The goal of Everett Community College is to encourage student success in mathematics. Realistic placement is critical for a student’s success. In addition to our COMPASS and ASSET assessments, students may be placed according to the following chart: (NOTE: Students who cannot be placed in one of the following ways, must be placed via COMPASS or ASSET.)

<i>If your last math course was ...</i>	<i>and you earned a grade of ...</i>	<i>and completed that course within _____</i>	<i>your placement will be ...</i>
Algebra 2 with Trig.	C+ or better	Two years	Math 091
		One year	Math 099 or Math 098

AP Statistics I & II	See Catalog	Follow placement for highest math course taken above.	

* Math& 141, &142, & 151, & 152 and Math 138 require significant time and effort, often more than the minimum of 10 hours of out of class study time per week. Math & 144 is designed as a condensed review of the topics in Precalculus (Math& 141 and Math& 142). The coursework also requires more than the minimum of 10 hours of out of class study time per week.

Placement by this method expires one academic year after the student graduates from high school. The sooner the student takes his or her math class at EvCC, the better success the student is likely to have -- since math skills tend to be forgotten over time.

Please communicate to the students, that if, after the quarter starts, they feel they have been placed in a math class that is too advanced, they should talk with their instructor.

EPS Applications in Mathematical Reasoning	C or better	Will receive college credit for Math 107 by following College in High School protocol. Placement into other EvCC math courses will be from criteria in chart above, COMPASS, or ASSET.
