
MAPP Enrollment

Welcome!

You are joining an elite program developed specifically for students in the Aerospace & Advanced Manufacturing Careers (AAMC) program at Everett Community College. We look forward to assisting you in furthering your educational and employment goals and needs.

MAPP stands for Manufacturing Advancement Pathways Project, and has been generously funded by SkillUp Washington, in collaboration with several agency partners who are all here to support you as you navigate your way through your training program, and onto career success.

Throughout your participation in MAPP you will:

- Work closely with your Education & Employment Navigator to develop an effective college and career action plan, using EAGLE: Exploring Attainable Goals for Landing Employment
- Learn how to identify and manage potential personal, educational, and employment barriers
- Develop tools and strategies to identify, practice and promote self-advocacy
- Be able to evaluate and obtain individual short and long term goals and outcomes
- Have a personal resource to connect you to community organizations, people, and opportunities

As a participant of MAPP, we ask that you:

- Have an open mind to learning new strategies and tools to help you succeed
- Keep us updated on your progress through both school completion and gaining employment
- Tell us about any needs you may have so that we can address them immediately
- Let us know when you complete your training program, and if you have chosen to continue
- Keep us updated on all employment information until you are exited from the MAPP program

Education & Employment Navigators will:

- Provide coaching and advising services to help you explore options, obtain goals, and gain overall educational and employment success
- Be accountable for our actions and services we provide you so we can work effectively as a team
- Walk step by step with you throughout your participation in the program
- Support and respect you and the ideas you present as they pertain to the goals we have set for you
- Continuously include student, agency partner, and employer feedback to ensure you are receiving the most current and effective methods for finding success

Good luck and we look forward to working with you!

Lisa K. Miller
