcription**  
5

Develops entry-level machine transcription skills with emphasis on mailable copy; applies principles of correct spelling, punctuation, and proofreading while transcribing materials representing different types of business correspondence. Materials are transcribed using word processing and transcription equipment.

Prerequisites: BUS 104 (or concurrent enrollment) or instructor’s permission.

**BT 145**  
**Civil Litigation**  
5

Focuses on general legal terminology and vocabulary, as well as pretrial and trial procedure. Transcribe correspondence, pleadings, legal documents and forms used in litigation. Materials are transcribed using word processing and transcription equipment.

Prerequisites: BUS 104 (or concurrent enrollment) or instructor’s permission.

**BT 146**  
**Will/Probate/Domestic Relations**  
5

Focuses on wills, probate and family law procedures. Transcribe correspondence, legal documents, and forms. Materials are transcribed using word processing and transcription equipment.

Prerequisites: BUS 104 (or concurrent enrollment) or instructor’s permission.

**BT 147**  
**Bankruptcy and Corporate Law**  
5

Focuses on corporate, real estate and bankruptcy law. Transcribe correspondence, legal documents and forms. Materials are transcribed using word processing and transcription equipment.

Prerequisites: BUS 104 (or concurrent enrollment) or instructor’s permission.
BT 162
Job Search and Professional Development 5
This course provides the opportunity to develop skills, attitudes, and practices that enable a person to be effective and successful in searching for a job. This course concentrates on areas of development that are essential but often left out of professional curricula. Areas of study include first impressions, clothing basics, presentation communication, personal profile, job search (resumes, application letters, portfolios, and interviews), and financial planning. Recommended: students should enroll in this class within the final two quarters of their degree or certificate program.

BT 165
Customer Service 5
Theory and skills relating to internal and external customer service. Elements of service culture, behavioral styles, verbal and nonverbal communication, telephone techniques, difficult customers, diversity, customer loyalty, and service recovery. Prerequisites: Recommended CL 101 or equivalent.

BT 180
Principles of Medical Insurance 5
Preparation and completion of medical insurance claims. Completion of patient ledgers, day sheets, and the CMS 1500; insurance form abbreviations; processing of claims through various carriers including Blue Cross/Blue Shield, Medicare, Medicaid, CHAMPVA/TRICARE, Workers’ Compensation, Disability Compensation, and HMOs; payment reimbursement; HIPAA regulation application.

BT 181D
Diversity in Law and Ethics for Health Care Occupations 5
(D) Introduction to law and ethics as it relates to the medical office setting and patient-provider relationships. Components of cultural diversity and establishing a new culture in ambulatory health care are emphasized. The major theme of this course is to encourage students throughout each topic to be inclusive rather than exclusive or biased towards their co-worker relationships and provider-patient responsibilities. Course content includes: medical law, ethics, and bioethics; medical practice management; employees in ambulatory health care; legal guidelines and regulations for professional liability; physicians’ public duties and responsibilities for reporting vital statistics and public health statutes; patient informed consent including specific diversity issues of language, education, culture and religion; medical records, employment practices that are inclusive of all individuals and avoid discriminatory practices; allocation of scarce medical resources and how diversity perspectives shape current medical practice; examination from various cultural and religious perspectives on: genetic engineering, abortion, choices in life and death, and the process of death and dying.

BT 182
Medical Office Reception 3
Preparation to perform reception, telephone and administrative tasks in a medical front office setting. Scheduling theory and practice, telephone triage and transfer skills, and development of skills to facilitate the communication necessary between the front office staff and patients will be emphasized. Focus on the various jobs and responsibilities in a medical setting and how to operate standard office equipment. The physical makeup and maintenance of the patient’s medical records as well as confidentiality requirements pertaining thereto will be stressed along with a comprehensive overview of new (HIPAA - Health Insurance Portability and Accountability Act) and existing confidentiality regulations and their impact in a medical office. Prerequisites: CL 101, HLTH 100.

BT 183
Medical Data Management 3
Introduction to computerized medical data management. Students will enter and edit patient registration information, schedule appointments, prepare electronic insurance claim forms, enter and edit payments and procedures including diagnostic and procedural codes, and prepare a variety of demographic and financial reports. Prerequisites: BT 180, CL 101.

BT 185
Diagnostic Coding 5
Preparation to accurately code the diagnosis component of the HCFA 1500 claim form using ICD-9-CM (International Classification of Diseases, Ninth Revision, Clinical Manifestations). The diagnostic coder’s role is to translate written diagnoses into numeric and alphanumeric codes. The ICD-9-CM codes relate the disease, condition, complaint, sign, symptom or other reason for providing medical services, coding has become the required communication tool between the physician and commercial and government payers. Prerequisites: BT 180

BT 186
Procedural Coding 3
Preparation to accurately code the procedural component of the HCFA 1500 claim form using CPT (Physician’s Procedural Terminology) and HCPCS coding systems. The procedural coder’s role is to translate written procedures into numeric and alphanumeric codes. CPT and HCPCS codes communicate to providers, patients, and payers the procedures performed during a medical encounter. Prerequisites: HLTH 100, BT 180.

BT 219
Introduction to Microsoft Word 5
Introduces Microsoft Word processing software. Covers ways to create, revise, format, save and retrieve documents; use file management; merge; select typefaces; create and cancel tables; use pagination; select text; format footnotes; find and replace text and formats; and use multiple windows. Prerequisites: CL 101 recommended.

BT 229
Advanced Microsoft Word 5
Continuation of MS Word software. Presents advanced features of Word along with desktop publishing features and concepts. Specific areas of study include advanced line formatting, formatting with templates and macros; adding borders, frames and pictures; using Microsoft Draw and Equation Editor; creating and sorting text in tables; creating charts; formatting text into columns; merging documents; and creating outlines and fill-in forms. These features will be incorporated with “hands-on” exercises. Prerequisites: BT 219 or instructor’s permission.

BT 240
Access 5
Presents intermediate/advanced techniques using Microsoft Access. Emphasis on formatting text and numbers; advanced queries and reports, macros, and importing and exporting data. Prerequisites: CL 101 or equivalent.

BT 242
Excel 5
Presents intermediate/advanced techniques using Microsoft Excel. Emphasis on creating professional-looking workbooks, using templates, creating multiple worksheets and using functions. Prerequisites: CL 101 or equivalent.

BT 243
Advanced Excel Applications 5
Continuation of BT 242, Microsoft Excel. Students will use Excel to address common business scenarios. Project-based approach to improve workflow, eliminate repetition and produce more informative reports. Maintain, support and enhance existing spreadsheet applications through structural revision and automation. Prerequisites: BT 242 or equivalent.
CHEMISTRY

Did you ever wonder why your blood clots so quickly or why rechargeable batteries eventually don’t recharge? How about why you swallow an aspirin for a pain in your foot, or why oil and water don’t mix? Have you ever asked what makes nonstick pans nonstick or why it is so difficult to find a cure for Alzheimer’s? A degree in chemistry will allow you to answer these and many other questions.

Chemistry is the central science; it overlaps with engineering, astronomy, biology, physics, and geology. A degree in Chemistry opens doors to careers in medicine, research, teaching, forensics, engineering, biotechnology, and many others. An Associate of Science degree in Chemistry will prepare you for transfer to a university as a junior working towards a bachelor’s degree. Many have gone on to earn an M.S. or Ph.D. in chemistry. Chemistry is also a required prerequisite for many programs like biology, nursing, engineering, physics, etc. Everett Community College offers several different chemistry classes that will help prepare you for an exciting career in the sciences.

Come see a Chemistry advisor today to talk about a major in Chemistry at EvCC!

Faculty Advisors:
A. Brackett 425-388-9039 abrackett@everettcc.edu
M. Kontulis 425-388-9136 mkontulis@everettcc.edu
S. Powell 425-388-9084 spowell@everettcc.edu
S. Singh 425-388-9373 ssingh@everettcc.edu

CHEM 098
Introduction to Chemistry 5
Includes measurements, properties and structure of matter, nomenclature, and weight relations. Intended for students who want to obtain the chemistry background needed for the CHEM 140-160 series. Not intended for students with a recent course in high school chemistry. This course does not meet the prerequisites for the nursing program. Those students should enroll in CHEM 101 instead.

Prerequisites: MATH 065 with a C or higher, concurrent enrollment in MATH 065, or placement into MATH 140. ENGL 098 with C or higher, or concurrent enrollment in ENGL 098, or eligible for ENGL 101.

CHEM 100
Chemistry in Our World 5
(NS-L) Introductory lab science course for non-science majors. Themes vary from quarter to quarter and may include the applications of Chemistry in Art, Medicine, Pharmaceuticals, or the Environment. Check the quarterly schedule for the specific themes. Not recommended as a preparatory course for General Chemistry or for Allied Health Professions.

Prerequisites: ENGL 098 with grade of C or higher, and MATH 017 with grade of C or higher, or placement into MATH 027.

CHEM 101
College Chemistry I 5
(NS-L) Atomic structure, chemical bonding; nomenclature, states of matter; solutions, acids, bases and salts; reaction rates and chemical equilibrium. For students majoring in liberal arts, nursing, pre-occupational therapy, and dental hygiene. Not recommended for students planning to continue beyond CHEM 102; see CHEM 140 series.

Prerequisites: ENGL 098 with grade of C or higher; and MATH 022, MATH 028 or MATH 055 with a grade of C or higher; or placement into MATH 065.

CHEM 102
College Chemistry II 5
(NS-L) Structure, nomenclature, and reactions of organic compounds, introduction to biochemistry.

Prerequisites: CHEM 101 or CHEM 140 and ENGL 098 with grade of C or higher or instructor’s permission.

CHEM 140
General Chemistry I with Laboratory 5.5
(NS-L) Properties of matter, nomenclature, reactions, stoichiometry, gases, thermochemistry, and atomic structure. For pre-medicine, pre-dentistry, pre-veterinary medicine, pre-pharmacy, and all engineering and science majors.

Prerequisites: MATH 065 or equivalent. CHEM 098 with a C or higher, OR one year of high school chemistry with a C or higher within the last three years OR pass the chemistry placement test, OR completion of MATH 153 with a B+ or higher. ENGL 098 with a grade of C or higher or concurrent enrollment in ENGL 098, or eligible for ENGL 101.

CHEM 150
General Chemistry II with Laboratory 5.5
(NS-L) Atomic periodicity, chemical bonding theories, solid and liquid states and solutions.

Prerequisites: CHEM 140 with grade of C or higher or instructor’s permission.

CHEM 160
General Chemistry III with Laboratory 5.5
(NS-L) Reaction rates and equilibrium, acid-base equilibria, solubility equilibria, thermodynamics, electro chemistry and nuclear chemistry.

Prerequisites: CHEM 150 with grade of C or higher or instructor’s permission.
# Computer Information Systems

## CHEM 200
### Organic Chemistry I
- **6**
- **(NS-L)** Chemistry of carbon compounds, with emphasis on structure, nomenclature, reactions, mechanisms, and synthesis of main types of organic compounds.
- **Prerequisites:** ENGL 098 with grade of C or higher, and CHEM 160, or CHEM 150 with instructor’s permission.

## CHEM 201
### Organic Chemistry II
- **6**
- **(NS-L)** Chemistry of carbon compounds, with emphasis on structure, nomenclature, reactions, mechanisms, and synthesis of main types of organic compounds.
- **Prerequisites:** CHEM 200 with grade of C or higher.

## CHEM 202
### Organic Chemistry III
- **6**
- **(NS-L)** Chemistry of carbon compounds, with emphasis on structure, nomenclature, reactions, mechanisms, and synthesis of main types of organic compounds.
- **Prerequisites:** CHEM 201 with grade of C or higher.

## CHICANO STUDIES

### CHCST 105D
#### Introduction to Chicano/Mexican-American Culture
- **5**
- **(H, D)** Introduction to the dominant historical, cultural and political themes that characterize the Chicano/Mexican-American experience. Through the study of history, current events and literature, students will be able to articulate the diversity within the largest ethnic group among Latinos within the United States as well as the dominant themes that characterize the lives of Mexican-Americans.

## CHINESE

See World Languages

## COMPUTER INFORMATION SYSTEMS

Students interested in computer studies have several options, which are described below.

One option is to pursue the Associate of Science degree for the purpose of preparing for transfer to a university to major in computer science. This degree enables a student to complete many of the math and science prerequisites for the major, as well as some of the general education requirements. The Associate of Science is intended only for transfer and does not provide specific technical training for immediate employment. While some of the courses in Computer Information Systems may be of interest and value to the student, the transfer student will focus primarily on math and science courses. The Associate of Science degree is described in the Graduation Requirements section of the catalog.

Students interested in transferring to a university with a major in computer information systems, or a related area, may pursue the Associate of Applied Science - Transfer in consultation with a faculty advisor. The AAS-T degree enables students to complete a highly focused 90-credit technical program that meets transfer requirements at selected universities. Currently, EvCC has an AAS-T transfer agreement with Central Washington University, which offers a Bachelor's degree in Information Technology and Administrative Management in Everett.

Another option is to follow the requirements for an Associate in Technical Arts Degree (ATA) in Information Technology, as well as certificates in web design, database management, casino gaming systems, and computer support.

Curriculum guides for these programs are available in the Enrollment Services Office and from program advisors. A complete list of Computer Information Systems course descriptions follows. Additional credit may not be earned for the same course taken under a different title or course number.

</tr>
<tr>
<td>CIS 120</td>
<td>Introduction to Computer Spreadsheets using MS Excel</td>
<td>5</td>
<td>Introduction to Microsoft Excel Spreadsheets concepts and methods. Emphasis on spreadsheet design, formatting, calculating formula and functions, charting and linking. Prerequisites: CIS 100 or file management skills using the computer operating environment.</td>
</tr>
<tr>
<td>CIS 122</td>
<td>LAN Architecture - Design, Concepts and Implementation</td>
<td>5</td>
<td>Presents the concepts and configuration skills involved in designing, installing, and maintaining a Cisco switched Local Area Network. Layers 1 and 2 of the OSI model will be emphasized. Lab work will focus on using hubs and switches to create a segmented network. Cisco Internet Operating System command line configurations will be used extensively. Prerequisites: CIS 117 or instructor’s permission.</td>
</tr>
</tbody>
</table>
CIS 124  
Introduction to Database Design  
Introduction to database design and data analysis. Emphasis is on general database theory and accurate database design using normal forms and usage dependent normal forms. Data analysis will explore provably correct data structures.  
Prerequisites: CL 101 or instructor’s permission.

CIS 126  
Relational Database Management Systems  
Converting Relational Data Models to physical databases using SQL Server and Access. Basis Structured Query Language (SQL) will be used for inserting, updating, deleting and retrieving records. Tuning database structures for optimum response using dependent fourth- and fifth-normal forms.  
Prerequisites: CIS 124 with a grade of C or higher.

CIS 128  
Advanced Database Programming  
Advanced topics in database using SQL, including select, delete, update, joins, unions, inserts, and stored procedures. Ability to import, extract, update, and maintain multiple tables will be covered. Security issues such as privileges will also be covered.  
Prerequisites: CIS 126 with a grade of C or higher, CP 110 with a grade of C or higher.

CIS 150  
Introduction to Telecommunications  
History and fundamentals of telecommunications technology. Current industry overview including standards, protocols, and emerging technologies used for voice and data communications.  
Prerequisites: Completion of RSS 094 with a grade of C or higher or placement into RSS 104.

CIS 152  
Basic Electronics and Electricity  
Basic fundamentals of electricity and electronics. Includes alternating and direct current theory, identification of commonly used electronic components, reading schematics, applying circuit laws and determining power (Ohm, Kirchhoff and Watt). Use of measuring equipment, such as voltmeters, ohmmeters and oscilloscopes is included.  
Prerequisites: Completion of RSS 094 with a grade of C or higher, or placement by assessment score in RSS 104.

CIS 155  
Copper Communications Cable  
Fundamentals of Structured Premise Cabling Systems. Students will install copper communications cabling and equipment according to layout plans, connecting units with inside and outside service wires.  
Prerequisites: CL 101 or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment score in reading indicating student is college ready.

CIS 161  
PC Technician – I  
Focus will be on primary hardware and operating system features, types, and components for PCs and laptops as related to the A+ Certification Test. Includes identifying, replacing, and upgrading hardware and software components; preventive maintenance; documentation of service, and customer satisfaction.  
Prerequisites: CL 101 or equivalent and CIS 108 or equivalent, or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment in reading indicating student is college ready.

CIS 162  
PC Technician – II  
Advanced topics in PC operating systems and environments with an emphasis on gaining technical expertise in troubleshooting, problem solving, installation, and maintenance of a PC’s operating system and operating environments as related to the A+ certification test.  
Prerequisites: CIS 108 and CIS 161, or instructor’s permission.

CIS 190  
Seminar  
This seminar will be used to teach various subjects in the field of computer science and programming. Subjects will be current and emerging technologies in these fields and are not in the published curriculum. May be repeated two times for credit.

CIS 195  
Computer Careers Internship  
Provides students with a safe, supervised work environment to apply their academic skills. This allows the student to put into practice administrative and technical skills, to foster professional growth, and to gain self-confidence directly associated with certification and/or the degree focus of the student. May be repeated two times for credit.  
Prerequisites: CIS 161 or CP 120 or CIS 124 or instructor’s permission.

CIS 203  
Writing Documentation  
(C) Writing memorandums, business letters, and technical reports. Includes study of tone, style, unity, audience, and purpose in business and technical communication. Co-listed as ENGR 231 and ENGL 202. Credit can be earned in only one of the following courses: CIS 203, ENGR 231 or ENGL 202.  
Prerequisites: ENGL 101 with a grade of C or higher.

CIS 210  
Application Technical Support  
Familiarizes Information Technology students with the applications of the Microsoft Office Suite from both user and administrator perspectives and prepares them to offer technical support based on this enhanced understanding. Examines the major components of Office Suite and addresses the support issues seen by most Information Technology workgroups. Students will learn what they can reasonably expect to encounter in day-to-day support and teaches them to think like a user in order to solve user-level support issues such as customer satisfaction and listening skills.  
Prerequisites: CIS 162.

CIS 214  
Casino Gaming Systems Technician  
This concentrated course includes hands-on experience. It will focus on advanced hardware and software features, including installation and configuration of vendor-specific slot-gaming devices, identifying, replacing, and upgrading components, preventive maintenance, documentation of service, slot gaming laws/policies, and guest satisfaction.  
Prerequisites: CL 101, CIS 117, CIS 155, CIS 161, and CIS 162, or instructor’s permission.

CIS 222  
WAN Architecture - Design and Implementation  
Presents the theory and skills relating to Wide Area Networks (WANs). Connecting multiple Wide Area Networks to create a large network environment is emphasized. Advanced TCP/IP configuration and implementation are major topics. Cisco IOS commands, router configuration and support issues are studied extensively in the lab. This course builds on CIS 122 with practical experience gained on Cisco routers and other communication devices.  
Prerequisites: CIS 117 and CIS 122 or instructor’s permission.

CIS 224  
Network Server Administration  
Local Area Network (LAN) server installation, configuration and management. Covers topics such as equipment choice, network operating system choice, user account administration, system security, data protection, Internet connectivity, and monitoring system performance.  
Prerequisites: CIS 122 and CIS 162 and CIS 108, or instructor’s permission.
CIS 226
Advanced Network Administration

Theory and skills relating to administration of enterprise level networks. Area of study covers both Local and Wide Area Network management. Topics include Internet connectivity, Internet protocols, physical and logical organization of large networks, installation and management of network services such as web servers, email servers, Client/Server databases, proxy servers and firewalls. Students gain hands-on experience with network servers, server services, routers, and remote access services.

Prerequisites: CIS 224

CIS 228
Computer Information Security

Course presents the principles of information security. It examines the field of information security to prepare information systems students for future roles as business decision-makers. Both the managerial and the technical aspects of the discipline are explored and it addresses knowledge areas of the CISSP (Certified Information Systems Security Professional) certification. Included are examples of issues faced by information technology professionals and tools for designing security policy, acceptable use policy, materials disposal policy and access management policy. Threat assessment, risk assessment and disaster recovery strategy are discussed. The course offers extensive opportunities for hands-on experience with security software tools.

Prerequisites: CIS 162 and CIS 224, or instructor’s permission.

CIS 255
Fiber Optical Communications Cable

Fundamentals of optical transmission theory. Basics of connecting, splicing, routing, and testing of fiber optic cable including use of fiber optic test and installation devices with a hands-on approach. Introduction to the application of optical fibers in LAN and MAN environments and telephony applications.

Prerequisites: CIS 155 or instructor’s permission.

CIS 280
Systems Analysis and Project Management

Required for all students in the CIS/CP programs. The emphasis is on the system development life cycle and project management. A project is planned through the stages leading to implementation. Feasibility studies, Gantt and Pert charts are used as well as tools to develop an understanding of the steps in planning and designing a project, whether for programming, networks, hardware, applications or web.

Prerequisites: CL 101 or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment score in reading indicating student is college ready.

CIS 295
CIS Advanced Internships

On-the-job work experience in occupations directly related to student’s career choice. This advanced internship reinforces the student’s expertise gained in the 100-level Computer Information Systems courses. Internships are arranged with private industry, governmental agencies and non-profit organizations. Internships may be paid or unpaid as available.

Prerequisites: CIS 195 or instructor’s permission.

CP 110
Computer Programming I - Visual Studio.NET

Course presents the principles of information security. It examines the field of information security to prepare information systems students for future roles as business decision-makers. Both the managerial and the technical aspects of the discipline are explored and it addresses knowledge areas of the CISSP (Certified Information Systems Security Professional) certification. Included are examples of issues faced by information technology professionals and tools for designing security policy, acceptable use policy, materials disposal policy and access management policy. Threat assessment, risk assessment and disaster recovery strategy are discussed. The course offers extensive opportunities for hands-on experience with security software tools.

Prerequisites: CL 101 or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment score in reading indicating student is college ready.

CP 120
Beginning Web Pages

Beginning course in web page construction using a markup or document oriented language. A brief introduction to XML will be included. Will also include the use of a scripting language such as JavaScript. Students will create web pages using a dynamic programming language. Topics may include creating and using cookies, rollovers, browser detection, popup windows, validation, recursion, arrays, frames, and shopping cart techniques.

Prerequisites: CL 101 or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment score in reading indicating student is college ready.

CP 130
Computer Programming I - C++

(Q, NS) Software development skills using the C++ programming language. Emphasizes introductory programming concepts such as data types, variable declarations, assignment statements, control structures, modular design using procedures, and array data structures.

Prerequisites: MATH 065 with a grade of C (2.0) or higher, or equivalent.

CP 132
Computer Programming II - C++

(Q, NS) Software development skills using the C++ programming language. Emphasizes character arrays (strings), recursion, structures, unions, text and binary file processing, header and implementation files, storage classes macros, pointers, dynamic memory allocation, linked lists, data structures, and the class data type. Course is offered once per year for students intending to transfer to the University of Washington-Bothell only.

Prerequisites: CP 130 with a grade of C (2.0) or higher.

CP 140
Computer Programming I – Java

(Q, NS) Teaches object-oriented programming skills using the Java programming language. Emphasizes the use of data types, variables, assignment statements, control structures, modular design with classes, inheritance, polymorphism, exception handling, and graphical user interface design.

Prerequisites: MATH 065 with a grade of C (2.0) or higher, or equivalent.

CP 220
Advanced Web Pages

Beginning course in web page construction using a markup or document oriented language. A brief introduction to XML will be included. Will also include the use of a scripting language such as JavaScript. Students will create web pages using a dynamic programming language. Topics may include creating and using cookies, rollovers, browser detection, popup windows, validation, recursion, arrays, frames, and shopping cart techniques.

Prerequisites: CL 101 or instructor’s permission. Completion of RSS 104 with grade of C or higher, or assessment score in reading indicating student is college ready.

CP 130
Computer Programming I - C++

(Q, NS) Software development skills using the C++ programming language. Emphasizes introductory programming concepts such as data types, variable declarations, assignment statements, control structures, modular design using procedures, and array data structures.

Prerequisites: MATH 065 with a grade of C (2.0) or higher, or equivalent.

CP 132
Computer Programming II - C++

(Q, NS) Software development skills using the C++ programming language. Emphasizes character arrays (strings), recursion, structures, unions, text and binary file processing, header and implementation files, storage classes macros, pointers, dynamic memory allocation, linked lists, data structures, and the class data type. Course is offered once per year for students intending to transfer to the University of Washington-Bothell only.

Prerequisites: CP 130 with a grade of C (2.0) or higher.

CP 140
Computer Programming I – Java

(Q, NS) Teaches object-oriented programming skills using the Java programming language. Emphasizes the use of data types, variables, assignment statements, control structures, modular design with classes, inheritance, polymorphism, exception handling, and graphical user interface design.

Prerequisites: MATH 065 with a grade of C (2.0) or higher, or equivalent.

CP 220
Advanced Web Pages

Students will learn to manipulate databases from within web pages using a server side product such as Active Server Pages.

Prerequisites: CP 110, CP 120 and CIS 124 or instructor’s permission.

Computer Literacy

Computer literacy courses are offered through the Business and Applied Technology Division. Courses introduce students to the basics of file management and the Windows and Microsoft Office environment. Computer literacy courses are appropriate for students gaining entry-level computer training and meet prerequisite requirements for most upper-level computer classes.

Faculty Advisors:
L. Lien 425-388-9402 llien@everettcc.edu
T. Markovich 425-388-9241 tmarkovich@everettcc.edu

CL 096
Computer Comfort

Designed for students who need basic computer confidence and skill building. Emphasis is on basic computer skills and learning strategies to help students succeed in college-level classes. No prior computer experience is necessary; recommended for students who are new to computers and hesitant about today’s technology as used in college classrooms. Credit may not be earned in both CL 096 and RSS 096.
CL 101
Computer Literacy 5
Introduces students to the Windows environment and to the Microsoft Office software program. Emphasis on file management. Uses practical problems to illustrate personal computer applications including database, spreadsheets, presentation graphics, word processing, email and internet.
Prerequisites: Effective Winter 2008 – Score of 50+ on CSP; CL 096 or RSS 096 with a grade of C or higher; or instructor’s permission.

CL 102
Using the Computer and Managing Files 2
Provides an overview of the basic functions of a personal computer and its operating system. Includes understanding of the computer environment, working with icons and basic windows tasks, managing files, identifying and understanding viruses, and dealing with printer setup and output. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CL 103
Word Processing 2
Provides an overview of Word. Includes creating and formatting word processing documents and duplicating and moving text within and between documents. Other Word features introduced include creating standard tables, using pictures and images in a document, and using mail merge tools. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CL 104
Spreadsheets 2
Provides an overview of Excel. Includes developing, formatting, and modifying Excel spreadsheets. Other Excel concepts introduced include applying standard mathematical and logical formulas and creating and formatting graphs and charts. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CL 105
Databases 2
Provides an overview of Access. Includes creating and modifying Access tables, queries, forms, and reports. Other Access concepts introduced include creating relationships between tables and retrieving and manipulating information by using queries and sort tools. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CL 106
Presentations 2
Provides an overview of PowerPoint. Includes creating, formatting, modifying, and preparing presentations using different slide layouts. Other PowerPoint concepts introduced include duplicating and moving text, pictures, images, and charts within and between presentations and using a variety of slide show effects. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CL 107
Fundamental Concepts of Basic Computer Systems 2
Focus is on providing an overview of the physical make-up of a personal computer system and fundamental concepts. Basic concepts include how a computer functions, hardware, software, security, and legal issues associated with computers. Class has continuous enrollment; sections are taught in a computer lab. Students may select the hours to attend while the lab is open. Student work is self-paced with assistance available at all times.

CONTINUING EDUCATION
A variety of credit and non-credit workshops, special classes, and seminars meet the training needs and personal enrichment interests within the community. These courses are especially designed to assist in furthering personal interests, upgrading technical skills, advancing career goals, or accommodating individual needs for continuing education. Call 425-267-0150 for the latest offerings. Topics include but are not limited to:

- Arts & Crafts
- Building Codes
- Business Success
- Buying/Selling/Building Your Own Home
- Caregiving
- CATIA
- Certification/Licensing
- Commercial Driver License Training
- Communications
- Computer Skills Training
- Computer Software Workshops
- Cooking
- CPR
- Creative Writing
- Financial Management
- Flagger Certification
- Geographic Information Systems
- Home & Garden
- Hypnosis/Hyponotherapy
- Medical and Health Fields
- Music
- Online Classes
- Personal Interests
- Phlebotomy
- Photography
- Real Estate
- Recreation and Fitness
- Supply Chain Management
- World Languages & Travel

COSMETOLOGY
The 1730-hour Cosmetology Program is made up of three subdivisions: hair care, skin care and nail care services. Everett Community College’s requirement for licensing is 1730 hours. The curriculum prepares the prospective cosmetologist for the Washington State Examinations. Classes operate on a seven-hour-per-day schedule: M, T, W, F: 8 a.m.-4 p.m.; TH: 12-8:00 p.m. The program provides experience in customer services such as shampooing, hair lightening, permanent waving, thermal hair styling, coloring, wet styling, manicuring, pedicuring, chemical relaxing, trimming of facial hair, facials, makeup, temporary hair removal and styling and maintenance of artificial hair. Student internship is available as part of the training.

Notice to students: Because many chemical sprays and airborne pollutants are found in this occupation, students are advised to consult their physicians as to possible problems (i.e., allergies, asthma, dermatitis, etc.) before enrolling.

Admission to the Cosmetology Program is open to anyone who has a high school diploma or equivalent.

Students can pursue a certificate or ATA degree in the Cosmetology Program.

The courses below are for cosmetology only.

