

Medical Coding Program Book List: Summer 18

Students are responsible for the purchase of their text books. It is important to purchase your text books quarterly. If you are not registered for a course, **DO NOT** purchase the texts ahead of time. Please note that depending on how many quarters you take to complete the program and when you begin, you may need to purchase more than one edition of a codebook.

Be sure to plan ahead for your upcoming book needs; **students are expected to have books at the start of the quarter**. Depending on the class, work may be assigned in Week 1 that will require the specified book(s). (This is particularly important in MC 150.) Financial Aid disbursement checks are typically received in the first week of class each quarter. If you are interested in taking out student loans now to cover your book costs for next quarter, please contact MC-MTEfinancialaid@everettcc.edu to see if you are eligible.

If you are taking this ↓	↓ this is the text(s) required for the course:
MC 102	Comprehensive Medical Coding: A Path to Success, 1 st Edition
