Sultan High School Alternative Placement

 within one year of high school graduation

As of: 8/10/2012

The goal of Everett Community College is to encourage student success in mathematics. Realistic placement is critical for a student's success. In addition to our COMPASS and ASSET assessments, students may be placed according to the following chart:

NOTE: Students who have earned a C or lower in their last math class must be placed by COMPASS or ASSET.

<i>If your last math course was ...</i>	<i>and you earned a grade of ...</i>	<i>and completed that course within _____ of today's date</i>	<i>your placement will be ...</i>

NOTE: Students who take Segmented or Preparatory Math, refer to highest math class taken before that class. Students with "College in the High School" credit will follow regular placement by EvCC catalog.

* Math& 141, 142, 144, 148, and 151 require significant time and effort, often more than the minimum of 10 hours of out of class study time per week. Math& 144 is designed as a condensed review of the topics in Precalculus (Math& 141 and Math& 142).

Placement by this method expires one academic year after the student graduates from high school. The sooner the student takes his or her math class at EvCC, the better success the student is likely to have, since math skills tend to be forgotten over time.

Please communicate to the students, that if, after the quarter starts, they feel they have been placed in a math class that is too advanced, they should talk with their instructor.