Faculty Advisors:
T. Evans 425-259-8285 tevans@everettcc.edu
V. Meyer 425-259-8288 vmeyer@everettcc.edu

COSMT 110
Trichology, Dermatology and Onychology 5
Introduction to the study of hair, skin and nails and their function, structure and characteristics. Care and treatment of hair, skin, and nail diseases and disorders. Special emphasis on sterilization and sanitation principles and methods. May be repeated one time for credit.

Prerequisites: Instructor’s permission. Corequisites: COSMT 201, COSMT 202, or COSMT 203.
### COSM 111
**Salon Management**

Basic overview of salon business operations, including marketing strategies, financial control, factors affecting salon culture, insurance, business laws and health regulations. Special emphasis is placed on examining a variety of local salons.

Prerequisites: Instructor’s permission. Corequisites: COSM 201, COSM 202, or COSM 203.

### COSM 112
**Salon Safety, Chemistry, Electricity and Physiology**

Includes methods of decontamination, universal precautions and responsibilities of a salon professional. Types and classifications of bacteria, safety measures in the use and storage of chemicals. Basic background in chemistry theories, processes and product ingredients as they relate to the cosmetology industry. Special emphasis on OSHA chemical hazard information. Basic anatomy, physiology and types of electricity will also be covered. Training in First Aid and CPR.

Prerequisites: Instructor’s permission. Corequisites: COSM 201, COSM 202, or COSM 203.

### COSM 120
**Cosmetology Compendium**

Designed for the fifth quarter student preparing for the Washington State Cosmetology Licensure Exam. Provides theoretical review of facts from previous Cosmetology courses in preparation for in-house computerized exams before applying for Washington State Board examinations.

Prerequisites: Instructor’s permission; COSM 110-116; COSM 204; 1,330 clock hours.

### COSM 124
**Instructor Trainee Theory I**

Preparation to teach in the cosmetology classroom and create effective lesson plans and other classroom tools. Practice in preparation, teaching, testing, grading, and review. Prepares the student for the Washington State Instructor Licensing exams.

Prerequisites: Instructor’s permission; one year full-time work experience within last three years. Corequisites: COSM 240.

### COSM 125
**Instructor Trainee Theory II**

Preparation to teach in cosmetology clinic classroom. Practice in teaching and evaluating student performance skills and safety, and preparation for record keeping for front desk and dispensary. Prepares student for the Washington State Licensing Exams.

Prerequisites: Instructor’s permission; one year full-time work experience within the last three years. Corequisites: COSM 240.

### COSM 201
**Cosmetology Lab & Shop Practice I**

Instruction/participation class in basic services performed by a cosmetologist. This lecture/lab class is closely supervised in the introduction and practice of shampooing/draping, hair analysis/treatment, nail care, haircutting, wet styling, thermal styling, permanent waving, chemical relaxing, hair coloring and skin care, safety measures and decontamination control. Students practice on models, mannequins, and each other.

Prerequisites: Instructor’s permission. Corequisites: COSM 110, COSM 111, or COSM 112.

### COSM 202
**Cosmetology Lab & Shop Practice II**

Continuation of supervision in services performed by cosmetologists. To gain salon experience, students practice on models, mannequins, clients and each other under close supervision of an instructor. Emphasis placed on quality of work while meeting industry target time.

Prerequisites: Instructor’s permission; COSM 201; 300 clock hours.

### COSM 203
**Cosmetology Lab & Shop Practice III**

Continuation of supervision in services performed by cosmetologists. To gain salon experience, students practice on models, mannequins, clients and each other under close supervision of an instructor. Emphasis placed on quality of work while meeting industry

---

### CRIMINAL JUSTICE

The objective of the Criminal Justice Program is to prepare students for a career in law enforcement and to promote the ideal of professional public service conduct.

The department offers three degree options, two of which lead to Associate in Technical Arts degrees in Corrections or Law Enforcement (career preparation) and one Associate in Arts and Sciences – Option II (for transfer to a four-year college or university). All options emphasize oral and written communications maximizing articulation skills, and include general education courses and specialized courses in law enforcement.

Generally, a person seeking employment with a criminal justice agency must be a citizen of the United States, at least 21 years of age at the time of employment, and in excellent mental and physical condition. Persons with a history of criminal conduct, drug or alcohol abuse, or objectionable character traits may be disqualified from employment.

Faculty Advisor:
S. Robinson 425-388-9517  srobinson@everettcc.edu
### CRM J 101
#### Introduction to Criminal Justice
5
(TE) Philosophical and historical review of the American criminal justice system; introduction to civil and criminal law; problems with crime and the police; organization and jurisdiction of local, state and federal agencies; career and job opportunities. It examines the US criminal justice system from the initial incident to the final disposition at state and federal levels. This is a prerequisite course for the Criminal Justice Program.

**Prerequisites:** CRM J 101.

### CRM J 106
#### Police Patrol Operations
5
Study of patrol procedures: preparation, communications, observation, field interviews, responses to crime in progress, identification and description of persons and property, vehicle stops, control of suspects, methods of patrol, duty to public services, and emergency tactics. Practical field exercises give students the opportunity to practice safety techniques as they are learned.

**Prerequisites:** CRM J 101 or instructor’s permission or completion of CJTC Academy.

### CRM J 107
#### Criminal Investigation
5
Investigative techniques, criminal procedure, crime scene management and the laws that govern investigations.

**Prerequisites:** CRM J 101 or instructor’s permission or completion of CJTC Academy.

### CRM J 111
#### Defensive Tactics
2
Physical instruction of basic defenses and counter measures against attacks. Develops physical and mental confidence and the ability to identify the Use of Force Continuum. Tactics include: handcuffing techniques, joint lock and counter-joint lock procedures, Use of Force and De-escalation of Force.

**Prerequisites:** CRM J 101 and permission of the Criminal Justice Coordinator.

### CRM J 112
#### Firearms
2
Familiarization with firearms; firearms safety and range procedure; cleaning and maintenance; practical police course shooting exercises with a .40 caliber pistol. NOTE: Anyone legally barred from possessing a firearm is ineligible for this course.

**Prerequisites:** CRM J 101 and permission of the Criminal Justice Coordinator.

### CRM J 121
#### Modern Forensic Photography and Imaging
3
Crime scene and evidence photography utilized by law enforcement personnel. Examines the current methods of obtaining accurate and reliable photo evidence necessary for prosecution of criminal cases. Explores state and federal legalities, 35mm vs. digital photos, analog and digital video, crime scene photography and documentation, courtroom presentation of photo and video evidence, tracking devices, mini-cameras and surveillance techniques.

**Prerequisites:** Completion of or concurrent enrollment in CRM J 101.

### CRM J 150
#### Introduction to Corrections
5
Philosophical and historical examination of the American correctional system. Traditional approaches to corrections are compared with new trends at the local, state, and federal levels. Career opportunities, requirements for job entrance, and training for corrections are reviewed.

**Prerequisites:** CRM J 101.
CRM J 211
Child Abuse Investigation 3
Historical overview of society’s view of children and the evolution of intervention into the family. Within this context the role of criminal justice and Child Protective Services are discussed. Practical techniques of investigating neglect, physical and sexual abuse of children are presented, along with the dynamics of the victim, family, and the offender.
Prerequisites: Completion of CRM J 101 through CRM J 105.

CRM J 213
Police Report Writing 3
Introduction to writing modern law enforcement reports. Includes techniques of writing in a clear, concise and accurate manner, the use of standard police forms, and the rules of disclosure.
Prerequisites: Completion of CRM J 101 through CRM J 105; completion of ENGL 101 with C or higher.

CRM J 214
Communications for the Criminal Justice Professional 5
Overview of effective communication processes for criminal justice professionals including verbal and non-verbal communication, interviewing and interrogation methods, courtroom demeanor.
Prerequisites: CRM J 101 through CRM J 105 or permission of Criminal Justice Coordinator. Completion of ENGL 098 or eligibility for ENGL 101.

CRM J 215
Professional Development 3
Focuses on the extensive application, testing and hiring process in criminal justice. Addresses the minimum standards for being a law enforcement officer in Washington State, instruction on how to prepare and submit an application and resume, how to prepare and present yourself in the Oral Board interview, what to expect during the pre-employment and background investigation as well as the polygraph and psychological exam. Students will participate in many of these phases to develop a stronger skill set and understanding of this process.
Prerequisites: CRM J 101 or permission of the Criminal Justice Coordinator.

CRM J 216
Police-Community Relations 3
Examination and historical review of the relationship between law enforcement officers and the public. The emphasis of the class centers on that relationship as it exists today, and involves issues of police professionalism, prejudices, profiling and other issues.
Prerequisites: Completion of CRM J 101 through CRM J 105.

CRM J 220
Homicide Investigation 3
Mechanics of conducting a criminal investigation of a homicide (the killing of one person by another). It includes techniques of identifying the victim, establishing the time of death, determining the cause and method used to produce death, and explores the means of developing a suspect. Specialized crime scene techniques are examined: collection and preservation of evidence, blood spatter analysis, and criminal personality profiling.
Prerequisites: Completion of CRM J 101 through CRM J 105.

CRM J 230
Advanced Defensive Tactics 2
Review and apply Level 1 counter-joint holds, Level 2 counter offensive strikes, kicks, and take downs. Use of impact weapons (straight baton,) weapon retention and edged weapon defense.
Prerequisites: CRM J 111 and permission of the Criminal Justice Coordinator.

CRM J 231
Advanced Firearms 2
Familiarization with firearms, firearms safety and range procedure, target identification, move and shoot exercises, barricade and off-hand shooting; timed and shoot/don’t shoot drills; alternate weapon shooting. NOTE: Anyone legally barred from possessing a firearm is ineligible for this course.
Prerequisites: CRM J 101, CRM J 112, and permission of the Criminal Justice Coordinator.

CRM J 250
Cooperative Work Experience 1-5
Supervised field experience in local law enforcement, corrections and other criminal justice agencies. Each student works approximately 10 hours per week at a variety of assigned tasks directly associated with the criminal justice system.
Prerequisites: CRM J 101 and permission of the Criminal Justice Coordinator.

CRM J 251
Cooperative Work Experience 1-5
Supervised field experience in local law enforcement, corrections and other criminal justice agencies. Each student works approximately 10 hours per week at a variety of assigned tasks directly associated with the criminal justice system.
Prerequisites: CRM J 101 and permission of the Criminal Justice Coordinator.

CRM J 252
Cooperative Work Experience 1-5
Supervised field experience in local law enforcement, corrections and other criminal justice agencies. Each student works approximately 10 hours per week at a variety of assigned tasks directly associated with the criminal justice system.
Prerequisites: CRM J 101 and permission of the Criminal Justice Coordinator.

CRM J 256
Cooperative Work Experience Seminar 1
Seminar to support supervised field work for Criminal Justice majors in local law enforcement agencies. Students will discuss their field experiences, observations, and perceptions with their course peers. Includes employment opportunities and job search skills relevant to law enforcement careers. May be repeated two times for credit.
Prerequisites: CRM J 101 and permission of the Criminal Justice Coordinator. Corequisites: CRM J 250, CRM J 251, or CRM J 252.

---

**EARLY CHILDHOOD EDUCATION**

Early Childhood Education (ECE) is an educational program for students planning to work with young children in a variety of settings, including preschools, child care centers, family child care and public schools. The program provides courses designed to meet a variety of students’ needs. Most of the courses are offered in the early evening or in a distance learning format. Selected courses in the Education department fulfill program requirements for ECE.

Program options include an Early Childhood Education Certificate, an Associate in Technical Arts Degree, and an Associate in Arts and Sciences Degree - Option II, which is transferable to a four-year college or university.

Orientation meetings are offered by the Early Childhood Education department regularly. Contact the ECE department for further information.

Faculty Advisors:
L. Vlastic 425-388-9301 lvlastic@everettcc.edu
B. Yasui 425-388-9016 byasui@everettcc.edu

ECE 120D
Child Development 5
(D) Study of physical, social, emotional and cognitive development of children from prenatal to age eight. Provides students with a knowledge base for planning early childhood curriculum appropriate to the child’s developmental level. This course includes laboratory requirements.
ECE 121
Observation Techniques
3
Describes observation and recording techniques that support teachers of young children move toward the goal of understanding children’s behavior. Explores how to gather and use data to understand the child's developmental levels. This course includes lecture and laboratory requirements.

ECE 123
Methods of Teaching Young Children
5
History and theory of teaching and learning is presented. Focus on the role of the teacher/adult and appropriate methods of teaching young children. This course includes laboratory requirements.

ECE 125
Health, Safety and Nutrition in Early Childhood
3
Introduction to current health, safety and nutritional issues, which impact children enrolled in early childhood programs. Emphasis on preventative health, safety procedures, child abuse detection and reporting, nutritional concepts and related activity planning.

ECE 126
Child Care Center Administration
5
General principles and skills in the organization and management of child care centers. Focuses on licensing, scheduling, budgeting, record keeping, administration policy, staff training and supervision, program planning, parent relationships, communication skills and marketing.

ECE 127
Family Home Child Care Administration
3
Study of the current practices for establishing and operating family child care homes. Focuses on licensing, scheduling, budgeting, record keeping, administration policy, educational activities, equipment, and staff/parent relationships.

ECE 130
Introduction to Issues in Early Childhood Education
5
(TE) Focus of study in the historical and social foundation of Early Childhood Education. An overview of the field of Early Childhood Education, awareness and values issues, ethics, legal issues, staff relations, staff compensation, developmentally appropriate practice and professionalism within a cultural context. This course includes laboratory requirements.

ECE 131
Practicum Lab I
3
Laboratory experience to enable the student to develop personal and professional skills and practical knowledge. Students will be placed in an early childhood educational setting under the guidance of a faculty member. Prerequisites: Instructor’s permission.

ECE 132
Practicum Lab II
4
Laboratory experience to enable the student to deepen their personal and professional skills and practical knowledge in working with young children. Students will be placed in an early childhood educational setting under the guidance of a faculty member. Prerequisites: ECE 131 and instructor’s permission.

ECE 135
Family Dynamics
3
Examines functional and atypical family systems and the impact on the young child. Explores methods that enhance learning by providing consistency and support to children in childcare, preschool, or school settings. Assists teachers of young children in finding effective ways of communicating with parents and connecting with appropriate community resources. This course includes laboratory requirements.

ECE 136
Family Child Care Curriculum
2
Curriculum planning, implementation and evaluation for family child care programs. Emphasis on developmentally appropriate and culturally relevant practices in working with young children.

ECE 137
School Age Child Care
3
Focus on programs for children ages five through age twelve and their after-school needs. Family issues, health and safety, program and activity planning and children’s individual needs are covered in the context of providing developmentally appropriate school-age programs. This course includes laboratory requirement.

ECE 140D
Family Culture and Self-concept
5
(D) Examines family culture, stages of social development and development of self-concept in young children. Exploration of family as a foundation for social learning; considers culture, bias and stereotyping as issues having impact on young children.

ECE 150
ECE Winter Conference
1
Attendance of annual early childhood conference presenting focus workshops. Areas and issues covered are developmentally appropriate practices, children with special learning needs, language/literacy issues, math/science/music concepts, health/safety practices, and diversity issues. Prerequisites: Instructor’s permission.

ECE 160
Planning for Early Childhood Environment
3
Focus on the role of the teacher in establishment of developmentally appropriate and culturally relevant environments for young children. This course includes laboratory requirements.

ECE 233
Practicum Lab III
2
Practical experience and application of early childhood competency areas of development. Students will be placed in an early childhood education setting under the guidance of a faculty member. Prerequisites: ECE 132 and instructor’s permission.

ECONOMICS
Economics courses are offered through the Business & Applied Technology Division. Economics courses are appropriate for meeting prerequisites and transfer requirements for universities. Faculty Advisor: D. Hu 425-388-9364 dhu@everettcc.edu

ECON 101
Understanding Economics
5
(SS) A survey course to help students better understand economic issues. Economic analysis of current events as a major activity. Not appropriate for DTA degree in Business Administration.

ECON 200
Principles of Macro Economics
5
(SS) Introduction to economic reasoning. Includes organization, operation, and control of the American economy; contemporary economic problems relating to inflation, unemployment, national income; taxation and effects of federal monetary and fiscal policies. Prepares students for upper-division Macro economics courses. ECON 101 may be substituted for ECON 200 in vocational/technical business degree programs. Prerequisites: MATH 065 and ENGL 101 recommended.
EDUCATION

To become a teacher in Washington State, you must complete a bachelor’s degree program and a certification program at an accredited four-year college or university. The Education Program at Everett Community College is designed to give the student an opportunity to explore the profession before making a final commitment to pursue teaching as a career. Selected courses in Education also satisfy program requirements for Early Childhood Education.

Students can pursue teacher certification, Bachelor’s and Master’s degrees at many colleges and universities after completing EvCC’s Associate of Arts and Sciences – Option II degree. Specifically, Western Washington University offers such programs on the EvCC campus for elementary education majors. An Associate of Technical Arts degree is also available for educational paraprofessionals employed in local K-12 school districts.

Faculty Advisors:
T. Gaskin 425-388-9374 tgaskin@everettcc.edu
M. Riordan 425-388-9384 mriordan@everettcc.edu
L. Vlasic 425-388-9301 lvlasic@everettcc.edu
K. White 425-388-9498 kwhite@everettcc.edu
B. Yasui 425-388-9016 byasui@everettcc.edu

EDUC 101 Introduction to Education
(SS) Survey of historical, sociological, political and philosophical aspects of American public education. Includes investigation of the human experience of being a teacher, contemporary problems in education, classroom observations, and the application of educational frameworks to issues of teaching and learning.

EDUC 124 Home/School/Community
(TE) Study of the interrelationships between the family, school, and community and their influence on the development of the child, ages birth to eighth grade.

EDUC 145 Introduction to Special Needs Issues in Early Childhood and Elementary Education
Explore the basic areas of need that result in qualifying for special education services for birth-8th grade students. Coverage of legislation that mandates an inclusive model for exceptional learners.

EDUC 165 Positive Guidance in Early Childhood and Elementary Education
Emphasizes the role of the teacher/caregiver in guidance of young children. Various positive guidance strategies are the focus of study. Weekly observations in a child care program and/or in an educational setting are required.

EDUC 170 Education Portfolio I
(SS) Introduces the teaching portfolio in order to help education students document their pre-service teaching activities and fulfill the professional expectations of many colleges and universities.

Prerequisites: EDUC 101 or ECE 170 or instructor’s permission.

EDUC 182 Service Learning
1-2
Service Learning combines the opportunity of volunteerism with academic applications of educational social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.

Prerequisites: Instructor’s permission and completion of EDUC 101.

EDUC 190 Education Controversies
2
(SS) Seminar designed to introduce education students to controversies in education. Through readings that represent arguments of leading educators and reflect a variety of viewpoints, discussions will be on opposing viewpoints, thinking critically and reaching considered judgments.

Prerequisites: EDUC 101 or instructor’s permission.

EDUC 210 Education Philosophies
2
(SS) Readings and discussions about educational philosophies within the context of education as social construction; and more broadly, as a process of human existential growth where understanding of the world are continually transformed.

Prerequisites: EDUC 101 or instructor’s permission.

EDUC 250 Education in Action
1-4
Cooperative work experience in a field-based setting for education majors (see EDUC 256). Allows students to earn college credit for work experience in public school classrooms. Practical observation and work under supervision of a teacher. Students will have the opportunity to explore the teaching profession, and experience a wide variety of hands-on experiences during their placement, including observation, tutoring, facilitating learning groups and teaching lessons. If possible, students should begin their observation before the beginning of the quarter.

Prerequisites: Instructor’s permission. Completion of or concurrent enrollment in EDUC 101. Corequisites: EDUC 256.

EDUC 251 Education in Action
1-4
Cooperative work experience in a field-based setting for education majors (see EDUC 256). Allows students to earn college credit for work experience in public school classrooms. Practical observation and work under supervision of a teacher. Students will have the opportunity to explore the teaching profession, and experience a wide variety of hands-on experiences during their placement, including observation, tutoring, facilitating learning groups and teaching lessons. If possible, students should begin their observation before the beginning of the quarter.

Prerequisites: Instructor’s permission. Completion of or concurrent enrollment in EDUC 101. Corequisites: EDUC 256.

EDUC 252 Education in Action
1-4
Cooperative work experience in a field-based setting for education majors (see EDUC 256). Allows students to earn college credit for work experience in public school classrooms. Practical observation and work under supervision of a teacher. Students will have the opportunity to explore the teaching profession, and experience a wide variety of hands-on experiences during their placement, including observation, tutoring, facilitating learning groups and teaching lessons. If possible, students should begin their observation before the beginning of the quarter.

Prerequisites: Instructor’s permission. Completion of or concurrent enrollment in EDUC 101. Corequisites: EDUC 256.
EDUC 256
Education in Action  
Seminar to support field work in local schools (see EDUC 250, EDUC 251, EDUC 252). Student will discuss their field experiences, and participate in micro-teaching in order to apply ideas from EDUC 101, EDUC 250, EDUC 251 and EDUC 252. May be repeated two times for credit.
Prerequisites: Instructor’s permission. Completion of or concurrent enrollment in EDUC 101. Corequisites: EDUC 250, EDUC 251 or EDUC 252.

EMERGENCY SERVICES
See also Fire Science
Emergency Services include Emergency Medical Technician and Fire Science classes. Participants in these programs must be in excellent physical condition and be able to perform the normal duties of a firefighter or EMT. Continuous physical conditioning is recommended throughout the programs. For further information about these programs send email to fscience@evcc.edu
Contact:
J. Kraske 425-388-9161 jkraske@everettcc.edu
EMS 151
Emergency Medical Technician Training  
Designed to prepare participants in all phases of pre-hospital emergency care as needed for employment as an EMT with various emergency response agencies. Participants are eligible for the Washington State EMT-B examination and the National Registry examination upon successful completion of the course. An application is required prior to registration, including documentation of the following: successful Hepatitis B immunization, negative PPD (tuberculosis) skin test, high school or GED completion and current CPR card. Content includes lecture and hands-on practice in emergency care, bleeding and shock, soft tissue injuries, environmental emergencies, lifting and moving patients, HIV/AIDS education, emergency childbirth, and other topics.
Prerequisites: Instructor’s permission; approved class application.

ENGINEERING
Entrance to a university engineering department requires completion of specific lower-division courses and high grades. Students will find that EvCC's small classes and opportunities for interaction with faculty, combined with rigorous coursework, will build their chances of success in reaching their engineering degree goals. Our faculty are in constant contact with university faculty to assure that the preparation students receive in EvCC's engineering program is equivalent to that demanded by the universities. Students may alternatively complete an AS (Associate of Science degree).

Students may complete one of three discipline-specific pre-engineering pathways under the Associate of Science degree and transfer to a four-year college or university to complete a Bachelor of Science in the engineering field of their choice. Students may also complete the Engineering Technology Transfer pathway under the Associate in Arts and Science Option II degree if they intend to pursue a Bachelor of Science in an Engineering Technology discipline from Central, Eastern, or Western Washington University. Contact the Math and Science Division, 425-388-9429.

Faculty Advisors:
E. Davishahl 425-388-9246 edavishahl@everettcc.edu
M. Kontulis 425-388-9136 mkontulis@everettcc.edu
A. Sriraman 425-388-9140 asriraman@everettcc.edu
A. Vanture 425-388-9556 avanture@everettcc.edu

ENGNR 100
Engineering Graphics  
(TE) Theory and application of instrumental drawing; technical lettering; sketching; geometric construction; representation of normal, inclined oblique, and cylindrical surfaces; sections; auxiliary views; and introduction to dimensioning, descriptive geometry, and CAD including 3-D modeling. Student-supplied drafting equipment is required.
Prerequisites: MATH 059 or one year of geometry, or previous drafting.

ENGNR 101
Innovation in Design  
(TE) Explores the role of creativity, teamwork, and communication in promoting innovative design. Develop knowledge and skills in all three areas through a series of hands-on projects and reflective activities. Students will work in teams to complete the projects and present their experiences and results through various communication formats. Credit cannot be earned in both BUS 102 and ENGNR 101.
Prerequisites: ENGL 098 or placement into ENGL 101; or instructor’s permission.

ENGNR 108
Engineering Orientation/Introduction to Vector Algebra  
(TE) Introduction to engineering functions, professional responsibilities, and educational opportunities. Includes an introduction to analysis and solution of engineering problems using vector algebra. Scientific calculator required.
Prerequisites: MATH 147 (Pre-calculus) or instructor’s permission.

ENGNR 109
Engineering Orientation  
(TE) Introduction to functions, professional responsibilities and characteristics of engineers. Speakers from industry and engineering colleges give presentations sampling the breadth of educational and professional options. Introduction to engineering functions through hands-on classroom activities.

ENGNR 110
Engineering Problem Solving  
(NS) Introduction to analyses and solutions of engineering problems. Development of a systematic analytical problem solving approach applicable to all disciplines in engineering and science. Topics include unit systems, mathematics review, vector algebra and statistics. Scientific calculator required.
Prerequisites: MATH 147; or instructor’s permission.

ENGNR 120
Computational Tools  
(NS) Introduction to computational tools for engineering, mathematics and science. Students are introduced to MATLAB, a powerful software application for technical computing. Topics include array and matrix manipulation, functions, file input/output, graphical analysis, statistical analysis, and basic script programming including loops and logical structures. No computer programming background required.
Prerequisites: MATH 147 or instructor’s permission.

ENGNR 123
Three-Dimensional Visualization and Computer-Aided Design  
(NS) Methods of depicting three-dimensional objects and communicating design information. Emphasis is on using parametric solid modeling software as a design tool. Freehand sketching is used to develop visualization skills and as an instrument for design conceptualization and communication.
Prerequisites: MATH 059 or high school geometry or equivalent, or instructor’s permission.

ENGNR 142
Computer Programming for Engineers and Scientists  
(NS, Q) Basic programming concepts used for solutions of engineering and science problems using the Java language. Topics include classes, object, methods; variables and types; conditional and iteration control structures; arrays; strings; collections and iterators.
Prerequisites: MATH 131 and MATH 140 with a grade of C or higher or equivalent preparation.

**ENGNR 143**  
Computer Programming for Engineers and Scientists II  
5  
(NS, Q) Continuation of ENGNR 142. Introduces concepts of modularity and encapsulation; focuses on modules and abstract data types (stacks, queues, linked lists, binary trees, recursion, interfaces, inheritance and encapsulation); covers basic data structures (lists, sets and maps).  
Prerequisites: ENGR 142 with a grade of C or higher.

**ENGNR 210**  
Statics  
5  
Prerequisites: MATH 152, ENGR 120, and either ENGR 110 or MATH 154; or instructor’s permission.

**ENGNR 215**  
Fundamentals of Electrical Engineering  
5  
(TE) Introduction to basic circuit and systems concepts. Development of mathematical models of components including resistors, sources, capacitors, inductors, operational amplifiers and transistors. Solution of first and second order linear differential equations associated with basic circuit forms. Steady state sinusoidal excitation and phasors.  
Prerequisites: MATH 154; PHYS 122; or instructor’s permission.

**ENGNR 220**  
Mechanics of Materials  
5  
(NS) Introduction to mechanics of solids; stress, strain and their relationships; torsion; and bending.  
Prerequisites: ENGR 210 with grade of C or higher; MATH 153 or instructor’s permission.

**ENGNR 230**  
Engineering Kinematics and Dynamics  
5  
(NS) Kinematics and dynamics of particles; systems of particles; and rigid bodies including energy and momentum methods.  
Prerequisites: ENGR 210 with grade of C or higher; MATH 153 or instructor’s permission.

**ENGNR 231**  
Engineering Report Writing  
3  
(C) Writing memorandums, business letters, and technical reports. Includes study of tone, style, unity, audience, and purpose in business and technical communication. Co-listed as CIS 203 and ENGR 202. Credit can be earned in only one of the following courses: ENGR 231, CIS 203 or ENGR 202.  
Prerequisites: ENGL 101 with a grade of “C” or higher or instructor’s permission. Keyboarding skills recommended.

**ENGNR 260**  
Thermodynamics  
5  
(NS) Introduction to the basic principles of thermodynamics from a predominantly macroscopic point of view. Development of the basic laws of thermodynamics by application to energy transformations and state changes in engineering problems.  
Prerequisites: CHEM 150; MATH 153; PHYS 122; or instructor’s permission.

**ENGNR 298**  
Engineering Design Project  
1  
(TE) Learn the engineering design process by conceptualizing a design project, and fabricating and testing a prototype. Design projects may be oriented toward regional design competitions and may be completed in teams or individually. Project requirements are tailored to student’s educational and practical experience level. May be repeated up to nine credits, enabling students to pursue projects one to three quarters in duration.  
Prerequisites: Instructor’s permission.
ENG T 193
Intermediate CAD with CATIA v5
Explores the techniques for using CATIA v5 to produce working level engineering drawings. Detail and assembly drawings are created with attention focused on proper views, text, dimensions, tolerances, bills of material, borders and title blocks. Weldments, flat patterns and other special practices are also examined.
Prerequisites: ENG T 185.

ENG T 201
Applied Statics
Study of forces acting on structures at rest: free-body diagrams, trusses, friction and related material which may include hydrostatic pressures and loads, cables and arches. Scientific calculator required.
Prerequisites: MATH 030 or instructor’s permission.

ENG T 202
Applied Strength of Materials
Analysis of tension, compression, shear, deformation, torsion, stress, and deflection of members including beams and columns; also includes connections and use of codes, tabular data, and construction materials commonly used in architectural and engineering design. Scientific calculator required.
Prerequisites: ENG T 201 or instructor’s permission.

ENG T 203
Computer-Aided Drafting: AutoCAD
Examination of the powerful tools used in AutoCAD for the efficient creation of engineering drawings. Includes instruction on the proper use of layouts and paper space; the creation and effective use of layers; how to use blocks, symbols and X-references to reduce drawing time; the making of attributes and the means of extracting attribute information for generation of bills of materials and other documentation; and the techniques for drawing illustrations using AutoCAD's isometric tools.
Prerequisites: ENG T 100 including an introduction to CAD or instructor’s permission.

