The table below will help you to determine where your score falls in relation to the scores of others who took this exam. To figure out your percentile, find your score in the Overall Score (Composite) column and then check the number in the Composite Percentile Rank. For example, if your score is 100, your percentile rank would be 48 for RN Programs and 47 for PN Programs. The Mean Composite for both the RN and PN Programs was 101. The Standard Deviation for RN = 20 and for PN = 25.
