

The EvCC Public Art Program is a rotating exhibit of two and three dimensional works of art on temporary loan to Everett Community College. The work is typically on exhibit for one year, from October through the end of May but specific loan periods may be negotiated. For the 2011-2012 year, EvCC has identified both interior and exterior locations for potential exhibit space.

The EvCC Art Collections Committee chooses the work through a review process and provides a \$500 stipend to each selected artist. Artists are responsible for transport, delivery, installation, and removal of their work. EvCC may provide a base, if needed, for sculptures displayed out of doors.