ENG T 210
Civil Planning
Fundamental concepts of civil planning. Lectures cover the processes required for the conversion of a piece of undeveloped land to a finished development project. Topics to include engineering and surveying process for land development and local government functions as applied to planning and regulations of land design. Scientific calculator required.
Prerequisites: ENGNR 100; MATH 131 or instructor’s permission.

ENG T 229
Drafting and Design II
Second in series of design courses to include electro-mechanical packaging or light mechanical design and an introduction to schematic and printed wiring board layout. Fundamentals of symbology and their applications are presented. Team assembly project and redesign of existing project which may include layout of printed wiring board (PCB). Manufacturing processes and industry standards will be included. Emphasis on the design process, written and verbal communication skills, and independent research.
Prerequisites: ENG T 108 and either ENG T 203 or ENGNR 123, or instructor’s permission.

ENG T 230
Manufacturing Materials and Processes
Examines materials and processes used in manufacturing. Topics include choice of materials and their properties; various processes for converting material into manufactured parts; and the interrelation between materials and processes, particularly regarding feasibility and cost.
Prerequisites: Successful completion of MATH 031 or higher level math class.

ENGLISH LANGUAGE AND LITERATURE
The English Department offers courses in skills development, composition, technical writing, creative writing and publication, literature, and language, and tutor training. These courses are designed to meet various student needs. Some focus on grammar, spelling and punctuation; instruction in the Writing Center is individualized. College-level courses in composition satisfy the Communication Skills requirement of the Associate of Arts and Sciences Option II degree as well as other degrees and programs. College-level courses in literature, language and creative writing satisfy Humanities and elective requirements of the Associate of Arts and Sciences Option II degree and other degrees and programs.

Placement in English Composition Courses
Initial placement in pre-college-level composition courses (ENGL 092, 097 and 098) and in College Writing (ENGL 101) is by the current assessment test(s) used by the College. A grade of C or higher in ENGL 101 is required for entry into composition courses numbered higher than ENGL 101 (102, 103, 201, 202, or 211).

Students who scored 3 or higher on the national Advanced Placement Examination in English may enroll in a higher-level composition course than ENGL 101. Students who transfer an English 101-level course from another college or university must have those credits validated by the Enrollment Services Office before enrolling in a higher-level composition course.

Students who took an English placement test at another institution may submit those scores to the Office of Enrollment Services for possible substitution for the test at Everett Community College.

Skill Development
ENGL 090
The Writing Center
1-5
Self-paced study of writing in a lab setting with help of instructors and tutors. Students work on papers assigned in other classes or design an individual plan to include specific skills (spelling, punctuation, grammar) and writing (essays, letters, resumes, research papers, reports). Word processing and computer tutorials available. Ten hours of lab work for one credit. May be repeated up to 15 credits.

ENGL 091
Practical Writing for the Workplace
3
Introduction to basic writing skills for the workplace. Practice letters, memos, and

**Prerequisites:** Grade of C or higher in ENGL 101.
ENGL 168
Fiction II
(HP) Intermediate development of writing, constructive analysis and revision skills in fiction. Exercises and comparative examples of original creative work will be presented and analyzed with student participation to further critical abilities and applications to student work.
Prerequisites: ENGL 108 or instructor’s permission.

ENGL 169
Screen and Play Writing II
(HP) Intermediate development of writing, constructive analysis and revision of original creative works for the visual media. Detailed analysis of student effort will provide the basic material for development and application of dramatic and visual principles to original creative screen and/or play writing.
Prerequisites: ENGL 109 or instructor’s permission.

ENGL 205
Nonfiction III
(HP) Advanced development of writing, constructive analysis and revision skills in creative nonfiction. Advanced techniques of fiction, poetry and drama will be applied to nonfiction and techniques of constructive criticism will be applied to the developing stages of the nonfiction writing. Students will apply a wide variety of writing techniques and critical perceptions to subjects of their own selection.
Prerequisites: ENGL 165 or instructor’s permission.

ENGL 206
Poetry III
(HP) Advanced development of writing, constructive analysis and revision skills in poetry.
Prerequisites: ENGL 166 or instructor’s permission.

ENGL 208
Fiction III
(HP) Advanced development of writing, constructive analysis and revision skills in fiction.
Prerequisites: ENGL 168 or instructor’s permission.

ENGL 209
Screen and Play Writing III
(HP) Advanced development of writing, constructive analysis and revision of creative works for the visual media.
Prerequisites: ENGL 169 or instructor’s permission.

Literature and Language

ENGL 115
Understanding Literature
(H) Study of literary backgrounds, approaches, types, and techniques as a basis for reading, understanding, and enjoying literature.

ENGL 116
Introduction to Poetry
(H) Study of selected poets and their works designed to increase understanding and appreciation through close reading and analysis.

ENGL 119D
Cross-Cultural Literature
(H, D) Examination of literary and critical texts from a variety of cultures in the United States and/or throughout the world.

ENGL 120D
Native American Literature
(H, D) Exploration of theme, voice, and meaning through reading, analysis and discussion of selected poetry and prose works by Native American writers. Includes literary, cultural, and social frameworks.

ENGL 123
Introduction to American Literature
(H) Exploration of American literature (fiction, autobiography, poetry, essays and drama), to include classic authors such as Hawthorne, Twain and James while emphasizing diverse themes and the voices of women writers, working-class writers and writers of color. (Specific sections marked ENGL 123D fulfill the diversity requirement for associate degrees.)

ENGL 135D
Introduction to Cultural Studies
(H, D) Introduction to main issues, theories and methods in cultural studies, employing literary methodologies. Specific topics may include communication and mass culture; images and texts concerning contemporary production and consumption; issues of race, gender, class and the social construction of identity; and cultural and historical analysis of visual arts, music, film, literature, myth, ritual, everyday practices, built environments and material culture.

ENGL 171
Special Topics in Language and Literature
(H) Study of texts which focus on particular aspects of human experience. Specific focus will vary from term to term, but approach remains the same: analytical reading, writing, and discussion. May be repeated for credit with different topics.
Prerequisites: Instructor’s permission required for some sections.

ENGL 172
Women Writers
(H) Reading and analysis of selected works of women writers to illustrate various cultural, sociological, political, and historical contexts.

ENGL 173
Science Fiction
(H) Study of short novels by contemporary writers such as Cherryh, Gibson, and LeGuin. Develops critical thinking skills and explores the human experience as presented in these novels. Familiarity with science fiction not necessary.

ENGL 175D
Introduction to African American Literature and Culture
(H, D) Introductory study of literary works and cultural achievements by African Americans.

ENGL 183
Children’s Literature
(H) Introduction to the rich literary tradition of books for children, with wide reading and in-depth analysis to determine a criteria for excellence. Includes the study of illustrations, historical perspectives, multicultural influences, and current trends in picture books, traditional tales, realistic and historical fiction, and modern fantasy. (Specific sections marked ENGL 183D fulfill the diversity requirement for associate degrees.)

ENGL 185
Hispanic Literature
(H) Reading and analysis of poetry and prose of Spanish-speaking writers. Emphasis on diversity in theme, voices, and content.

ENGL 189D
Asian Literature
(H, D) Reading and analysis of selected poems, stories, novels and plays of various Asian and Asian-American cultures, from ancient to modern times. Emphasis on diversities and commonalities in theme, style, voice and content.
ENGL 203
Young Adult Literature 5
(H) Representative adolescent literature; an examination of the qualities that characterize the teen novel and an application of literary standards to them; a brief history of the genre; and a comparison of books from 1960 to the present. (Specific sections marked ENGL 203D fulfill the diversity requirement for associate degrees.)

ENGL 223
Twentieth-Century American Literature 5
(H) An exploration of American writers, Black, White, Hispanic, Native, Asian, male, and female in American poetry, novels, and short stories beginning with American modernism (approx. 1910-1945), and continuing through the post-modern era. (Specific sections marked ENGL 223D fulfill the diversity requirement for associate degrees.)

ENGL 232
Shakespeare: Early Works 5
(H) Comedies, history plays, and tragedies selected largely from the first half of Shakespeare’s career.

ENGL 233
Modern British Literature 5
(H) Study of the writings of major British writers of the 19th and 20th centuries.

ENGL 234
Shakespeare: Late Works 5
(H) Shakespeare’s problem plays, major tragedies, and late romances selected from the later half of his career.

ENGL 245
Modern Grammar 5
(H) Principles of modern English, including its sound system, methods of word formation, parts of speech, phrase structure, grammatical relations and complex structures. Not an ESL or developmental course.
Prerequisites: ENGL 101 or sophomore standing.

ENGL 251
Myth and Literature of Greece and Rome 5
(H) Study of major literary works of ancient Greece and Rome.

ENGL 252
Medieval and Renaissance Literature 5
(H) Study of major works of European literature from the Middle Ages, Renaissance, and Enlightenment (AD800-1800).

ENGL 253
Modern European Literature 5
(H) Study of major works of European literature from 1800 to the present, including Romanticism, Realism, Modernism, and Postmodernism.

ENGL 263D
The Holocaust in Literature 5
(H,D) Study of the portrayal of the Holocaust in fictional genres. Issues addressed include the institutionalization of intolerance; the adequacy of language in the face of atrocity; the tension between the expectation of authenticity and the literary imagination; literature’s role in liberating the silenced voices of persecuted minorities and the resonance of these voices with contemporary American concerns.

ENGL 285
Introduction to Linguistics 5
(H) Language as a basic human activity. The acquisition and use of language. Language systems: sounds, word formation, meaning, word order, syntax.
Prerequisites: ENGL 101 or sophomore standing.

ENV S 101
Humans and Their Environment 5
(NS) Biological and ecological principles and how they pertain to current issues of population growth and control, diminished food supply, water, air and noise pollution, and similar environmental issues.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with a grade of C or higher or skills assessment at ENGL 101 or higher level.

ENV S 150
Land Use Planning and Regulation 3
Introductory course covers the legal framework of land use and regulation, comprehensive planning, zoning, variances, subdivision procedures, planning regulations, shoreline management, and the State Environmental Policy Act. Designed for real estate salespeople, land surveyors, developers and other interested citizens.

ENV S 165
Ecology, Biodiversity & Conservation 5
(NS-L) Effects of human population growth on changing ecosystems, energy flow, biological diversity, and sustainability of living resources. First quarter of a three-quarter sequence for environmental studies or resource management majors or single-quarter general interest course.
Prerequisites: ENGL 098 with a grade of C or higher or eligible for placement in ENGL 101; MATH 028 or equivalent.

ENVIRONMENTAL STUDIES
A variety of career options are available in the fields of environmental science and environmental studies, including marine biologist, wildlife biologist, and environmental planning and policy. Students transfer to a four-year college or university to obtain a baccalaureate degree. Intern opportunities may be available at the community college level.

Faculty Advisors:
F. Schwartz 425-388-9451 fschwartz@everettcc.edu
P. Pape-Lindstrom 425-388-9480 ppape@everettcc.edu

ENV S 101
Humans and Their Environment 5
(NS) Biological and ecological principles and how they pertain to current issues of population growth and control, diminished food supply, water, air and noise pollution, and similar environmental issues.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with a grade of C or higher or skills assessment at ENGL 101 or higher level.

ENV S 150
Land Use Planning and Regulation 3
Introductory course covers the legal framework of land use and regulation, comprehensive planning, zoning, variances, subdivision procedures, planning regulations, shoreline management, and the State Environmental Policy Act. Designed for real estate salespeople, land surveyors, developers and other interested citizens.

ENV S 165
Ecology, Biodiversity & Conservation 5
(NS-L) Effects of human population growth on changing ecosystems, energy flow, biological diversity, and sustainability of living resources. First quarter of a three-quarter sequence for environmental studies or resource management majors or single-quarter general interest course.
Prerequisites: ENGL 098 with a grade of C or higher or eligible for placement in ENGL 101; MATH 028 or equivalent.

FAMILY LIFE EDUCATION
The Everett Community College Family Life Education Program offers classes to help parents of young children (18 months to five years old) receive the knowledge and support they need for this all-important role. The adult education classes are based in cooperative preschools that provide practical, hands-on experience. Parents learn to develop realistic expectations of their child’s development and gain knowledge of good nutrition, health
and safety practices. They have the opportunity to practice positive discipline techniques, develop skills in teaching young children and ways to strengthen family communication and relationships. Family Life Education Cooperative Preschools are available at various locations throughout northern Snohomish County.

Additional courses in family life education are offered as a direct result of community requests.

For more information and preschool locations, please call 425-388-9016.

**FAM L 030**
Parent Cooperative Preschool I 1
Parent education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet once each week; parents participate once weekly and attend monthly seminar class.

Prerequisites: Instructor’s permission.

**FAM L 031, 032**
Parent Cooperative Preschool I 2 or 3 each
Parent education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet one to four times weekly; parents participate once weekly and attend monthly seminar class.

Prerequisites: Instructor’s permission.

**FAM L 033, 034, 035**
Parent Cooperative Preschool Group-Infants I 2 each
A parent cooperative for parents and their infants (ages 1-11 months, or 12-17 months) which provides practical education in child development, infant activities, nutrition, safety, health, and consumer education.

Prerequisites: Instructor’s permission.

**FAM L 040, 041, 042**
Parent Cooperative Preschool II 2 or 3 each
Parent Education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet one to four times weekly; parents participate once weekly and attend monthly seminar class.

Prerequisites: Instructor’s permission.

**FAM L 043, 044, 045**
Parent Cooperative Preschool Group-Infants II 2 each
Parent cooperative for parents and their infants (ages 1-11 months, or 12-17 months) which provides practical education in child development, infant activities, nutrition, safety, health, and consumer education.

Prerequisites: Instructor’s permission.

**FAM L 050, 051, 052**
Parent Cooperative Preschool III 2 or 3 each
Parent Education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet one to four times weekly; parents participate once weekly and attend monthly seminar class.

Prerequisites: Instructor’s permission.

**FAM L 053, 054, 055**
Parent Cooperative Preschool Group-Infants III 2 each
Parent cooperative for parents and their infants (ages 1-11 months, or 12-17 months) which provides practical education in child development, infant activities, nutrition, safety, health, and consumer education.

Prerequisites: Instructor’s permission.

**FAM L 060, 062, 064**
Parent Cooperative Preschool Group I 3 each
Parent education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Prerequisites: Instructor’s permission; income eligible.

**FAM L 061, 063, 065**
Family Life Preparation for Dual Role of Homemaker and Wage Earner 4 each
Consumer and homemaking skills training to prepare for dual role of homemaker/wage earner for parents of children from 18 months to pre-kindergarten. Includes observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Corequisites: FAM L 060 for FAM L 061; FAM L 062 for FAM L 063; FAM L 064 for FAM L 065.

**FAM L 070, 072, 074**
Parent Cooperative Preschool Group II 3 each
Parent education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Prerequisites: Instructor’s permission; income eligible.

**FAM L 071, 073, 075**
Family Life Preparation for Dual Role of Homemaker and Wage Earner 4 each
Consumer and homemaking skills training to prepare for dual role of homemaker/wage earner for parents of children from 18 months to pre-kindergarten. Includes observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Corequisites: FAM L 070 for FAM L 071; FAM L 072 for FAM L 073; FAM L 074 for FAM L 075.

**FAM L 090, 092, 094**
Parent Cooperative Preschool Group III 3 each
Parent education and family life skill training for parents of children from 18 months to pre-kindergarten age. Observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Prerequisites: Instructor’s permission; income eligible.

**FAM L 091, 092, 095**
Family Life Preparation for Dual Role of Homemaker and Wage Earner 4 each
Consumer and homemaking skills training to prepare for dual role of homemaker/wage earner for parents of children from 18 months to pre-kindergarten. Includes observation and supervision of young children in laboratory preschool. Laboratories meet four times weekly; parents participate once weekly and attend once-monthly class.

Corequisites: FAM L 090 for FAM L 091; FAM L 092 for FAM L 093; FAM L 094 for FAM L 095.
FIRE 102
Introduction to the Fire Service 2.5
Acquaints new fire fighters with the history, traditions, terminology, and organization of the fire service; describes the fire service as a career; explains fire service organizations; and covers fire department organization, equipment and facilities; physical fitness and health considerations. Also provides an introduction to accountability and the Incident Management System. Meets NFPA 1001, NFPA 1500, and NFPA 1521.
Prerequisites: High school completion or equivalent; instructor’s permission.

FIRE 103
Engine Company Basic Operations 3
Covers fire flow testing, relay and shuttle operations, and water supply management, size and carrying capacity of mains, hydrant specifications, maintenance procedures, relevant maps and recordkeeping procedures. Explains the characteristics of fire and water, describes the types of water streams and nozzles, and covers the procedures for developing streams. Overview of pumper, tankers, brush apparatus and aerial apparatus. Details the basic methods of handling hose, including large diameter hose; hose and coupling construction and maintenance; fire behavior procedures. NFPA 1001, NFPA 1002.
Prerequisites: FIRE 102 or instructor’s permission.

FIRE 104
Fire Department Community Relations 2
Provides development of communication skills in assigning instruction, orders, and information. Promotes customer service and shows how it is intertwined with fire prevention and public education.
Prerequisites: FIRE 102 or instructor’s permission.

FIRE 106
Ladder Company Basic Operations 3
Fundamentals of a ladder company operation, including handling and maintaining various types of ground ladders and factors affecting ladder placement; introduction to different methods and systematic ways of ventilating buildings with heated air, smoke, and gases; rope applications, including hauling tools, accomplishing rescues from areas of different elevations, stabilizing vehicles, and corralling off areas; forklift entry; special rescues; salvage and overhaul; and vehicle operation. NFPA 1001, NFPA 1002.
Prerequisites: FIRE 102 and FIRE 103; or instructor’s permission.

FIRE 110
Fire Suppression Systems 3
Concepts and standards of fire protection systems including fire detection devices, alarms, and sprinkler systems. Fire codes and how they are enforced. NFPA 1001, NFPA 1002, and NFPA 1031.
Prerequisites: FIRE 102 or instructor’s permission.

FIRE 120
Pump Operations/Hydraulics 3
Hydraulic laws and formulas, pump design, practical operation of pumps, pump operation theory, methods for testing, inspecting and maintaining fire pump installations. Addresses the driver/operator’s manual on operating fire pumps and pumping apparatus.
Prerequisites: FIRE 102 or instructor’s permission.

FIRE 122
Fire Company Operations I 3.5
In-depth course in the Incident Management System and how it is used on the fire ground including first-in company tactics.
Prerequisites: FIRE 102 or instructor’s permission.

GEOGRAPHICAL INFORMATION SYSTEMS (GIS)
GIS, the use of computers to make decisions on a spatial scale, is one of the most rapidly growing industries in the Pacific Northwest, and is used in a broad variety of applications from local facilities planning to commercial location and community projects. There is no limit to the different ways these classes may be applied to different local interests. These classes continue our commitment to bringing specific and applied technology-based classes that can be of great value to a wide variety of users.

Faculty Advisor:
K. lyste 425-388-9381 klyste@everettcc.edu

GIS 200
Introduction to Computer Cartography (NS) 5
Study of sequential map construction skills. This course stands alone as an introductory cartography class, and prepares students for working with spatial databases in GIS 201. Course focus is on digital techniques used in drawing and labeling maps. The student will utilize computer software to design and print maps.
Prerequisites: Completion of ENGL 098 with a grade of C or higher or test placement into ENGL 101; completion of MATH 059 or equivalent geometry skills; completion of GIS 100 or file management skills; or instructor’s permission.

GIS 201
Introduction to Geographic Information Systems (NS) 5
Study of the collection, analysis, display and archiving of spatially referenced data. This is the essential geographic information planning and decision-making tool utilized by public agencies and private industry. Course focus is on principles of GIS design and operation. Hands-on experience in GIS application software will be incorporated into course work.
Prerequisites: Completion of ENGL 098 with a grade of C or higher or test placement into ENGL 101; completion of MATH 059 or equivalent geometry skills; completion of GIS 100 or file management skills; or instructor’s permission.

GIS 205
Applications in Geographic Information Systems (NS) 5
Extension of GIS 201. Course focus in applying spatial analysis techniques, different methods of data input, advanced display techniques with 3D imagery, and working with software programming. Hands-on experience in intermediate GIS applications and associated software will be incorporated into course work, including methods of gathering and geo-referencing GPS field data. ArcGIS 8.x will be explored in last sequence of class.
Prerequisites: Completion of or concurrent enrollment in GIS 201.

GIS 250
Internship in Geographic Information Systems 3-5
Supervised work experience. May be with a qualified employer or in a project with a public or private industry. Students must have completed most of the required coursework and receive instructor permission. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor.
Prerequisites: GIS 200 and GIS 201 or instructor’s permission.
Geography is an interdisciplinary science that focuses on human and physical processes, and the interaction of these processes. There are currently two geography classes that focus on diversity and culture. Geography classes will transfer to four-year schools, and directly prepare students for careers in planning, marketing, communications, and education. A background in geography also creates better global citizens and educates students on most contemporary issues facing the world and local regions today.

Faculty Advisor:
K. Lyste 425-388-9381 klyste@everettcc.edu

GEOG 101
Introduction to Geography 5
(SS) General introduction to the physical and cultural processes and features of different world regions. Study of various regions in terms of physical and cultural elements to demonstrate contrasting uses of the physical environment around the world.

GEOG 102D
World Regional Geography 5
(SS, D) Globalization and diversity of the major geographical regions of the world. A study of cultural coherence and diversity, population and settlement, geopolitical framework, environmental geography, and economic and social development of each region. Major regions of study include former Soviet Union, Europe, Asia (east, southeast, south and southwest), Africa, North and South America.

GEOG 200
Economic Geography 5
(SS) Survey of the distribution of industrial, agricultural, resource extraction, and consumption activities of the world. A study of the local, national, and international economic relationships and spatial organization of such.

GEOG 201D
Cultural Geography 5
(SS, D) Study of the interrelationship between cultural or human factors and physical environment in different world regions; research of such cultural factors as religion, language, political systems, economic activity, human migrations, settlement patterns, population factors, and present environmental concerns.

GEOG 205
Physical Geography 5
(NS) Survey of physical features of the natural environment and their control, formation, and distribution, including: atmosphere and climate, water bodies, soils, vegetation, the earth’s composition, and landforms.

GEOG 220
Geography of Asia 5
(SS) Geographical study of the Asian nations, excluding Russia. Regions studied include Southwest Asia (Middle East), South Asia, Southeast Asia, Central Asia, and East Asia. Physical and cultural environments and inter-Asian relations are studied.

GEOG 230
Political Geography 5
(SS) Introduction to the study of politics and physical territory as they affect the geographic environment. A spatial analysis of the present geopolitical phenomena worldwide; including the emergence of new nation-states, international organizations, and national-state alliances in the United Nations.

GEOG 240
Geography of the Pacific Northwest 5
(SS) Survey of the physical and cultural features of the Pacific Northwest (particularly Oregon and Washington). The physical features include the geological development, landforms, climate, natural vegetation, soils, water bodies, and geographical location. The cultural features include history, population patterns, economic patterns, and the contemporary environment.

GEOS 100
Earth Science 5
(NS-L) Study of Earth as a diverse system of interrelated processes. The origin and nature of Earth’s surface, interior, oceans, atmosphere, and surrounding space. Emphasis on the interactions between humans and Earth. Laboratory projects stress hands-on experiments and field experiences.

Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GEOS 101
Introduction to Geological Science I 5
(NS-L) Introduction to geologic processes, emphasizing composition and structure of Earth. The dynamic nature of Earth’s crust, mantle, and core. The forces that have shaped Earth: earthquakes, volcanoes, plate tectonics and mountain building. Laboratory projects stress hands-on experiments and field experiences.

Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GEOS 102
Introduction to Geological Science II 5
(NS-L) Introduction to the dynamic geologic processes responsible for shaping Earth’s surface. Emphasis on the forces that shape Earth’s surficial features: rivers, glaciers, groundwater, oceans, and deserts. How humans interact with Earth: geologic hazards, environmental geology and resource management. Laboratory projects stress hands-on experiments and field experiences.

Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.
GEOS 103
The Evolving Earth 5
(NS-L) Introduction to the geologic history of Earth, emphasizing North America and the Pacific Northwest. Topics include plate tectonics, colliding and rifting of the continents, reconstruction of past environments, and the origin and evolution of life. Laboratory projects stress hands-on experiments and field experiences.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GEOS 105
Dinosaurs and Extinctions 5
(NS) The Era of Dinosaur evolution and extinction. Emphasizes observation and interpretation techniques used to infer past geological conditions and events. Topics include fossilization, evolution, geologic time, extinction hypotheses, and dinosaur classification and anatomy.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GEOS 107
Earth Science for Everybody 5
(NS-L) Hands-on exploration of the Earth and processes that shape its landscape. For non-science majors. Highly recommended for elementary education majors.
Prerequisites: ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level; MATH 017 with grade of C or higher or skills assessment at MATH 027 or higher level.

GEOS 113
Environmental Geoscience 5
(NS-L) Exploration of the relationships and interactions between humans and Earth. Survey and evaluation of Earth’s hazardous processes, such as earthquakes, volcanoes, floods, and landslides. The origin and nature of Earth’s geologic resources. The environmental implications of extracting and using Earth’s resources. Laboratory projects stress hands-on experiments and field experiences.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GEOS 190
Regional Geoscience Field Exploration 1-5
(NS-L) Field trips to localities of geologic interest in the western United States. Emphasis on use of geologic principles to interpret field evidence found in landscapes and rocks. May be repeated two times for credit.
Prerequisites: ENGL 098 (or equivalent).

GEOS 208
Pacific Northwest Geology 5
(NS-L) Geologic history of Washington, Oregon and Idaho. Emphasis on use of geologic principles to interpret field evidence found in landscapes and rocks. Weekly field trips to local areas of geologic interest. Optional weekend field trips.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

GRAPH 100
Introduction to the Digital Studio 3
Introduction to the digital studio environment and the tools, terms, and techniques of visual imagery and design. Includes the Macintosh operating system and related equipment such as printers, scanners, and back-up media. General overview of the technology available in the digital studio with focus on the primary software programs used. Required for students in the Visual Communications program.

GRAPH 110
Digital Illustration I 5
Study of design concepts emphasizing formal compositional issues, investigation of visual communication and typographic design. Course uses digital hardware and software, investigates the medium’s potential, limitations, relationship to drawing and photography, and color theory. Focus on creative ways of using natural visual abilities, imagination, and diagramming to organize thoughts and ideas. Includes intensive computer-aided training in digital imaging and vector-based illustration software.
Prerequisites: Some Macintosh computer experience or GRAPH 100 with a grade of C or higher.

GRAPH 113
Digital Illustration II 5
Explores vector-based illustration methods for creating graphics, technical illustrations, and visual presentation of information and data. Projects include product illustration and the use of photographs, type, diagrams, charts, graphs, tables and maps.
Prerequisites: GRAPH 110 with a grade of C or higher or instructor’s permission.

GRAPH 115
Digital Illustration III 5
Explores the creative process using digital imaging software, digital photography, image manipulation and a wide variety of image generating techniques. Assigned problems often include digital and conventional photography, drawing and painting using a computer and traditional media, collage, found objects and natural objects from the environment. Emphasis is placed on exploration and innovative use of software tools and the use of visual imagery and design. Includes the Macintosh operating system and related equipment such as printers, scanners, and back-up media. General overview of the technology available in the digital studio with focus on the primary software programs used. Required for students in the Visual Communications program.

GRAPH 118
Desktop Publishing Workshop 3
Workshop in desktop publishing, using publication design software (such as QuarkXPress). Instruction and practice in designing advertisements, brochures and newsletters. Subjects include typography, page layout, grid design, style palettes and scanning photographs. May be repeated one time for credit.
Prerequisites: GRAPH 102 or GRAPH 110 with a grade of C or higher or instructor’s permission.
COURSES

GRAPH 120
History of Graphic Design 5
Survey of graphic design history through slide lectures and integrated design projects. Provides an overview of the origins of visual and written communication, the development of graphic design and its evolution through international, social, political, and technological developments since 1450. Emphasis on printed work from 1880 to 1990 and new media design to the present day.

GRAPH 128
Digital Illustration Workshop 5
Workshop in digital illustration for graphic and fine artists who are seeking an open creative environment to explore digital imaging applications as a tool to expand their graphic and artistic expression. Lectures, classroom demonstrations, self-guided tutorial exercises and assigned design exercises. Focus on developing a personal style using digital imaging tools. May be repeated two times for credit.
Prerequisites: GRAPH 115 with a grade of C or higher or instructor’s permission.

GRAPH 201
Graphic Design I 5
Introduction to design and production for print media. Emphasizes fundamental principles and creative process of graphic design. Basics of document construction, typesetting, spot color, image scanning and formats for print, preflight and packaging of files. Use of illustration software to produce basic level projects.
Prerequisites: GRAPH 110.

GRAPH 202
Graphic Design II 5
Intermediate level course focused on communication of ideas and information to audiences through graphic design. Emphasis on advanced multiple-page document construction and typographic style palettes, use of multiple spot colors, production concepts, and preparing files for print.
Prerequisites: GRAPH 201 with grade of C or higher.

GRAPH 213
Professional Projects: Graphic Design 5
Current trends, professional issues and practices. Projects include creation of advanced level graphic design pieces, including corporate identity. Topics include project planning, studio practice, contracts and invoicing. Co-listed as MULTI 213.
Prerequisites: GRAPH 102 with a grade of C or higher or instructor’s permission.

GRAPH 231
Typography 5
Introduces lettering skills and the history and foundation of letterforms. Emphasizes placement of display and text type in a formatted space and the relationships between the appearance and readability of letterforms. Students work in a traditional context of hand rendering type and are introduced to contemporary technology setting type in a page layout and illustration applications.
Corequisites: GRAPH 101 recommended but not required.

