

# Radiologic Technology

## Through Bellingham Technical College

In partnership with Everett Community College,  
And Skagit, Edmonds, Whatcom, and Peninsula Community Colleges

This flier provides PRELIMINARY information only. This information may change.  
As more information becomes available, this flier will be revised.

This cooperative program enables students who live in the Everett vicinity to apply for admission to a 21-month full-time program in RT, including the specific RT classes and clinicals. Successful completion results in an Associate in Applied Science awarded by Bellingham Technical College. Program graduates are eligible to take the national certification exam administered by the American Registry of Radiologic Technologists. Successful performance on the exam results in national certification as a Registered Radiologic Technologist.

Students accepted into Bellingham Tech's Radiologic Technology program will receive academic and clinical education through a variety of learning technologies. Coursework will be delivered using the Internet, CD, computer lab activities, video conferencing, radiology lab activities, and the traditional classroom. Clinical education will be provided in a variety of settings and prepare the student for work as an entry-level radiologic technologist.

In general, the classes and clinicals will be scheduled in the Everett and Seattle area, as well as periodically at Bellingham Technical College, at different times during the quarter, and over the Internet.

For program costs please check the Bellingham website. Students may apply for financial aid. Prospective students should be aware that outside employment is discouraged because of academic pressures and the necessity of practical experience during a variety of shifts.

Because some of the instruction is web-based, students will need computer and Internet access, equipment and skills. In particular, we strongly recommend file management skills. The type of operating system, software, connectivity and skills will be described in future publications. Furthermore, prospective students need to consider their physical, visual acuity, and communication abilities. Crouching, grasping, pulling, pushing, lifting, data entry, touch, smell, and reaching are required, as well as the ability to speak clear English and hear sounds in the normal range. Hazardous chemicals and substances may be present in the work environment; admitted students will be required to sign an informed Acknowledgement of Consent to Hazards and Risks form and provide immunization and health status information.

New student enrollment occurs each Fall. Application information is on the reverse side; applications are considered on a first-come, first-served basis. Thirty-two students (including sixteen from the Everett vicinity) will be selected for each Fall Quarter and notified as they are selected. In order to be considered, students must complete the prerequisites listed in this flier and submit a complete application packet to Bellingham Technical College.

An application packet should be obtained from:  
Radiologic Technology Department  
Bellingham Technical College  
3028 Lindbergh Avenue  
Bellingham WA 98225-1599  
360-752-8321

**You can also find application  
material on the Web at:  
<http://radiologic.btc.ctc.edu>**

Follow the instructions in the application packet and submit the following materials:

- ◆ A Bellingham Technical College Application for Admission.
- ◆ Application checklist, contained in the application packet.
- ◆ Application fee, \$45, payable to Bellingham Technical College.
- ◆ Evidence of high school graduation, or GED completion.
- ◆ Official\* college transcript(s) showing completion of all program prerequisites.\* # (See below)
- ◆ Criminal Disclosure form, contained in the application packet.
- ◆ Recommended: health care experience (see BTC/Radiology Admission Information page).

*\*Official transcripts are those issued by the original school in a sealed envelope.*

# PROGRAM PREREQUISITES:

ENGL& 101 (minimum grade 2.0) \*  
CL 101 (minimum grade 2.0)  
MATH 99 <sup>[65]</sup> (minimum grade 2.7) \*  
BIOL& 231 and 232 <sup>[235 & 237]</sup> (minimum grade 2.7) \*  
PSYC& 100 (minimum grade 2.0) \*  
HLTH 100 (minimum grade 2.0)

\* asterisk indicates prerequisites must be met
