

Mission Statement and Goal: Bring sustainability through education and awareness to the campus community.

Targets	Objectives	Strategies/Actions	Benchmarks	Resources
Build sustainability across the EvCC campus community	Survey	Run campus survey and compile results <ul style="list-style-type: none"> Use these results as focal points Use these results as benchmarks in the future 	Conduct a future survey and compared results from the first survey and identify and track progress.	Committee or group to run survey and compile results and report to the campus community and continue from there.
	Form Committee	From the campus community compile a well represented group to begin prioritizing and focusing on sustainability across our campus <ul style="list-style-type: none"> One large committee broken into some smaller sub committees Including faculty, staff, community members and students 	Committee established who can develop goals and objectives for the year and future.	Identify committee members and leaders to start this group.
	Screen Savers	Work with IT to create "Think Green" screen savers to increase awareness in all computer labs.	Having 50% of the computer areas covered with "Think Green" screen savers up.	IT creative and deployment time
	Awareness Posters	12x18 color posters used for awareness and emphasis of "Thinking Green" and how we can be moving towards a more sustainable campus and community.	Posters displayed around campus	Approximately 53 cents per poster
	Policy Review and Recommendations by Committee	Get the policy refined, finalize policy, including Board of Trustees approval.	Policy approved and implemented	Prepare and refine policy as necessary plus staff/committee time
	Sustainability Earth Day Event	Coordinate a sustainability earth day event on campus with students, clubs, activities, and games; awareness focused and invite interested outside partners.	Planning and coordination	Committee to coordinate and organize with others to make this a real group effort.
	Internet Web Page on EvCC Site	Develop an internet site for the campus, students, and community to communicate information regarding sustainability efforts.	Website up on EvCC site	IT and staff time to manage the web page
	Email Updates	Email updates and a quarterly sustainability tidbit or mini newsletter.	2 times per year	Staff time to manage and create newsletter and send out updates.
	More Recycle Bins for a Variety of Recyclables	Place more easily identifiable recycling bins across campus for use for a variety of recyclables.	When every area has a bin available to them within a short distance.	Funding to purchase recycle bins and staffing to empty them.

Mission Statement and Goal: Bring sustainability through education and awareness to the campus community.

Targets	Objectives	Strategies/Actions	Benchmarks	Resources
Build sustainability across the EvCC campus community	Shred Bin	Education and awareness for using recycle and shred bins.	Shred bins readily available	Funding to buy more shred bins, staffing to empty bins, and educate people regarding the shredding process/proceedures.
	Build Partnerships with: <ul style="list-style-type: none"> Community Organizations Campus Community Organizations 	Collaborate with other organizations within and outside of campus to spread awareness about sustainability and how to further our efforts accordingly.	Build partnerships	Partners and involvement from the outside and inside community here.
	Videos	Provide videos through the library that speak about sustainability.	Videos available in the library and a process to include more in the future.	Funding to purchase these videos.
	Lecture Series	Outside guests available to speak about sustainability and how to be green and environmentally friendly.	1 speaker per year	Funding for speakers
	Run Ads in the Clipper	Awareness ads and information about sustainability in the Clipper newspaper.	First ad is out and an ongoing ad/info campaign developed.	Student involvement and the Clipper newspaper.
	Student Presentations	Students prepare and present at tables or venues across campus regarding specific topics of interest, involvement, and sustainability.	Presentations are set up and there is a process students can easily follow to participate.	Students and staff time to set up this process.
	Secure Ongoing Funding Towards Sustainability Projects in the Future	Gain an actual budget for this sustainability committee and help them achieve some of the mentioned objectives in order of priority, while developing new ones for the future.	Actual funding is approved	However much money the committee can get and how they can use this effectively \$1,000 annually (suggested).