GRAPH 250
Graphic Arts Internship 2-5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

GRAPH 251
Publication Design I 5
Fundamentals of art publication design producing the annual art and literary publication of student works, Vibrations Magazine. Topics include layout, digital pre-press, digital image preparation for print, planning a major print project, working directly with a printer through all prepress issues and processes.
Prerequisites: GRAPH 101, GRAPH 110, GRAPH 120 or instructor’s permission. Recommended concurrent enrollment in PHOTO 221.

GRAPH 252
Publication Design II 5
Fundamentals of print and multimedia production processes for the annual art and literary publication, Vibrations Magazine. Topics include digital pre-press methods of scanning and image preparation for offset press and working directly with a printer through the production process. Emphasis on re-design for internet delivery including animation, multimedia effects, navigation, and links.
Prerequisites: GRAPH 251 or instructor’s permission.

GRAPH 261
3D Computer Illustration 5
Study of 3D modeling utilizing Maya® software. Creating 3D objects from 2D shapes, creating primitives, polygonal modeling lighting, using texture maps, plus simple camera and object animation techniques.
Prerequisites: GRAPH 110 with a grade of C or higher or instructor’s permission.

GRAPH 262
3D Computer Illustration II 5
Advanced techniques in three-dimensional computer illustration. Focus on advanced modeling, creating techniques, creating photo-realistic materials, lighting for a variety of moods and special effects, dramatic camera angles, texture mapping, color theory, rendering optimizing mesh objects for visual effects, creating photo-realistic 3D images. Continued work in preparing files for output to print, web, and computer-centered media. May be repeated one time for credit.
Prerequisites: GRAPH 261 with a grade of C or higher or instructor’s permission.

GRAPH 271
2D Interactive Animation 5
Introduces interactive time-based electronic visual communication. Content sequencing, transitions, animation and navigation are covered in this introduction to media authoring. Emphasis is placed on developing 2D animated illustrations and interactive designs which can be used as Web pages.
Prerequisites: GRAPH 110 with grade of C or higher or instructor’s permission.

GRAPH 272
2D Animation II 5
Advanced techniques in 2D animation techniques with emphasis on storytelling projects, timing, keyframe manipulation, rotoscoping animation, merging animations and use of audio and video elements. Students will produce an animation short and record to both CD-ROM and videotape. Lectures and presentation lab exercises, guest presentations, and development of personal style. May be repeated one time for credit.
Prerequisites: GRAPH 271 with a grade of C or higher or instructor’s permission.

GRAPH 281
3D Computer Animation I 5
Introduction to 3D computer animation. Basic animation techniques, key framing, manipulating tracks and keys, animated materials, animating lights and cameras, animation for real-time recording and combination of these sequences with simple audio sequences to create finished animation. Focus on the tools and skills needed to create a simple, three-dimensional animation.
Prerequisites: GRAPH 110 with a grade of C or higher or instructor’s permission.
Graph 282
3D Computer Animation II 5
Advanced computer animation techniques with emphasis on lighting to create mood, realistic movement with attention to physical behaviors and materials, use of inverse kinematics, story board techniques for short run animation, and the use of audio and video elements. Students will produce an animation short and record to both CD-ROM and videotape. Lectures and presentation lab exercises, guest presentations, and development of personal style. May be repeated one time for credit.
Prerequisites: Graph 281 with a grade of C or higher or instructor’s permission.

Graph 295
Portfolio Development 5
Advanced course designed for students nearing the completion of their Institute work in graphic arts. Professional portfolio techniques, including interviewing, resume preparation, portfolio design and development, editing, and self-assessments will be presented and explored. Lectures and presentation lab exercises, guest presentations, and development of personal style.
Prerequisites: Adviser or faculty recommendation required.

Health Sciences
Also see Emergency Services and Physical Therapist Assistant
Health Sciences program offerings currently include certificates in Medical Assisting, Nursing Assistant Certified, and Phlebotomy Technician, as well as department certificates in Healthcare Risk Management and Medical Interpreting. Additionally, prerequisites for Physical Therapist Assistant, Radiology Technology and other health care professions, as well as general Health Sciences courses, are offered.
Contact:
Health Sciences Office - 425-388-9461

Healthcare Risk Management
EvCC’s Health Sciences Department offers a 15-credit series in Healthcare Risk Management. The three classes in this program are targeted at clinical and administrative healthcare professionals seeking strategies for reducing errors and establishing practices that will safeguard healthcare workers and their clients. A department certificate will be awarded following successful completion of the coursework.
See HLTH 206, HLTH 207, and HLTH 208.

Medical Assisting
The Everett Community College Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (CRB-AAMAE). CAAHEP, 1361 Park Street, Clearwater, FL 727-210-2350.
This program offers a path to a nationally accredited certificate to students who wish to prepare as a multi-skilled professional working under the supervision of a physician or other licensed health care provider. Medical assistants are dedicated to assisting in all aspects of a medical practice and have both clinical and administrative roles and responsibilities. As defined by Washington State Law, a medical assistant is an unlicensed person who assists a licensed health care practitioner in providing health care to patients. Upon completion of the program the student is eligible to write for the national certification examination. Although there is no licensing for medical assistants, employers prefer to hire certified workers who have passed the national examination indicating that the medical assistant meets defined standards of competence. Students can earn a Certificate in Medical Assisting and have the option to earn an Associate in Technical Arts (ATA) degree if desired. (Approved by the State of Washington Higher Education Board.)
Program length: Certificate - 75 credits  ATA - 90 credits
See Health Sciences course listings.

Medical Interpreter – Spanish
EvCC’s Health Sciences Department offers a ten-credit series in Medical Interpreting for Spanish focused on the linguistic skills required of medical interpreters to successfully perform their interpreting duties in a medical setting. Native-like fluency in both languages is required. A department certificate will be awarded following successful completion of the coursework.
See HLTH 100 and HLTH 160.

Nursing Assistant Certified
This program prepares graduates for certification as Nursing Assistants. The program is approved by the Washington State Department of Social and Health Services. New students are accepted for Fall, Winter and Spring Quarters.
Instruction covers the following areas: basic technical skills, mental health and social services needs of clients, clients’ rights and promotion of clients’ independence, communication and interpersonal skill development, safety and emergency procedures, rules and regulations that affect the nursing assistant’s practice, personal care skills, basic restorative services, infection control, CPR instruction, and HIV/AIDS training. The entire program is completed in one academic quarter.
Program length: One quarter.
See NURS 100.

Phlebotomy Technician
This ten-credit course provides students with the phlebotomy skills necessary to work in the healthcare field as Phlebotomy Technicians. Upon successful completion of didactic and clinical externship training, the successful student is eligible to sit for the national certification exam for Phlebotomy (PBT) sponsored by the American Society for Clinical Pathologists (ASCP). Coursework includes a certificate of seven-hour HIV/AIDS training. Program prerequisites include English 098 or 101, Health 100 and Health 102.
See HLTH 220.

HLTH 080
HIV/AIDS Training .7
Satisfies the mandatory seven-hour HIV/AIDS educational requirement of the State of Washington for health care professionals. Topics include transmission, disease process, and current treatment options for HIV/AIDS. Testing and counseling guidelines and requirements are also discussed. Additionally, legal, ethical, and psychosocial issues are addressed.

HLTH 093
Critical Inquiry and Reflective Thinking in Healthcare 3
Offers a systems perspective to provide students with opportunities for analysis, synthesis and application of critical inquiry, reflective thinking and decision making within healthcare.

HLTH 100
Medical Terminology 5
Study of medical terminology, relating terms to the anatomy and physiology of the body. This course is designed for students working toward proficiency in medical language as well as for students entering health occupations, such as medical assistants, medical transcriptionists, receptionists, administrative support, and billing specialists.

HLTH 101
Fundamentals of Medical Terminology 3
Study of medical terminology, relating to terms to the anatomy and physiology of the body and its systems. This course is designed for the student interested in health sciences professions and the language associated with those professions.
Prerequisites: Eligibility for ENGL 098.
HLTH 102
Applied A & P

Emphasizes the relationship between the structures of the human body, related functions, and clinical applications in both healthy and unhealthy states. Concepts of homeostasis will be explored, along with the consequences to the human body when homeostasis is disrupted. Familiarity with medical terminology is desired. No prior knowledge of biology or chemistry is required.

HLTH 103
Fundamentals in Health Care Delivery

Overview of current healthcare professions including career and market information. Provides information on healthcare delivery systems, medical insurance, health organization structure, patient rights and quality care, healthcare and life values, ethics, and essential behaviors in the workplace. Personal healthful living practices, OSHA standards and workplace safety, and interpersonal communications will be examined as well.

Prerequisites: Eligibility for ENGL 098.

HLTH 105
Medical Office Administration

Covers efficient administrative and managerial tasks of the medical office. Communication techniques emphasized include use of telephone, interviewing patients and triage, verbal and nonverbal communication skills, and written office communication formats. Administrative tasks include knowledge of basic filing, scheduling appointments, mail processing, handling medical records, inventory, bookkeeping, banking procedures and employee payroll. Use of computer medical office management software and numeric keyboarding.

HLTH 106
Administrative Skills - Office Management

Covers general medical office management, including medical records management, mail processing, scheduling appointments, managing the physician’s professional schedule, developing office policies and procedures, and providing information to patients related to community resources and health education.

Prerequisites: Completion of or concurrent enrollment in ENGL 098 or above.

HLTH 107
Administrative Skills - Computer Applications

Provides the student with opportunity to practice computer applications as they apply to the medical office. The student will use the fundamental writing skills to format letters, memos, and reports. Additionally, the student will demonstrate correct proofreading skills, will learn use of additional office equipment, including fax machines and multi-line phones, and will use correct medical charting methods to document medical information accurately and concisely.

Prerequisites: Completion of or concurrent enrollment in ENGL 098 or above. BT 100 or keyboard proficiency. CIS 100 or CL 101.

HLTH 108
Administrative Skills - Practice Finances

Covers all aspects of medical practice finances, including bookkeeping systems, third-party billing, coding systems, accounting and banking procedures, and employee payroll. Students will gain knowledge and skills related to managing medical practice finances and will have practical experience using computer software to perform the management functions integral to an ambulatory care facility.

Prerequisites: Complete of or concurrent enrollment in ENGL 098 or higher.

HLTH 110
Clinical Skills: Ambulatory

Focuses on clinical skills performed by the medical assistant in the back office of a general medical practice. Students will learn about the concepts of professionalism, communication and triage, patient history, physical assessment, equipment and diagnostic procedures utilized during the examination to assist the health care provider with diagnosis and perform appropriate charting for medical record documentation. Instructor’s permission required to repeat course.

Corequisites: HLTH 110J (Lab)

HLTH 111
Clinical Skills: Surgical

Develops the skills needed to perform the duties of the medical assistant. Areas include sterile techniques, OSHA requirements, equipment preparation, identification and sterilization, pre-surgical procedures, decontamination after surgery, wound care management, orthopedic and rehabilitation needs, assisting with minor office procedures, radiologic and diagnostic imaging procedures, and preparation for patient education. Instructor’s permission required to repeat course.

Corequisites: HLTH 111J (Lab).

HLTH 112
Clinical Skills: Laboratory

Designed to develop the skills needed to perform duties of a medical assistant in the laboratory of a general outpatient medical practice. The student will learn the concepts of laboratory safety, quality assurance, microbiological features of various pathogenic and nonpathogenic microbes, transmission based precautions, laboratory techniques for specimen collection, specimen handling and processing. Students will acquire skills and techniques utilized to support and enhance the physician’s diagnostic procedures and treatment options. Students will develop their critical thinking skills by participating in simulated laboratory exercises, simulated patient care via written formats and simulated laboratory results evaluation and processing. Instructor’s permission required to repeat course.

Corequisites: HLTH 112J (Lab)

HLTH 130
Disease and Pathology

Overview of the disease processes of major conditions, including infectious diseases, major neoplastic conditions, and major congenital diseases. The focus is on human diseases that are first diagnosed in the clinical setting. The etiology, signs and symptoms, diagnosis, treatment and prognosis of each disease are studied. Primary prevention of the disease is also discussed. HIV/AIDS training is presented.

HLTH 140
Healthcare Provider & First Aid for the Health Professional

Focuses on emergency care education, the ability to perform thorough patient assessments, treat life-threatening conditions, plus the latest techniques and innovation in emergency patient care. Healthcare Provider CPR/AED & First Aid cards will be presented after successful completion of the course.

HLTH 141
Industrial Safety

Reviews key elements and requirements of a safety and health management program in today’s manufacturing environment. This is part of a sequence of courses designed to help a student achieve a two-year ATA degree in Advanced Manufacturing Technology.

Prerequisites: ENGL 098 or equivalent or instructor’s permission.

HLTH 150D
Intercultural Communication in Health Care

(D) Introduction to intercultural interpersonal communication techniques as they apply in a healthcare setting. Focuses on the roles of verbal and nonverbal codes in the development of intercultural interpersonal relationships, explains cultural competence and its implications within the healthcare delivery system, discusses obstacles to intercultural communication, examines role behaviors and attitudes regarding healthcare and describes communication with people who have altered health states.
HLTH 160
Medical Interpreting – Spanish 5
Covers the medical vocabulary, phraseology, and expressions necessary to translate the most common medical signs, symptoms, and illness-related terminology used during patient-provider interactions. Training in the linguistic skills required of medical interpreters to successfully perform their interpreting duties in a medical setting. Elements of Latino/Hispanic culture relevant to attitudes towards healthcare will also be explored. Prerequisites: HLTH 100 (or instructor’s permission) and native-like fluency in Spanish and English.

HLTH 202
Advanced A&P 5
Gross human anatomy as it applies to physical therapy. Muscle, tendon, ligament, and nerve innervation of the trunk and upper extremity, head, neck, and lower extremity. Structural identification and function of the spine, heart, lungs, abdominopelvic organs, circulatory and sensory systems. Neuroanatomy of the nervous system, emphasizing structure and functional relationships. Relates the structural relationships of the central and peripheral nervous systems to brain dysfunction and pathology. Prerequisites: HLTH 102.

HLTH 205
Medical Law and Ethics 4
Designed to incorporate the principles of critical thinking, the course will focus on pertinent laws at the federal and state levels, examining their application to the clinical practice including: confidentiality, HIPPA regulations, release of patient information, licensure, medical malpractice, and risk management. Examination of current bioethical issues and their impact on the practice of medicine.

HLTH 206
Introduction to Healthcare Risk Management 5
Introduction to the concept of risk management in the healthcare setting, including a historical perspective on the development of healthcare risk management, the role of a risk manager, and compliance with federal and local agencies in various healthcare settings. Prerequisites: Completion of or concurrent enrollment in ENGL 098 or above.

HLTH 207
Law, Healthcare, and Patient Safety 5
Overview of applicable federal, state and local health and safety laws relevant to the practice of healthcare risk management and patient safety, including occupational and environmental risk exposures, accident prevention, and emergency management. Prerequisites: Completion of or concurrent enrollment in ENGL 098 or above.

HLTH 208
Healthcare Risk Management and Liability 5
Overview of applicable federal, state and local health and safety laws relevant to the practice of healthcare risk management and patient safety, including occupational and environmental risk exposures, accident prevention, and emergency management. Prerequisites: Completion of or concurrent enrollment in ENGL 098 or above.

HLTH 210
Principles of Pharmacology 3
Addresses the forms and classifications of medications, drug actions and uses, the effects of drugs on the body systems and possible side effects of medications. Important aspects of patient safety, pharmacodynamics and medication reactions are studied. Evaluates and addresses issues in educating patients, including age, gender, disease processes and psychosocial and cultural influences. Emphasis on the fifty most commonly prescribed drugs. Prerequisites: HLTH 102 or BIOL 135. HLTH 130 is recommended.

HLTH 211
Medication Administration 5
Emphasizes the methods and procedures used for calculating, preparing and administering medications to patients across the lifespan. Addresses safety regulations and procedures as well as the legal and administrative responsibilities involved in prescribing, dispensing and administering medications. Instructor’s permission required to repeat this course. Prerequisites: Instructor’s permission.

HLTH 212
Principles of Phlebotomy 3
Psychomotor instruction in phlebotomy procedures and techniques for students with no prior experience in drawing blood for diagnostic testing. Documentation, various laboratory tests, quality control and safety rules regarding lab equipment and chemicals are covered. Instructor’s permission required to repeat course. Prerequisites: Instructor’s permission.

HLTH 220
Phlebotomy Technician Training Program 10
Provides preparation to sit for the national certification exam sponsored by the American Society for Clinical Pathologists (ASCP). Program is designed for those with no prior knowledge of phlebotomy techniques and procedures. Topics include anatomy and physiology of the blood and circulatory system, phlebotomy skills, quality assurance, and medical laboratory information. Coursework includes a certificate of 7-hours of HIV/AIDS training. All procedures meet standards for phlebotomy training developed by the Clinical Laboratory Standards Institute. Program includes a 120-hour clinical externship at area hospitals and clinics as arranged by the instructor. Prerequisites: 18 years of age; high school diploma or GED. ENGL 098 or ENGL 101, HLTH 100, HLTH 102, and CL 101 or computer proficiency. Adequate physical ability; adequate manual dexterity. Current immunizations for externship eligibility. Current CPR for Healthcare Providers card. Proof of medical insurance.

HLTH 251
Medical Assisting Clinical Externship 6
Provides students a safe, supervised clinical work experience, in an outpatient ambulatory setting, in which to apply didactic theories. The externship experience provides students an opportunity to put into practice their administrative and clinical skills, to foster professional growth and self-confidence in the role of a medical assistant. Students are also provided an opportunity to discuss professional concerns, events, and activities that pertain to medical assisting. Weekly seminar topics will be chosen. 160 clinical hours. Instructor’s permission required to repeat course. Prerequisites: Completion of required courses for Medical Assisting program and instructor’s permission.

HLTH 290
CMA Review 2
Group workshop to assist new medical assisting graduates and professional medical assistants to prepare for the national exam given by the American Association of Medical Assistants for certification or re-certification. A pre-course and post-course test will be given to evaluate and apprise the students of particular areas in which they may need reinforcement. Includes class demonstrations and videos of new information, programs and procedures. Areas for testing will include administrative, clinical and general studies, based on the same format used on the CMA test. Prerequisites: Eligible to take or re-certify for national certification by AAMA.
HIST 100
Ancient & Medieval Worlds 5
(H, SS) Development of human endeavors from prehistoric time to the late Middle Ages. Emphasis on the cultural, social, political and economic aspects of the great civilizations of this period.

HIST 103D
World Civilization 5
(H, SS, D) General introduction to world history, emphasizing understanding and respect for diverse cultures and tracing the broad themes of historical change from a variety of perspectives, including social organization, art, literature, and spiritual values. Follow the appearance and evolution of the major religious traditions of the world, witness the construction, decay, and collapse of major civilizations, and inquire about the meaning of life in the company of the great teachers of the past, including Confucius, the Buddha, Socrates, Ibn Khaldun, St. Thomas Aquinas, and many others.

HIST 111
Western Civilization to 1648 5
(H, SS) Survey of the history of the Ancient Near East, Mediterranean civilizations, and ancient and early modern Europe from the Stone Age through the Thirty Years’ War. Major developments in politics, technology, philosophy, religion and the arts. Topics include ancient Sumer and Egypt, Israel, Greece, Rome, the Middle Ages, the Renaissance, the Reformation, the voyages of discovery, and the national monarchies. Credit cannot be earned in both HIST 100 and 111.

HIST 112
Western Civilization 1648 to Present 5
(H, SS) Survey of the history of early modern and modern European civilization from the Thirty Years’ War to the present. Major developments in politics, technology, philosophy, religion, and the arts. Topics include national monarchies, the Enlightenment, the American and French Revolutions, Napoleon, the Industrial Revolution, nationalism, socialism, imperialism, the world wars, Hitler and Stalin, the Cold War, and industrial democracy.

HIST 151
American Civilization I: The Beginnings to Jackson 5

HIST 152
American Civilization II: Jackson to World War I 5
(H, SS) Second of a three-part survey of American history. Slavery, the Civil War, Reconstruction, industrialization and urbanization, the late 19th century agrarian protest movement, America’s development as a world power, the Progressive movement and America’s involvement in World War I.

HIST 153
American Civilization III: The Twenties to the Present 5
(H, SS) Third of a three-part survey of American history. Emphasis on the critical changes in domestic and foreign affairs which have shaped the character of contemporary life.

HIST 170D
Multicultural American History 5
(H, SS, D) Course examines 400 years of American ethnic diversity, beginning with Native Americans and the first African and European “foreigners” arriving in the Colonial era to the diverse ethnic makeup that characterizes life in the United States today.

HIST 210
The Vietnam War 5

HIST 232
History of Washington and the Pacific Northwest 5
(H, SS) Topics covered include Indian culture, exploration, economic expansion, racial problems, reform movements, labor organizations, political institutions and urban development.

HUMAN DEVELOPMENT
Human Development courses are designed to support students’ success in their educational, career and personal development. Human Development courses can be applied toward most transfer degrees as List B: Applied Electives. Contact: Counseling, Advising and Career Center, third floor Parks Building, 425-388-9263.

Faculty Advisors:
E. Martin 425-388-9268 emartin@everettcc.edu
G. Myers 425-388-9266 gmyers@everettcc.edu
D. Skinner 425-388-9178 dskinner@everettcc.edu
C. Sullivan 425-388-9267 csullivan@everettcc.edu

H DEV 103
Moving Through Loss and Grief 2
Moving through a significant loss requires a series of actions and small steps. This class will guide students in this process and help them to discover the strength within themselves to recover.

H DEV 105
Overcoming Math Anxiety 2
To help students confront math anxiety and to learn coping strategies in order to be more successful in mathematics courses.

H DEV 110
Career and Life Planning 3
Examination of personal career possibilities in the world of work. Activities focus on self-assessment through testing, values clarification, occupational surveys, and identification of strengths. Resume writing and job interviewing skills may be covered. Class composition and need determine which areas instructor emphasizes.

H DEV 118
Orientation to College 1
Orientation to college for first-time college students. Includes information about college programs, classes, procedures and resources. Designed to enable students to take full advantage of student services and educational opportunities during their college career. Guest lecture format.

H DEV 150
Transfer Success 1-2
Examination of the essential skills and the information needed for preparation to transfer to a four-year university or college. Activities focus on self-assessment in exploring a college major and strategies necessary to transfer. Specific topics will include academic planning and choosing a major, selecting a college, financial aid and scholarship opportunities, networking, the admission process, deadline dates, writing personal statements and other related topics.
H DEV 155
Human Relations in the Workplace 3
Principles and techniques for building and maintaining successful relations with co-workers, supervisors, and employees. Includes job beginnings, goal setting, leadership styles, self-motivation, effective communication, and conflict management.

H DEV 156
Stress Management 2
To help students become more aware of the sources of stress in their lives, the consequences of stress for the way they think, feel, and act, and methods of reducing and coping with stress.

H DEV 160
Life Transitions 2
Foundation of theory and skills for individuals experiencing life transitions. Includes theories of adult development, change and resilience. Introduces skills for managing stress, coping with changes in identity, developing new goals and mobilizing individual and community resources.

H DEV 173
Self-Esteem and Goal Setting 2
Identify factors that affect self-esteem and explore constructive ways to build positive self-esteem. Students will be encouraged to design and implement a plan to achieve both immediate and long-term goals.

H DEV 180
Relating Assertively 2
Practical application of assertiveness techniques which include improving conversational skills, stating opinions, handling criticism, identifying and sticking to the issue, making requests, and learning to negotiate.

H DEV 183
Anger Management 2
Addresses ways to express anger and respond to frustrating situations in constructive and appropriate ways.

HUMAN SERVICES

Human Services courses are designed to introduce students to the field of Human Services. Many Everett Community College students transfer to Western Washington University's Human Services bachelor's degree program located in Everett. (425-339-3810).

Faculty Advisors:
E. Martin 425-388-9268 emartin@everettcc.edu
G. Myers 425-388-9266 gmyers@everettcc.edu
D. Skinner 425-388-9178 dskinner@everettcc.edu
C. Sullivan 425-388-9267 csullivan@everettcc.edu

HUM S 101
Introduction to Human Services 3
(TE) Survey of the historical and theoretical perspectives of human services. Includes investigation of contemporary issues and discussions of career and educational opportunities.

HUM S 182
Service Learning 1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.

Prerequisites: Instructor’s permission.

HUMANITIES

What are the Humanities? Why do they matter?

- The Humanities ask questions about meaning, value, and significance. The Humanities include all disciplines that employ interpretive, non-quantitative methodologies to probe and express the human condition.

- Some subjects, such as art, history, music, religious studies, philosophy, and literature, lie almost entirely within the Humanities domain, while others, such as education and the social and behavioral sciences, have significant Humanities components.

- The Humanities embrace one another across boundaries, stressing the importance of interdisciplinary study and collaboration, striving to connect disparate fields and to integrate knowledge around the experiences of being human.

- The Humanities are also a primary vehicle of cultural memory. They preserve, transmit, and critique the experiences of humanity.

The EvCC Humanities program aims to enhance the interdisciplinary integration of learning, thereby promoting engaged, critical and creative thinking that prepares you for a future that demands breadth as well as depth of preparation. Furthermore, interdisciplinary study in the Humanities provides you with an arena for the integration of learning during the time when you are meeting your general education requirements, focusing the smorgasbord of general education courses into a more coherent and integrated foundation for your later academic endeavors. Students wishing to complete a Humanities emphasis for their Associate in Arts and Sciences Option II degree should obtain a copy of the Humanities curriculum guide.

Faculty Advisors:
K. Craft 425-388-9395 kcraft@everettcc.edu
S. Lepper 425-388-9444 slepper@everettcc.edu
L. Smith 425-388-9421 lsmith@everettcc.edu
M. VanQuickenborne 425-388-9385 mvanquickenborne@everettcc.edu
J. Walker 425-388-9411 jwalker@everettcc.edu

HUMN 101
Introduction to the Humanities 5
(H) Interdisciplinary introduction to the Humanities as they raise questions of meaning, value and significance, and probe, transmit and critique the experiences of humanity. Also explores the Humanities as a primary vehicle of cultural memory. The Humanities are those disciplines, such as history, art, music, philosophy and literature, that employ interpretive, non-quantitative methodologies to express the human condition in all of its diversity.

HUMN 110D
Introduction to American Cultural Studies 5
(H, S, D) An interdisciplinary introduction to American Cultural Studies as an analysis of issues, concepts and theories of the Americanization process and American cultural values. Topics such as race, ethnicity, social class, privilege, gender and religious beliefs are explored through history, literature, sociology, art and communication.

Prerequisites: ENGL 098 with a grade of C or higher, or eligibility for ENGL 101.

HUMN 125
Negotiating Nature 3 or 5
(H) Investigation of the concepts of nature and wilderness in America through the lens of those disciplines, such as history, art, music, philosophy and literature, that employ interpretive, non-quantitative methodologies to probe and express the human condition.
HUMN 150D
Surviving the Holocaust 5
(H, D) Written, filmed, and live testimony of Holocaust survivors considered from the perspectives of literature, history, sociology, psychology, art, film, philosophy, and theology.

HUMN 160D
Introduction to Japanese History and Culture 5
(H, D) Analysis of the historical development of Japan and its effects on modern-day Japanese society, as well as the study of Japanese values and behaviors, to better understand communication styles, social and business relations and management styles.
Prerequisites: Completion of ENGL 098 or eligibility for ENGL 101.

HUMN 166D
Germany in Transition - Toward a Multi-Ethnic Civilization 5
(H, D) Survey of past and modern German cultures, concentrating on major periods in literature, language, politics, art, architecture, religion, film and music. Humanities 166D focuses on the increasingly multi-ethnic population of Germany, its position and future in the European Union and its relationship to the Global community.

HUMN 182
Service Learning 1-2
Allows students to explore the expression of the Humanities in our community, combining the opportunity of volunteerism with academic applications. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community as students get involved in such activities as working with local organizations to promote the humanities or planning on-campus Humanities-oriented conferences. May be repeated up to six credits.
Prerequisites: Instructor’s permission.

HUMN 184
Humanities Showcase 1-2
(H-P) Allows students to showcase their creative work in the Humanities at an EvCC Humanities conference/festival. May be repeated up to six credits.
Prerequisites: Instructor’s permission.

HUMN 210
Introduction to Women’s Lives in the United States 5
(H) Introduction to the richness and diversity of women’s lives in the United States, including their social realities, issues and contributions from an interdisciplinary perspective (social sciences, humanities and the arts). Special attention will be given to the intersection of race, class and sexuality on women’s experiences and contributions.

HUMN 247D
Introduction to World Religions 5
(H, D) Survey of the world’s major religions including Islam, Judaism, Christianity, Hinduism, Buddhism, and others. Examination of the beliefs, rituals, experiences, stories, theologies, ethical codes, institutions, and physical manifestations of these religions.

HUMN 248
Women, Religion and Society 5
(H) Survey of the roles, beliefs, attitudes and practices related to women’s spiritual lives in the major world religions and several of the indigenous traditions.
Prerequisites: SOC 110, ANTHR 202D or HUMN 247D strongly recommended.

ITALIAN

JOURNALISM
Mass media and communications have never been more important than in today’s fast-paced global marketplace. Students who enroll in Journalism courses benefit from specialized work in the crafts of writing and editing, as well as an introduction to mass media.

Faculty Advisor:
A. Otanez 425-388-9419 aotanez@everettcc.edu

JOURN 101
Newswriting 5
(HP) Writing basic types of news stories, including speeches, interviews, and features. Study of newspaper methods and label.
Prerequisites: Grade C or higher in ENGL 098 or placement in ENGL 101.

JOURN 102
Copy Editing 3
(HP) Instruction and practice in editing news stories, designing news pages, writing headlines, and critical analysis of news. Basic-level companion course to JOURN 101 for majors.

