

Lake Stevens High School Alternative Placement

(for graduates who plan to take mathematics at EvCC within one year of high school graduation

As of: 06/13/2018

The goal of Everett Community College is to encourage student success in mathematics. Realistic placement is critical for a student's success. In addition to our ACCUPLACER assessments, students may be placed according to the following chart:

NOTE: Students who have earned a C or lower in their last math class must be placed by ACCUPLACER or by their

nrevious math class taken

If your last math course in high school was Algebra 1	and you earned a grade of C+ or better	and completed that course within of today's date One or two years	your placement will be Math 076 or Math 079

AP Calculus BC	3 or better on AP BC Test		Math& 163
AP Statistics	See EvCC Catalog Follow placem		ement for highest math course taken above.

NOTE: Students in Personal Finance 1 or 2, Math Construction 1/2, Cognitive Tutor Algebra, or Cognitive Tutor Geometry, Advanced Mathematical Problem Solving should use ACCUPLACER or highest math class taken prior to that course.

Placement by this method expires one academic year after the student graduates from high school. The sooner the student takes his or her math class at EvCC, the better success the student is likely to have -- since math skills tend to be forgotten over time.

Please communicate to the students: After the quarter starts, if they feel they have been placed in a math class that is too advanced, they should talk with their instructor.

^{*} Math& 141, 142, 144, 148, and 151 require significant time and effort, often more than the minimum of 10 hours of out of class study time per week. Math & 144 is designed as a condensed review of the topics in Precalculus (Math& 141 and Math& 142).
