**Everett Public Schools Alternative Placement**  
 (for graduates who plan to take mathematics at EvCC within  
 one year of high school graduation or for Running Start students.)

*As of: 11/30/2021*

The goal of Everett Community College is to encourage student success in mathematics. Realistic placement is critical for a student's success. In addition to our ACCUPLACER assessments, students may be placed according to the following chart:

**NOTE: Students who have earned a C or lower in their last math class must be placed by ACCUPLACER or by their previous math class taken.**

<i>If your last math course in high school was ...</i>	<i>and you earned a grade of ...</i>	<i>and completed that course within ____ of today's date</i>	<i>your placement will be ...</i>

	3 or better on AP AB Test or the AB Subscore of AP BC Test		Math& 152

AP Statistics I & II	See Catalog	Follow placement for highest math course taken above.	

NOTE: Students in Principles of Math or Math Proficiency I/II should use ACCUPLACER or highest math class taken prior to that course.

\* Math& 141, 142, 144, 148, and 151 require significant time and effort, often more than the minimum of 10 hours of out of class study time per week. Math& 144 is designed as a review of the topics in Precalculus (Math& 141 and Math& 142).

Placement by this method expires one academic year after the student graduates from high school. The sooner the student takes a math class at EvCC, the better success the student is likely to have -- since math skills tend to be forgotten over time.

**Please communicate to the students, that if, after the quarter starts, they feel they have been placed in a math class that is too advanced, they should talk with their instructor.**