JOURN 110
Media Writing 5
(HP) Study and exercises in writing with the special constraints and style demands of radio and television news, advertising, and electronic communications. Emphasis on writing with word economy, often by using words with broad symbolic value.
Prerequisites: Grade C or higher in ENGL 098 or placement in ENGL 101.

JOURN 150
Introduction to Mass Media 5
(H, SS) Survey of the mass media, including newspapers, magazines, television, radio, book publishing, music publishing, motion pictures and advertising. This course emphasizes the history and structural biases of the mass media, and encourages students to critically analyze the role of media in society.

JOURN 170
College Newspaper 3
(TE) Practice of newspaper journalism in production of the student newspaper, The Clipper. Course is offered in sections: reporting and editing, photography and graphic design. May be repeated up to 18 credits.
Prerequisites: JOURN 101, JOURN 102, GRAPH 101, or instructor’s permission.

JOURN 250
Journalism Internship 2-5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

LAW ENFORCEMENT
See Criminal Justice
LEARNING COMMUNITIES

Learning Communities are created through co-registration (block scheduling), that links two or more existing courses. Students take the courses together and have an opportunity for deeper understanding and integration of the subjects and materials being studied. The communities are usually structured around a theme, allowing students to think critically and to look at issues from multiple perspectives. The learning community format provides greater interaction between students and between students and teachers, and supports students by creating social networks; learning communities are a very good option for students new to college. For more information, please see page 9.

LIBRARY

Courses develop students’ information literacy skills and the ability to recognize when information is needed, and to locate, evaluate, effectively use and communicate information in its various formats.

Faculty Advisors:
J. Goodhope 425-388-9348 jgoodhope@everettcc.edu
D. Rash 425-388-9494 drash@everettcc.edu

LIBR 100
Information Research Skills 3
Survey of information research techniques. Students will learn to locate and analyze information, develop search strategies and use a variety of information resources including the Internet and other computerized information tools.

LIBR 102
Learning for the 21st Century 5
Emphasis will be on building the skills and techniques for successful lifelong learning and identifying personal learning styles and strengths that facilitate learning in an online environment. Participants will examine various strategies for locating, evaluating, and applying information resources in the research process with attention to information policy issues such as censorship and freedom of information.

LIBR 110
Information Toolkit 2
Develops skills needed to locate, evaluate and use information technology and information resources to carry out discipline specific research.

LIBR 120
Introduction to the World Wide Web 5
Overview of the World Wide Web with emphasis on finding, sharing and evaluating information, using search tools, developing search techniques, and understanding basic HTML components. Co-listed as CIS 115; credit cannot be earned in both CIS 115 and LIBR 120.

See Advanced Manufacturing Technology

Faculty Advisor:
R. Osnes 425-388-9383 rosnes@everettcc.edu

MFG T 106
Precision Machining Technology Lab I 3-7
Introduction to precision machining in the shop environment with a focus on basic manual machining techniques. Emphasizes shop safety, following a job plan, and using measurement tools and various cutters to produce machined metal parts. May be repeated two times for credit.

MFG T 108
Precision Machining Technology Lab II 3-7
Introduction to computer numerical controlled (CNC) precision machining in the shop environment with a focus on basic programming and operating techniques. Emphasizes the use of various measurement tools and cutters in a computer controlled environment to produce machined metal parts. May be repeated two times for credit.

Prerequisites: MFG T 106 and MFG T 107.

MFG T 110
Introduction to Manufacturing 3
Provides a historical overview of manufacturing systems and organizations. Addresses elements contained in a lean manufacturing operation.

Prerequisites: ENGL 098 with a grade of C or higher or skills assessment at ENGL 101 or higher level.

MFG T 115
Total Quality in Manufacturing 5
Introductory course in Total Quality Management, covering concepts of reduced variability, enhanced reliability, and continuous improvement in the manufacturing process as a whole. The notion of leadership commitment is explored.

Prerequisites: ENGL 098 and MATH 030.

MFG T 116
Basics of Supply Chain Management 5
Introductory course for production scheduling and inventory management, including principles and concepts for controlling the flow of materials into, through and out of a manufacturing organization.

Prerequisites: MATH 030 and MFG T 110.

MFG T 171
Manufacturing Internship I 5
150-clock hour intern program in which students focus on the fundamental shop skills required to work in a manufacturing company. Students may work either in an instructional/hands-on or solely hands-on mode. This experience may entail “job-shadowing” to learn what support functions are needed in the manufacturing environment.

Prerequisites: MFG T 110.

MFG T 172
Manufacturing Internship II 5
150-clock hour intern program in which students may perform functions or “job shadow” in a specific area of their choosing relative to their program of study. Program focuses on student working with an expert in a manufacturing related area of the student’s choice.

Prerequisites: MFG T 171.

MFG T 200
Master Planning of Resources 5
Principles and practices of sales and operations planning, internal and external demand forecasting, master production scheduling, consistency with business policies and resource constraints. Also covers concepts and methodologies for managing projected and actual demands from distribution networks and external customers.

Prerequisites: Sophomore standing or instructor’s permission.
Mathematics Learning Center

The Mathematics Learning Center in Baker Hall, Room 109, has been established for students who wish to review or improve their skills in basic mathematical concepts, beginning algebra, plane geometry and trigonometry using an individualized approach. These courses are not available for audit. Some courses in the Mathematics Learning Center are competency based and are graded using variable credit.

Special Mathematics Courses

Mathematics course numbers have also been reserved as follows:
Math 097, 197 and 297 for special workshops in mathematics;
Math 098, 198 and 298 for special seminars in mathematics;
Math 099, 199 and 299 for special projects in mathematics. Special projects are for individual students and are arranged with the division dean.

Credit granted under the above numbers varies with the workshop, seminar or project. Limits may be imposed on the number of credits earned using these numbers.

MATH 014
Basic Mathematical Concepts with Applications
Review of basic concepts in mathematics with applications related to consumer activities. Prime factorization and operations on rational numbers. Applications using ratios, proportions and percents. Credit may not be earned in MATH 014 that exceeds five total credits. Not intended for ABE students. MATH 014 is competency based.
Prerequisites: (enforced) Placement in MATH 014 or higher via an assessment test score OR permission of a math instructor.

MATH 017
Preparation for Algebra
Fractions, decimals, percents, order of operations, scientific notation, formulas, signed numbers, exponents, radicals, geometric figures, and applications.
Prerequisites: (enforced) MATH 014 or MATH 014V with a C (2.0) or higher OR placement into MATH 017 via an assessment test score OR permission of a math instructor.

MATH 021
Programmed Elementary Algebra I
Review sequence in elementary algebra. Offered only in the Math Learning Center.
Prerequisites: Elementary Algebra; instructor’s permission.

MATH 022
Programmed Elementary Algebra II
Review sequence in elementary algebra. Offered only in the Math Learning Center.
Prerequisites: MATH 021; instructor’s permission.

MATH 027
Elementary Algebra I
First half of sequence in beginning algebra. Properties of real numbers, evaluating algebraic expressions, simplifying algebraic expressions, solving linear equations and inequalities, adding, subtracting, multiplying, dividing and simplifying monomial fractions, solving fractional equations and inequalities, graphing linear equations in two variables, finding equations of lines, solving linear systems by graphing.
Prerequisites: (enforced) MATH 017 or MATH 017V with a C (2.0) or higher OR placement in MATH 027 or higher via an assessment test score OR permission of a math instructor.

</tbody>
</table>
See Health Sciences instructor.

Prerequisites: (enforced) MATH 147 or equivalent with a grade of C (2.0) or higher OR placement in MATH 152 or higher via an assessment test score OR permission of a math instructor.

MATH 153
Calculus with Analytic Geometry II
(Q, NS) Second course in calculus sequence. Integration and its applications, differentiation and integration and their applications to exponential and logarithmic functions. Techniques of integration, L’Hôpital’s Rule, and improper integrals. For majors in engineering, science, mathematics and others requiring more than one quarter of calculus.

Prerequisites: (enforced) MATH 152 or equivalent with a grade of C (2.0) or higher OR permission of a math instructor.

MATH 154
Calculus with Analytic Geometry III
(Q, NS) Third course in calculus sequence. Infinite numerical series, power series, conic sections, polar coordinates, parametric equations, vectors in two and three dimensions, lines and planes. For majors in engineering, science, mathematics and others requiring more than two quarters of calculus.

Prerequisites: (enforced) MATH 153 or equivalent with a grade of C (2.0) or higher OR permission of a math instructor.

MATH 252
Calculus with Analytic Geometry IV
(Q, NS) Continuation of basic calculus sequence for students who need preparation in multivariate calculus. Partial differentiation, multiple integration, vector calculus, vector analysis to include the theorems of Green, Gauss, and Stokes.

Prerequisites: (enforced) MATH 154 or equivalent with a grade of C (2.0) or higher OR permission of a math instructor.

MATH 260
Linear Algebra
(Q, NS) Theory and applications. Matrices, matrix operations. Linear systems, determinants, Euclidean vector spaces and subspaces, linear transformations and changes of bases, eigenvalues and eigenvectors, applications.

Prerequisites: (enforced) MATH 153 or equivalent with a grade of C (2.0) or higher OR permission of a math instructor.

MATH 261
Differential Equations
(Q, NS) Introductory course in ordinary differential equations. Existence and uniqueness theorems, methods of solutions of first order linear and non-linear equations, basic theory and solutions of higher order linear equations, series solutions, systems of equations, Laplace transformations and techniques; applications.

Prerequisites: (enforced) MATH 252 or equivalent with a grade of C (2.0) or higher OR concurrent enrollment in MATH 252 OR permission of a math instructor.

MATH 281
Elements of Statistics
(Q, NS) Introductory course. Descriptive methods, probability, sampling distributions, hypothesis testing, confidence intervals, correlation, ANOVA, chi-square tests. For students in any major. Credit may not be earned in both MATH 281 and BUS 201.

Prerequisites: (enforced) MATH 140 or equivalent with a grade of C (2.0) or higher OR placement in MATH 281 or higher via an assessment test score OR permission of a math instructor.

MEDICAL CODING

Everett Community College’s Business Technology Department offers a Medical Coding program which utilizes state-of-the-art software and text materials used exclusively for the training of medical coders. The program is offered in an online environment, which may be entered at the beginning of any quarter and requires an average of about 35-40 hours of study time per week.

The program is self-contained and focuses on providing the training required for the student to obtain an entry-level position as a medical coder.

A certificate is awarded upon successful completion of this 36-credit program.

Faculty Advisor:
K. Kneifel 425-388-9155 kkneifel@everettcc.edu

MC 110
Medical Patient Records
4
Study of the medical record, insurance, reports, legal issues, and patient document terminology as it relates to reporting medical diagnoses and procedures.

Corequisites: MC 120, MC 130.

MC 115
Healthcare Reimbursement
2
Presents information about healthcare facilities, types of healthcare providers, and physicians’ roles in medical billing and coding. Federal legislation and claim information is also presented.

Corequisites: MC 160, MC 180.

MC 120
Healthcare Vocabulary
5
Study of vocabulary used in the healthcare field. Concepts of spelling, looking up words, learning root words, prefixes and suffixes, creating plural medical words, understanding the meanings of words, and differentiating between alike words are taught.

Corequisites: MC 110, MC 130.

MC 122
Medical Abbreviation
1
Study of abbreviations used in the medical field to identify diagnoses, procedure, and locations of where treatment was performed.

Corequisites: MC 135, MC 140, MC 150.

MC 130
Structure and Function of the Human Body I
3
Study of medical terms as they relate to anatomy basics in the musculoskeletal system, general body layout, and disease process. Emphasizes identification and location of musculoskeletal body parts.

Corequisites: MC 110, MC 120.

MC 135
Structure and Function of the Human Body II
5
Study of medical terms as they relate to the basics of anatomy and physiology in the digestive, respiratory, reproductive, cardiovascular, endocrine, and nervous systems. Emphasizes disease processes of various body systems and parts.

Prerequisites: MC 120, MC 130 with C or higher. Corequisites: MC 122, MC 140, MC 150.
MC 140  
**Basics of Pharmacology**  
Study of drug categories, classifications, routes of administration, and therapeutic effects. Includes toxicology, immune responses, pain management, poisonings and anesthesia. 
Prerequisites: MC 120 with C or higher. Corequisites: MC 115, MC 140, MC 180.

MC 150  
**Principles of Procedural Coding**  
Prepares students to analyze medical records and accurately assign CPT or HCPCS codes for clinic and hospital visits, medical procedures, and other treatment modalities. Prioritization and determination of level of code assignments are also taught. 
Prerequisites: MC 120, MC 130 with C or higher. Corequisites: MC 115, MC 180.

MC 160  
**Principles of Diagnostic Coding**  
Trains students to use ICD-9-CM to assign correct diagnostic codes. 
Prerequisites: MC 120, MC 130, MC 135, MC 122 with C or higher. Corequisites: MC 115, MC 180.

MC 180  
**Medical Coding Practicum**  
Provides practice in reading healthcare scenarios to assign correct procedural and diagnostic codes. Also helps to prepare students for certification testing. 
Prerequisites: MC 120, MC 130, MC 122, MC 135, MC 150, MC 140 with C or higher. Corequisites: MC 115, MC 160.

**MEDICAL TRANSCRIPTION**

The Medical Transcription certificate program is offered through the Business and Applied Technology Division. Courses in medical transcription, anatomy, physiology, human disease processes and medical specialties provide the necessary medical knowledge for the student to correctly interpret the medical practitioner’s spoken dictation. Courses in English grammar, proofreading and editing teach the skills necessary to produce the written medical records which are used for billing purposes, to provide on-going patient care and as legal documentation in a court of law. Students will transcribe medical dictation of increasing difficulty while learning shortcuts to increase their productivity. Successful completion of this self-contained program prepares the student to enter the work force as an entry-level medical transcriptionist. A one-year certificate is awarded upon successful completion of this 42-credit program.

Detailed curriculum guides are available from the Enrollment Services Office and from program advisers.

Faculty Advisor:  
P. Stettler 425-388-9247 pstettler@everettcc.edu

**MT 100**  
**Keyboarding and Formatting Medical Reports**  
Emphasizes proper keyboarding techniques with the goal of achieving a typing speed of 50 corrected words per minute. Explores the purpose and required content of the medical record. Introduces formatting of the seven basic medical reports used in healthcare facilities (History & Physical, Discharge Summary, Consultation, Operative Report, SOAP Format, Radiology Report, Pathology Report) and delineates where it is appropriate to use medical abbreviations in those reports. 
Prerequisites: Placement in ENGL 098 or above. BT 219 or equivalent and BT 100 or equivalent recommended. Corequisites: MT 120, MT 140, MT 200.

**MT 120**  
**Language of Medical Transcription**  
3  
Medical terminology for the medical transcriptionist. Concentrates on medical prefixes, suffixes, root words, combining forms, and difficult-to-learn medical words which are commonly misspelled or do not follow the general rules of medical terminology. Includes formation of Greek and Latin plurals. Corequisites: MT 100, MT 140, MT 200.

**MT 140**  
**Grammar Essentials for MTs**  
3  
Develops the grammar skills necessary for the medical transcriptionist to produce a finished product that correctly utilizes general rules of English usage, punctuation and grammar. Enables the MT to identify and avoid run-on sentences and ensure proper subject/verb agreement. 
Prerequisites: MT 100, MT 120, MT 200.

**MT 160**  
**Study of Human Body & Disease Processes I**  
3  
Studies medical terms as they relate to human anatomy and physiology and disease processes in the following body systems: musculoskeletal, digestive, respiratory, and reproductive (male and female). Emphasizes correctly relating medical terms to particular body systems or body parts, knowing the anatomical location of that body system or body part, and being able to identify the major structures and functions of the above-mentioned body systems. Emphasizes which disease processes are found in the above-mentioned physiologic systems. 
Prerequisites: MT 100, MT 120, MT 140, MT 200. Corequisites: MT 180, MT 240.

**MT 180**  
**Study of Human Body & Disease Processes II**  
3  
Covers medical terms as they relate to human anatomy and physiology and disease processes of the following body systems: excretory (male and female), cardiovascular, nervous, sensory, endocrine, and integumentary. Emphasizes correctly relating medical terms to particular body systems or body parts, knowing the anatomical location of that body system or body part, and being able to identify the major structures and functions of the above-mentioned body systems. Emphasizes which disease processes are found in the above-mentioned physiologic systems. 
Prerequisites: MT 100, MT 120, MT 140, MT 200. Corequisites: MT 160, MT 240.

**MT 190**  
**Physical Exam, Lab Data, Pharmacology**  
2  
Explores common physical exam and laboratory findings and the significance of those findings being abnormal. Properly expressing laboratory test values is emphasized. Since abnormal physical exam or laboratory findings often results in the prescription of medications, the pharmacology of the most commonly prescribed drugs is studied. 
Prerequisites: MT 100, MT 120, MT 140, MT 200. Corequisites: MT 160, MT 180, MT 240.

**MT 200**  
**Beginning Medical Transcription**  
6  
Introduction to medical transcription including operation of word processing and transcribing equipment, application of the specialized rules of grammar and punctuation peculiar to medical dictation, and correct usage and spelling of medical terminology while transcribing reports in a variety of medical specialties. Includes when to use medical abbreviations, when to expand them, and how to use medical references and other resource materials. Introduces use of the Internet for research purposes. Explores the MT’s role in the reimbursement cycle and risk management, emphasizing proper release of medical information. Students begin to learn to interpret the meaning of the transcribed medical report. 
Corequisites: MT 100, MT 120, MT 140.

**MT 200A**  
**Beginning Medical Transcription I**  
3  
Introduction to medical transcription including operation of word processing and transcribing equipment, application of the specialized rules of grammar and punctuation peculiar to medical dictation, and correct usage and spelling of medical terminology
while transcribing reports in a variety of medical specialties. Introduces use of the Internet for research purposes. Explores the MT’s role in the reimbursement cycle and risk management. Explains ownership of the medical record, emphasizing proper release of medical information.

Prerequisites: MT 100, MT 120, MT 140.

MT 200B
Beginning Medical Transcription II
Continuation of introduction to medical transcription including correct usage and spelling of medical terminology while transcribing reports in a variety of medical specialties. Includes when to use medical abbreviations, when to expand them, and how to use medical references and other resource materials. Students begin to learn to interpret the meaning of the transcribed medical report.

Prerequisites: MT 200A.

MT 210
Editing and Proofreading for MTs
Application of grammar essentials to ensure correct sentence structure and subject/verb agreement. Utilization of correct punctuation to facilitate reading and understanding of the medical report. Emphasizes distinguishing between brand-name and generic drugs, breaking dictation into sentences and paragraphs to enhance readability, using the context of the medical report to distinguish and correct improperly used words or medical terms, and identifying and correcting mistakes made by the transcriptionist.

MT 220
Focus on Medical Specialties for MTs
Focuses on the specialties of cardiology, ENT, dental, emergency medicine, gastroenterology, laboratory medicine, neurology, OB/GYN, and ophthalmology. Emphasizes medical terms, abbreviations, laboratory results, medications and procedures related to the above-named medical specialties.

MT 240
Intermediate Medical Transcription
Transcription of prepared medical tapes in a variety of specialties to improve speed, accuracy, and productivity. Focus on identifying obvious medical inconsistencies and when it is acceptable to edit, correct, clarify, or question medical dictation which is incorrect or ambiguous or which does not make sense. The role and value of professional organizations to the MT and the impact of regulatory agencies and production and accuracy standards and expectations in the work place are defined.

Prerequisites: MT 100, MT 120, MT 140, MT 200. Corequisites: MT 220, MT 260.

MT 240A
Intermediate Medical Transcription I
Transcription of prepared medical tapes in a variety of specialties to improve speed, accuracy, and productivity. Focus on identifying and questioning dictation which is incorrect or ambiguous or which does not make sense. The role and value of professional organizations to the MT and the impact of regulatory agencies and production and accuracy standards and expectations in the work place are defined.

Prerequisites: MT 200 or MT 200A and MT 200B. Corequisites: MT 160.

MT 240B
Intermediate Medical Transcription II
Transcription of prepared medical tapes in a variety of specialties to improve speed, accuracy, and productivity. Focus on identifying and questioning dictation which is incorrect or ambiguous or which does not make sense. The role and value of professional organizations to the MT and the impact of regulatory agencies and production and accuracy standards and expectations in the work place are defined.

Prerequisites: MT 160, MT 240A. Corequisites: MT 180.

MT 260
MT Shortcuts/Technology/Employment
Covers the importance of and legal requirements for maintaining patient confidentiality. Delineates employment and self-employment opportunities in medical transcription and the advantages and disadvantages of each type of employment. Covers the requirements and logistics of setting up a home business and time management techniques for productivity when working at home. Studies the current technology and future trends of the business of medical transcription.

Prerequisites: MT 160, MT 180, MT 240. Corequisites: MT 210, MT 220, MT 280.

MT 280
Advanced Medical Transcription
Advanced medical transcription enables the student to further improve speed, accuracy, and productivity while transcribing a variety of medical specialties. Emphasis is on correctly using medical terminology, appropriately editing, and properly deleting extraneous expressions which impede comprehension in order to produce a final neat, error-free transcript. The importance of planning for continuing education while working as an MT is stressed. The potential impact of the electronic health record on the MT is explored. Security issues related to dictation and transcription systems, including the importance of computer audit trails, is studied.

Prerequisites: MT 160, MT 180, MT 240. Corequisites: MT 210, MT 220, MT 280.

MT 280A
Advanced Medical Transcription I
Advanced medical transcription enables the student to further improve speed, accuracy, and productivity while transcribing a variety of medical specialties. Emphasis is on correctly using medical terminology, appropriately editing, and properly deleting extraneous expressions which impede comprehension in order to produce a final neat, error-free transcript. The importance of planning for continuing education while working as an MT is stressed. The potential impact of the electronic health record on the MT is explored. Security issues related to dictation and transcription systems, including the importance of computer audit trails, is studied.

Prerequisites: MT 160, MT 180, MT 240 or MT 240A and MT 240B. Corequisites: MT 190, MT 210.

MT 280B
Advanced Medical Transcription II
Advanced medical transcription enables the student to further improve speed, accuracy, and productivity while transcribing a variety of medical specialties. Emphasis is on correctly using medical terminology and appropriately editing the dictation in order to produce a final neat, error-free transcript. The importance of planning for continuing education while working as an MT is stressed. The potential impact of the electronic health record on the MT is explored.

Prerequisites: MT 280A. Corequisites: MT 220, MT 260.

MULTIMEDIA WEB SITE DESIGN AND PRODUCTION
The Associate in Technical Arts in Multimedia Web Design is a non-transfer degree for students interested in becoming web designers. Students study drawing, illustration, design, photography, audio, graphic arts and web design while building computer skills for a second-year course sequence leading to the production of several comprehensive interactive multimedia web site projects. Students learn how to work with clients and agencies and also develop a personal portfolio of their work by the end of the second year. Fifteen hours of general education are required as part of the curriculum. Many of the courses within the degree are transferable and The Evergreen State College has approved...
Multimedia Production as an “Upside Down Degree.” Students interested in transfer to a four-year institution should talk with an advisor about an appropriate plan of study.

Faculty Advisor:
G. Kammer 425-388-9439 gkammer@everettcc.edu

MULTI 210
Web Design and Imaging Basics 5
Concepts and techniques of design for the Internet. Study of information design, prototyping, navigational structure and image optimization using digital imaging software. Topics include how the Internet works, skills development in Web design software, interface, site, and page design, Web graphics, Web typography, site publication, site testing and quality assurance.

Prerequisites: Some Macintosh computer experience or GRAPH 100 with a grade of C or higher.

MULTI 211
Web Design and Site Management 5
Web site design with an emphasis on architecture and interface design. Topics include hierarchically structured site plans, site navigation, page flow, defining design elements, information design, multimedia integration, symbols and words for navigation, mapping and metaphors, usability and readability, site testing and quality assurance. Emphasis on small business Web site design.

Prerequisites: MULTI 210 with grade of C or higher or instructor’s permission.

MULTI 213
Professional Projects: Web Design 5
Current trends, professional issues and practices. Projects include creation of advanced level web design pieces, including corporate identity. Topics include printing issues, project planning, studio practice, contracts and invoicing. Co-listed as GRAPH 213.

Prerequisites: MULTI 211 with a grade of C or better or instructor’s permission.

MULTI 221
3D Photography and Virtual Imaging 5
Principles of photography for the Internet with an emphasis on multimedia and panoramic treatments of subject matter. Topics include using conventional and digital cameras to produce large-scale panoramas, creating virtual objects for interactive product illustration on the Internet, creating virtual tours of interior and exterior spaces, scanning color negative and color slide film, exploring unconventional approaches to panorama and virtual space subject matter, and the software used to produce this imagery.

Prerequisites: GRAPH 110 with a grade of C or higher.

MULTI 250
Multimedia Internship 2-5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.

Prerequisites: Instructor’s permission.

MULTI 295
Portfolio Development 5
Advanced course designed for students nearing the completion of their Institute work in art, graphic arts, multimedia or photography. Professional portfolio techniques, including interviewing, resume preparation, portfolio design and development, editing, and self-assessments will be presented and explored. Lectures and presentation lab exercises, guest presentations, and development of personal style.

Prerequisites: Advisor or faculty recommendation required.

MUSIC

Everett Community College offers transferable courses in music for students who wish to complete four- or five-year music degrees at the senior institution of their choice. Music courses are also offered to fulfill the humanities area requirements of the Associate in Arts and Sciences degree. For the student interested in a two-year terminal degree, EvCC offers a forty-five credit general program in music. Students wishing to transfer to a four-year institution should talk with an advisor about an appropriate plan of study.

Faculty Advisor:
R. Waldron 425-388-9456 rwaldron@everettcc.edu

MUSIC 100
Fundamentals of Music 5
(H) Introduction to concepts and terminology of music including rhythm, notation, scales, key signatures, tonality, and basic chords.

MUSIC 109
Music for the Listener 5
(H) Lectures, readings, films, and recordings concerning structure, form, and aspects of music for the listener. Historic and stylistic examinations of music from its beginnings in western culture.

MUSIC 110D
World Music 5
(H, D) Introduction to the music of non-western cultures. Classical and folk traditions of Asia, traditional practices of Africa and Native America, and folk and regional styles of Europe and Latin America are studied. Focus is on history, evolution, and performance practices of these musical styles, as well as the aural identification of these musics. Study of music as a cultural phenomenon is emphasized, including the intercultural influences found in much of the world’s music that is a result of historical events such as human migrations, diasporas, invasions, and the effect of technological innovation.

MUSIC 115
Popular Music in America 5
(H) Historical, social and stylistic study of mainstream popular music in the 20th century, including jazz, country and western, Tin Pan Alley, Broadway musicals, and rock ‘n’ roll; sources, composers and performers.

MUSIC 116
Survey of Jazz 5
(H) Historical, social and stylistic study of the major periods of jazz, beginning with the music’s African roots and progressing chronologically to the avant-garde and popular jazz of today.

MUSIC 121, 122, 123
Class Piano - Elementary, Intermediate 2 each
(HP) Class instruction in piano. Open to all students.

Prerequisites: None for MUSIC 121; MUSIC 121 or examination for MUSIC 122; MUSIC 122 or examination for MUSIC 123.

MUSIC 124
Class Voice 3
(HP) Basic principles of good singing and performance. Beginning sight singing and ear training. Open to all students at any performance level. May be repeated two times for credit.

MUSIC 125
Intermediate Class Voice 2
(HP) Intermediate class instruction in voice. Beginning sight singing and ear training. May be repeated two times for credit.

MUSIC 129
Fundamentals of Music 5
(H) Lectures, readings, films, and recordings concerning structure, form, and aspects of music for the listener. Historic and stylistic examinations of music from its beginnings in western culture.

Prerequisites: Advisor or faculty recommendation required.
MUSIC 126
Singing on Stage  2
(HP) Instruction and experience using healthy singing techniques and natural projection to sing on stage focusing on musical theater and operetta repertoires. Some singing experience recommended. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

MUSIC 128
Class Guitar  2
(HP) Class instruction in guitar. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

MUSIC 140
Performance Ensemble  2
(HP) Vocal ensemble. Students study varied fare from madrigals to jazz and musical theater. Concerts on and off campus. May be repeated two times for credit.
Prerequisites: MUSIC 124 or MUSIC 125 or instructor’s permission by audition.

MUSIC 147
Everett Youth Symphony  2
(HP) Preparation and performance of standard orchestral literature. Evenings only. Open to interested instrumentalists, maximum age 21, no minimum. May be repeated two times for credit.
Prerequisites: Audition for all new instrumentalists.

MUSIC 151-159
Individualized Instruction in Applied Music 2, max. 12 in each medium
(HP) Individual instruction in performance medium, to be arranged. 151-Piano; 152-Voice; 153-Strings; 154-Woodwinds; 155-Brass; 156-Percussion; 157-Organ; 158-Accordion; 159-Guitar. Instructor assigned by arrangement with chair of music faculty. May be repeated up to 12 credits in each medium.
Prerequisites: Written permission from Chair of Music Department.

MUSIC 175
Everett Chorale  2
(HP) Preparation and performance of choral literature. Evenings only. May be repeated up to 12 credits.
Prerequisites: Audition for all new singers.

MUSIC 217
Private Instruction in Composition and Improvisation  2
(HP) Private instruction in composing music and improvising melodic lines relating to chord structures, harmonic progressions, and appropriate scales and modes. May be repeated two times for credit.

MUSIC 280, 281, 282
Piano Pedagogy  2 each
Principles of effective studio teaching; survey and evaluation of teaching materials. Offered primarily for piano teachers.
Prerequisites: Instructor’s permission.

