

Darrington High School

**Darrington High School  
Alternative Placement**

(for graduates who plan to take mathematics at EvCC within one year of high school graduation or for Running Start students.)

*As of 8/10/2012*

The goal of Everett Community College is to encourage student success in mathematics. Realistic placement is critical for a student's success. In addition to our COMPASS and ASSET assessments, students may be placed according to the following chart:

*NOTE: Students who have earned a C or lower in their last math class must be placed by COMPASS or ASSET.*

<i>If your last math course in high school was ...</i>	<i>and you earned a grade of ...</i>	<i>and completed that course within _____ of today's date</i>	<i>your placement will be ...</i>

Calculus		C or better	One or two years

NOTE: Students who took Applied Math or Personal Finance must use be placed by COMPASS or ASSET or by their highest math course taken prior to that course.

\* Math& 141, 142, 144, 148, and 151 require significant time and effort, often more than the minimum of 10 hours of out of class study time per week. Math & 144 is designed as a condensed review of the topics in Precalculus (Math& 141 and Math& 142).

Placement by this method expires one academic year after the student graduates from high school. The sooner the student takes his or her math class at EvCC, the better success the student is likely to have -- since math skills tend to be forgotten over time.

**Please communicate to the students: After the quarter starts, if they feel they have been placed in a math class that is too advanced, they should talk with their instructor.**
