

# Google Apps - Blackberry Setup

Google has created various applications for the BlackBerry mobile platform.

**For more information please see:** <http://www.google.com/mobile/blackberry/>

In this document are going to explain how to install 2 of them, **Google Sync** and **Gmail**.

## Getting Started

- Open the Blackberry **Web browser**
- Browse to <http://m.google.com>
- Find and click the link for **Google Sync**
- **Accept** the download, and **“Trust the Application”**
- **Move Google sync** out of your Downloads container
- Launch **Google Sync**
- Apon opening Google Sync for the first time it will ask you to enter your credentials.  
**Remember:** Use your **full email address** including Everettcc.edu at the end.
- It will then ask what you would like synced to your Blackberry
  - **Contacts**  
**Warning:** If you choose to sync contacts it will sync all your contacts in Google mail address book that are under **“My Contacts”**. This maybe overwhelming.
  - **Calender**  
This will sync your calender with your native Blackberry calender.
- Open the Blackberry **Web browser again**
- Browser to <http://m.google.com>
- This time **Download Gmail**, just as you did for Google Sync.
- Launch **Gmail**.
- Enter your **full email address** and on campus password.
- You will then be greeted to your inbox.