NATURAL SCIENCE
See also Science Programs
Faculty Advisors:
R. Kratz  425-388-9503  rkratz@everettcc.edu
P. Pape-Lindstrom  425-388-9480  ppape@everettcc.edu

NAT S 101
Science Matters  5
(NS-L) An exploration of the modern collaborative role that science plays in technology and society. Critical examination of myths about science and scientists. Presentation of a unifying theme, such as the application of light to physics, chemistry, and biology: How light is used to observe our surroundings, how light works, light properties, the effects of light on life and the environment in our universe. Laboratory projects stress experimentation, discoveries, and group collaboration.
Prerequisites: ENGL 098 and MATH 017 (or equivalent).

NAT S 107
Physical Science for Everybody  5
(NS-L) Hands-on exploration of how motion, energy, and forces affect the way things work. For non-science majors. Highly recommended for elementary education majors.
Prerequisites: ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level; MATH 017 with grade of C or higher or skills assessment at MATH 027 or higher level.

NIPPON BUSINESS INSTITUTE
Due to a variety of factors, the nations of the world are developing closer, more interdependent political, social and economic relationships. The relationship that exists between the U.S. and Japan is one of the most important international relationships, yet often when representatives of these two global giants meet there are reports of friction and a “cultural gap.” Through education, it is possible to build bridges that lead to improved and mutual understanding of culture, history, business practices, communication styles, and economic issues.

It is up to those within businesses, organizations, agencies and educational institutions to try to bridge the cultural gap between the U.S. and Japan. It is likely that you are one of those who can help achieve this goal because now, or in the near future, every resident in the State of Washington will interact with someone from Japan on some level. Interactions might be with an important customer, a major vendor, a government official or even a friend or neighbor. Developing the skills to succeed in this exciting and challenging environment is the mission of Everett Community College’s Nippon Business Institute (NBI).

Temple University in Tokyo, Japan, offers EvCC graduates full transfer of the AAS Option II degree, and the opportunity to complete a U.S.-based university degree while living in Japan and gaining language and culture skills.

The NBI offers an Endorsement in U.S.-Japan Intercultural Fundamentals for those wanting to become more effective in their international interactions. Students study Japanese language, culture, history, effective business management and communication styles. The endorsement courses are transferable and can apply to the Associate in Arts and Sciences degree for both business and non-business transfer students. Students also have the opportunity to apply for a short cultural and language immersion opportunity in Japan.

See the Humanities and World Languages sections of this catalog for cultural and language course descriptions or visit our website at http://www.everettcc.edu/NBI for the curriculum guide for the NBI’s Endorsement in U.S.-Japan Intercultural Fundamentals.

Faculty Advisor:
M. Smith  425-388-9380  msmith@everettcc.edu
NURSING

The Nursing Program offers a career mobility approach to nursing education by providing a course of study that prepares students for licensure as registered nurses. Students have the option of making application and sitting for the LPN exam after four quarters of study. In addition, currently licensed LPNs can be accepted as advanced placement students in a program of study that will lead to their eventual ability to be licensed as RNs.

The curriculum includes a strong foundation in communication, biological and social sciences, general education, and nursing courses. Students integrate theory and practice throughout the nursing program. Application occurs in campus laboratories, classroom settings, acute care hospitals, long-term care facilities, and community health-care settings. Graduates receive an Associate of Arts and Science Degree after which they must satisfactorily complete the NCLEX-RN to become registered nurses. After four quarters of nursing, students may apply for a Certificate in Practical Nursing, after which they must satisfactorily complete the NCLEX-LPN to become licensed practical nurses. Licensed graduates are qualified for employment as entry-level nurses.

Program Approval and Accreditation
The Everett Community College Nursing Program is approved by:
Washington State Nursing Care Quality Assurance Commission
PO Box 47864, Olympia, WA 98504-7864
360-236-4702

and is accredited by:
National League for Nursing Accrediting Commission
61 Broadway, New York, NY 10006
212-363-5555 ext. 153 or 1-800-669-1656
www.nlnac.org

Characteristics of the LPN Graduate:
1. Under the supervision of the RN, participate with the client, family, significant others, and members of the health care team to:
   - Assess the client's physiological, psychological, sociocultural, and developmental functioning.
   - Establish goals directed toward preventing illness and promoting optimal health.
   - Explore options for care management of stable client situations.
   - Evaluate the outcomes of nursing actions to determine goal attainment.
2. Demonstrate critical thinking skills in the delivery of holistic care to well and ill clients.
3. Employ effective communication with clients, families, and other professionals within the context of the environment.
4. Demonstrate behaviors consistent with the ethical and legal framework of nursing.
5. Utilize multiple resources to create an environment that promotes the client's self esteem, dignity, safety, and comfort.
6. Utilize a scientific knowledge base regarding alterations in health to guide actions which promote and maintain the client's optimum health.
7. Demonstrate commitment, accountability, integrity and discretionary judgment in nursing practice, appropriate to the LPN level of practice.
8. Recognize the graduate's role in shaping health care delivery.
9. Articulate a professional plan.

Characteristics of the RN Graduate
Upon completion of the Nursing Program, the graduate will:
1. Participate with the client, family, significant others, and members of the health care team to:
   - Assess the client's physiological, psychological, sociocultural, and developmental functioning.
   - Establish goals directed toward preventing illness and promoting and restoring optimal health.
   - Explore options for care management of complex client situations.
   - Evaluate the outcomes of nursing actions to determine goal attainment.
2. Demonstrate critical thinking skills in the delivery of holistic care to well and ill clients.
3. Employ effective communication with clients, families, and other professionals within the context of the environment.
4. Demonstrate behaviors consistent with the ethical and legal framework of nursing.
5. Utilize multiple resources to create an environment that promotes the client's self esteem, dignity, safety, and comfort.
6. Utilize a scientific knowledge base regarding alterations in health to guide actions which promote and maintain the client's optimum health.
7. Demonstrate commitment, accountability, integrity and discretionary judgment in nursing practice, appropriate to the LPN level of practice.
8. Recognize the graduate's role in shaping health care delivery.
9. Formulate a plan for attaining professional goals and beginning the role transition. Licensed

Admission to the Nursing Program
Selection for and admission into the nursing program is based upon factors which have been determined to be indicators of future success in the EvCC Nursing Program and in the nursing profession. These factors include the applicant's presentation of a "complete" file, overall GPA and science GPA (see Nursing curriculum guide for additional information), and the demonstration of the Essential Qualifications (sensory/observation, communication, cognitive abilities, behavioral/emotional qualities, professional conduct, the ability to think critically, follow directions, problem solve, show understanding of and commitment to the nursing profession – explanatory document available from the Nursing Records Office).

Applications are accepted on an ongoing basis and are processed immediately following a deadline date. Only complete applications are considered for acceptance into the program (see Nursing curriculum guide for more specific information). It is the responsibility of the student to insure that materials are present in his/her file.

The selection process is precise and is carried out by the Nursing faculty. The process includes an academic file review and an interview focused exclusively on the Essential Qualifications. (Note: Students are chosen for interview based upon a review of their file. Due to the increasing number of applicants, only the most qualified applicants are asked to participate in the interview.)

Nursing Information Sessions are held at regular intervals for the purposes of discussing the profession of nursing, the role of the nurse, as well as Everett Community College's Nursing Program's requirements and entry standards. Additional detailed written information is found in the Nursing curriculum guide. Contact the Nursing Records Office to obtain a schedule of Nursing Information Sessions or to receive an application packet containing the Nursing curriculum guide (425-388-9463).

Transferring Students
Transfer students seeking advanced placement may be accepted from other nursing programs on a space available basis and after individual evaluation. Advanced placement students are not required to compete...
Licensed Practical Nurses Seeking Advanced Placement

Advanced placement for LPNs who hold a current license in Washington State may be provided through a structured course of study. Applications to the LPN-RN (N184) program are received at any time, however, the program offerings are limited to times when qualified faculty, qualified students, and placement openings in the nursing program are available. Application elements are identical to those required of students entering the ‘basic’ nursing program. The selection process includes: review of educational file, an interview, evaluation of attainment of Essential Qualifications, and standardized test results. LPN-RN students enter the program at different points, depending on the Admission Committee’s review of the student’s capabilities and the Admission Committee’s determination of the best opportunities for each student’s success. Additional information is available from the Nursing Records Office (425-388-9463).

Program Requirements

Requirements for AAS Degree and ability to write NCLEX-RN exam

Prerequisite courses
- English 101 or English 101D, College Writing
- Speech 100, Interpersonal Communication
- Psychology 203, Developmental Psychology: Lifespan
- Sociology 110, Survey of Sociology, or Anthropology 202D, Principles of Sociocultural Anthropology
- Biology 160, Cellular Biology
- Biology 235, Human Anatomy
- Biology 237, Human Physiology
- Biology 250, Microbiology

Total Prerequisite Credits: 42.5

Nursing courses
- Nursing 110, Introduction to Nursing and the Client
- Nursing 120, Chronicity and Rehabilitation
- Nursing 130, Acute Illness
- Nursing 210, Family Health and Reproduction
- Nursing 220, Multisystem Disorders
- Nursing 230, Role Transition into Professional Nursing

Total Program Credits: 119.5

Requirements for Certificate in Nursing and ability to write NCLEX-LPN exam

Prerequisite courses
- English 101 or English 101D, College Writing
- Speech 100, Interpersonal Communication
- Psychology 203, Developmental Psychology: Lifespan
- Biology 160, Cellular Biology
- Biology 235, Human Anatomy
- Biology 237, Human Physiology

Total Prerequisite Credits: 32.5

Nursing courses
- Nursing 110, Introduction to Nursing and the Client
- Nursing 120, Chronicity and Rehabilitation
- Nursing 130, Acute Illness
- Nursing 210, Family Health and Reproduction

Total Program Credits: 84.5

Post-graduation Transfer to a Baccalaureate Program

General education courses are available for pre-nursing students and registered nurses planning to transfer to a university for a baccalaureate degree in nursing. Since requirements for individual schools vary, maintaining contact with a Nursing advisor and the four-year institution is important.

EvCC maintains an articulation agreement for admission and credit transfer with the University of Washington-Bothell. Prospective students are encouraged to discuss this program with a Nursing advisor in order to maximize this opportunity.

Faculty Advisors:

- N. Zoeller 425-388-9473 nzoeller@everettcc.edu

NURS 095

Success Strategies for Nursing Study

Course is designed to assist the nursing student to experience success in the nursing program. Content includes problem solving and study strategies specific to the art and science of nursing. Practice is offered in critical thinking and reasoning skills, application of the nursing process, test taking skills, and preparation for learning related to study required for nursing courses.

Prerequisites: Admission to the Nursing Program, selection by the Nursing Admission Committee.

NURS 100

Nursing Assistant Certified

Prepares students to function in a myriad of health care settings. Focuses on acquiring basic technical skills, personal care skills, restorative care skills, psych and social needs and communication skills to work in an entry-level position in acute care, long-term care and home health settings. HIV/AIDS and CPR training are included. Upon completion students may apply for DBRA certification in Washington State.

Prerequisites: High school diploma or GED and completed student immunization record.

NURS 104

Critical Thinking in Nursing

Focuses on critical thinking and nursing professionalism. Students explore levels of critical thinking, individual assumptions and blocks to critical thinking and evaluate alternatives for problem solving. Individual and group participation activities and review of actual case studies will focus on cognitive and affective skills, therapeutic communication skills, values clarification, cultural value setting, clinical decision-making, and ethical decision-making.

Prerequisites: Acceptance into the Nursing Program.
NURS 110
Nursing Therapeutics I: Introduction to Nursing and the Client  13
Introduces caring as a framework underlying nursing as a science and a profession. Four concepts are examined: client, nursing, health, and environment. Themes of nursing process, problem solving, communication, teaching, learning ethics, and legal aspects are introduced. Models of health care delivery are explored. Additionally, altered health states of protective and healing mechanisms are introduced to provide a foundation for studying diseases and disorders of human functioning. Topics include cellular injury, inflammation, wound healing, ineffective thermoregulation, infection, immune response, stress, and activity intolerance. During lab, students develop the concept of health promotion as a basis for assessing and intervening to maintain wellness. Holistic dimensions of client assessment are presented along with techniques used in communication, interviewing, history taking, diagnostic reasoning, and health promotion. The student will apply techniques of physical assessment through practice on well adults. Documentation techniques are incorporated throughout the course. Specific health-related issues focus on the middle and older aged adult. Basic skills of nursing are included in this course.
Prerequisites: ENGL 101, BIOL 160, BIOL 235. Acceptance into the Nursing program.

NURS 120
Nursing Therapeutics II: Chronicity and Rehabilitation  13
Presents an integrated view of mind/body responses to altered health states. Selected health problems of adults are viewed in relation to epidemiology, risk factors, pathophysiological mechanisms and clinical manifestations. Content incorporates rationales for health care interventions, including diagnostic methods and treatment. Explores the application of nursing principles and theories to determine appropriate nursing diagnoses and nursing therapies. Provides opportunities for the development of cognitive, interpersonal, and technical skills essential to the care of adult clients. Alterations in fluid, electrolytes, acid-base balance, mobility, sensation, mood, cognition, integumentary, immunity, and metabolism are addressed. During lab students integrate and apply the art and science of nursing through the use of case studies, scenarios, clinical simulations, client care, and special projects. This course utilizes the nursing process, critical thinking, and self-reflective activities as the basis for collaborative learning in the formulation, implementation, and evaluation of nursing care for adults experiencing selected health alterations.
Prerequisites: NURS 110 and BIOL 237.

NURS 130
Nursing Therapeutics III: Acute Illness  13
Continuation of Nursing 120. Explores increasingly complex body system alterations and presents the nursing therapies connected with these alterations. Emphasizes cognitive, interpersonal, and technical activities. Presents problems in oxygenation, oxygen transport, blood coagulation, blood flow and pressure, cardiac output, tissue perfusion, renal/urinary function, gastrointestinal function, and neuro-biology of selected psychological disorders. During the lab students develop nursing skills and judgments through the use of the nursing process, critical thinking, and self-reflective activities. Students utilize collaborative learning in the planning, implementation, and evaluation of nursing care for adults experiencing selected health alterations presented in NURS 130.
Prerequisites: NURS 120 and SPCH 100.

NURS 150
NCLEX Preparatory Course  2.5
Overview of the nursing knowledge base as applied to the NCLEX test plan. Learning experiences target the critical content areas of the examination for the student. The course is designed to enhance the student’s probability of successfully passing the NCLEX examination for RN licensure.
Prerequisites: Successful completion of four quarters of the Nursing program.

NURS 184
Career Mobility for LPNs  4
Transitional course for LPNs eligible for advanced placement into associate degree nursing program. Introduces the practical nurse to the process of change inherent in the transition to the role of registered nurse. Content is defined within the construct of role components of the RN. Emphasis is placed upon self-awareness, recognition of client diversity, and professionalism. Learning activities provide for skill development in physical assessment, application of the nursing process to decision-making, critical thinking, interpersonal communication, and management of the care environment. Self-paced modules provide a review of selected alterations in health.
Prerequisites: Acceptance into the nursing program. Completion of ENGL 101, PSYCH 100 and PSYCH 203, SPCH 100, BIOL 160, BIOL 235, BIOL 237, BIOL 250, Washington State LPN license. Corequisites: NURS 130.

NURS 210
Nursing Therapeutics IV: Family Health and Reproduction  13
Presents an integrated view of responses to normal growth and development from infancy through adolescence and the expanding family. Selected health problems of women and children are examined in relation to epidemiology, risk factors, pathologic mechanisms, and clinical manifestations. Content incorporates rationales for health care interventions including diagnostic methods and treatment. Opportunities for the development of cognitive, interpersonal, and technical skills essential to the care of women, children, and families are provided. During the lab students have opportunities to apply the art and science of nursing in the analysis, synthesis, provision, and evaluation of client care. This course utilizes the nursing process and critical thinking skills as a basis for the care of women, children, and families.
Prerequisites: NURS 130 and PSYCH 203.

NURS 220
Nursing Therapeutics V: Multisystem Disorders  13
Explores multi-system physical and mental health alterations and related nursing therapies. Presents rationale for interventions, including assessment, diagnostic methods and treatments. Nursing therapies emphasize cognitive, interpersonal and technical activities. Burns, cancer, dissociative disorder, head injury, hepatic failure, HIV/AIDS, perinatal care, personality disorder, renal failure, schizophrenia, shock, and spinal cord injuries are addressed. During the lab students develop increasingly complex nursing skills and judgments through the use of critical thinking, nursing process, and self-evaluation. This course promotes collaboration with peers and health care professionals to plan, implement, and evaluate nursing care for adults with multisystem alterations.
Prerequisites: NURS 210 and BIOL 250.

NURS 230
Nursing Therapeutics VI: Role Transition into Professional Nursing  12
Addresses aspects of becoming a professional nurse through the exploration of personal values, nursing ethics, legal accountability, power, politics, collective bargaining, and the business of the changing contemporary healthcare system. Includes topics related to personal nursing practice, role transition, stress management, and professional growth and maturation. Identifies and analyzes nursing responsibility and accountability for alleviating suffering, promoting health and facilitating wellness for individuals, families, groups, and communities. During the lab students have clinical experiences in a selected site. In some situations staff nurses serve as mentors or preceptors.
Prerequisites: NURS 220, SOC 110 or ANTHR 202D.

NURSING, CONTINUING EDUCATION

The Nursing Department offers education courses, workshops, and conferences for registered nurses, licensed practical nurses, and other health care personnel as community interest becomes known and as faculty are available. Designed to enhance basic knowledge and enable the participant to remain current with the rapidly growing body of knowledge in the health care field, such offerings vary in length and
NURS 265
LPN Refresher 16
Enables inactive licensed practical nurses or LPNs seeking a change in work environment to resume a nursing career with confidence and competence by updating, reviewing and expanding nursing knowledge and re-establishing nursing skills.
Prerequisites: Admission to the Nursing Program. Practical nurse licensure in Washington State ("limited educational licensure").

NURS 270
Current Practices in Nursing 16
Provides content to enable the inactive registered nurse to resume a nursing career. Clinical experiences take place in selected sites using staff nurses as mentors or preceptors. Emphasis is placed on updating, reviewing and expanding nursing knowledge while re-establishing nursing skills.
Prerequisites: Registered nurse licensure in Washington State ("limited educational" licensure); admission by instructor's permission.

NURS 275
Post Graduate Clinical Practicum: Acute Care 12
Provides currently licensed graduates of registered nursing programs a supervised acute care clinical work experience in which to apply theory and clinical skills to foster professional growth and gain self confidence. Competency based, experience centered. 360 hours.
Prerequisites: Graduation from NLN approved school of nursing; current licensure as registered nurse in state of Washington; current immunization profile, CPR and Washington State Patrol background check.

NUTRITION
Nutrition is currently a topic of great interest in the United States since good nutrition has such an impact on wellness. Because nutrition has such an impact on chronic diseases like diabetes and heart disease, it is even being discussed in the political arena. Recently, food label information has been updated, many public schools are making good nutrition more of a priority, and some health insurance companies are rewarding people for good nutrition practices.

Nutrition courses at Everett Community College primarily serve non-majors, and meet the non-lab natural science requirement for a non-science major Associates Degree. Students in nutrition classes learn the basic science and practical application, including analyzing their own diets. For students interested in majoring in nutrition, there is a curriculum guide outlining recommended courses for transfer to a university. Students wishing to major in nutrition are strongly advised to meet with an advisor at Everett Community College as soon as possible after enrolling.

Faculty Advisor:
N. Vandenberg 425-388-9455 nvandenberg@everettcc.edu

NUTRI 150
Nutrition 5
(NS) Basic principles of nutrition for infants, children adolescents and adults; guidelines for healthy diet, nutrient functions and food sources; and the role of nutrition in maintenance of optimal health, physiological growth and development, and disease prevention.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

NUTRI 160
Sports Nutrition 3
(NS) Introductory study of sports nutrition and its relationship to health, fitness, and athletic performance. Provides specific nutritional recommendations for individuals participating in recreational exercise as well as for competitive athletes training to improve sports performance. Includes evaluation of ergogenic aids, dietary aids, dietary supplements, and nutritional practices promoted to enhance athletic performance. Body composition analysis also included.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level; NUTRI 150 recommended.

NUTRI 170
Nutrition & Disease Prevention 3
(NS) Role of nutrition in the prevention and treatment of chronic diseases. Review of basic nutrition concepts; an in-depth look at how nutrition and exercise affect risk of heart disease and stroke, hypertension, obesity, diabetes, cancer, osteoporosis and other diseases. Evaluation of different diet plans, and overview of the use of various supplements.
Prerequisites: NUTRI 150 or any biology course; MATH 017 or skills assessment at MATH 027 or higher level.

OCEANOGRAPHY
Many people elect to live in places like the Pacific Northwest precisely because they are near the World Ocean, an ocean which has figured heavily in the news for reasons related to the environment, resources and huge natural disasters like the recent tsunami in south Asia. It is a place that is mystical and at the same time inspires human curiosity. Oceanography courses offer the student the opportunity to experience the ocean and satisfy some of that curiosity while completing their natural science lab requirement for a non-science major Associates Degree. The curriculum also offers a strong introduction to oceanography for aspiring marine scientists and the courses pair up well with marine biology, also offered at Everett Community College. These courses include trips to the coast and, weather permitting, a boat trip for hands-on experience with oceanography. There are also courses offered which are parts of learning communities where two subjects, like English composition and oceanography, are integrated to enhance the learning experience for the student by offering two perspectives on a subject in one combined class. There are offerings each year that provide alternate formats for students who have difficulty attending conventional daytime college courses. These include telecourses and evening hybrid courses which eliminate or substantially reduce the need to come to campus by taking advantage of technology offered by the Internet.

Detailed curriculum guides are available at the College website and on campus for Oceanography. Students wishing to take an oceanography course and/or major in oceanography are strongly urged to consult with an academic advisor at Everett Community College at their earliest opportunity.

Faculty Advisor:
S. Grupp 425-388-9450 sgrupp@everettcc.edu

OCEAN 101
Physical Oceanography 5
(NS-L) Introduction to Earth’s oceans, including origin and evolution of ocean basins, composition and variability of seawater, oceanic structure and circulation patterns, and marine pollution. Laboratory projects stress hands-on experiments and field experiences.
Prerequisites: MATH 017 or skills assessment at MATH 027 or higher level; ENGL 098 with grade of C or higher or skills assessment at ENGL 101 or higher level.

PHIL 100  
Introduction to Philosophy  5  
(H, SS) Study of the more important questions that have shaped the development of philosophical thought throughout history. Areas of investigation include: the nature of reality, the nature of knowledge, the nature of personal identity, and the nature of the mind.

PHIL 110  
Social Ethics  5  
(H, SS) Societal-ethical study of society focusing on the ‘great burning issues of the day.’ Students will be encouraged to think for themselves and engage the instructor and one another in dialogue about some of the most controversial disputes of the day. The specific topics covered will vary from year to year.

PHIL 118  
Critical Thinking  5  
(H, SS) Focus on analyzing, evaluating, and constructing thought in clear logical fashion, with application to various fields. The criteria to be used when determining truth and falsity will also be examined. The course is a non-symbolic approach to logic and does not fulfill a quantitative skills requirement.

PHIL 120  
Formal Logic  5  
(Q, NS) Study of the methods and principles used to distinguish correct from incorrect reasoning. After establishing a few basic concepts, the course will proceed to discuss three types of symbolic logic: Categorical, Propositional, and Predicate. Students are expected to participate in working through problems and proofs presented in the text and in class.

PHIL 150  
Philosophy in the Cinema  5  
(H) Discussions of major philosophical questions and theories as they are raised in films from a wide variety of genres, countries, and times. Consists of film presentations, class discussions, short philosophical essays, and student written work in response to these. Prerequisites: Placement in ENGL 101 is advised.

PHIL 215  
Ethics  5  
(H, SS) Study of some of the more important questions that have shaped the development of moral philosophical thought from ancient times to the present. Students will be encouraged to think for themselves and engage the instructor and one another in dialogue about the most ethically correct course of action in a wide variety of applications. At the conclusion of the course students will be better equipped to understand why individuals differ in their moral judgments, and have the tools they need to continue their own investigations of ethical issues.

PHIL 267  
Philosophy of Religion  5  
(H, SS) Philosophical study of religious thought focusing primarily on the religious-philosophical and theological thinking associated with Christianity but not excluding Judaism, Islam, Buddhism or Hinduism.

PHLEBOTOMY

See Health Sciences
Prerequisites: PHOTO 121.

Environmental portraits; interaction in people. 35mm equipment is emphasized. Various of people emphasized; spontaneous expressions and true character of subject. Editorial and interpretive photography for publication. Composition and photography

Photojournalism I

Prerequisites: PHOTO 115, PHOTO 121, or instructor’s permission.

Creative expression. This is the foundation course for the color photography sequence. E-6 videos will guide the student to an understanding of color photography as a form of

Elements of Color Photography

Prerequisites: PHOTO 121 and PHOTO 122 or instructor’s permission.

Photographic project resulting in a portfolio.

B&W Photo: Exploration and Evaluation

Prerequisites: PHOTO 110 or instructor’s permission.

Introduction to wet lab darkroom processes for students interested in traditional photographic methods. Technical considerations include: film camera operation, film theory and development, printing theory and practice, and basic printing techniques.

Traditional Darkroom Processes

Prerequisites: PHOTO 115, PHOTO 121, PHOTO 230 or instructor’s permission.

Study of the Zone System for maximum image density control. Parametric D curves for film speed and optimum development. Previsualizing subject matter and carefully planning exposure and development for desired value rendering. Contract expansions, contractions, and normal development. Use of the spot exposure meter. Student will need a fully adjustable camera.

B&W Photo: Zone System

Prerequisites: PHOTO 116, PHOTO 122, or instructor’s permission.

Photorealistic and creative compositing will be emphasized.

Advanced Black & White Printing Techniques

Color Printing Theory and Practice Using Traditional White Light Printing Methods, including Acquisition Strategies, Advanced Selection Methods with Channels, Layer Masks and Paths, and Blend Modes for Correction and Creative Purposes. Photorealistic and Creative Compositing will be Emphasized.

Color Photography II: Digital Imaging

Prerequisites: PHOTO 111 or instructor’s permission.

Study of the basic aesthetic, perceptual and technical theories of color photography. Using color transparency film, a series of projects, lectures, slide presentations and videos will guide the student to an understanding of color photography as a form of creative expression. This is the foundation course for the color photography sequence. E-6 processing chemicals will be provided by the department.

Elements of Color Photography

Prerequisites: PHOTO 115, PHOTO 121, or instructor’s permission.

Advanced students develop a body of personal work, thematic and sequential in nature. Includes project proposal, print evaluations, advanced printing and presentation methods, and color management strategies. Resultant portfolio of work is publicly exhibited and/or presented.

Photography VI: Advanced Processes

Prerequisites: PHOTO 116, PHOTO 122, or instructor’s permission.

Photorealistic and creative compositing will be emphasized.

Photography V: Advanced Processes

Prerequisites: PHOTO 115, PHOTO 121, or instructor’s permission.

Using color transparency film, a series of projects, lectures, slide presentations and videos will guide the student to an understanding of color photography as a form of creative expression. This is the foundation course for the color photography sequence. E-6 processing chemicals will be provided by the department.

Photojournalism I

Prerequisites: PHOTO 121.

Composition and photography of people emphasized; spontaneous expressions and true character of subject. Environmental portraits; interaction in people. 35mm equipment is emphasized. Various lenses, process alterations, flash, sports. Working with editors and project deadlines.

Prerequisites: PHOTO 121.

Photography for The Clipper, the college newspaper. News, features, sports, and photo-illustration. Page design and layout emphasized. Photographers work collaboratively with student editors, reporters, and co-advisors. Training for initiative and collaborative work. May be repeated two times for credit.

College Newspaper Photography

Prerequisites: Instructor’s permission.

Photography IV: Advanced Color Theory and Practice

Prerequisites: PHOTO 110 or instructor’s permission.

Study of the Zone System for maximum image density control. Parametric D curves for film speed and optimum development. Previsualizing subject matter and carefully planning exposure and development for desired value rendering. Contract expansions, contractions, and normal development. Use of the spot exposure meter. Student will need a fully adjustable camera.

Advanced Black & White Printing Techniques

Prerequisites: PHOTO 116, PHOTO 122, or instructor’s permission.

Photorealistic and creative compositing will be emphasized.

Photography V: Advanced Processes

Prerequisites: PHOTO 115, PHOTO 121, or instructor’s permission.

Using color transparency film, a series of projects, lectures, slide presentations and videos will guide the student to an understanding of color photography as a form of creative expression. This is the foundation course for the color photography sequence. E-6 processing chemicals will be provided by the department.

Photojournalism I

Prerequisites: PHOTO 121.
PHOTO 223
Color Photography III: Advanced Digital Imaging 5
Prerequisites: PHOTO 221 or PHOTO 222, Graphic Arts advised, or instructor’s permission.

PHOTO 230
History of Photography 5
(H) Overview of the history of 19th and 20th century photography with attention to the sociological and pictorial contexts. Enables both the professional photographer and the lay person to view photographs intelligently as both aesthetic experience and factual report.

PHOTO 243
Studio Photography I 5
Study of tungsten studio lighting and digital camera techniques. Includes diverse concepts in studio lighting, subject and spatial manipulation, statement control, and digital camera capture workflow. Equipment is provided.
Prerequisites: PHOTO 111 or instructor’s permission.

PHOTO 244
Studio Photography II 5
Photographing people in studio and location environments using studio and location electronic flash systems and methods, traditional and non-traditional portraiture, set design and directing. Student projects may be of personal or commercial nature. Studio and location electronic flash units, all camera formats, tripods, and flash meters are provided. May work in black and white, color, or both.
Prerequisites: PHOTO 243 or instructor’s permission.

PHOTO 250
Photography Internship 2-5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

PHOTO 295
Portfolio Development 5
(HP) Advanced course designed for students nearing the completion of their Institute work in photography. Professional portfolio techniques, including interviewing, resume preparation, portfolio design and development, editing, and self-assessments, will be presented and explored. Lectures and presentation lab exercises, guest presentations, and development of personal style. 
Prerequisites: Advisor or faculty recommendation required.
PEHW 108
Cardiovascular Exercise Therapy 1-2
(TE) RN supervised Phase III/IV rehabilitation exercise program for people with known coronary artery disease, or other risk factors like stress, high blood pressure, diabetes, a history of smoking or sedentary lifestyle. Participants use stationary bikes, Nordic track, Universal equipment, and treadmills. Risk factor modification strategies and informal peer support. May be repeated two times for credit.

Prerequisites: Students with high-level risks may need a physician’s referral.

PEHW 110
International Folk Dance 1-2
(TE) Physical and mental exercise while participating in a variety of international folk and line dances. Basic steps, formations, and dance positions of various international and American folk and line dances. May be repeated two times for credit.

PEHW 111
Kick Boxing Aerobics 1-2
(TE) Dynamic low impact aerobic workout combining punches, jabs, and variety of kicks to strengthen upper and lower body. Effectively increases endurance, coordination, strength and balance. May be repeated two times for credit.

PEHW 113
Bench Step Aerobics 1-2
(TE) Bench stepping for aerobic conditioning. Exercises for flexibility, strength, cross training, and step combinations, performed on a lightweight platform designed for step training. Bench step aerobics is low impact with high intensity fitness training. May be repeated two times for credit.

PEHW 116
Low Impact Aerobics 1-2
(TE) Aerobic workout with music. Appropriate movements assist in vigorous activity with minimal fatigue of joints. No previous experience with aerobic dance or exercise necessary. May be repeated two times for credit.

PEHW 120
Circuit Fitness 1-2
(TE) Fast fitness! Circuit fitness develops cardiovascular fitness, muscular endurance, and flexibility through the use of weight machines, treadmills, rowing machines, and exercise bikes. Improve your fitness in minimum time with maximum benefits. May be repeated two times for credit.

PEHW 121
Walk, Jog, Run 1-2
(TE) Walk, jog, and run your way to improved fitness. Correct techniques, basic physiology, and training methods for walking, jogging, and running. May be repeated two times for credit.

PEHW 124
Introduction to Weight Training 1
(TE) Introduction of basic weight training and flexibility exercises designed to improve muscle tone and physical conditioning. May be repeated two times for credit.

PEHW 125
Beginning Weight Training 3
(TE) Basic principles of weight training, exercise selection, safety, fundamental techniques in lifting free and machine weights. Individual program designed for body building or toning. May be repeated two times for credit.

PEHW 126
Advanced Weight Training 3
(TE) Advanced weight lifting skills, added weights, repetitions and exercises. Cardiovascular training option with increased interval work and increased distance mileage and pace. Emphasis on definition of muscles. Body building or power lifting (student’s choice). Daily weight training and diet. Increased emphasis on improving physical condition of the student. May be repeated two times for credit.

Prerequisites: PEHW 125.
Varsity Sports

PEHW 160  Varsity Volleyball  2  
(TE) Conditioning, skills, rules, and strategy for competitive intercollegiate volleyball play. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Volleyball.

PEHW 161  Varsity Soccer  2  
(TE) Conditioning, skills, rules, and strategy for competitive intercollegiate soccer play. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Soccer.

PEHW 162  Varsity Cross-Country  2  
(TE) Conditioning, skills, rules and strategies for running competitive, intercollegiate cross-country. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Cross-Country.

PEHW 163  Varsity Basketball  2  
(TE) Conditioning, skills, rules, and strategy for competitive intercollegiate basketball play. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Basketball.

PEHW 164  Varsity Softball  2  
(TE) Conditioning, skills, rules, and strategy for competitive intercollegiate softball play. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Softball.

PEHW 165  Varsity Baseball  2  
(TE) Conditioning, skills, rules and strategies for playing competitive, intercollegiate baseball. May be repeated two times for credit. 
Prerequisites: Instructor’s permission. Corequisites: Enrollment in Intercollegiate Baseball.

General Physical Education Courses

PEHW 201  Emergency Response  5  
(TE) Provides information and practice necessary for development of personal judgment, first aid knowledge and skills for self-help, help for others, and preparation for emergencies. Includes all levels of CPR. Successful completion of course may lead to American Red Cross “Emergency Response” and “CPR for the Professional Rescuer” certifications.

PEHW 203  Lifetime Health and Wellness  3  
(TE) Dimensions of wellness, principles of and training for health-related fitness, the relationship of lifestyle habits to chronic disease, basic nutrition, stress management, and wellness for life. 
Prerequisites: Recommend completion of ENGL 098 and/or eligibility for ENGL 101.
Beginning Fall 2008, the Physical Therapist Assistant (PTA) program is a joint program between Everett Community College and Lake Washington Technical College (LWTC). The program is a 90-credit course of study leading to an Associate Degree. Upon successful completion of the program, students will be eligible to take the PTA licensing examination offered by the State of Washington. Classes occur at EvCC and LWTC and will be a combination of in-person and video-conference modes. Program prerequisites include English 101, Health 93, Health 100, Health 102, and Health 202.

Program length: Associate Degree - 90 credits
See Health Sciences course listings.

Contact:
Division of Nursing and Health Sciences office – 425-388-9461

PTA 110
Patient Care Fundamentals & Massage 5
Principles and techniques of selected physical therapy treatment methods, including aseptic techniques, universal precautions, body mechanics, safety procedures, vital signs, positioning and draping. Emphasis will be on the development of psychomotor skills and an understanding of patient safety. Includes soft tissue manipulation and basic massage skills.
Prerequisites: Admission into Physical Therapist Assistant program.

PTA 120
Professional Issues I: Introduction to PTA 4
Orientation to the physical therapy profession and the APTA. Topics include history, philosophy, professional organization, federal/state regulations, interpersonal relationship skills, professional ethics and the role of the PTA in the healthcare team.
Prerequisites: Admission into Physical Therapist Assistant program.

PTA 121
Professional Issues II: Documentation & Billing 5
Introduces PTA students to professional communication in their field. Covers research skills, techniques, medical documentation and oral presentation of information to others. Course will contain information, theories and guidelines for documenting and writing progress or interim notes in the medical record. Reimbursement/billing will be discussed as they relate to the delivery of healthcare.
Prerequisites: PTA 120.

PTA 122
Professional Issues III: Ethics & Job Preparation 3
Focus on PTA professional ethics as it relates to patient treatment, billing, and documentation. Covers the structure and legal aspects of the physical therapy profession. Licensing, state practice act review, professional development, performance improvement, malpractice insurance, employment opportunities and community service will be covered.
Prerequisites: PTA 121.

PTA 130
Biomechanics I 6.5
Emphasizes the skeletal, articular and muscular systems in relationship to the practice of physical therapy. Includes the basic principles of kinesiology and function of the musculoskeletal system as they pertain to human movement. Covers the extremities and shoulder girdle. Coursework will include palpation, manual muscle testing, goniometry and range of motion assessment.
Prerequisites: HLTH 102, HLTH 202, admission to the Physical Therapist Assistant program.

PTA 131
Biomechanics II 6.5
Emphasizes the skeletal, articular and muscular systems in relationship to the practice of physical therapy. Addresses more advanced principles of kinesiology and function of the musculoskeletal system as they pertain to human movement. Covers the spine and pelvic girdles as well as gait analysis and posture. Coursework will include palpation, manual muscle testing, goniometry and range of motion assessment.
Prerequisites: PTA 130.

PTA 140
Therapeutic Exercise I 5
Introduction to the neurophysiological, musculoskeletal and cardiovascular basis for application of therapeutic exercise. Various basic therapeutic exercise techniques and the basis of these techniques for application to patient care rehabilitation will be covered.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 141
Therapeutic Exercise II 5
Covers the development of exercise programs specifically applied to particular diagnoses and functional limitations. Application of gait training to various pathologies and or problems will be discussed. The terminology and use of functional training in rehabilitation will be emphasized.
Prerequisites: PTA 140.

PTA 150
Modalities/Physical Agents 5
Examines the theory and principles of physical therapy modalities. Therapeutic intervention utilizing physical agents in the treatment of acute and chronic diseases and injuries will be covered. Course curriculum contains traction, superficial heat and cold, deep heat and hydrotherapy.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 151
Advanced Modalities/Physical Agents II 4
Investigation of the principles and the application of electrical stimulation modalities currently used in physical therapy practice. Emphasis on the electrochemical and physiological effects of electrical stimulation and identification of the various forms and applications will be covered. Course will also introduce wound care, burn care and infection control.
Prerequisites: PTA 150.

PTA 160
Understanding Disabilities 3
Explores the psychosocial aspects of the patient/client and health care practitioner. Recognition of and adjustment for psychological, sociological, educational, cultural, economic and political concerns on the delivery of health care services are investigated. Social advocacy responsibilities of the health care practitioner will be discussed.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 170
Pathophysiology 4
Introduction to the pathophysiology of selected medical, surgical, orthopedic and neurological conditions commonly treated in physical therapy. Investigation of the changes resulting from disease such as trauma, genetic, immunological, inflammatory and degenerative processes.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 220
Clinical Practicum I 4
This three-week, full-time course will be the initial clinical exposure providing hands-on experiences with various types of patient skills and techniques. Education includes application of basic patient care skills in an orthopedic setting.
Prerequisites: Admission to Physical Therapist Assistant program.
PTA 221
Clinical Practicum II 6.5
Clinical will provide advanced treatment experience of patients under the supervision of a registered physical therapist in various types of delivery systems. Problem-solving techniques are employed in the evaluation and execution of patient care plans. This is the first full-time clinical rotation.
Prerequisites: PTA 220.

PTA 222
Clinical Practicum III 6.5
Provides advanced treatment experience of patients under the supervision of a registered physical therapist in various types of delivery systems. Problem-solving techniques are employed in the evaluation and execution of patient care plans. This is the final full-time clinical rotation for PTA students.
Prerequisites: PTA 221.

PTA 230
Seminar I 1
Focus on research and presentation of a case study relevant to the previous clinical practicum.
Prerequisites: PTA 220.

PTA 231
Seminar II 1
Focus on continuation of research and presentation of a case study relevant to the previous clinical practicum.
Prerequisites: PTA 221.

PTA 232
Seminar III 1
Focus on continuation of research and presentation of a case study relevant to the previous clinical practicum.
Prerequisites: PTA 222.

PTA 240
Orthopedic & Acute Care Rehabilitation 5
Focus on the principles and application of progressive resistive exercise, upper and lower extremity joint mobilization and exercise progression. The orthopedic emphasis will cover specific musculoskeletal disorders and appropriate therapeutic intervention for each diagnosis. Course will also cover common medical and surgical conditions related to clients in the acute care environment.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 250
Neuromuscular & Cardiopulmonary Rehabilitation 5
Treatment of neurological and cardiovascular disabilities. Neuromuscular aspect of the course introduces neuromotor concepts, common neurological pathologies and the rehabilitation concept and accepted therapeutic interventions for specific diagnoses. Includes common medical and surgical conditions related to intervention for clients with cardiopulmonary disorders.
Prerequisites: Admission to Physical Therapist Assistant program.

PTA 260
Rehabilitation for Special Patient Populations 4
Provides in-depth analysis to the treatment considerations of pediatric through geriatric patient populations. Rehabilitative procedures and techniques involved in the rehabilitation of individuals of all age groups with disabilities will be covered. Specific congenital and acquired conditions will be highlighted.
Prerequisites: Admission to Physical Therapist Assistant program.

PHYS 101
Concepts and Connections 5
(NS-L) Laboratory-based introduction to physics that explores the nature of the universe using classical and modern theories of physics. Emphasizes the historical development of these theories and the scientific method and role of measurement in science. Emphasizes conceptual rather than mathematical understanding of physics.
Prerequisites: MATH 065 or equivalent, ENGL 098 with a grade of C or higher or eligibility for ENGL 101.

PHYS 103
Technical Physics 5
(NS-L) Explores basic concepts in mechanics, thermodynamics and electricity and applies them in understanding the operation of simple mechanical devices such as electric lights, hydraulic lifts and screws. This course is intended primarily for students pursuing a vocational/technical certificate or degree but is also suitable as a natural sciences distribution for transfer students.
Prerequisites: MATH 031 or equivalent; ENGL 098 with a grade of C or higher or skills assessment at ENGL 101 or higher.

PHYS 130
Fabrication Skills and Safety 1
Designed to introduce students to the tools used in woodworking and metal fabrication, instruct students in proper use of these tools and safety protocols associated with the tools and a shop in general. This course is a prerequisite for use of tools in the physics/engineering shop and 3-D arts studio. Credit cannot be earned in both PHYS 130 and ART 130.

General Physics
Laboratory science courses for liberal arts students and those in pre-professional programs not requiring calculus-based physics. Emphasis on historical development, experimental methods, basic problem-solving skills, and relationships between physics and other areas of study.

PHYS 117
General Physics I 5
(NS-L) Motion, force, and energy are studied.
Prerequisites: ENGL 098 with a C or higher, MATH 140 or equivalent.

PHYS 118
General Physics II 5
(NS-L) Continuation of PHYS 117. Periodic motion, mechanical waves and heat are studied.
Prerequisites: PHYS 117.

PHYS 119
General Physics III 5
(NS-L) Continuation of PHYS 117. Electromagnetism and light are studied.
Prerequisites: PHYS 117.
Engineering Physics
This series of courses is intended for those who seek to transfer into an Engineering or Physical Science program at a four-year institution. Lectures emphasize problem-solving techniques as applied to concepts from classical physics. Laboratory focuses on developing experimental and analytical techniques that will allow students to complete an independent laboratory research project.

PHYS 121
Engineering Physics I 4
(NS-L) Mechanics. First quarter of one-year sequence (PHYS 121-123) in classical and modern physics for engineering majors and most science majors planning to transfer.
Prerequisites: Grade of C or higher in PHYS 117, MATH 153 or concurrent enrollment, or equivalent preparation approved by instructor, ENGL 098 with grade of C or higher or placement in ENGL 101. Corequisites: PHYS 131 or instructor’s permission.

PHYS 122
Engineering Physics II 4
(NS-L) Continuation of PHYS 121. Mechanics and thermodynamics.
Prerequisites: PHYS 121, MATH 154 or concurrent enrollment. Corequisites: PHYS 132 or instructor’s permission.

PHYS 123
Engineering Physics III 4
(NS-L) Continuation of PHYS 122. Electromagnetism.
Prerequisites: PHYS 122 and MATH 252 or concurrent enrollment. Corequisites: PHYS 133 or instructor’s permission.

PHYS 131
Engineering Physics I Laboratory 1.5
(NS-L) Offered concurrently with PHYS 121. Three hours weekly.
Corequisites: PHYS 121 or instructor’s permission.

PHYS 132
Engineering Physics II Laboratory 1.5
(NS-L) Offered concurrently with PHYS 122. Corequisites: PHYS 122 or instructor’s permission.

PHYS 133
Engineering Physics III Laboratory 1.5
(NS-L) Offered concurrently with PHYS 123. Corequisites: PHYS 123 or instructor’s permission.

POLITICAL SCIENCE
Political science involves the critical study of governing institutions, interest groups, mass media, law, and public policy options with special emphasis on the importance of democratic citizen participation in the following courses: American Politics, Introduction to Politics, World Politics, and Politics of Diversity. All political science courses can be counted towards either social science distribution credits or as elective credits. Those who earn a degree in political science can pursue a wide variety of careers both in the public and private sectors.
Faculty Advisors:
S. Horn 425-388-9394 shorn@everettcc.edu
M. Riordan 425-388-9384 mriordan@everettcc.edu

POL S 101
Introduction to Politics 5
(SS) Consideration of fundamental and enduring political questions as addressed by philosophers, novelists, playwrights and essayists, as well as political scientists. What is politics? What difference does it make? How do political systems begin? What is political control? What are the threats to political control? What are the similarities and differences in political systems? How are such systems evaluated? How do they change? Can morality inform politics?

POL S 182
Service Learning 1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.
Prerequisites: Instructor’s permission.

POL S 200
Introduction to Law 5
(SS) Legal institutions and processes, law as a system of social thought and behavior and a framework in which rival claims are resolved; legal reasoning; law as a process of protecting and facilitating voluntary arrangements in a business environment. Required law course for University of Washington business transfer students.
Prerequisites: Sophomore standing recommended.

POL S 201
American Politics 5
(SS) Introductory analysis of the process by which policy is made at the national level in the United States. Constitutional origins and development; ideology; influence through public opinion and media, parties and elections; interest groups and PACs; policy-making by Congress, Presidency and courts; policies, including civil rights and civil liberties.

POL S 202
Comparative Politics 5
(SS) Introductory comparative analysis of national political systems, including those identified as Western Democratic, Authoritarian and Transitional. Levels of development; ideologies; constitutions; forms of participation; structures of government; policies.

POL S 203
World Politics 5
(SS) Introductory analysis of relations between and among nation states and other actors in the global system. Nationalism and its expressions; alternatives to nationalism; formulating and implementing foreign policy; instruments of and restraints on power; major global problems; future scenarios.

POL S 205
State and Local Politics 5
(SS) Introductory analysis of the process by which policy is made at the subnational level in the United States. Theory of federalism; principles and practices of American federalism; varieties of state environments and experience; political cultures and constutions; state governments, local governments and their relationship; problems and policies at state and local levels.

POL S 210D
The Politics of Diversity 5
(SS, D) Introductory analysis of majority/minority relations in the American experience; the political meaning of majority and minority status; strategies employed by majority to maintain status; strategies employed by groups with minority status to enhance their power, including assimilation, accommodation, separation, and radicalism; case studies of groups exemplifying these strategies; future prospects for success of these strategies.
PSYCHOLOGY

The science of psychology looks at the complexities of individual human behavior. It is a broad spectrum of science which looks at the individual determinants of behaviors through examining social influences, physiological mechanisms, and cognitive development. The science of psychology helps us understand the individual differences in human behavior as well as the richness and complexities of the human experience.

K. Hamaoui 425-388-9164  khamaoui@everettcc.edu
D. Smith 425-388-9176  dsmith@everettcc.edu
C. Veldink 425-388-9444  cveldink@everettcc.edu

PSYCH 100
General Psychology  5
(SS) Psychology as a science focusing on five major theoretical perspectives in contemporary psychology: biological, cognitive, humanistic, psychoanalytical and learning. Topics include the nervous system, heredity and maturation, sensory processes, perception and attention, statistical concepts, motivation, emotion, intelligence, learning and remembering, thinking, personality, adjustment, and social and abnormal behavior.
Prerequisites: Completion of ENGL 098 with a grade of C or higher, or eligibility for ENGL 101, or instructor’s permission.

PSYCH 150
Psychology and Sociology in the Cinema  5
(SS) Application of major psychological and sociological theories and concepts to understanding human experience and behavior as it is dramatized in selected feature films. Course format consisting of film presentations, class discussion and student written work. Credit may not be earned in both PSYCH 150 and SOC 150.
Prerequisites: PSYCH 100 or SOC 110 or equivalent or concurrent enrollment in one of these classes. Completion of ENGL 098 with a grade of C or higher, or eligibility for ENGL 101, or instructor’s permission.

PSYCH 182
Service Learning  1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life applications of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.
Prerequisites: Instructor’s permission.

PSYCH 201
Abnormal Psychology  5
(SS) Description, development, and dynamics of behavior disorders and personality as related to contemporary conditions of life. Investigation of techniques used or available to modify behavior.
Prerequisites: PSYCH 100 or instructor’s permission. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101, or instructor’s permission.

PSYCH 203
Developmental Psychology  5
(SS) Study of quantitative and qualitative developmental changes that occur throughout the human lifespan. Emphasis on understanding physical, emotional, social and cognitive development.
Prerequisites: PSYCH 100 or instructor’s permission. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

PSYCH 205
Introduction to Personality  5
(SS) Examination of theoretical approaches to personality, major philosophical positions, experimental methods, and data used in evaluating various personality theories.
Prerequisites: PSYCH 100 or SOC 110 or instructor’s permission. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

PSYCH 209
Research Methods in the Social Sciences  5
(SS) Overview of the scientific method as used in the social sciences. Major topics include the principles of empirical science, hypothesis generation and testing, research design, data analysis and interpretation, the dissemination of scientific knowledge, and ethical issues in research. Credit cannot be earned in both PSYCH 209 and SOC 209.
Prerequisites: Any 100-level Social Sciences course with a grade of C or higher; and ENGL 098 with a grade of C or higher or eligibility for ENGL 101; and MATH 065 or equivalent with a grade of C or higher.

PSYCH 220
Human Cognition, Learning and Motivation  5
(SS) PSYCH 220 aims at establishing enduring links between psychological theory, research, and their classroom applications. The focus of PSYCH 220 is on cognitive, motivational, and affective development in children and adolescents. Specifically, this body of knowledge comprises biological, perceptual, cognitive, social, and moral development. PSYCH 220 includes reviews and examinations of contemporary educational trends and their impact on individual learning, the school system, and the community.
Prerequisites: PSYCH 100 and placement in or completion of ENGL 101.

PSYCH 240
Social Psychology  5
(SS) Social psychology is the scientific study of the way individuals think, feel and behave in social situations. It applies the scientific method of systematic observation, description, and measurement to the study of individuals in various social situations. Theories and research include person perception, attraction, aggression, altruism, attitudes and attribution. Also offered as SOC 240. Credit may not be earned in both PSYCH 240 and SOC 240.
Prerequisites: PSYCH 100 or SOC 110 or instructor’s permission. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

PSYCH 256
Special Topics: Psychology Seminar  3-5
Special topic seminar intended to introduce students to contemporary or classic psychological topics of interest. Quarter topics will be determined by faculty or student interest/demand. This format allows for interdisciplinary approaches that include the concept of learning communities. These seminars are intended to examine in-depth, current or traditional, psychological issues that normally cannot be examined at this level of interaction-participation in large survey courses. May be repeated two times for credit.
Prerequisites: Completion of any Social Science course at or above 100 and ENGL 101 or instructor’s permission.

RADILOGIC TECHNOLOGY

EvCC offers courses that prepare students to apply for admission to the Radiologic Technology degree program at BellinghamTechnical College. Upon completion of prerequisite courses at EvCC, students who live in the Everett vicinity may apply for admission to a 21-month full-time program in RT, including the specific RT classes and clinicals. Successful completion results in an Associate in Applied Science degree awarded by Bellingham Technical College. Program graduates are eligible to take the national certification exam administered by the American Registry of Radiologic Technologists. This program is a partnership among several community colleges in this region.

For more information contact:
Bellingham Technical College, 360-738-3105
EvCC Enrollment Services, 425-388-9206
The College Reading and Study Skills program is an integral part of a college success curriculum for students who need to improve study techniques and learning strategies, academic computer skills, reading speed, reading comprehension, vocabulary, and critical reading, writing and thinking skills. Courses are offered at two levels (pre-college and college) and provide individualized assistance for students who want to succeed in their college and career goals and need to become more academically competitive. Most courses can be applied towards the AAS Degree - Option II as List B Applied Electives.

Faculty Advisor:
C. Wilson 425-388-9004 cwilson@everettcc.edu

RSS 094
Reading for College Success 5
Designed for students who desire improvement and basic skill building for success in college-level reading. Emphasis is on reading comprehension, vocabulary development and improved speed. Lecture format with some individualized programming in the reading lab to meet students' specific needs. May be repeated two times for credit.

RSS 095
Study Skills for College Survival 5
Focus on college success and basic study skills. This course is designed for the student who is returning to school or who is seeking ways to survive in college. Identify learning styles, manage time, utilize student support services, read textbooks, take notes, take tests, and use library and Internet resources. May be repeated one time for credit.

RSS 096
Computer Comfort 5
Designed for students who need basic computer confidence and skill building. Emphasis is on basic computer skills and learning strategies to help students succeed in college-level classes. No prior computer experience is necessary; recommended for students who are new to computers and hesitant about today's technology as used in college classrooms.

RSS 099
Bridge Learning Modules 1-2
The Bridge Learning Modules will offer 1-2 credit modules in pre-college level reading, learning strategies, study skills support, and basic computer technology for academic success in college classes. It is designed for all students needing or desiring extra learning strategies, reading skills, and study skills support in their college courses.

RSS 100
Sharpening Your Study Skills 2
Focuses on skill sets that concentrate on textbook reading, memory techniques, test taking, note taking, and more effective study strategies for rigorous academic courses of study. Emphasizes practical methods to work successfully through difficult material in lectures and textbooks. May be repeated one time for credit.

RSS 103
Reading, Speed, Vocabulary Program 1-2
Diagnostic, computer-based reading class program designed to improve students' comprehension, vocabulary development and reading speed. May be repeated two times for credit.

RSS 104
Powerful College Reading 5
Recommended for capable readers who want to advance their comprehension, vocabulary skills, and speed as well as develop critical thinking skills and enhance their confidence in college reading assignments. Lecture format with some individualized programming in the reading lab to meet students' specific needs. May be repeated two times for credit.

RSS 105
Study Skills for College Success 5
Focus on study skills required to excel in college courses and four-year university classes. This course emphasizes strategies to comprehend college textbooks, materials, and lectures. Students identify study strategies and techniques, manage time effectively, improve memory, reduce test anxiety and prepare for tests, improve note-taking, and use library and Internet resources. College-level reading score or completion of RSS 104 with a grade of C or higher is strongly recommended. May be repeated one time for credit.

RSS 144
Reading Fitness 4
Designed for college-level readers who want to challenge and enhance their reading comprehension skills, verbal and written vocabularies and communication skills, and critical thinking skills. A variety of textual material is presented for the widest possible transfer of skills to other college courses, the workplace, and in lifelong learning. This interactive course may include walking discussion groups outside the classroom. May be repeated one time for credit.

RSS 182
Service Learning 1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.

SCIENCE PROGRAMS

The Science Division offers a variety of courses and programs designed to meet a wide range of student needs in the subject areas of physical and life science, including anatomy, astronomy, atmospheric science, biology, botany, chemistry, engineering, environmental sciences, geoscience, mathematics, microbiology, nutrition, oceanography, physics, physiology and zoology. These courses and others contribute to the scientific background of students majoring in agriculture, architecture, astronomy, atmospheric science, botany, chiropractic, chemistry, dentistry, engineering, environmental science, fisheries, medicine, medical technology, mortuary science, nursing, occupational therapy, oceanography, optometry, pharmacy, physical therapy, physics, veterinary medicine, wildlife management and zoology. Such programs lead to the degrees of Associate in Arts and Sciences and Associate of Science. Survey courses in the biological and physical sciences provide overviews of large areas of science. Courses to fit the personal needs of part-time students are available in both the day and evening programs. The entire range of high school mathematics and special courses in the sciences is available for those who need to review and complete high school requirements.

SOCIOLOGY

Sociologists explore how social forces shape our everyday lives. Sociology courses provide the skills and knowledge necessary to better understand both local and global social issues. Sociological knowledge is useful for all citizens, and will be especially valuable for students who are planning careers in fields such as human services, medicine, education, law, and business.

C. Veldink  425-388-9444  cveldink@everettcc.edu

SOC 110
Survey of Sociology  5
(SS) Study of society. General survey of cultural and social systems and their relationship to the lives of individuals.
Prerequisites: Completion of ENGL 098 with a grade of C or higher, or eligibility for ENGL 101 or instructor’s permission.

SOC 150
Psychology and Sociology in the Cinema  5
(SS) Application of major psychological and sociological theories and concepts to understanding human experience and behavior as it is dramatized in selected feature films. Course format consists of film presentations, class discussion and student written work. Credit may not be earned in both SOC 150 and PSYCH 150.
Prerequisites: SOC 110 or PSYCH 100 or equivalent or concurrent enrollment in one of these courses. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 160
Gender and Society  5
(SS) Exploration of the impact of gender roles on people’s lives. Historical and cultural differences in gender roles. Changes in family and work roles, and movements for equality.
Prerequisites: SOC 110 strongly recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 182
Service Learning  1-2
Service Learning combines the opportunity of volunteerism with academic applications of social, economic and political issues important to the local community. Provides for real-life application of skills and knowledge that extends learning beyond the classroom and into the community. A maximum of six credits may be earned.
Prerequisites: Instructor’s permission.

SOC 209
Research Methods in the Social Sciences  5
(SS) Overview of the scientific method as used in the social sciences. Major topics include the principles of empirical science, hypothesis generation and testing, research design, data analysis and interpretation, the dissemination of scientific knowledge, and ethical issues in research. Credit cannot be earned in both PSYCH 209 and SOC 209.
Prerequisites: Any 100-level Social Sciences course with a grade of C or higher; and ENGL 098 with a grade of C or higher or eligibility for ENGL 101; and MATH 065 or equivalent with grade of C or higher.

SOC 210
Social Problems  5
(SS) Analysis of structural factors contributing to various social problems. Study of theoretical, historical and practical models to resolve these problems.

Prerequisites: SOC 110 strongly recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 220D
The Family  5
(SS, D) Analysis of the family as a social institution utilizing cross-cultural, historical, and contemporary perspectives. Examination of the changing conceptions of family, emergent norms, family crises, and the effects of public policy.
Prerequisites: SOC 110 strongly recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 230
Human Ecology  5
(SS) Examination of world environmental crises from a sociological perspective; exploration of shifting cultural paradigms concerning humans’ relation to nature; study of population, technology, consumption of resources, and possibilities for reducing our impact on the planet.
Prerequisites: Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 233
Sociology of Nonviolence  5
(SS) Explores the social and political foundations of nonviolence in a variety of social institutions and settings: interpersonal, community, national and international. Discussion of secular and religious approaches to nonviolence for both individual and society; exploration of the relationship of social ideals like peace to other social goals such as justice, security, and freedom; and research into various social and political movements based in theories of nonviolence.
Prerequisites: SOC 110 recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 240
Social Psychology  5
(SS) Social psychology is the scientific study of the way individuals think, feel and behave in social situations. It applies the scientific method of systematic observation, description, and measurement to the study of individuals in various social situations. Theories and research include person perception, attraction, aggression, altruism, attitudes and attribution. Also offered as PSYCH 240. Credit may not be earned in both SOC 240 and PSYCH 240.
Prerequisites: SOC 110 or PSYCH 100. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

SOC 248
Women, Religion and Society  5
(SS) Survey of the roles, beliefs, attitudes and practices related to women’s spiritual lives in the major world religions and several of the indigenous traditions.
Prerequisites: SOC 110, ANTHR 202D or HUMN 247D strongly recommended.

SOC 255D
Cross-Cultural Medicine  5
(SS, D) Cross-cultural analysis of the environmental, historical, biological and cultural contributions to illness and health. Also offered as ANTHR 255D. Credit may not be earned in both SOC 255D and ANTHR 255D.
Prerequisites: SOC 110 or ANTHR 102D or ANTHR 202D recommended. Completion of ENGL 101 with a grade of C or higher or instructor’s permission.

SOC 257
Sociology of Religion  5
(SS) Explores the social foundation of religious experience and institutions. Discussion of the various approaches to the sociological study of religion for both the individual and society; the role of religion in social conflict, social control and social change; and the social construction of religious beliefs and institutions. A variety of religious perspectives will be explored, including the world religions, the shamanic traditions and new religious movements.
Prerequisites: SOC 110 recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.
**SOC 271**
Criminology  
(5)
(5) Explores the nature and extent of crime and delinquency, examines criminological theories of causes and solutions, analyzes law and the criminal justice system.  
Prerequisites: SOC 110 recommended. Completion of ENGL 098 with a grade of C or higher or eligibility for ENGL 101 or instructor’s permission.

L. Wisdom-Whitley 425-388-9379 lwisdom@everettcc.edu

**SPCH 100**
Interpersonal Communication  
(5)  
(H) Theory and skills relating to social, family and work situations. Language usage, nonverbal communication, dealing with conflict, perception, and self-concept.  
Prerequisites: Completion of ENGL 098 or placement in ENGL 101 recommended.

**SPCH 101**
Beginning Public Speaking  
(5)  
(C, H) Methods of speech organization and composition; speaking skills in varied settings; audience analysis and speech criticism.  
Prerequisites: Completion of ENGL 101 or placement in ENGL 101.

**SPCH 102**
Oral Interpretation of Literature  
(5)  
(H) Study of literature through performance and theory. Literary understanding and appreciation are emphasized through the examination of prose, poetry, and drama. Performance skills are developed by learning to communicate literature through voice and body.  
Prerequisites: ENGL 098.

**SPCH 103**
Public Speaking for Educators  
(5)  
(C, H) Speech 101 option for education majors. Methods of speech organization and composition for education students; speaking skills in educational settings; situational analysis and instructional communication assessment.  
Prerequisites: Completion of ENGL 098 or placement in ENGL 101, and completion of EDUC 101.

**SPCH 182**
Service Learning  
(1-2)  
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of communication skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits.  
Prerequisites: Instructor’s permission.

**SPCH 204D**
Intercultural Communication  
(5)  
(H, D) Introduction to communication between people from different cultures. Focuses on application of research and theory in intercultural communication. Explains the roles of verbal and nonverbal codes in the development of intercultural interpersonal relationships. Describes obstacles to intercultural communication and develops skills to overcome them. Fulfills degree diversity requirement.  
Prerequisites: Completion of ANTHR 100, ANTHR 202D, SOC 110 or SPCH 100 strongly recommended.

**SPCH 207**
Group Discussion  
(5)  
(H) Principles and methods of interaction in small decision-making, learning, and problem solving discussion groups. Techniques of relating individual to group thinking through practice in discussion and role-playing.

**THEATRE**
The Theatre Program consists of course work that applies toward an Associate in Arts and Sciences - Option II degree, transferable to four-year colleges and universities. In addition to acting, students can develop special projects in directing, play writing, and technical theatre to complete their degree program. Internships are also available for work performed in a professional environment. Theatre courses also may be used by any student as a humanities requirement toward an Associate in Arts and Sciences degree. Non-theatre majors are always encouraged to enroll in any theatre course of interest.

Faculty Advisor:  
B. Peterson 425-388-9525 bpeter@everettcc.edu

**THEAT 100**
Rehearsal, Production, and Performance  
(2-5)  
(HP) Active participation in a theatrical production. Course registration follows the audition, interview and selection process. Students earn 2-5 credits depending upon the performance role commitment or technical crew responsibilities. May be repeated two times for credit.  
Prerequisites: Instructor’s permission following audition and casting.

**THEAT 101**
Beginning Acting  
(5)  
(HP) Techniques and terminology of various approaches to acting including the Stanislavski method. Includes introduction to definitive theatre exercises, improvisation, character development, scene analysis, and culminates in rehearsed and performed scene work. May be repeated one time for credit.

**THEAT 104**
Introduction to the Theatre  
(5)  
(H) Introduction to significant forms and styles of theatre; nature of dramatic event, theatre as artistic expression; basic trends and movements in theatre; origins, organizations and nature of theatre productions; and functions of playwright, producer, director, actor, critic, audience, designer, and technicians of the art form.

**THEAT 107D**
Understanding Diversity through Drama  
(5)  
(H, D) Exploration of culture and diversity through contemporary dramatic works. Emphasis on the values and customs of differing groups by examining and discussing representative plays. Students also will examine the representation of their own culture through theatre and film.

**THEAT 121**
Acting Styles  
(5)  
(HP) Emphasizes the specific skills needed to perform works representative of a variety of periods ranging from classical Greek theatre to Shakespeare to contemporary texts. Coursework includes class discussion, exercises and scene work, culminating in an acting showcase. Introduces stage combat and swordplay techniques. May be repeated one time for credit.  
Prerequisites: THEAT 101 or instructor’s permission.
THEAT 250
Theatre Internship 5
Supervised work experience as an intern. May be with a qualified employer or in a project with a private or public agency. Students must have completed most of the required coursework and must obtain a recommendation for internship from their instructor. It is the student’s responsibility to obtain the internship. Performance will be evaluated by the college instructor and the internship supervisor. Internship can apply once to AFA degree electives. May be repeated two times for credit.
Prerequisites: Instructor’s permission.

WELDING

The Welding Program is designed to meet the expanding needs of the many occupations that utilize welding and fabrication. The welding department provides a balanced course of study including both hands-on learning experiences, technical information and general education courses. Students have the option to choose a course of study that best fits their needs: (1) preparation for a career in welding with welding certification through the Washington Associate of Building Officials and a certificate from Everett Community College; (2) an Associate in Technical Arts degree for those who want to achieve additional welding related goals; (3) welding related skills and information for advancement in their current occupation. Each student will need to purchase about $200 worth of equipment during the training period.

Faculty Advisors:
R. Brydges 425-388-9453 rbrydges@everettcc.edu
D. Minzel 425-388-9447 dminzel@everettcc.edu

WELD 075
Welding Pre-Employment Skills 5 to 12
Fundamentals and techniques used in basic MIG and TIG welding in both steel and aluminum materials for students with limited English proficiency. Course is designed to meet the welding competency requirements of participating employees and to develop communication skills that are closely related to job performance.

WELD 111
Basic Layout 2
Baseline radial cylindrical and triangulation layout techniques used to develop flat pattern, pipe intersections, and conical shapes. Flat pattern layout and basic lofting techniques covering use of base line, radial, cylindrical, and triangulation layout development for small units. May be repeated one time for credit.

WELD 150
Blueprint Reading for Industry 5
Overview of engineering drawing symbols used on blueprints and techniques used in their interpretation. Course is heavily inclined toward machine and fabrication trades rather than construction. May be repeated one time for credit.
Prerequisites: Basic arithmetic skills or concurrent enrollment in MATH 030.

WELD 151
Carbon Steel Metallurgy for the Trades 3
Metallurgical terms as applied to carbon steels, properties of metals, melting and solidification of metals including phase changes, weld bead metallurgy and heat-affected zones. Alloying elements and their effects on weld material. Distortion of materials and its control. May be repeated one time for credit.

WELD 152
Welding Base Materials: Processes and Procedures 3
Base material classification systems, welding processes and procedures. May be repeated one time for credit.

WELD 153
Non-Ferrous Metallurgy for the Trades 3
Basic metallurgy of stainless steel, cast iron, and aluminum. Heat treatment of non-ferrous materials, non-ferrous material designation systems, filler material designation systems, and welding procedures for aluminum and stainless steel. May be repeated one time for credit.

WELD 190
Oxyacetylene 5
Principles and techniques of oxyacetylene welding, brazing, and flame cutting to develop entry-level skills required by industry. May be repeated two times for credit.
Prerequisites: Good eyesight and good hand/eye coordination with both hands.
Corequisites: Concurrent enrollment in WELD 150 and WELD 151 recommended.

WELD 191
Basic Arc 5
Principles and techniques of basic manual shielded metal arc welding as required to demonstrate skills necessary to make fillet welds acceptable to industry standards in all positions. May be repeated two times for credit.
Prerequisites: Good eyesight and hand/eye coordination. WELD 150, WELD 151, WELD 152, WELD 153 or concurrent enrollment recommended.

WELD 192
Advanced Arc 5
Continuation of WELD 191. Development of welding skills to level required for code standards and certification. May be repeated two times for credit.
Prerequisites: WELD 191 with grade of C or higher, or S grade.

WELD 193
Basic Pipe 5
Principles and techniques of pipe welding using manual metal arc process, materials, joint preparation, filler metal selection, and acceptable shop practices. May be repeated two times for credit.
Prerequisites: Certification or instructor’s permission.

WELD 194
Gas Tungsten Arc Welding 5
Fundamentals and techniques used in gas tungsten arc welding process needed to weld steel, stainless steel, and aluminum materials in all positions. May be repeated two times for credit.
Prerequisites: WELD 190 or instructor’s permission.

WELD 195
Gas Metal Arc/Flux Core Arc Welding 5
Principles and techniques of gas metal arc and flux core arc welding processes on mild steel, stainless steel and aluminum. May be repeated one time for credit.

WELD 210
Heavy Plate Fabrication 5
Introduces the development of complex structures, fitting processes and procedures of heavy plate fabrication. Uses standard layout techniques and set-up and operation of press brake. May be repeated one time for credit.

WELD 211
Sheet Metal Fabrication 5
Procedures and methods of basic sheet metal fabrication. Students plan and produce projects utilizing blueprint reading, flat pattern layout, use of hand tools and forming machinery. May be repeated one time for credit.

WELD 212
Pipefitting and Pipe Systems Fabrication 5
Presents basic pipefitting. Students will fabricate various pipe systems and manifolds working from blueprints. May be repeated one time for credit.
WELD 213  
Practical Fabrication and Advanced Welding Techniques  5  
Sequences and methods of structural steel fabrication and assembly. Students plan, fabricate and join various structural shapes and formed parts into a completed project. Students apply the techniques of out-of-position welding where vision and accessibility are limited and work safely in a confined space. May be repeated one time for credit.  
Prerequisites: WELD 191 or SMAW experience.

WELD 225  
Welding Skills Building  2  
Designed for the student who is seeking practice time prior to taking a state welding certification test or for the student seeking to improve current welding skills through additional lab time. May be repeated two times for credit.  
Prerequisites: Instructor’s permission.

WELD 285  
Computer Numeric Controlled (CNC) Plasma Cutting  5  
Programming and use of computerized cutting system using AutoCAD. May be repeated one time for credit.

WELD 295  
Work Experience Internship  2-5  
Provides students with a safe, supervised work environment to apply their welding and fabrication skills, fostering professional growth and self-confidence in the welding industry. May be repeated one time for credit.  
Prerequisites: Instructor’s permission.

WORLD LANGUAGES

As the world becomes increasingly interdependent politically, socially and economically, the ability to communicate effectively in other languages provides an employment edge in many challenging careers. Learning another language also helps develop sensitivity to, and appreciation of different intellectual and cultural values.  
The College currently offers transferable courses in the eight different languages listed below. Study abroad opportunities are offered to several countries as well. For further information, contact the appropriate language advisor.

Placement Tests: Students with previous knowledge of French, German or Spanish should take a placement test offered through the Testing Center on campus. For the other languages offered, contact the instructor listed in the course schedule for appropriate placement.

American Sign Language

American Sign Language (ASL 101, 102, 103; 201, 202, 203) may be used to fulfill a foreign language requirement at some colleges and universities. Please note that these courses do not prepare a person to function in the role of an interpreter.

Contact: Communication and Social Sciences Division office  
C. Wamsley  425-388-9387 cwamsley@everettcc.edu  
ASL 101, 102, 103  
Elementary American Sign Language I, II, III  5 each  
(H) Beginning sequence of three courses in American Sign Language (ASL), a visual and gestural language used by Deaf people. These courses are intended to introduce students to the grammar and vocabulary of ASL while focusing on beginning conversational skills. Introduction to the history and culture of those who identify themselves as Deaf. The focus of each of these courses is ASL, its constructions, use and value to the Deaf community. These courses will encourage small and large group activities with exposure to the deaf community.  
Prerequisites: WELD 191 or SMAW experience.

ASL 151, 152  
Beginning and Intermediate  
Conversational American Sign Language  3 each  
Informal courses in beginning and intermediate conversational ASL to introduce students to the language and culture of the deaf. Emphasis on conversational skills useful in practical everyday situations of social interaction, developing cultural awareness, and developing expressive and receptive language skills with ASL by using everyday vocabulary, idioms and grammar. Not intended for, nor are they adequate for, developing interpreting skills.  
Prerequisites: None for ASL 151; ASL 151 or instructor’s permission for ASL 152.

ASL 153, 154  
Advanced Conversational American Sign Language  3 each  
Continuation of ASL 151 and 152. Informal courses in advanced conversational ASL (the language) and culture of the deaf. Emphasis on conversational skills useful in practical everyday situations of social interaction, developing cultural awareness, and developing expressive and receptive language skills with ASL by using everyday vocabulary, idioms and grammar. Not intended for, nor are they adequate for, developing interpreting skills.  
Prerequisites: ASL 152 for ASL 153; ASL 153 for ASL 154.

ASL 201, 202, 203  
Intermediate American Sign Language I, II, III  5 each  
(H) Continuation of ASL 101, 102, 103. Sequence of three courses at the intermediate level focusing on developing ASL fluency. Focus on the ability to narrate events that occurred in the past, make suggestions and requests, talk about life events, describe weekend activities, ask about nationality and family names and narrate family immigration history.  
Prerequisites: ASL 103 or equivalent for ASL 201; ASL 201 or equivalent for ASL 202; ASL 202 or equivalent for ASL 203.

Chinese

Contact: Communication and Social Sciences Division office  
C. Wamsley  425-388-9387 cwamsley@everettcc.edu  
CHIN 101, 102, 103  
Elementary Chinese I, II, III  5 each  
(H) Beginning sequence of courses to practice functional elements of Mandarin Chinese pronunciation, grammar, vocabulary, and sentence patterns in the context of practical conversational Chinese with correct understanding of cultural and social background. The Chinese writing system is taught from early stage to provide total experience of the language.  
Prerequisites: None for CHIN 101; CHIN 101 or instructor’s permission for CHIN 102; CHIN 102 or instructor’s permission for CHIN 103.

French

Faculty Advisors:  
V. Martin  425-388-9375 vmartin@everettcc.edu  
D. Stewart  425-388-9401 dstewart@everettcc.edu  
FRNCH 101, 102, 103  
Elementary French I, II, III  5 each  
(H) Beginning sequence of courses to practice functional elements of French pronunciation and grammar in the context of practical conversational French. Listening, reading and writing to communicate in a logical, natural, and personalized way.  
Prerequisites: None for FRNCH 101; FRNCH 101 or placement test for FRNCH 102; FRNCH 102 or placement test for FRNCH 103.

| GERM 190   | Student Exchange to Germany  
(TE) This cultural exchange program to Germany offers students an opportunity for a three-week home-stay with a German family. Course activities will include visits to a German school, tours of cultural and historical sites, a close-up look at aspects of the German economy, media, and popular culture, as well as geography and politics. | 5       |                         |                          |
| GERM 201, 202, 203 | Intermediate German I, II, III  
(H) Continuation of GERM 101-102-103. Active and systematic review of grammar, building of vocabulary, greater emphasis on oral comprehension, compositions, readings and discussions. | 5 each  | C. Wamsley 425-388-9387 | cwamsley@everettcc.edu   |
| **Italian** |                                                                                                                                                                                                             |         |                          |                          |
| ITALN 101, 102, 103 | Elementary Italian I  
(H) Beginning sequence of courses to practice functional elements of Italian pronunciation and grammar in the context of practical conversational Italian. Listening, speaking, reading and writing to communicate in a logical, natural and personalized way. | 5       | D. Stewart 425-388-9401  | dstewart@everettcc.edu   |
| **Japanese** |                                                                                                                                                                                                             |         |                          |                          |
| JAPAN 101, 102, 103 | Elementary Japanese I, II, III  
(H) Beginning sequence of courses to practice functional elements of Japanese pronunciation, grammar, vocabulary, and sentence patterns in the context of practical conversational Japanese with correct understanding of cultural and social background. The Japanese writing system is taught from early stage to provide total experience of the language. | 5 each  | M. Smith 425-388-9380    | msmith@everettcc.edu     |
| **Russian** |                                                                                                                                                                                                             |         |                          |                          |
| RUSS 101, 102, 103 | Elementary Russian I, II, III  
(H) Beginning sequence of courses to practice functional elements of Russian pronunciation and grammar in the context of practical conversational Russian. Listening, speaking, reading, and writing to communicate in Russian in a logical, natural, and personalized way. | 5 each  | C. Wamsley 425-388-9387  | cwamsley@everettcc.edu   |
| **Spanish** |                                                                                                                                                                                                             |         |                          |                          |
| SPAN 101, 102, 103 | Elementary Spanish I, II, III  
(H) Beginning sequence of courses to practice functional elements of Spanish pronunciation and grammar in the context of practical conversational Spanish. Listening, speaking, reading and writing to communicate in a logical, natural and personalized way. | 5 each  | V. Martin 425-388-9375    | vmartin@everettcc.edu    |
| SPAN 152   | Elementary Spanish II  
(H) Continuation of SPAN 101-151. Acquisition of listening, speaking, reading and writing skills through a variety of activities to handle common situations. Reading and writing of essays, diaries, and stories. | 3       | D. Stewart 425-388-9401  | dstewart@everettcc.edu   |
| SPAN 182   | Service Learning  
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of language skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits. | 1-2     |                          |                          |
| SPAN 184   | Service Learning  
Service Learning combines the opportunity of volunteerism with academic applications of social, economic, and political issues important to the local community. Provides for real-life application of language skills and knowledge that extends learning beyond the classroom and into the community. May be repeated up to six credits. | 1-2     |                          |                          |

Abrahamson, Marilyn (1996)  
WorkFirst Customized Training Coordinator  
B.A., State University of New York  
M.Ed., Seattle University

Adolphsen, Elizabeth L. (1999)  
Medical Assisting  
A.T.A., Everett Community College  
B.A., California State University, Chico

Allen, Homer (1983)  
Computer Information Systems  
B.S., Western Michigan University  
Special training institutes:  
Chrysler Motors, General Motors, Ford Motor Company

Ashlock, Joann (1983)  
Director of Student Activities and Programs  
A.A., Glendale Community College  
B.A., Washington State University  
M.A., University of Miami  
M.A., Gonzaga University

Bertoldi, Robert X. (2000)  
Public Services Librarian  
B.A., Western Washington University  
M.A., University of Washington  
M.S., Florida State University

President  
B.A., M.A., University of Northern Iowa  
Ph.D., Colorado State University, Fort Collins

Black, Patricia A. (1978)  
Nursing  
B.S.N., M.N., University of Washington  
Ed.D., Seattle University

Bolan, Kevin M. (2002)  
Mathematics  
B.S., United States Military Academy at West Point  
M.S., University of Washington

Chemistry  
B.A., Scripps College  
M.S., University of Washington

Nursing  
B.S.N., University of Oklahoma  
M.S.N., University of San Diego

Welding  
Certified Welder

Castorena, Christina (1998)  
Associate Dean for Diversity  
B.A., Colorado State University  
M.A., Western Washington University

Clark, Cynthia (2000)  
Anthropology  
A.A., Southwestern Oregon Community College  
B.A., Oregon State University  
M.S., University of Oregon

Cook, Kathy (2001)  
Director, Center for Disability Services  
A.A., Shawnee Community College  
B.A., Western Washington University

Corbin, Judy (1978)  
Nursing  
B.S.N., M.N., University of Washington  
A.R.N.P., University of Washington

Coughlin, Pat (2004)  
Accounting  
B.B.A., University of Portland  
M.S., Colorado State University  
C.P.A.

Cox, Frank (1988)  
Dean of Continuing Education and Workforce Development  
B.A., Carnegie-Mellon University  
M.Ed., University of Washington

Craft, Kevin (1996)  
English  
B.A., University of Maryland  
M.F.A., University of Washington  
Language Proficiency Certificate, Université de Perpignan

Cross, Susan G. (1989)  
Mathematics  
B.S., Louisiana State University  
Ed.S., Appalachian State University  
M.S., East Texas State University  
M.S., Western Washington University

Dahl, C. Shawn (2001)  
Basic Skills  
B.A., Western Washington University  
M.Ed., Western Washington University

Davidson, Kelly M. (2002)  
Director, Early Learning Center  
A.A., Everett Community College  
B.A., Western Washington University

Dieter, Darryl B. (1998)  
Director of Institutional Research  
B.A., Clarion University  
M.A., University of Houston  
Ph.D., University of New Mexico

Nursing  
L.P.N., A.D.N., Seattle Central Community College  
B.S.N., M.N., University of Washington

Dunn, Sheila (2000)  
Director, East County Tech Prep  
B.A., Ohio Wesleyan University

Evans, Tina (2000)  
Cosmetology  
A.A.A.S., Walla Walla Community College  
Instructor License, Walla Walla Community College
Aviation Maintenance Technology
A.T.A., Everett Community College
B.A., Valparaiso University

Hedgpath, Jacalyn (1995)
B.S., M.S., University of Oregon

Herrmann, Eric J. (1978)
Mathematics
A.A.S., Everett Community College
B.S., M.Ed., Western Washington University

Horn, Steven (2004)
Political Science
B.A., California State University, Sacramento
M.A., San Diego State University
M.A., University of Southern California

Houston, Wendy R. (1999)
Mathematics
B.A., Bowdoin College
M.A., University of Montana

Hu, Dongwa (2000)
Economics
B.A., College of Economics and Management, Beijing, China
M.A., Western Michigan University

Huntington, Marcia J. (1983)
English
B.A., M.A.T., University of Iowa

Ives, Rich (1985)
English
B.A., Eastern Washington University
M.A., University of Montana

Jiang, Jean (1993)
Mathematics
B.S., Shanghai Institute of Education
M.A., University of Hawaii

Kammer, Greg (1988)
Graphic Arts and Web Design
B.A., M.F.A., University of Washington
M.A., University of New Mexico

Kerlin, Christine (1996)
Vice President of Enrollment Management and Executive Director of the University Center of North Puget Sound
B.A., Western Washington State College
M.Ed., Western Washington University
Ed.D., Oregon State University

Executive Vice President/Chief Operating Officer
B.S., University of Maine
M.P.A., University of Massachusetts

Killingstad, Robert (1970)
Mathematics
B.A., M.A., Washington State University

Kneiël, Kathy (1988)
Business Technology
B.A., Central Washington University

Kontulis, Mark (1999)
Chemistry
B.A., Bowdoin College
M.S., University of Washington

Kraske, Jeannie (1980)
Director, Emergency Services Programs
A.A., Casper College
B.A., Utah State University

Kratz, Rene F. (1999)
Biology
B.A., Boston University
M.S., Ph.D., University of Washington

Vice President of College Advancement and Executive Director of the EvCC Foundation
B.S., M.S., Western Illinois University
Ed.D., Brigham Young University

Kveven, Ardis (2003)
Executive Director, Ocean Research College Academy (ORCA)
B.A., University of Washington
M.S.Ed., Western Washington University

Leader, Jeannie (1996)
Dean of Library, Media, Arts, and Distance Learning
B.A., Adams State College
M.A., Texas Christian University
M.L.S., Texas Woman’s University

Le, Marianne D. (1999)
Public Services Librarian
B.S., University of Washington
M.S.I., University of Michigan

Art
B.A., State University of New York
M.F.A., The Ohio State University

Lepper, Sandra M. (1998)
Art
B.A., University of California, Santa Barbara
M.Ed., Western Washington University

Lewis, Chad T. (1979)
General Business
A.A.S., Edmonds Community College
B.A., The Evergreen State College
M.Ed., Western Washington University
M.B.A., University of Puget Sound

Dean of Communication and Social Sciences
B.S., M.A., Ed.D., University of New Mexico
Engineering
B.S., M.E., University of Washington
M.B.A., Western Washington University

Lien, Louise (1999)
Computer Information Systems
B.A., Antioch University
M.Ed., Western Washington University

Loomis, William (2000)
Aviation Maintenance Technology
A.A., A.A.S., Everett Community College
Licensed Airframe and Powerplant Mechanic
F.A.A. Authorized Inspector
F.A.A. Authorized Examiner
F.A.A. Airframe & Powerplant License

Lotzkar, Michelle (1997)
Nursing
R.N. Diploma, Langara College
B.S.N., M.S.N., University of British Columbia

Lovelace, Janice C. (2006)
Counselor, Diversity and Equity Center
B.A., Mills College
M.A., Ph.D., California School of Professional Psychology

Lyste, Kerry (2002)
Geography
A.A., Shoreline Community College
B.A., University of Washington
M.S., Western Washington University

Markovich, Theresa (1988)
Business Technology
B.S., Montana State University
M.Ed., University of Washington

Teaching and Learning Cooperative
B.A., The Evergreen State College
M.S., University of Oregon

Martin, Earl E. (1990)
Counselor/Human Development; Director, Counseling, Advising and Career Center
A.A., Highline Community College
B.A., B.S., M.S., Central Washington University
Ed.D., University of Washington

Martin, Vidal (1993)
World Languages
B.A., M.A., Université De Nantes

Cosmetology
Washington State Cosmetology Operator’s and Instructor’s Licenses

Miller, Lisa R (2005)
Nursing
B.S.N., Dallas Baptist University
M.N., University of Washington

Welding
Vocational Certification, Welding
Certified Welder

Computer Information Systems
A.A., Everett Community College
B.A., The Evergreen State College

Business Technology
A.A., Shoreline Community College
B.A., M.Ed., Western Washington University

Murphy, Mark (1988)
Speech
A.A., Clark College
B.A., M.A., Western Washington University

Murphy, Pat G. (1984)
Aviation Maintenance Technology
Aviation Maintenance Technology Certificate-Northrop Institute of Technology
B.S., Pacific Union College
M.E., University of Pittsburgh
Licensed Airframe and Powerplant Mechanic
F.A.A. Authorized Inspector
Designated Federal Aviation Mechanics Examiner

Mustafa, Omar (2001)
English as a Second Language
B.A., B.S., M.A.T., Gonzaga University
TESL Certificate, Portland State University

Myers, Gina (1994)
Counselor, Human Development
B.A. (2), Western Washington University
B.A., University of Washington
M.Ed., Seattle University

Nelson, Christie (1987)
Technical Services Librarian
B.A., M.A., Western Washington University
M.L.S., University of Washington

Newlin, Gary (2000)
English
B.A., Seattle Pacific College
M.A., J.D., University of Virginia

Olson, George (1997)
Director, Campus Health, Safety, and Security
A.A., Los Angeles Valley College
B.S., M.H.S., University of Great Falls
Graduate, FBI National Academy
Administrative POST Certificate, State of Montana

Olson, John D. (1990)
Interim Dean, Learning Services
B.A., Gonzaga University
M.A., Washington State University
Ph.D., University of Washington

Olson, Liz (1999)
Vice President of Human Resources and Affirmative Action
B.A., Seattle University

Otanez, Andrea K. (2005)
Journalism
B.A. (2), M.A., University of Utah

Pape-Lindstrom, Pamela (2000)
Biology
B.S., University of Miami
Ph.D., University of South Carolina
Wetland Sciences Certificate, University of Washington

Peterson, Beth (2000)
Theatre
B.S., M.A., Oregon State University
M.F.A., University of Texas

Pouillon, Karla (1994)
Health Professions
A.S.N., University of Maine
B.S., Central Washington University
M.Ed., University of Washington

Powell, Steven M. (2006)
Chemistry
B.S., Kansas State University
M.S., University of Washington

Rash, David W. (1990)
Public Services Librarian
B.A., M.A., M.L.S., University of Washington

Reed, Bill (2002)
Accounting
A.S., Dyersburg State Community College
B.S., Union University
M.B.A., Western Washington University
C.P.A., L.P.A.

Reid, Bethany Ann (1998)
English
B.A., M.F.A., Ph.D., University of Washington

Reiman, Julie A. (2000)
Medical Assisting/Health Professions
Medical Assistant Certificate, Edmonds Community College
C.M.A.

Riordan, Margaret (1994)
Sociology
B.A., Pacific Oaks College
M.A., Antioch University
Ph.D., Syracuse University

Ripper, David (1994)
English
B.A., M.A., Ohio State University

Robinson, Steve (2000)
Criminal Justice
A.A.S., Green River Community College
B.A., Central Washington University

Rochelle, Rory (2001)
Nursing
A.S., Norwich University
B.S., University of Tennessee
M.S.N., Gonzaga University

Associate Dean of Continuing Education
B.S., Ferris State University
M.P.A., The Evergreen State College

Russell, William (1997)
Wildlife Management
B.S., Montana State University
M.B.A., University of Oregon
